```

The question is - what do you want to do with it?

The old MFJ - Heathkit - Cantenna - all you needed was cooking oil.

If you want to hone an engine block - there is alternate substitutes.

If you did an internet search - you would have found what you were looking for

Amsoil has a lot of variants to their basic supply of oils.

Siemens pays to get rid of hundreds of gallons a month of transformer oil from their old transformers.

I'm sure ABB and Arriva does the same thing with their service crews.

The thing of it is - although the MSDS doesn't say or does say which is bad for you. It does not take into consideration what you plan to use it for.

Just dumping some oil inside of a transformer isn't going to hurt you.

Breathing in the vapors of transformer oil which is being aeroated by a engine hone can hurt you and can make you sick.
Especially if there is PCB's involved.

There's been no PCB's in transformer oil (or anything else
sold...) since 1979. GE is still trying to clean up the Hudson
River.

>http://www.mfjenterprises.com/Product.php?productid=MFJ-21

Thank you. This is the coolant for the motor controller
we built; for an electric Miata we've named QAR. The heat
sinks have copper tubing embedded in them. We need thermal
conductivity and electrical isolation since the heat sinks are
200V apart, and are not referenced to the frame.

We tried mineral oil but the viscosity is way too high.
Fluorinert would be ideal but would likely cost more than all we
have spent to date.  We're looking at DOT5 brake fluid as well.

I'm old enough that products introduced in 1979 still count as "new
stuff."

Another option is to check your local animal-feed store.

Light, food-grade mineral oil is sold as a laxative for horses and
cattle.

One online source I just checked, lists it at $22 for a two-gallon tub.

If you've got a feed store near you, it might be a significantly less

```
expensive source for this sort of oil - cheaper than MFJ per gallon
and you could save the (considerable) shipping cost.

Only some xfmr oil is mineral-based. I'm not sure what kind of
transformer oil MFJ is selling, and have a query in with them.

Maybe I didn't read it correctly - I thought he said he wanted something that was cheap!

Cooking oil - $10.99 a gallon

Some type of industrial oil - Tractor supply? $20.00 a gallon tops!

Your MFJ oil $30.00 a gallon

$30.00 doesn't fit my description of being cheap!

We would first need to know what he wanted to use it for.

Greetings all,
I have a Geo. Stevens model 10 coil winder.I'm trying to find documentation on it.
Stevens mfg. can only tell me that it was made about 1944. They do not have
documents on their own products.Trying to get any info.
Thanks

Summary: Short reminder for unmoderated newsgroups that crossposting is permitted
Keywords: FAQ, ham, amateur, radio, moderated, unmoderated, crossposting,
permitted

Posted-By: auto-faq 3.3.2 beta (PGPMoose V2.0, Perl 5.005)
Archive-name: radio/ham-radio/moderated/crossposting
Revision: 1.2 2011/11/02 04:08:53
Posting-Frequency: posted twice monthly
URL: http://www.panix.com/~rram/usenet/rram/index.html

Changes followed by "|".

After a 30-day public discussion and feedback period to gauge reader
opinions in March of 2009:

http://groups.google.com/group/rec.radio.amateur.moderated/browse_thread/thread/
d7d337db35f23326

the rec.radio.amateur.moderated Moderation Team had decided to consider |
amending its charter, and permit limited simultaneous crossposting to
rec.radio.amateur.moderated and one other unmoderated
amateur-radio-related discussion newsgroup. After a successful trial |
period (90 days, through early July 2009), we decided to adopt this |
change permanently. |

Approved rec.radio.amateur.* newsgroups are those that are currently
listed in the latest version of the "List of Big Eight Newsgroups" which
is crossposted monthly to news.announce.newgroups, news.groups, and
news.lists.misc.

Approved alt.radio.amateur.* and alt.ham-radio.* newsgroups are those
that have been created consistent with the suggestions in "So You Want
to Create an Alt Newsgroup" at:

http://www.faqs.org/faqs/alt-creation-guide/

Approved regional hierarchy newsgroups are those that contain either

"radio.amateur" or "ham-radio" in their names, including
uk.radio.amateur and aus.radio.amateur.misc.

We will make every reasonable effort to keep our list of approved
newsgroups up-to-date. In case we have overlooked any, and a submission
is rejected in error as a result, the rejected submitter can E-mail us
at our administrative contact address (in the signature at the bottom of
this article, and the default Reply-To for the rejection message)
requesting that it be added, and that the article be approved. We may
still choose to reject articles crossposted to any alt.* newsgroup with
an inappropriate name, including obscene language, embedded
name-calling, or encouragement of unlawful conduct.

Please direct any comments, questions, or criticisms to
rec-radio-amateur-moderated-request@panix.com.

I have a Realistic PRO-2003 AM/FM scanning receiver for sale. It is in very good shape and comes with the manual. I'm asking $45 plus postage for it. You may contact me off the newsgroup.

Thanks

```

Dear OMs/XYLs,

I'm looking for the pin out of the mentioned sat tuner
in order to avoid the opening of it.

Web query was not successful so that I'm in the hope that
someone of you is able and kind to provide the information
I'm looking for.

Many thanks in advance

Markus

DearOMs/XYLs,

I forgot to mention that the listed tuner above
was part of the Kathrein analog sat receiver UDF89.

Thanks for any answer concerning my pinout request.

bye

Markus

How about looking in that receiver to check what the traces
run to?

Are there any old tube type CB radios around?

I suppose size might matter, but sometimes old tube type
power transformers can come up with a "close enough"
impedance ratio.

Another old time solution was to find a tube type speaker
output transformer, with the secondary on an outside winding
which could be stripped away, making room to add a new
secondary. (keep a log of turns removed on the old
secondary, so a good estimate of new turns required)
(to get impedances fairly close.. precision not required)

Old Chief Lynn, W7LTQ

tube ones have long disappeared.

Besides, he's not in North America, and CB was mostly a North American thing.

Or find a 400Hz transformer, nobody wanted them so at one time they were not only available but cheap. Various articles said they worked fine, since voice didn't have to go down to 60Hz.

Get a single ended triode type of audio output transformer and drive
it from a hi-fi amp.

Why not build some superhets instead? They work better.

 Regens have crappy audio, making them undesireable for SWLing or
listening to the few hams worth listening to who are on AM...

Because they are simple, and it's good to get something to work early on.

But I certainly had meant to ask why should anyone buy his book.  Charles=
=20
Kitchin over the past 20 years or so has done quite a bit with regen and=20
superregen receivers.  He had long articles on both in Communications=20
Quarterly, looking back to the beginning (when most people have adapted=20
more recent work, so it's like a broken telephone).  By going back to the=
=20
beginning, he was able to introduce some new concepts in superregen, which=
=20
would never come up based on most of the descriptions of the receiver.

Circa 1915, whenever Armstrong cameup with the regen, those things were=20
pretty simple, for the simple reason that tubes were expensive, and bulky.=
=20
In the transistor age, you can buy quite a few transistors for the price=20
of a tube in the old days.  Make the regen solid, like a VFO (which it=20
really is).  Add a buffer ahead of it, so the antenna doesn't affect=20
operation as much.  Use a separate detector, something so lost in it all=20
that we talk about "regenerative detector" but the actual detection is=20
secondary to the regeneration.  Add a voltage regulator, nobody would do=20
that in the old days, now it's hardly worth not doing.
```

```
That's some of the work Charles Kitchin has done with regens in recent=20
years, some very basic receivers for the beginner (including one that used=
=20
a crystal as the frequency determining element), some more complicated=20
than others.

Or go take his work and go back to the thirties, and build a supergainer=20
out of Frank C. Jones' Radio Handbook.  A compromise/hybrid, it's a regen=
=20
with a converter ahead of it, or looked at another way, a superheterodyne=
=20
with a regen detector.  Takes out some of the issues of the regen, it=20
isolates the detector from the antenna, the regen stage doesn't have to=20
cover a wide range (and if the converter is tuneable, the regen stage=20
stays on one frequency).  You can even put a crystal filter between the=20
mixer and the regen stage.

So a regen still has potential.  A simple receiver to accomplish building=
=20
something (41 years ago, I rushed down to the parts store with a list of=20
parts out of a magazine, and that project, and the one after, never=20
worked, in retrospect I can see lots of reasons why.  But I kept at it,=20
and then I did get some things going, ironically out of scrap parts,=20
having learned enough to actually know what I was doing).  But it can also=
=20
be a method of experimentation.  Not to create Something Important, but by=
=20
trying new things, one can learn.

Ah, yes, the one tube (01A) regen on the broadcast band, late at night North of Seattle Washington, listening to Snake Oil Salesmen from Del Rio, Texas, With transmitters in Warez, Mexico........XERF, ISTR. A thrill that must be experienced to be believed. And the Grand Old Oprey or the Barn Dance!! KGO and KSL came in like gangbusters!!

Old Chief Lynn, W7LTQ

One technique was to use only the primary of a center tapped (push pull) audio output transformer. The modulator tube, running class A, was on one side, and the other side was used as the supply for the RF output stage, with the B+ to the center tap.

I tried it (many years ago, when I was a boy...) but it doesn't work well: most push-pull output transformers are designed for a null total cc flux (currents in the two halves of primary winding should be equal

and opposite) and, when driven in single-ended, the core saturates and
severe degradation of audio response occurs.

Hi OM Giovanni,

You could use an audio amplifier tube as the modulator with its matching audio output transformer for choke modulation.

Here's how I did it.

http://nandustips.blogspot.com/2011/02/my-first-hf-transmitter.html

> IT9XXS

The guys presented a lot of great ideas.. If a conventional plate modulation transformer is found, and 100% modulation of the final RF stages plate voltage is achieved, the next logical step (I think) is to introduce "Negative Peak Clipping". A highly controversial method that clipped a little of the negative modulation envelope, and added that same amplitude to the positive envelope peaks.

100% PLUS modulation! Oh, how the purists did cry! Fact is, that oscilloscope observations were convincing, over the air observations while switching the "clipper" in and out were totally convincing. It

worked! There was a little commercial AM broadcast testing, with
FCC strictly against such abhorrent practices, but it did work. I swear.

On the receiving end, the audio sounded much like the current
practice of Television stations "enhancing" commercial advertising.
The received audio amplitude would increase startlingly.

Detractors "proved" mathematically that this distortion of the AM
envelope introduced undesirable sidebands, but hey, with my
10 watts input to a 2E26 final, nobody ever complained.
Time frame, AM glory days 1955 to 1958.

Old Chief Lynn, W7LTQ

Use a filament transformer. Primary winding to the plate circuit,
secondary winding driven by the output of a PA amplifier.

You could do all that or you could just add a LO and mixer and then
the radio only has to work at one frequency.
Simple.

Another good area to start off with is crystal sets, from an era when they had to be sensitive and serious receivers as they were all there was.

For SSB, CW and improved AM reception you add a 1 transistor VFO/BFO, which amongst other things brings up the sensitivity.

There's a video demo of this here:
http://www.youtube.com/watch?v=ihLbcaOvhiA

I would use this as your baseline for comparison with regenerative and direct conversion. The 'amplified crystal set' approach doesn't have the frequency pulling problems that regen sets can have.

Peter

List of Solutions Manuals and Test Banks

contact me to :   mattosbw1@gmail.com
mattosbw1(at)gmail.com

NOTE : "THIS SERVICE IS NOT AVAILABLE FOR :   CHINA, INDIA, RUSSIA, PAKISTAN, IRAQ, IRAN, PHILIPPINES, NORTH KOREA, NEPAL, BANGLADESH, SRI LANKA, MALDIVES, BHUTAN & COLOMBIA".

If your wanted solutions manual is not in this list, also can ask me if is available (it is a partial list). Then if you need solutions manual only contact me by email.

"ARE NOT AVAILABLES BOOKS IN DIGITAL FORMAT", ONLY SOLUTIONS MANUALS AND TEST BANKS.

I do not review the forums, just send me an email. Please do not use emails from servers "LIVE" , all they are take as spam emails in my inbox.

- Mechanics, Mechanical Engineering & Aerospace Engineering:

Solution Manual Classical Mechanics (Douglas Gregory)
Solution Manual Classical Mechanics : From Newton to Einstein : A Modern Introduction (2nd Ed., Martin McCall)
Solution Manual Advanced Dynamics (Donald T. Greenwood)
Solution Manual Principles of Dynamics (2nd Ed., Donald T. Greenwood)
Solution Manual Advanced Engineering Dynamics (2nd Ed., Jerry Ginsberg)
Solution Manual Classical Dynamics (Jorge V. Jos=E9)
Solution Manual Impact Mechanics (W.J. Stronge)
Solution Manual Human Body Dynamics (Aydin Tozeren)
Solution Manual Statistical Mechanics (2nd Ed., R.K. Pathria)
Solution Manual Statistical Mechanics (3rd Ed., R.K. Pathria & Paul D. Beale)
Solution Manual Engineering Mechanics of Solids (2nd Ed., Egor P. Popov)
Solution Manual Introduction to Continuum Mechanics (4th Ed., W. Michael Lai, David Rubin & Erhard Krempl)
Solution Manual Analytical Mechanics (7th Ed., Grant R. Fowles, George Cassiday)
Solution Manual Introduction to Mechanical Engineering (Rizza)
Solution Manual Engineering Fundamentals and Problem Solving (4th Ed., Eide, Jenison, Mashaw & Northup)
Solution Manual Engineering Fundamentals and Problem Solving (5th Ed., Eide, Jenison, Northup & Mickelson)
Solution Manual Engineering Fundamentals and Problem Solving (6th Ed., Eide, Jenison, Northup & Mickelson)
Solution Manual Mechanical Engineering Principles (Bird & Ross)
Solution Manual Dynamics of Mechanical Systems (C.T.F. Ross)
Solution Manual Mechanics of Solids (C.T.F. Ross)
Solution Manual Introduction to Engineering Analysis (1st Ed., Hagen)
Solution Manual Introduction to Engineering Analysis (2nd Ed., Hagen)
Solution Manual Introduction to Engineering Analysis (3rd Ed., Hagen)
Solution Manual Engineering Design (Rudolph J. Eggert)
Solution Manual Creative Design of Products and Systems (Saeed Niku)
Solution Manual Fundamentals of Engineering Design (2nd Ed., Barry Hyman)
Solution Manual Engineering Design (4th Ed., George Dieter & Linda Schmidt)
Solution Manual Engineering Design and Graphics with Autodesk Inventor 2009 (James Bethune)
Solution Manual Engineering Design : A Project-Based Introduction (2nd Ed., Clive Dym & Patrick Little)
Solution Manual Engineering Design : A Project-Based Introduction (3rd Ed., Clive Dym & Patrick Little)
Solution Manual Tools and Tactics of Design (Dominick, Demel, Lawbaugh, Freuler, Kinzel & Fromm)
Solution Manual Biofluid Mechanics - An Introduction to Fluid Mechanics, Macrocirculation, and Microcirculation (David Rubenstein, Wei Yin & Mary Frame)
Solution Manual Advanced Fluid Mechanics (William Graebel)
Solution manual Modern Fluid Dynamics (Clement Kleinstreuer)
Solution manual Essential Computational Fluid Dynamics (Oleg Zikanov)

Solution Manual Computational Fluid Dynamics : A Practical Approach (Jiyuan Tu, Guan Heng Yeoh & Chaoqun Liu)
Solution Manual Mechanics of Fluids (8th Ed., Massey)
Solution Manual Fluid Mechanics (5th Ed., Frank White)
Solution Manual Fluid Mechanics (6th Ed., Frank White)
Solution Manual Fluid Mechanics (7th Ed., Frank White)
Solution Manual Viscous Fluid Flow (3rd Ed., Frank White)
Solution Manual Statistical Thermodynamics (Normand Laurendeau)
Solution Manual Introductory Statistical Thermodynamics (Nils Dalarsson , Mariana Dalarsson & Leonardo Golubovic)
Solution Manual Thermodynamics and Heat Power (6th Ed., Kurt C. Rolle)
Solution Manual Modern Engineering Thermodynamics (Robert Balmer)
Solution Manual Introduction to the Thermodynamics of Materials (4th Ed. David Gaskell)
Solution Manual Introduction to Thermodynamics and Heat Transfer (2nd Ed., Yunus Cengel)
Solution Manual Fundamentals of Thermal-Fluid Sciences (1st Ed., Yunus Cengel)
Solution Manual Fundamentals of Thermal-Fluid Sciences (2nd Ed., Yunus Cengel)
Solution Manual Fundamentals of Thermal-Fluid Sciences (3rd Ed., Yunus Cengel & Robert Turner)
Solution Manual Fundamentals of Thermal-Fluid Sciences (4th Ed., Yunus Cengel , Robert Turner & John Cimbala)
Solution Manual Thermodynamics : An Engineering Approach (5th Ed., Yunus Cengel)
Solution Manual Thermodynamics : An Engineering Approach (6th Ed., Yunus Cengel & Michael Boles)
Solution Manual Thermodynamics : An Engineering Approach (7th Ed., Yunus Cengel & Michael Boles)
Solution Manual Essentials of Fluid Mechanics : Fundamentals and Applications (1st Ed., Yunus Cengel, John Cimbala)
Solution Manual Fluid Mechanics (1st Ed., Yunus Cengel & John Cimbala)
Solution Manual Fluid Mechanics (2nd Ed., Yunus Cengel & John Cimbala)
Solution Manual Heat Tranfer (2nd Ed., Yunus Cengel)
Solution Manual Heat and Mass Transfer : A Practical Approach (3rd Ed., Yunus Cengel)
Solution Manual Heat and Mass Transfer : Fundamentals and Applications (4th Ed., Yunus Cengel & Afshin Ghajar)
Solution Manual Introduction to Fluid Mechanics (6th Ed., Robert Fox, Alan McDonald & Philip Pritchard)
Solution Manual Introduction to Fluid Mechanics (7th Ed., Robert Fox, Philip Pritchard & Alan McDonald)
Solution Manual Fox and McDonald's Introduction to Fluid Mechanics (8th Ed., Philip Pritchard)
Solution Manual Fluid Mechanics (5th Ed., Douglas)
Solution Manual Fluid Mechanics (3rd Ed., Kundu & Cohen)
Solution Manual Fluid Mechanics (4th Ed., Kundu & Cohen)
Solution Manual Fluid Mechanics (5th Ed., Kundu , Cohen & Dowling)
Solution Manual Elementary Fluid Mechanics (7th Ed., Street, Watters & Vennard)

Solution Manual Fluid Mechanics with Engineering Applications (10th Ed., Finnemore & Franzini)
Solution Manual Fundamentals of Fluid Mechanics (4th Ed., Bruce Munson, Donald Young, Theodore Okiishi)
Solution Manual Fundamentals of Fluid Mechanics (5th Ed., Bruce Munson, Donald Young, Theodore Okiishi)
Solution Manual Fundamentals of Fluid Mechanics (6th Ed., Bruce Munson, Donald Young, Theodore Okiishi, Wade Huebsch)
Solution Manual Fundamentals of Fluid Mechanics - SI Units (6th Ed., Bruce Munson, Donald Young, Theodore Okiishi, Wade Huebsch)
Solution Manual A Brief Introduction to Fluid Mechanics (3rd Ed., Donald Young, Bruce Munson, Theodore Okiishi)
Solution Manual A Brief Introduction to Fluid Mechanics (4th Ed., Donald Young, Bruce Munson, Theodore Okiishi, Wade Huebsch)
Solution Manual A Brief Introduction to Fluid Mechanics (5th Ed., Donald Young, Bruce Munson, Theodore Okiishi, Wade Huebsch)
Solution Manual Engineering Fluid Mechanics (7th Ed., Clayton Crowe, Donald Elger, John Roberson)
Solution Manual Engineering Fluid Mechanics (8th Ed., Clayton Crowe, Donald Elger, John Roberson)
Solution Manual Engineering Fluid Mechanics (9th Ed., Clayton Crowe, Donald Elger, John Roberson, Barbara Williams)
Solution Manual Engineering Fluid Mechanics - SI Version (9th Ed., Clayton Crowe, Donald Elger, John Roberson, Barbara Williams)
Solution Manual Fluid Mechanics (Potter & Foss)
Solution Manual Mechanics of Fluids (3rd Ed., Potter)
Solution Manual Fluid Power with Applications (7th Ed., Esposito)
Solution Manual Mechanics of Fluids (4th Ed., Shames)
Solution Manual Applied Fluid Mechanics (6th Ed., Mott)
Solution Manual Applied Fluid Mechanics - SI Units (6th Ed., Mott)
Solution Manual Hydraulic Control Systems (Noah Manring)
Solution Manual Fluid Mechanics and Thermodynamics of Turbomachinery (5th Ed., S.L. Dixon)
Solution Manual Fluid Mechanics and Thermodynamics of Turbomachinery (6th Ed., S.L. Dixon & Cesare Hall)
Solution Manual The Design of High-Efficiency Turbomachinery and Gas Turbines (2nd Ed., David Gordon Wilson & Theododios Korakianitis)
Solution Manual Fundamentals of Turbomachinery (William Peng)
Solution Manual Principles of Turbomachinery in Air-Breathing Engines (Baskharone)
Solution Manual Theory of Aerospace Propulsion (Pasquale Sforza)
Solution Manual Fundamentals of Jet Propulsion with Applications (Ronald D. Flack)
Solution Manual Extended Irreversible Thermodynamics (3rd Ed., D. Jou, J. Casas-Vazquez & G. Lebon)
Solution Manual Thermodynamics : An Integrated Learning System (Schmidt, Ezekoye, Howell & Baker)
Solution Manual Design of Fluid Thermal Systems (2nd Ed., William Janna)
Solution Manual Design and Simulation of Thermal Systems (N.V. Suryanarayana & Oner Arici)
Solution Manual Introduction to Thermal and Fluids Engineering (Kaminski & Jensen)

Solution Manual Heating, Ventilating and Air Conditioning Analysis and Design (6th Ed., McQuiston)
Solution Manual Electricity, Electronics, and Control Systems for HVAC (4th Ed., Thomas Kissell)
Solution Manual Heat and Mass Transfer (Anthony Mills)
Solution Manual Heat Transfer (2nd Ed., A.F. Mills)
Solution Manual Basic Heat and Mass Transfer (2nd Ed., A.F. Mills)
Solution Manual Convective Heat and Mass Transfer (4th Ed., Kays & Crawford)
Solution Manual Advanced Engineering Thermodynamics (3rd Ed., Bejan)
Solution Manual Convection Heat Transfer (3rd Ed., Bejan)
Solution Manual Design with Constructal Theory (Adrian Bejan & Sylvie Lorente)
Solution Manual Shape and Structure, from Engineering to Nature (Adrian Bejan)
Solution Manual Thermodynamics : Concepts and Applications (Stephen Turns)
Solution Manual Experimental Methods for Engineers (8th Ed., Jack P. Holman)
Solution Manual Heat Transfer (10th Ed., Jack Holman)
Solution Manual Principles of Heat Transfer (Kaviany)
Solution Manual Heat Convection (Latif M. Jiji)
Solution Manual Fundamentals of Momentum, Heat and Mass Transfer (5th Ed., Welty)
Solution Manual Analytical Methods for Heat Transfer and Fluid Flow Problems (Bernhard Weigand)
Solution Manual An Introduction to Fluid Dynamics : Principles of Analysis and Design (Stanley Middleman)
Solution Manual An Introduction to Mass and Heat Transfer : Principles of Analysis and Design (Stanley Middleman)
Solution Manual Fundamentals of Thermodynamics (5th Ed., Richard Sonntag, Claus Borgnakke & Gordon Van Wylen)
Solution Manual Fundamentals of Thermodynamics (6th Ed., Richard Sonntag, Claus Borgnakke & Gordon Van Wylen)
Solution Manual Fundamentals of Thermodynamics (7th Ed., Claus Borgnakke & Richard Sonntag)
Solution Manual Introduction to Engineering Thermodynamics (1st Ed., Richard Sonntag & Claus Borgnakke)
Solution Manual Introduction to Engineering Thermodynamics (2nd Ed., Richard Sonntag & Claus Borgnakke)
Solution Manual Fundamentals of Engineering Thermodynamics (5th Ed., Michael Moran, Howard Shapiro)
Solution Manual Fundamentals of Engineering Thermodynamics (6th Ed., Michael Moran, Howard Shapiro)
Solution Manual Fundamentals of Engineering Thermodynamics - SI Units (6th Ed., Michael Moran, Howard Shapiro)
Solution Manual Fundamentals of Engineering Thermodynamics (7th Ed., Michael Moran, Howard Shapiro, Daisie Boettner, Margaret Bailey)
Solution Manual Fundamentals of Heat and Mass Transfer (5th Ed., Incropera, DeWitt, Bergman, Lavine)
Solution Manual Fundamentals of Heat and Mass Transfer (6th Ed., Incropera, DeWitt, Bergman, Lavine)
Solution Manual Fundamentals of Heat and Mass Transfer (7th Ed.,

Incropera, DeWitt, Bergman, Lavine)
Solution Manual Introduction to Heat Transfer (4th Ed., Incropera, DeWitt)
Solution Manual Introduction to Heat Transfer (5th Ed., Incropera, DeWitt, Bergman, Lavine)
Solution Manual Introduction to Heat Transfer (6th Ed., Incropera, DeWitt, Bergman, Lavine)
Solution Manual Radiation Detection and Measurement (3rd Ed., Glenn Knoll)
Solution Manual Radiation Detection and Measurement (4th Ed., Glenn Knoll)
Solution Manual Radiative Heat Transfer (2nd Ed., Michael Modest)
Solution Manual Principles of Combustion (2nd Ed., Kenneth Kuan-yun Kuo)
Solution Manual An Introduction to Combustion : Concepts and Applications (3rd Ed., Stephen R. Turns)
Solution Manual Combustion (2nd Ed., Irvin Glassman)
Solution Manual Combustion (3rd Ed., Irvin Glassman)
Solution Manual Combustion (4th Ed., Irvin Glassman)
Solution Manual Incompressible Flow (3rd Ed., Panton)
Solution Manual Modern Compressible Flow : With Historical Perspective (3rd Ed., John Anderson)
Solution Manual Non-Newtonian Flow : Fundamentals and Engineering Applications (R.P. Chhabra & J F Richardson)
Solution Manual Computational Techniques for Fluid Dynamics (Srinivas, K., Fletcher, C.A.J.)
Solution Manual Introduction to Computational Fluid Dynamics (A.W. Date)
Solution Manual Robot Modeling and Control (Spong, Hutchinson & Vidyasagar)
Solution Manual Introduction to Robotics : Mechanics and Control (3rd Ed., John J. Craig)
Solution Manual Introduction to Robotics: Analysis, Control, Applications (2nd Ed., Saeed B. Niku)
Solution Manual Theory of Applied Robotics : Kinematics, Dynamics and Control (Reza N. Jazar)
Solution Manual Control of Robot Manipulators in Joint Space (R. Kelly, V. Santib=E1=F1ez, A. Lor=EDa)
Solution Manual Modelling and Control of Robot Manipulators (2nd Ed., Lorenzo Sciavicco, Bruno Siciliano)
Solution Manual Robotics : Modelling, Planning and Control (Bruno Siciliano, Lorenzo Sciavicco, Luigi Villani & Giuseppe Oriolo)
Solution Manual Fundamentals of Robotic Mechanical Systems : Theory, Methods, and Algorithms (3rd Ed., Jorge Angeles)
Solution Manual Kinematic Chains and Machine Components Design (Dan B. Marghitu)
Solution Manual Kinematics, Dynamics, and Design of Machinery (2nd Ed., Waldron & Kinzel)
Solution Manual Kinematics and Dynamics of Machinery (3rd Ed., Charles E. Wilson & J. Peter Sadler)
Solution Manual Kinematics and Dynamics of Machinery - SI Units (3rd Ed., Charles E. Wilson & J. Peter Sadler)
Solution Manual Machines and Mechanisms : Applied Kinematic Analysis

(3rd Ed., David H. Myszka)
Solution Manual Machines and Mechanisms : Applied Kinematic Analysis (4th Ed., David H. Myszka)
Solution Manual Mechanism Design : Analysis and Synthesis (4th Ed., Erdman, Sandor & Kota)
Solution Manual Mechanical Design : A Components Approach (2nd Ed., Peter Childs)
Solution Manual Mechanical Design of Machine Elements and Machines : A Failure Prevention Perspective (1st Ed., Collins)
Solution Manual Mechanical Design of Machine Elements and Machines : A Failure Prevention Perspective (2nd Ed., Collins, Busby & Staab)
Solution Manual Fundamentals of Machine Component Design (3rd Ed., Juvinall)
Solution Manual Fundamentals of Machine Component Design (4th Ed., Juvinall & Marshek)
Solution Manual Fundamentals of Machine Component Design (5th Ed., Juvinall & Marshek)
Solution Manual Design of Machine Elements (8th Ed., Spotts)
Solution Manual Machine Elements in Mechanical Design (4th Ed., Mott)
Solution Manual Machine Elements in Mechanical Design - SI Units (4th Ed., Mott)
Solution Manual Mechanical Design : An Integrated Approach (1st Ed., Ansel Ugural)
Solution Manual Design of Machinery (3rd Ed., Norton)
Solution Manual Design of Machinery (4th Ed., Norton)
Solution Manual Design of Machinery (5th Ed., Norton)
Solution Manual Machine Design : An Integrated Approach (3rd Ed., Norton)
Solution Manual Machine Design : An Integrated Approach (4th Ed., Norton)
Solution Manual Mechanical Engineering Design (6th Ed., Shigley)
Solution Manual Mechanical Engineering Design (7th Ed., Shigley, Mischke & Budynas)
Solution Manual Shigley's Mechanical Engineering Design (8th Ed., Budynas & Nisbett)
Solution Manual Shigley's Mechanical Engineering Design (9th Ed., Budynas & Nisbett)
Solution Manual Fundamentals of Machine Elements (1st Ed., Hamrock)
Solution Manual Fundamentals of Machine Elements (2nd Ed., Hamrock)
Solution Manual Mechanics of Materials : A Modern Integration of Mechanics and Materials in Structural Design (Christopher Jenkins & Sanjeev Khanna)
Solution Manual Mechanics of Materials (3th Ed., Beer)
Solution Manual Mechanics of Materials (5th Ed., Gere & Timoshenko)
Solution Manual Mechanics of Materials (6th Ed., Gere & Timoshenko)
Solution Manual Mechanics of Materials (7th Ed., Gere & Goodno)
Solution Manual Mechanics of Materials (Ansel Ugural)
Solution Manual Mechanics of Materials : An Integrated Learning System (1st Ed., Timothy Philpot)
Solution Manual Mechanics of Materials : An Integrated Learning System (2nd Ed., Timothy Philpot)
Solution Manual Mechanics of Materials (2nd Ed., Roy R. Craig)
Solution Manual Mechanics of Materials (3rd Ed., Roy R. Craig)

Solution Manual Simplified Mechanics and Strength of Materials (6th Ed., James Ambrose)
Solution Manual Engineering Applications of Dynamics (Dean Karnopp & Donald Margolis)
Solution Manual Engineering Mechanics : Statics (Arthur Boresi, Richard Schmidt)
Solution Manual Engineering Mechanics : Dynamics (Arthur Boresi, Richard Schmidt)
Solution Manual Engineering Mechanics : Statics (5th Ed., J. L. Meriam, L. G. Kraige)
Solution Manual Engineering Mechanics : Statics - SI Version (5th Ed., J. L. Meriam, L. G. Kraige)
Solution Manual Engineering Mechanics : Statics (6th Ed., J. L. Meriam, L. G. Kraige)
Solution Manual Engineering Mechanics : Statics - SI Version (6th Ed., J. L. Meriam, L. G. Kraige)
Solution Manual Engineering Mechanics : Statics (7th Ed., J. L. Meriam, L. G. Kraige)
Solution Manual Engineering Mechanics : Dynamics (5th Ed., J. L. Meriam, L. G. Kraige)
Solution Manual Engineering Mechanics : Dynamics - SI Version (5th Ed., J. L. Meriam, L. G. Kraige)
Solution Manual Engineering Mechanics : Dynamics (6th Ed., J. L. Meriam, L. G. Kraige)
Solution Manual Engineering Mechanics : Dynamics - SI Version (6th Ed., J. L. Meriam, L. G. Kraige)
Solution Manual Vector Mechanics for Engineers : Statics (7th Ed., Ferdinand Beer)
Solution Manual Vector Mechanics for Engineers : Statics (8th Ed., Ferdinand Beer)
Solution Manual Vector Mechanics for Engineers : Dynamics (7th Ed., Ferdinand Beer)
Solution Manual Vector Mechanics for Engineers : Dynamics (8th Ed., Ferdinand Beer)
Solution Manual Statics : Analysis and Design of Systems in Equilibrium (Sheppard & Tongue)
Solution Manual Statics : Analysis and Design of Systems in Equilibrium - Update Edition (Sheppard & Tongue)
Solution Manual Dynamics : Analysis and Design of Systems in Motion (Sheppard & Tongue)
Solution Manual Dynamics : Analysis and Design of Systems in Motion (2nd Ed., Sheppard & Tongue)
Solution Manual Statics and Mechanics of Materials : An Integrated Approach (2nd Ed., Riley, Sturges & Morris)
Solution Manual Mechanics of Materials (6th Ed., Riley, Sturges & Morris)
Solution Manual Computational Methods in Elasticity and Plasticity : Solids and Porous Media (A. Anandarajah)
Solution Manual Basic Engineering Plasticity : An Introduction with Engineering and Manufacturing Applications (David Rees)
Solution Manual Theory of Plasticity (3rd Ed. Jagabanduhu Chakrabarty)
Solution Manual Deformation and Fracture Mechanics of Engineering Materials (4th Ed., Richard Hertzberg)

Solution Manual Deformable Bodies and Their Material Behavior (Haslach & Armstrong)
Solution Manual Intermediate Mechanics of Materials (1st Ed., Barber)
Solution Manual Elasticity (2nd Ed., J.R. Barber)
Solution Manual Elasticity : Theory, Applications, and Numerics (1st Ed., Martin Sadd)
Solution Manual Elasticity : Theory, Applications, and Numerics (2nd Ed., Martin Sadd)
Solution Manual Elasticity in Engineering Mechanics (2nd Ed., Boresi)
Solution Manual Elasticity in Engineering Mechanics (3rd Ed., Boresi, Chong, Lee)
Solution Manual Advanced Mechanics of Materials and Applied Elasticity (5th Ed., Ansel C. Ugural & Saul K. Fenster)
Solution Manual Advanced Mechanics of Materials (6th Ed., Boresi)
Solution Manual Advanced Mechanics of Materials (2nd Ed., Cook & Young)
Solution Manual Metal Fatigue in Engineering (2nd Ed., Stephens, Fatemi & Fuchs)
Solution Manual Applied Mechanics for Engineering Technology (8th Ed., Keith M. Walker)
Solution Manual Applied Statics and Strength of Materials (5th Ed. Limbrunner & Spiegel)
Solution Manual Statics and Strength of Materials (Robert Mott)
Solution Manual Applied Strength of Materials (4th Ed., Mott)
Solution Manual Applied Strength of Materials (5th Ed., Mott)
Solution Manual Intermediate Dynamics for Engineers (Marcelo R.M & Crespo da Silva)
Solution Manual Engineering Mechanics : Statics (Michael Plesha, Gary Gray & Francesco Costanzo)
Solution Manual Engineering Mechanics : Dynamics (Michael Plesha, Gary Gray & Francesco Costanzo)
Solution Manual Engineering Mechanics : Statics (4th Ed., Anthony Bedford & Wallace Fowler)
Solution Manual Engineering Mechanics : Statics (5th Ed., Anthony Bedford & Wallace Fowler)
Solution Manual Engineering Mechanics : Statics - SI Units (5th Ed., Anthony Bedford, Wallace Fowler & Yusof Ahmad)
Solution Manual Engineering Mechanics : Dynamics (4th Ed., Anthony Bedford & Wallace Fowler)
Solution Manual Engineering Mechanics : Dynamics (5th Ed., Anthony Bedford & Wallace Fowler)
Solution Manual Engineering Mechanics : Dynamics - SI Units (5th Ed., Anthony Bedford, Wallace Fowler & Yusof Ahmad)
Solution Manual Elastic And Inelastic Stress Analysis (Irving Shames)
Solution Manual Strength of Materials - A New Unified Theory for the 21st Century (Surya Patnaik & Dale Hopkins)
Solution Manual Statics and Strengths of Materials (6th Ed., Morrow & Kokernak)
Solution Manual Statics and Strengths of Materials (7th Ed., Morrow & Kokernak)
Solution Manual Engineering Mechanics : Statics (11th Ed., Hibbeler)
Solution Manual Engineering Mechanics : Statics (12th Ed., Hibbeler)
Solution Manual Engineering Mechanics : Statics - SI Units (12th Ed.,

Hibbeler)
Solution Manual Engineering Mechanics : Dynamics (11th Ed., Hibbeler)
Solution Manual Engineering Mechanics : Dynamics (12th Ed., Hibbeler)
Solution Manual Engineering Mechanics : Dynamics - SI Units (12th Ed., Hibbeler)
Solution Manual Mechanics of Materials (4th Ed., Hibbeler)
Solution Manual Mechanics of Materials (6th Ed., Hibbeler)
Solution Manual Mechanics of Materials (7th Ed., Hibbeler)
Solution Manual Mechanics of Materials - SI Units (7th Ed., Hibbeler)
Solution Manual Mechanics of Materials (8th Ed., Hibbeler)
Solution Manual Mechanics of Materials - SI Units (8th Ed., Hibbeler)
Solution Manual Statics and Mechanics of Materials (Beer, Johnston, DeWolf & Mazurek)
Solution Manual Statics and Mechanics of Materials (Bedford, Liechti & Fowler)
Solution Manual Statics and Mechanics of Materials (2nd Ed., Hibbeler)
Solution Manual Statics and Mechanics of Materials - SI Units (2nd Ed., Hibbeler)
Solution Manual Statics and Mechanics of Materials (3rd Ed., Hibbeler)
Solution Manual Statics and Mechanics of Materials - SI Units (3rd Ed., Hibbeler, Fan Sau Cheong)
Solution Manual Energy Principles and Variational Methods in Applied Mechanics (2nd Ed., Reddy)
Solution Manual The Physics of Vibrations and Waves (6th Ed., Pain)
Solution Manual Engineering Vibrations (3rd Ed., Inman)
Solution Manual Theory of Vibrations with Applications (5th Ed., William T. Thomson, Marie Dillon Dahleh)
Solution Manual Mechanical Vibrations - SI Units (4th Ed., Singiresu S. Rao)
Solution Manual Mechanical Vibrations (5th Ed., Singiresu S. Rao)
Solution Manual Theory of Vibration : An Introduction (2nd Ed., A.A. Shabana)
Solution Manual Vibration of Discrete and Continuous Systems (2nd Ed., Ahmed Shabana)
Solution Manual Introduction to Finite Element Vibration Analysis (Maurice Petyt)
Solution Manual Vibrations and Stability : Advanced Theory, Analysis, and Tools (2nd Ed., Jon J. Thomsen)
Solution Manual Dynamics and Vibration : An Introduction (Magd Abdel Wahab)
Solution Manual Mechanical Vibration (William J. Palm, III)
Solution Manual Random Vibrations : Analysis of Structural and Mechanical Systems (Loren Lutes & Shahram Sarkani)
Solution Manual Mechanical and Structural Vibrations : Theory and Applications (by Jerry H. Ginsberg)
Solution Manual Fundamentals of Structural Integrity : Damage Tolerant Design and Nondestructive Evaluation (Alten F. Grandt)
Solution Manual A First Course in the Finite Element Method (4th Ed., Daryl L. Logan)
Solution Manual Introduction to Finite Elements in Engineering (3rd Ed.,Tirupathi R. Chandrupatla, Ashok D. Belegundu)
Solution Manual Introduction to Finite Elements in Engineering (4th Ed.,Tirupathi R. Chandrupatla, Ashok D. Belegundu)

Solution Manual Finite Element Analysis Theory and Application with ANSYS (3rd Ed., Moaveni)
Solution Manual An Introduction to the Finite Element Method (3rd Ed., J. N. Reddy)
Solution Manual Fundamentals of Finite Element Analysis (1st Ed., David V. Hutton)
Solution Manual The Finite Element Method in Engineering (4th Ed., Rao)
Solution Manual The Finite Element Method in Engineering (5th Ed., Rao)
Solution Manual The Finite Element Method and Applications in Engineering Using ANSYS (Madenci & Guven)
Solution Manual Introduction to Finite Element Analysis and Design (Nam-Ho Kim, Bhavani V. Sankar)
Solution Manual Introduction to the Finite Element Method : Theory, Programming and Applications (Erik G. Thompson)
Solution Manual The Finite Element Method : Its Basis and Fundamentals (6th Ed., Zienkiewicz, R. L. Taylor & J.Z. Zhu)
Solution Manual Fundamental Finite Element Analysis and Applications : with Mathematica and Matlab Computations (Asghar Bhatti)
Solution Manual Advanced Topics in Finite Element Analysis of Structures : With Mathematica and MATLAB Computations (Asghar Bhatti)
Solution Manual Modeling and Analysis of Dynamic Systems (3rd Ed., Close)
Solution Manual Modeling and Simulation of Dynamic Systems (Robert Woods, Jr. & Kent Lawrence)
Solution Manual System Dynamics (1st Ed., William J Palm III)
Solution Manual System Dynamics (2nd Ed., William J Palm III)
Solution Manual System Dynamics and Response (S. Graham Kelly)
Solution Manual System Dynamics for Engineering Students : Concepts and Applications (Nicolae Lobontiu)
Solution Manual Dynamic Modeling and Control of Engineering Systems (2nd Ed., J. Lowen Shearer, Bohdan Kulakowski, John Gardner)
Solution Manual System Dynamics : Modeling and Simulation of Mechatronic Systems (4th Ed., Karnopp, Margolis & Rosenberg)
Solution Manual Concepts and Applications of Finite Element Analysis (4th Ed., Cook, Malkus, Plesha & Witt)
Solution Manual Finite Element Modeling for Stress Analysis (Robert Cook)
Solution Manual Principles of Fracture Mechanics (R. J. Sanford)
Solution Manual Fracture Mechanics (Chin-Teh Sun & Zhihe Jin)
Solution Manual Fracture Mechanics : Fundamentals and Applications (2nd Ed., T.L. Anderson)
Solution Manual Mechanical Behavior of Materials (3rd Ed., Dowling)
Solution Manual Mechanical Behavior of Materials (W.F. Hosford)
Solution Manual Mechanical Behavior of Materials (Keith Bowman)
Solution Manual Theory and Design for Mechanical Measurements (4th Ed., Figliola & Beasley)
Solution Manual Theory and Design for Mechanical Measurements (5th Ed., Figliola & Beasley)
Solution Manual Theory and Design for Mechanical Measurements - International Student Version (5th Ed., Figliola & Beasley)
Solution Manual Mechanical Measurements (6th Ed., Beckwith, Marangoni

& Lienhard)
Solution Manual Measurement and Instrumentation : Theory and Application (Alan Morris & Reza Langari)
Solution Manual Measurement and Data Analysis for Engineering and Science (Patrick Dunn)
Solution Manual Design and Analysis of Lean Production Systems (Askin & Goldberg)
Solution Manual Computer-Aided Manufacturing (3rd Ed., Tien-Chien Chang, Richard A. Wysk, Hsu-Pin Wang)
Solution Manual Work Systems : The Methods, Measurement & Management of Work (Mikell P. Groover)
Solution Manual Automation, Production Systems, and Computer-Integrated Manufacturing (2nd Ed., Groover)
Solution Manual Automation, Production Systems, and Computer-Integrated Manufacturing (3rd Ed., Groover)
Solution Manual Fundamentals of Modern Manufacturing : Materials, Processes, and Systems (3rd Ed., Mikell Groover)
Solution Manual Fundamentals of Modern Manufacturing : Materials, Processes, and Systems (4th Ed., Mikell Groover)
Solution Manual Introduction to Manufacturing Processes (Mikell Groover)
Solution Manual Materials and Processes in Manufacturing (9th Ed., E. Paul DeGarmo, J. T. Black, Ronald A. Kohser)
Solution Manual DeGarmo's Materials and Processes in Manufacturing (10th Ed., E. Paul DeGarmo, J. T. Black, Ronald A. Kohser)
Solution Manual DeGarmo's Materials and Processes in Manufacturing (11th Ed., J. T. Black, Ronald A. Kohser)
Solution Manual Principles of Metal Manufacturing Processes (Beddoes & Bibby)
Solution Manual Design for Manufacturing : A Structured Approach (Corrado Poli)
Solution Manual Fundamentals of Manufacturing (2nd Ed., Philip D. Rufe)
Solution Manual Engineering Materials Science (Milton Ohring)
Solution Manual Engineering Materials : Properties and Selection (8th Ed., Budinski)
Solution Manual Engineering Materials : Properties and Selection (9th Ed., Budinski)
Solution Manual Materials Science for Engineering Students (Traugott Fischer)
Solution Manual Essentials of Modern Materials Science and Engineering (James Newell)
Solution Manual Science and Design of Engineering Materials (2nd Ed., Schaffer, Saxena, et al)
Solution Manual Structure and Properties of Engineering Materiales (5th Ed., Daniel Henkel & Alan Pense)
Solution Manual Materials Selection in Mechanical Design (3rd Ed., Michael Ashby)
Solution Manual Materials Selection in Mechanical Design (4th Ed., Michael Ashby)
Solution Manual Materials : Engineering, Science, Processing and Design (1st Ed., Michael Ashby, Hugh Shercliff & David Cebon)
Solution Manual Materials : Engineering, Science, Processing and

Design (2nd Ed., Michael Ashby, Hugh Shercliff & David Cebon)
Solution Manual Engineering Materials Vol. 1 : An Introduction to Properties, Applications and Design (3rd Ed., Michael Ashby & David Jones)
Solution manual Engineering Materials Vol. 1 : An Introduction to Properties, Applications and Design (4th Ed., Michael Ashby & David Jones)
Solution Manual Engineering Materials Vol. 2 : An Introduction to Microstructures, Processing and Design (3rd Ed., Michael Ashby & David Jones)
Solution Manual Materials Science and Engineering : An Introduction (6th Ed., William Callister)
Solution Manual Materials Science and Engineering : An Introduction (7th Ed., William Callister)
Solution Manual Materials Science and Engineering : An Introduction (8th Ed., William Callister)
Solution Manual Fundamentals of Materials Science and Engineering : Integrated Approach (2nd Ed., William Callister)
Solution Manual Fundamentals of Materials Science and Engineering : Integrated Approach (3rd Ed., William Callister)
Solution Manual Foundations of Materials Science and Engineering (3rd Ed, Smith)
Solution Manual Foundations of Materials Science and Engineering (4th Ed, Smith & Hashemi)
Solution Manual Foundations of Materials Science and Engineering (5th Ed, Smith & Hashemi)
Solution Manual Introduction to Materials Science for Engineers (6th Ed., Shackelford)
Solution Manual Introduction to Materials Science for Engineers (7th Ed., Shackelford)
Solution Manual Introduction to Materials Science for Engineers - International Edition (7th Ed., Shackelford)
Solution Manual Manufacturing Facilities Design and Material Handling (3rd Ed., Meyers & Stephens)
Solution Manual Manufacturing Facilities Design and Material Handling (4th Ed., Stephens & Meyers)
Solution Manual Manufacturing Processes for Engineering Materials (5th Ed. Kalpakjian & Smith)
Solution Manual Manufacturing Processes for Engineering Materials - SI Units (5th Ed. Kalpakjian, Smith & Chih-Wah Kok)
Solution Manual Manufacturing, Engineering & Technology (5th Ed. Kalpakjian & Smith)
Solution Manual Manufacturing, Engineering & Technology (6th Ed. Kalpakjian & Smith)
Solution Manual Manufacturing, Engineering & Technology - SI Units (6th Ed. Kalpakjian & Smith)
Solution Manual Principles of Corrosion Engineering and Corrosion Control (Zaki Ahmad)
Solution Manual Steels : Microstructure and Properties (3rd Ed. Bhadeshia & Honeycombe)
Solution Manual Analysis and Performance of Fiber Composites (3rd Ed., Bhagwan Agarwal, Lawrence Broutman & K. Chandrashekhara)
Solution Manual Nanoengineering of Structural, Functional and Smart

Materials (Mark Schulz, Ajit Kelkar, Mannur Sundaresan)
Solution Manual Applied Manufacturing Process Planning : With Emphasis on Metal Forming and Machining (Nelson, Schneider)
Solution Manual Mastering CAD/CAM (1st Ed., Ibrahim Zeid)
Solution Manual Principles of CAD/CAM/CAE (Kunwoo Lee)
Solution Manual Computer Numerical Control : Operation and Programming (3rd Ed., Stenerson & Curran)
Solution Manual Introduction to Computer Numerical Control (4th Ed., Valentino & Goldenberg)
Solution Manual Linear State-Space Control Systems (Robert L. Williams, II & Douglas A. Lawrence)
Solution Manual Gas Turbine Theory (6th Ed., H.I.H. Saravanamuttoo, G.F.C. Rogers, H. Cohen & Paul Straznicky)
Solution Manual Rocket Propulsion Elements (7th Ed., George P. Sutton & Oscar Biblarz)
Solution Manual Rocket Propulsion Elements (8th Ed., George P. Sutton & Oscar Biblarz)
Solution Manual Orbital Mechanics for Engineering Students (1st Ed., Howard Curtis)
Solution Manual Orbital Mechanics for Engineering Students (2nd Ed., Howard Curtis)
Solution Manual Atmospheric and Space Flight Dynamics : Modeling and Simulation with MATLAB and Simulink (Ashish Tewari)
Solution Manual Flight Dynamics Principles (2nd Ed., by Cook)
Solution Manual Mechanics of Flight (1st Ed., Warren F. Phillips)
Solution Manual Mechanics of Flight (2nd Ed., Warren F. Phillips)
Solution Manual Modern Flight Dynamics (David K. Schmidt)
Solution Manual Fundamentals of Airplane Flight Mechanics (David G. Hull)
Solution Manual Dynamics of Flight : Stability and Control (3rd Ed., Bernard Etkin & Lloyd Duff Reid)
Solution Manual Aircraft Rescue and Firefighting (5th Ed., IFSTA)
Solution Manual Aircraft Dynamics : From Modeling to Simulation (Marcello Napolitano)
Solution Manual Aircraft Propulsion (Saeed Farokhi)
Solution Manual Aircraft Performance (Maido Saarlas)
Solution Manual Design of Aircraft (Thomas C. Corke)
Solution Manual Flight Performance of Fixed and Rotary Wing Aircraft (Antonio Filippone)
Solution Manual Fundamentals Of Aircraft Structural Analysis (Howard Curtis)
Solution Manual Aircraft Control and Simulation (2nd Ed., Brian Stevens & Frank Lewis)
Solution Manual Aircraft Structures for Engineering Students (3rd Ed., T.H.G. Megson)
Solution Manual Aircraft Structures for Engineering Students (4th Ed., T.H.G. Megson)
Solution Manual Introduction to Aircraft Structural Analysis (T.H.G. Megson)
Solution Manual Mechanics of Aircraft Structures (2nd Ed, C. T. Sun)
Solution Manual Principles of Helicopter Aerodynamics (1st Ed., Leishman)
Solution Manual Fundamentals of Aerodynamics (2nd Ed., Anderson)

Solution Manual Fundamentals of Aerodynamics (3th Ed., Anderson)
Solution Manual Fundamentals of Aerodynamics (4th Ed., Anderson)
Solution Manual Fundamentals of Aerodynamics (5th Ed., Anderson)
Solution Manual Aerodynamics for Engineers (5th Ed., John Bertin & Russell Cummings)
Solution Manual Introduction to Flight (5th Ed., Anderson)
Solution Manual Introduction to Flight (6th Ed., Anderson)
Solution Manual Mechatronics : Principles and Applications (Godfrey Onwubolu)
Solution Manual Mechatronics (Sabri Cetinkunt)
Solution Manual Introduction to Mechatronic Design (J. Edward Carryer, Matthew Ohline & Thomas Kenny)
Solution Manual Introduction to Mechatronics and Measurement Systems (2nd Ed., David Alciatore & Michael Histand)
Solution Manual Introduction to Mechatronics and Measurement Systems (3rd Ed., David Alciatore & Michael Histand)
Solution Manual Introduction to Mechatronics and Measurement Systems (4th Ed., David Alciatore & Michael Histand)
Solution Manual Introduction to Engineering Experimentation (2nd Ed., Wheeler & Ganji)
Solution Manual Introduction to Engineering Experimentation (3rd Ed., Wheeler & Ganji)
Solution Manual Gas Dynamics (3rd Ed., John & Keith)
Solution Manual Fundamentals of Gas Dynamics (2nd Ed, Robert D. Zucker)
Solution Manual Theory of Ground Vehicles (3rd Ed., J. Y. Wong)
Solution Manual Theory of Ground Vehicles (4th Ed., J. Y. Wong)
Solution Manual Vehicle Dynamics : Theory and Application (Reza Jazar)
Solution Manual Engineering Fundamentals of the Internal Combustion Engine (2nd Ed., Willard W. Pulkrabek)
Solution Manual Internal Combustion Engines : Applied Thermosciences (2nd Ed., Ferguson & Kirkpatrick)
Solution Manual Advanced Engine Performance Diagnosis (4th Ed., James Halderman)
Solution Manual Automotive Engines (8th Ed., Crouse)
Solution Manual Automotive Heating & Air Conditioning (5th Ed., Tom Birch)
Solution Manual Diagnosis and Troubleshooting of Automotive Electrical, Electronic, and Computer Systems (5th Ed., James Halderman)
Solution Manual Automotive Brake Systems Package (4th Ed., Rehkopf)
Solution Manual Automotive Brake Systems (4th Ed., Halderman)
Solution Manual Automotive Engine Performance (2nd Ed., Halderman)
Solution Manual Automotive Engines : Theory and Servicing (6th Ed., James Halderman)
Solution Manual Automotive Fuel and Emissions Control Systems (2nd Ed., James Halderman & James Linder)
Solution Manual Automotive Science and Mathematics (Allan Bonnick)
Solution Manual Automotive Mathematics (Jason Rouvel)
Solution Manual Automotive Service Management (Andrew Rezin)
Solution Manual Automotive Technology : Principles, Diagnosis, and Service (3rd Ed., Halderman)
Solution Manual Automotive Steering, Suspension, and Alignment (4th

Ed., Halderman)
Solution Manual Automatic Transmissions & Transaxles (4th Ed., Tom Birch & Chuck Rockwood)
Solution Manual Hybrid and Alternative Fuel Vehicles (Halderman & Martin)
Solution Manual Manual Drivetrains and Axles (5th Ed., Birch & Rockwood)
Solution Manual Blueprint Reading for the Machine Trades (6th Ed., Schultz & Smith)
Solution Manual Modern Welding Technology (6th Ed., Cary & Helzer)
Solution Manual Tissue Engineering (Bernhard O. Palsson & Sangeeta N. Bhatia)
Solution Manual Tissue Engineering (Clemens van Blitterswijk, et al.)
Solution Manual Tissue Mechanics (Cowin, Doty)
Solution Manual Technology and Society (3rd Ed., Hjorth, Eichler, Khan & Morello)
Solution Manual BTEC First Engineering Curriculum Support Pack (Mike Tooley)
Solution Manual BTEC First Engineering (Mike Tooley)
Solution Manual Exploring Engineering : An Introduction to Engineering and Design (1st Ed., Philip Kosky, George Wise, Robert Balmer & William Keat)
Solution Manual Exploring Engineering : An Introduction to Engineering and Design (2nd Ed., Philip Kosky, Robert Balmer, William Keat & George Wise)
Solution Manual Engineering Science (5th Ed., W. Bolton)
Solution Manual Principles of Energy Conversion (2nd Ed., Archie W. Culp)
Solution Manual Fundamentals of Renewable Energy Processes (1st Ed., Aldo da Rosa)
Solution Manual Fundamentals of Renewable Energy Processes (2nd Ed., Aldo da Rosa)
Solution Manual Alternative Energy Systems (B. K. Hodge)
Solution Manual Solar Energy Engineering : Processes and Systems (Soteris Kalogirou)
Solution Manual Solar Engineering of Thermal Processes (2nd Ed., John Duffie & William Beckman)
Solution Manual Solar Engineering of Thermal Processes (3rd Ed., John Duffie & William Beckman)
Solution Manual Energy Technology and Directions for the Future (Fanchi)
Solution Manual Power Generation Technologies (Paul Breeze)
Solution Manual Foundations of Engineering (2nd Ed, Holtzapple & Dan Reece)
Solution Manual Industrial Mechanics and Maintenance (3rd Ed., Larry Chastain)
Solution Manual Mechanical and Electrical Equipment for Buildings (10th Ed., Stein, Reynolds, Grondzik, Kwok)
Solution Manual Mechanical and Electrical Equipment for Buildings (11th Ed., Grondzik, Kwok, Stein & Reynolds)
Solution Manual Mechanical & Electrical Systems in Buildings (4th Ed., Richard Janis & William Tao)
Solution Manual Engineering Drawing And Design (7th Ed., Jensen,

Helsel & Short)
Solution Manual Pipe Drafting and Design (3rd Ed., Roy A. Parisher)
Solution Manual Autodesk Inventor (James M. Leake)
Solution Manual Engineering Design Graphics : Sketching, Modeling, and Visualization (1st Ed., James Leake & Jacob Borgerson)
Solution Manual Orthopaedic Biomechanics : Mechanics and Design in Musculoskeletal Systems (Donald Bartel, Dwight Davy & Tony Keaveny)
Solution Manual Science for Engineering (3rd Ed., John Bird)

List of Solutions Manuals and Test Banks

contact me to : mattosbw1@gmail.com
mattosbw1(at)gmail.com

NOTE : "THIS SERVICE IS NOT AVAILABLE FOR : CHINA, INDIA, RUSSIA, PAKISTAN, IRAQ, IRAN, PHILIPPINES, NORTH KOREA, NEPAL, BANGLADESH, SRI LANKA, MALDIVES, BHUTAN & COLOMBIA".

If your wanted solutions manual is not in this list, also can ask me if is available (it is a partial list). Then if you need solutions manual only contact me by email.

"ARE NOT AVAILABLES BOOKS IN DIGITAL FORMAT", ONLY SOLUTIONS MANUALS AND TEST BANKS.

I do not review the forums, just send me an email. Please do not use emails from servers "LIVE" , all they are take as spam emails in my inbox.

- Electrical, Electronics & Computer Engineering :

Solution Manual Design for Electrical and Computer Engineers (J. Eric Salt & Robert Rothery)
Solution Manual Electrical Engineering : Principles and Applications (3rd Ed., Hambley)
Solution Manual Electrical Engineering : Principles and Applications (4th Ed., Hambley)
Solution Manual Electrical Engineering : Principles and Applications (5th Ed., Hambley)
Solution Manual Electronics (2nd Ed., Hambley)

Solution Manual Foundations of Electric Circuits (J.R. Cogdell)
Solution Manual Physics of Semiconductor Devices (Jean-Pierre Colinge, Cynthia A. Colinge)
Solution Manual Electronics and Communications for Scientists and Engineers (Martin Plonus)
Solution Manual Cryptography & Network Security (Behrouz A Forouzan)
Solution Manual Data Communications and Networking (3rd Ed., Behrouz A. Forouzan)
Solution Manual Data Communications and Networking (4th Ed., Behrouz A. Forouzan)
Solution Manual TCP/IP Protocol Suite (2nd Ed., Behrouz Forouzan)
Solution Manual TCP/IP Protocol Suite (3rd Ed., Behrouz Forouzan)
Solution Manual TCP/IP Protocol Suite (4th Ed., Behrouz Forouzan)
Solution Manual Local Area Networks (Behrouz A Forouzan)
Solution Manual Analog Integrated Circuits for Communication : Principles, Simulation and Design (2nd Ed., Donald Pederson & Kartikeya Mayaram)
Solution Manual Satellite Communications (2nd Ed, Pratt, Bostian, Allnutt)
Solution Manual Business Data Communications (Behrouz A Forouzan)
Solution Manual Logic and Computer Design Fundamentals (4th Ed., Mano & Kime)
Solution Manual Linear Robust Control (Michael Green, David J. N. Limebeer)
Solution Manual Adaptive Control (2nd Ed., Karl Johan Astrom, Bjorn Wittenmark)
Solution Manual Digital Control Engineering : Analysis and Design (M. Sami Fadali & Antonio Visioli)
Solution Manual Computer-Controlled Systems : Theory and Design (3rd Ed., Karl Johan Astrom & Bjorn Wittenmark)
Solution Manual Electric Circuits (7th Ed., Nilsson & Riedel)
Solution Manual Electric Circuits (8th Ed., Nilsson & Riedel)
Solution Manual Electric Circuits (9th Ed., Nilsson & Riedel)
Solution Manual Introductory Circuits for Electrical and Computer Engineering (James Nilsson, Susan Riedel)
Solution Manual Electromagnetic Noise and Quantum Optical Measurements (Hermann A. Haus)
Solution Manual Optical Fiber Communications (4th Ed., Gerd Keiser)
Solution Manual Fiber Optic Communications (5th Ed., Joseph C. Palais)
Solution Manual Electromagnetics (Branislav M. Notaros)
Solution Manual Electromagnetics for Engineers (Fawwaz T. Ulaby)
Solution Manual Fundamentals of Applied Electromagnetics (5th Ed., Fawwaz T. Ulaby)
Solution Manual Fundamentals of Applied Electromagnetics (6th Ed., Ulaby, Michielssen & Ravaioli)
Solution Manual Applied Electromagnetics : Early Transmission Lines Approach (Stuart Wentworth)
Solution Manual Fundamentals of Electromagnetics with Engineering Applications (Stuart Wentworth)
Solution Manual Electromagnetics for Engineers : With Applications to Digital Systems and Electromagnetic Interference (Clayton Paul)
Solution Manual MEMS & Microsystems : Design and Manufacture (1st Ed., Tai-Ran Hsu)

Solution Manual MEMS & Microsystems : Design, Manufacture, and Nanoscale Engineering (2nd Ed., Tai-Ran Hsu)
Solution Manual Probability and Statistics for Engineering and the Sciences (7th Ed., Jay L. DeVore)
Solution Manual Probability and Stochastic Processes : A Friendly Introduction for Electrical and Computer Engineers (2nd Ed., Roy Yates & David Goodman)
Solution Manual Process Systems Analysis and Control (3rd Ed. Donald Coughanowr, Steven LeBlanc)
Solution Manual Fuel Cell Engines (Matthew M. Mench)
Solution Manual Fuel Cell Fundamentals (1st Ed., Ryan O'Hayre, et. al)
Solution Manual Fuel Cell Fundamentals (2nd Ed., Ryan O'Hayre, Whitney Colella, Suk-Won Cha, Fritz Prinz)
Solution Manual Control Systems Engineering (4th Ed., Norman Nise)
Solution Manual Control Systems Engineering (5th Ed., Norman Nise)
Solution Manual Control Systems Engineering (6th Ed., Norman Nise)
Solution Manual Automatic Control Systems (8th Ed., Benjamin C. Kuo, Farid Golnaraghi)
Solution Manual Automatic Control Systems (9th Ed., Farid Golnaraghi, Benjamin C. Kuo)
Solution Manual Basic Electricity for Industry : Circuits and Machines - Canadian Edition (Doug Edgar)
Solution Manual Basic Engineering Circuit Analysis (8th Ed., Irwin & Nelms)
Solution Manual Basic Engineering Circuit Analysis (9th Ed., Irwin & Nelms)
Solution Manual Basic Engineering Circuit Analysis (10th Ed., Irwin & Nelms)
Solution Manual A Brief Introduction to Circuit Analysis (J. David Irwin)
Solution Manual Semiconductor Devices : Basic Principles (Jasprit Singh)
Solution Manual Semiconductor Device Fundamentals (Robert F. Pierret)
Solution Manual Advanced Semiconductor Fundamentals (2nd Ed., Robert F. Pierret)
Solution Manual Device Electronics for Integrated Circuits (3rd Ed., Richard S. Muller, Theodore I. Kamins)
Solution Manual Fundamentals of Semiconductor Devices (Anderson)
Solution Manual Scientific Computing (2nd Ed., Michael T. Heath)
Solution Manual System Identification : An Introduction (Karel J. Keesman)
Solution Manual Scientific Computing with Case Studies (Dianne P. O'Leary)
Solution Manual Pattern Recognition and Machine Learning (Christopher M. Bishop)
Solution Manual Modern Semiconductor Devices for Integrated Circuits (Chenming C. Hu)
Solution Manual Analysis and Design of Analog Integrated Circuits (4th Ed., Paul Gray, et al.)
Solution Manual Analysis and Design of Analog Integrated Circuits (5th Ed., Paul Gray)
Solution Manual Analysis and Design of Digital Integrated Circuits (3rd Ed., Hodges)

Solution Manual Introduction to Electric Circuits (6th Ed., Dorf & Svoboda)
Solution Manual Introduction to Electric Circuits (7th Ed., Dorf & Svoboda)
Solution Manual Introduction to Electric Circuits (8th Ed., Dorf & Svoboda)
Solution Manual Modulation, Detection and Coding (Tommy =D6berg)
Solution Manual Principles of Communications: Systems, Modulation, and Noise (5th Ed., R.E. Ziemer & W.H. Tranter)
Solution Manual Principles of Communications (6th Ed., R.E. Ziemer & W.H. Tranter)
Solution Manual The Analysis and Design of Linear Circuits (4th Ed, Thomas & Rosa)
Solution Manual The Analysis and Design of Linear Circuits : Laplace Early (4th Ed, Thomas & Rosa)
Solution Manual The Analysis and Design of Linear Circuits (5th Ed, Thomas)
Solution Manual The Analysis and Design of Linear Circuits (6th Ed, Thomas, Rosa & Toussaint)
Solution Manual Dynamic Modeling and Control of Engineering Systems (2nd Ed., J. Lowen Shearer, Bohdan Kulakowski, John Gardner)
Solution Manual Modern Control Systems (11th Ed., Dorf & Bishop)
Solution Manual Modern Control Systems (12th Ed., Dorf & Bishop)
Solution Manual System Dynamics (4th Ed., Katsuhiko Ogata)
Solution Manual System Dynamics (1st Ed., William Palm III)
Solution Manual System Dynamics (2nd Ed., William Palm III)
Solution Manual System Dynamics and Response (S. Graham Kelly)
Solution Manual System Dynamics for Engineering Students : Concepts and Applications (Nicolae Lobontiu)
Solution Manual Optimal Control (2nd Ed., Frank Lewis & Vassilis Syrmos)
Solution Manual Optimal Control Theory : An Introduction (Donald E. Kirk)
Solution Manual Power Electronics (1st Ed., Daniel W. Hart)
Solution Manual Power Electronic Circuits (Issa Batarseh)
Solution Manual Power Electronics : Circuits, Devices and Applications (3rd Ed., Muhammad H. Rashid)
Solution Manual Power Electronics : Converters, Applications, and Design (3rd Ed., Ned Mohan, Tore Undeland & William Robbins)
Solution Manual Intuitive Probability and Random Processes using MATLAB (Steven Kay)
Solution Manual Signals and Systems using MATLAB (Luis Chaparro)
Solution Manual Analog Signals and Systems (Erhan Kudeki & David C. Munson, Jr.)
Solution Manual Continuous and Discrete Time Signals and Systems (Mrinal Mandal, Amir Asif)
Solution Manual Digital Signal and Image Processing (Tamal Bose)
Solution Manual Digital Image Processing (2nd Ed., Rafael Gonzalez, Richard Woods)
Solution Manual DSP First : A Multimedia Approach (James H. McClellan, Ronald W. Schafer, Mark A. Yoder)
Solution Manual Discrete-Time Signal Processing (2nd Ed., Alan Oppenheim, Ronald Schafer, John Buck)

Solution Manual Discrete-Time Signal Processing (3rd Ed., Alan Oppenheim & Ronald Schafer)
Solution Manual Signal Processing First (James H. McClellan, Ronald W. Schafer, Mark A. Yoder)
Solution Manual Statistical Digital Signal Processing and Modeling (Monson Hayes)
Solution Manual Digital Signal Processing (Thomas J. Cavicchi)
Solution Manual Digital Signal Processing System Design : LabVIEW-Based Hybrid Programming (2nd Ed., Kehtarnavaz)
Solution Manual Digital Signal Processing (2nd Ed., Mitra)
Solution Manual Digital Signal Processing (3rd Ed., Mitra)
Solution Manual Digital Signal Processing (4th Ed., Mitra)
Solution Manual Digital Signal Processing (4th Ed., John G. Proakis, Dimitris K Manolakis)
Solution Manual Digital Signal Processing (Charles Schuler & Mahesh Chugani)
Solution Manual Digital Signal Processing : Fundamentals and Applications (Li Tan)
Solution Manual Digital Signal Processing : An Experimental Approach (Shlomo Engelberg)
Solution Manual Digital Signal Processing : System Analysis and Design (Paulo S. R. Diniz)
Solution Manual Digital Signal Processing : A Modern Introduction (Ashok Ambardar)
Solution Manual Engineering Optimization : Theory and Practice (4th Ed., Singiresu S. Rao)
Solution Manual Applied Optimization with MATLAB Programming (1st Ed., P. Venkataraman)
Solution Manual Applied Optimization with MATLAB Programming (2nd Ed., P. Venkataraman)
Solution Manual Introduction to Applied Optimization (2nd Ed., Urmila Diwekar)
Solution Manual Logic Synthesis and Verification Algorithms (Gary Hachtel & Fabio Somenzi)
Solution Manual Adaptive Filtering : Algorithms and Practical Implementation (3rd Ed., Paulo S. R. Diniz)
Solution Manual Introduction to Scientific Computation and Programming (Daniel T. kaplan)
Solution Manual Principles of Signal Detection and Parameter Estimation (Bernard C. Levy)
Solution Manual Electric Machines Analysis and Design Applying MatLab (Cathey)
Solution Manual Fundamentals of Electrical Engineering (Giorgio Rizzoni)
Solution Manual Principles and Applications of Electrical Engineering (4th Ed, Rizzoni)
Solution Manual Principles and Applications of Electrical Engineering (5th Ed, Rizzoni)
Solution Manual Fundamentals of Electric Circuits (2nd Ed., Alexander & Sadiku)
Solution Manual Fundamentals of Electric Circuits (3rd Ed., Alexander & Sadiku)
Solution Manual Fundamentals of Electric Circuits (4th Ed., Alexander

& Sadiku)
Solution Manual MSP430 Microcontroller Basics (John Davies)
Solution Manual Programming Massively Parallel Processors : A Hands-on Approach (David Kirk & Wen-mei Hwu)
Solution Manual Embedded Systems and Software Validation (Abhik Roychoudhury)
Solution Manual Embedded Systems Design with Platform FPGAs : Principles and Practices (Ronald Sass, Andrew Schmidt)
Solution Manual Embedded DSP Processor Design : Application Specific Instruction Set Processors (Dake Liu)
Solution Manual Embedded Microcontrollers and Processor Design (Charles Greg Osborn)
Solution Manual Embedded System Design : A Unified Hardware/Software Introduction (Vahid & Givargis)
Solution Manual Embedded Microcomputer Systems : Real Time Interfacing (2nd Ed., Jonathan W. Valvano)
Solution Manual Introduction to Programming with C++ (2nd Ed., Y. Daniel Liang)
Solution Manual Matlab : A Practical Introduction to Programming and Problem Solving (Stormy Attaway)
Solution Manual Matlab : A Practical Introduction to Programming and Problem Solving (2nd Ed., Stormy Attaway)
Solution Manual Principles of Computer System Design : An Introduction (Jerome Saltzer & M. Frans Kaashoek)
Solution Manual The Illustrated Network : How TCP/IP Works in a Modern Network (Walter Goralski)
Solution Manual Electronic Design Automation : Synthesis, Verification, and Test (Laung-Terng Wang, Yao-Wen Chang & Kwang-Ting Cheng)
Solution Manual Digital Design (Frank Vahid)
Solution Manual Digital Design with RTL Design, Verilog and VHDL (2nd Ed., Frank Vahid)
Solution Manual Digital Logic Design Principles (Balabanian & Carlson)
Solution Manual Fundamentals of Logic Design (5th Ed., Charles H. Roth)
Solution Manual Real-Time Systems and Software (Alan Shaw)
Solution Manual Introduction to VLSI Circuits and Systems (John P. Uyemura)
Solution Manual Chip Design for Submicron VLSI : CMOS Layout & Simulation (John Uyemura)
Solution Manual Classical Electrodynamics (2nd Ed., John David Jackson)
Solution Manual Objects, Abstraction, Data Structures and Design : Using C++ (Elliot B. Koffman & Paul A. T. Wolfgang)
Solution Manual Objects, Abstraction, Data Structures and Design Using Java Version 5.0 (Elliot B. Koffman & Paul A. T. Wolfgang)
Solution Manual Computer Architecture and Organization : An Integrated Approach (Murdocca & Heuring)
Solution Manual Wiley Pathways Networking Basics (1st Ed., Ciccarelli, Faulkner, FitzGerald, Dennis & Miller)
Solution Manual Software Engineering : Principles and Practice (3rd Ed., Hans van Vliet)
Solution Manual Software Design : From Programming to Architecture

(Eric Braude)
Solution Manual Software Engineering : An Object-Oriented Perspective (Eric Braude)
Solution Manual Software Engineering : Modern Approaches (2nd Ed., Eric Braude & Michael Bernstein)
Solution Manual Neural and Adaptive Systems : Fundamentals through Simulations (Jos=E9 Principe, Neil Euliano & W. Curt Lefebvre)
Solution Manual Fundamentals of Electronic Circuit Design (David J. Comer & Donald T. Comer)
Solution Manual Microelectronic Circuit Design (2nd Ed., Jaeger & Blalock)
Solution Manual Microelectronic Circuit Design (3rd Ed., Jaeger & Blalock)
Solution Manual Microelectronic Circuit Design (4th Ed., Jaeger & Blalock)
Solution Manual Introduction to Microelectronic Fabrication : Volume 5 of Modular Series on Solid State Devices (2nd Ed., Richard Jaeger)
Solution Manual Microelectronic Circuits (5th Ed., Adel S. Sedra, K. C. Smith)
Solution Manual VHDL for Engineers (Kenneth Short)
Solution Manual Fundamentals of Digital Logic with VHDL Design (1st Ed., Brown & Vranesic)
Solution Manual Fundamentals of Digital Logic with VHDL Design (2nd Ed., Brown & Vranesic)
Solution Manual Fundamentals of Digital Logic with VHDL Design (3rd Ed., Brown & Vranesic)
Solution Manual CMOS Analog Circuit Design (2nd Ed., Phillip E. Allen, Douglas R. Holberg)
Solution Manual Design of Analog CMOS Integrated Circuits (Behzad Razavi)
Solution Manual Design of Integrated Circuits for Optical Communications (Behzad Razavi)
Solution Manual Fundamentals of Microelectronics, Preliminary Edition (Behzad Razavi)
Solution Manual Fundamentals of Microelectronics (1st Ed., Behzad Razavi)
Solution Manual RF Microelectronics (2nd Ed., Behzad Razavi)
Solution Manual Design with Operational Amplifiers and Analog Integrated Circuits (3rd Ed., Sergio Franco)
Solution Manual Your UNIX : The Ultimate Guide (1st Ed., Sumitabha Das)
Solution Manual Your UNIX : The Ultimate Guide (2nd Ed., Sumitabha Das)
Solution Manual Microwave Engineering (Annapurna Das)
Solution Manual Microwave Engineering (3rd Ed., David M. Pozar)
Solution Manual Microwave and RF Design of Wireless Systems (David M. Pozar)
Solution Manual Introduction to Wireless Systems (P. M. Shankar)
Solution Manual Microwave Transistor Amplifiers : Analysis and Design (2nd Ed., Guillermo Gonzalez)
Solution Manual Control Systems (Madan Gopal)
Solution Manual A First Lab in Circuits and Electronics (Yannis Tsividis)

Solution Manual Power System Analysis : Analysis and Design (John Grainger)
Solution Manual Power Systems Analysis (2nd Ed., Hadi Saadat)
Solution Manual Power Systems Analysis and Design (4th Ed., J.Duncan Glover and Mulukutla S. Sarma)
Solution Manual An Introduction to Digital and Analog Communications (2nd Ed., Simon Haykin & Michael Moher)
Solution Manual Communication Systems (4th Ed., Simon Haykin)
Solution Manual Communication Systems (5th Ed., Simon Haykin)
Solution Manual Communication Systems (4th Ed., A. Bruce Carlson, Paul B. Crilly, Janet Rutledge)
Solution Manual Communication Systems (5th Ed., A. Bruce Carlson, Paul B. Crilly)
Solution Manual Signals and Systems (2nd Ed., Simon Haykin & Barry Van Veen)
Solution Manual Introduction to Computing Systems : From bits & gates to C & beyond (1st Ed., Patt and Patel)
Solution Manual Introduction to Computing Systems : From bits & gates to C & beyond (2nd Ed., Patt and Patel)
Solution Manual Elements of the Theory of Computation (2nd Ed., Lewis & Papadimitriou)
Solution Manual Introduction to Languages and the Theory of Computation (3rd Ed., John Martin)
Solution Manual Introduction to Languages and the Theory of Computation (4th Ed., John Martin)
Solution Manual Mechanical & Electrical Systems in Buildings (4th Ed., Richard Janis & William Tao)
Solution Manual Silicon VLSI Technology : Fundamentals, Practice, and Modeling (Plummer, Deal & Griffin)
Solution Manual Dynamic Electromagnetics (Paul Diament)
Solution Manual Engineering Electromagnetics (2nd Ed., Nathan Ida)
Solution Manual Engineering Electromagnetics (Kenneth Demarest)
Solution Manual Engineering Electromagnetics (Umran S. Inan & Aziz Inan)
Solution Manual Field and Wave Electromagnetics (1st Ed., David Cheng)
Solution Manual Fundamentals of Engineering Electromagnetics (David Cheng)
Solution Manual Information Modeling and Relational Databases (2nd Ed., Terry Halpin & Tony Morgan)
Solution Manual Probability, Statistics, and Random Processes For Electrical Engineering (3rd Ed., Alberto Leon-Garcia)
Solution Manual Detection and Estimation Theory (Thomas Schonhoff & Arthur Giordano)
Solution Manual The Intel Microprocessors (8th Ed., Barry B. Brey)
Solution Manual Wireless Networking (Kumar, Manjunath & Kuri)
Solution Manual Wireless Communications : Principles and Practice (2nd Ed., Theodore S. Rappaport)
Solution Manual Digital Electronics and Design with VHDL (Volnei A. Pedroni)
Solution Manual System-on-Chip Test Architectures : Nanometer Design for Testability (Wang, Stroud & Touba)
Solution Manual Digital Design (Verilog) : An Embedded Systems Approach Using Verilog (Peter Ashenden)

Solution Manual Digital Design (VHDL) : An Embedded Systems Approach Using VHDL (Peter Ashenden)
Solution Manual Computer Organization and Design : The Hardware/ Software Interface (3rd Ed., Patterson & Hennessy)
Solution Manual Computer Organization and Design : The Hardware/ Software Interface (4th Ed., Patterson & Hennessy)
Solution Manual Fundamentals of Computer Organization and Design (Sivarama P. Dandamudi)
Solution Manual Wireless Communications & Networking (Vijay Garg)
Solution Manual Network Flows : Theory, Algorithms, and Applications (Ravindra K. Ahuja, Thomas L. Magnanti, James B. Orlin)
Solution Manual Network Analysis, Architecture, and Design (3rd Ed., James McCabe)
Solution Manual Computer Networks : A Systems Approach (4th Ed., Peterson & Davie)
Solution Manual Computer Networks ISE : A Systems Approach (4th Ed., Peterson & Davie)
Solution Manual Digital Design and Computer Architecture (David Harris & Sarah Harris)
Solution Manual Fault-Tolerant Systems (Israel Koren & C. Krishna)
Solution Manual Computer Architecture : Pipelined and Parallel Processor Design (Michael J. Flynn)
Solution Manual Computer Architecture : A Quantitative Approach (4th Ed., Hennessy & Patterson)
Solution Manual High-Performance Embedded Computing : Architectures, Applications, and Methodologies (Wayne Wolf)
Solution Manual Pattern Recognition (3rd Ed., Theodoridis & Koutroumbas)
Solution Manual Pattern Recognition (4th Ed., Theodoridis & Koutroumbas)
Solution Manual Data Mining : Concepts and Techniques (2nd Ed., Han & Kamber)
Solution Manual Commonsense Reasoning (Erik Mueller)
Solution Manual Introduction to Data Compression (3rd Ed., Khalid Sayood)
Solution Manual Programming Language Pragmatics (2nd Ed., Michael Scott)
Solution Manual Programming Language Pragmatics (3rd Ed., Michael Scott)
Solution Manual Computer Graphics for Java Programmers (2nd Ed., Leen Ammeraal & Kang Zhang)
Solution Manual Database Modeling and Design : Logical Design (4th Ed., Teorey, Lightstone & Nadeau)
Solution Manual Computers As Components : Principles of Embedded Computing System Design (1st Ed., Wayne Wolf)
Solution Manual Computers As Components : Principles of Embedded Computing System Design (2nd Ed., Wayne Wolf)
Solution Manual Virtual Machines : Versatile Platforms for Systems and Processes (Jim Smith & Ravi Nair)
Solution Manual Comprehensive Functional Verification : The Complete Industry Cycle (Wile, Goss & Roesner)
Solution Manual User Interface Design and Evaluation (Stone, Jarrett, Woodroffe & Minocha)

Solution Manual Network Algorithmics : An Interdisciplinary Approach to Designing Fast Networked Devices (George Varghese)
Solution Manual Data Modeling Essentials (3rd Ed., Simsion & Witt)
Solution Manual A Student Guide to Object-Oriented Development (Carol Britton & Jill Doake)
Solution Manual Routing, Flow, and Capacity Design in Communication and Computer Networks (Pioro & Medhi)
Solution Manual Knowledge Representation and Reasoning (Brachman & Levesque)
Solution Manual Communication Networking : An Analytical Approach (Anurag Kumar, D. Manjunath & Joy Kuri)
Solution Manual Principles and Practices of Interconnection Networks (Dally & Towles)
Solution Manual Game Physics (David Eberly)
Solution Manual Engineering a Compiler (Keith Cooper & Linda Torczon)
Solution Manual Constraint Processing (Rina Dechter)
Solution Manual Design Methods for Reactive Systems : Yourdon, Statemate, and the UML (R. J. Wieringa)
Solution Manual Temporal Data & the Relational Model (C.J. Date, Darwen & Lorentzos)
Solution Manual Java Made Simple (2nd Ed., P. K. McBride)
Solution Manual The Firmware Handbook (Jack Ganssle)
Solution Manual Optical Networks : A Practical Perspective (2nd Ed., Ramaswami & Sivarajan)
Solution Manual Optical Networks : A Practical Perspective (3rd Ed., Ramaswami, Sivarajan & Sasaki)
Solution Manual Usability Engineering : Scenario-Based Development of Human-Computer Interaction (Rosson & Carroll)
Solution Manual The Designer's Guide to VHDL (2nd Ed., Peter Ashenden)
Solution Manual Transactional Information Systems : Theory, Algorithms, and the Practice of Concurrency Control and Recovery (Weikum & Vossen)
Solution Manual Parallel Computer Architecture : A Hardware/Software Approach (Culler, Singh & Gupta)
Solution Manual Advanced Compiler Design and Implementation (Steven Muchnick)
Solution Manual Parallel Programming with MPI (Peter Pacheco)
Solution Manual An Introduction to Parallel Programming (Peter Pacheco)
Solution Manual Distributed Algorithms (Nancy Lynch)
Solution Manual Electrical and Electronic : Principles and Technology (3rd Ed., John Bird)
Solution Manual Electrical and Electronic : Principles and Technology (4th Ed., John Bird)
Solution Manual Electrical Circuit Theory and Technology (3rd Ed., John Bird)
Solution Manual Electrical Circuit Theory and Technology (4th Ed., John Bird)
Solution Manual Electronic Circuits : Fundamentals & Applications (3rd Ed., Mike Tooley)
Solution Manual A Practical Guide to SysML : The Systems Modeling Language (Friedenthal, Moore & Steiner)
Solution Manual Multidimensional Signal, Image, and Video Processing

and Coding (John Woods)
Solution Manual Multidimensional Signal, Image, and Video Processing and Coding (2nd Ed., John Woods)
Solution Manual Bioelectrical Signal Processing in Cardiac and Neurological Applications (Leif S=F6rnmo & Pablo Laguna)
Solution Manual Foundations of Analog and Digital Electronic Circuits (Anant Agarwal & Jeffrey Lang)
Solution Manual Introduction to Linear Circuit Analysis and Modelling : From DC to RF (Luis Moura & Izzat Darwazeh)
Solution Manual Embedded Systems Architecture : A Comprehensive Guide for Engineers and Programmers (Tammy Noergaard)
Solution Manual Bioimpedance and Bioelectricity Basics (2nd Ed., Grimnes & Martinsen)
Solution Manual Simulation with Arena (5th Ed., Kelton, Sadowski & Swets)
Solution Manual Simulation Modeling and Analysis with ARENA (Tayfur Altiok & Benjamin Melamed)
Solution Manual The Visual Story : Creating the Visual Structure of Film, TV and Digital Media (2nd Ed., Bruce Block)
Solution Manual The Shut Up and Shoot Documentary Guide : A Down & Dirty DV Production (Anthony Artis)
Solution Manual Portable Video : ENG & EFP (5th Ed., Medoff & Fink)
Solution Manual Voice and Vision : A Creative Approach to Narrative Film and DV Production (Mick Hurbis-Cherrier)
Solution Manual Writing for Multimedia and the Web : A Practical Guide to Content Development for Interactive Media (3rd Ed., Timothy Garrand)
Solution Manual Developing and Maintaining a Design-Tech Portfolio : A Guide for Theatre, Film & TV (Rafael Jaen)
Solution Manual Producing for TV and Video : A Real-World Approach (Cathrine Kellison)
Solution Manual Producing for TV and New Media : A Real-World Approach for Producers (2nd Ed., Cathrine Kellison)
Solution Manual Placing Shadows : Lighting Techniques for Video Production (3rd Ed., Gloman & Tom LeTourneau)
Solution Manual Film Directing Fundamentals : See Your Film Before Shooting (3rd Ed., Nicholas Proferes)
Solution Manual Introduction to Media Production : The Path to Digital Media Production (3rd Ed., Musburger & Kindem)
Solution Manual Introduction to Media Production : The Path to Digital Media Production (4th Ed., Kindem & Musburger)
Solution Manual Directing the Documentary (5th Ed., Michael Rabiger)
Solution Manual Video Production Handbook (4th Ed., Gerald Millerson & Jim Owens)
Solution Manual Making Media : Foundations of Sound and Image Production (Jan Roberts-Breslin)
Solution Manual Prepare to Board! Creating Story and Characters for Animation Features and Shorts (Nancy Beiman)
Solution Manual Light and Lens : Photography in the Digital Age (Robert Hirsch)
Solution Manual The Radio Station : Broadcast, Satellite & Internet (7th Ed., Michael Keith)
Solution Manual Developing Story Ideas (2nd Ed., Michael Rabiger)

Solution Manual Radio Production Worktext : Studio and Equipment (5th Ed., Reese, Gross & Gross)
Solution Manual Broadcast News Writing, Reporting, and Producing (4th Ed., Ted White)
Solution Manual Problem Solving and Programming Concepts (7th Ed., Sprankle)
Solution Manual Problem Solving and Programming Concepts (8th Ed., Sprankle & Hubbard)
Solution Manual A Balanced Introduction to Computer Science (2nd Ed., David Reed)
Solution Manual Introduction to Computing and Programming with Java : A Multimedia Approach (Guzdial & Ericson)
Solution Manual Starting Out with Programming Logic and Design (Tony Gaddis)
Solution Manual Starting Out with Programming Logic and Design (2nd Ed., Tony Gaddis)
Solution Manual Tools For Structured and Object-Oriented Design (7th Ed., Bohl & Rynn)
Solution Manual Programming with Alice and Java (Lewis & DePasquale)
Solution Manual e-Business and e-Commerce How to Program (Harvey M. Deitel, Paul J. Deitel, Tem R. Nieto)
Solution Manual XML How to Program (Harvey M. Deitel, Paul J. Deitel, Tem R. Nieto, Ted Lin, Praveen Sadhu)
Solution Manual Python How to Program (Harvey M. Deitel, Paul J. Deitel, Jonathan P. Liperi Ben Wiedermann)
Solution Manual Perl How to Program (Harvey M. Deitel, Paul J. Deitel, Tem R. Nieto, D. C. McPhie)
Solution Manual C How to Program (4th Ed., Harvey & Paul Deitel)
Solution Manual C How to Program (5th Ed., Harvey & Paul Deitel)
Solution Manual C++ How to Program (6th Ed., Harvey & Paul Deitel)
Solution Manual Visual Basic.NET How to Program (2nd Ed., Harvey M. Deitel, Paul J. Deitel, Tem R. Nieto)
Solution Manual Visual C++ 2008 How to Program (2nd Ed., Harvey & Paul Deitel)
Solution Manual Internet & World Wide Web : How to Program (4th Ed., Harvey & Paul Deitel)
Solution Manual Web Technologies : A Computer Science Perspective (Jeffrey C. Jackson)
Solution Manual Mastering the Internet, XHTML and JavaScript (2nd Ed., Ibrahim Zeid)
Solution Manual Weaving a Website : Programming in HTML, Java Script, Perl and Java (Susan Anderson-Freed)
Solution Manual Simply C++ : An Application-Driven Tutorial Approach (Harvey & Paul Deitel)
Solution Manual Visual C# 2005 How to Program (2nd Ed., Harvey & Paul Deitel)
Solution Manual Visual C# 2008 How to Program (3rd Ed., Harvey & Paul Deitel)
Solution Manual Visual C# 2010 How to Program (4th Ed., Harvey & Paul Deitel)
Solution Manual Simply C# : An Application-Driven Tutorial Approach (Harvey & Paul Deitel, Hoey & Yaeger)
Solution Manual Java : An Introduction to Problem Solving and

Programming (4th Ed., Walter Savitch)
Solution Manual Java : An Introduction to Problem Solving and Programming (5th Ed., Savitch & Carrano)
Solution Manual Introduction to Computing and Programming with Java : A Multimedia Approach (Guzdial & Ericson)
Solution Manual Java How to Program (7th Ed., Harvey & Paul Deitel)
Solution Manual Java How to Program : Early Objects Version (8th Ed., Paul Deitel)
Solution Manual Java How to Program : Late Objects Version (8th Ed., Paul Deitel)
Solution Manual Java For Students (5th Ed., Bell & Parr)
Solution Manual Java, Java, Java, Object-Oriented Problem Solving (3rd Ed., Morelli & Walde)
Solution Manual Java : An Eventful Approach (Bruce, Danyluk & Murtagh)
Solution Manual Introduction to Java Programming with JBuilder (3rd Ed., Y. Daniel Liang)
Solution Manual Starting Out with Visual Basic 2008 (4th Ed., Gaddis & Irvine)
Solution Manual Starting Out with Visual Basic 2010 (5th Ed., Gaddis & Irvine)
Solution Manual Starting Out with Python (Tony Gaddis)
Solution Manual Object-Oriented Programming in Python (Goldwasser & Letscher)
Solution Manual Introduction to MathCAD 11 (Ronald W. Larsen)
Solution Manual Introduction to MathCAD 13 (2nd Ed., Ronald W. Larsen)
Solution Manual MatLAB Programming (David Kuncicky)
Solution Manual Introduction to Maple 8 (David Schwartz)
Solution Manual Introduction to FORTRAN 90 (2nd Ed., Larry R. Nyhoff & Sanford Leestma)
Solution Manual Fortran 95/2003 Scientists and Engineers (3rd Ed., Stephen J. Chapman)
Solution Manual Introduction to Java (Stephen J. Chapman)
Solution Manual Java Software Solutions for AP Computer Science A (2nd Ed., Lewis, Loftus & Cocking)
Solution Manual Business Data Networks and Telecommunications (6th Ed., Raymond R. Panko)
Solution Manual Business Data Networks and Telecommunications (7th Ed., Raymond R. Panko)
Solution Manual Business Data Communications (Allen Dooley)
Solution Manual Object-Oriented Programming in C++ (4th Ed., Robert Lafore)
Solution Manual C++ : Classes and Data Structures (Jeffrey Childs)
Solution Manual Data Structures Outside-In with Java (Sesh Venugopal)
Solution Manual Data Structures and Abstractions with Java (2nd Ed., Frank M. Carrano)
Solution Manual Data Structures and Algorithms in Java (Peter Drake)
Solution Manual Practical Introduction to Data Structures and Algorithm Analysis : C++ Edition (2nd Ed., Clifford A. Shaffer)
Solution Manual Computer Vision : A Modern Approach (David Forsyth & Jean Ponce)
Solution Manual Computer Graphics Using Java 2D and 3D (Hong Zhang & Y. Daniel Liang)
Solution Manual Computer Graphics Using OpenGL (3rd Ed., Francis Hill

Jr. & Stephen Kelley)
Solution Manual Computer Graphics with OpenGL (3rd Ed., Donald Hearn & M. Pauline Baker)
Solution Manual User-Centered Web Site Development : A Human-Computer Interaction Approach (McCracken & Wolfe)
Solution Manual Fundamentals of Game Design (Ernest Adams & Andrew Rollings)
Solution Manual Introduction to The Game Industry (Moore & Sward)
Solution Manual Fundamentals of Math and Physics for Game Programmers (Wendy Stahler)
Solution Manual Usability Engineering : Process, Products & Examples (Laura Leventhal & Julie Barnes)
Solution Manual Web Usability : A User-Centered Design Approach (Jonathan Lazar)
Solution Manual Structured Computer Organization (5th Ed., Andrew S. Tanenbaum)
Solution Manual Assembly Language for Intel-Based Computers (5th Ed., Kip Irvine)
Solution Manual Assembly Language for x86 Processors (6th Ed., Kip R. Irvine)
Solution Manual Fundamentals of Multimedia (Ze-Nian Li & Mark Drew)
Solution Manual Digital Media Primer (Yue-Ling Wong)
Solution Manual Essentials for Design Macromedia Director MX 2004 Comprehensive (Tara Gray)
Solution Manual Modern Systems Analysis and Design (4th Ed., Jeffrey Hoffer, Joey George, & Joseph Valacich)
Solution Manual Modern Systems Analysis and Design (5th Ed., Jeffrey Hoffer, Joey George, & Joseph Valacich)
Solution Manual Modern Systems Analysis and Design (6th Ed., Jeffrey Hoffer, Joey George, & Joseph Valacich)
Solution Manual Modern Database Management (8th Ed., Hoffer, Prescott & Topi)
Solution Manual Modern Database Management (9th Ed., Hoffer, Prescott & Topi)
Solution Manual Modern Database Management (10th Ed., Hoffer, Ramesh & Topi)
Solution Manual Database Systems Using Oracle (2nd Ed., Nilesh Shah)
Solution Manual An Advanced Course in Database Systems : Beyond Relational Databases (Dietrich & Urban)
Solution Manual Data and Text Mining : A Business Applications Approach (Thomas Miller)
Solution Manual Network Management : Concepts and Practice, A Hands-On Approach (J. Richard Burke)
Solution Manual Computer and Communication Networks (Nader F. Mir)
Solution Manual High Performance TCP/IP Networking (Mahbub Hassan & Raj Jain)
Solution Manual Computer Security : Principles and Practice (William Stallings & Lawrie Brown)
Solution Manual Computer Forensics : Principles and Practices (Volonino, Anzaldua & Godwin)
Solution Manual Disaster Recovery : Principles and Practices (April Wells, Charlyne Walker & Timothy Walker)
Solution Manual Firewalls and VPNs : Principles and Practices (Richard

Tibbs & Edward Oakes)
Solution Manual Network Defense and Countermeasures : Principles and Practices (Chuck Easttom)
Solution Manual Corporate Computer and Network Security (1st Ed., Raymond Panko)
Solution Manual Corporate Computer and Network Security (2nd Ed., Raymond Panko)
Solution Manual IP Telephony Using CallManager Express Lab Portfolio (Cheryl Schmidt & Ernie Friend)
Solution Manual High-Speed Networks and Internets : Performance and Quality of Service (2nd Ed., William Stallings)
Solution Manual Object-Oriented Modeling and Design with UML (2nd Ed., Michael Blaha & James Rumbaugh)
Solution Manual Operating Systems : Internals and Design Principles (5th Ed., William Stallings)
Solution Manual Operating Systems : Internals and Design Principles (6th Ed., William Stallings)
Solution Manual Distributed Systems : Principles and Paradigms (2nd Ed., Tanenbaum & Van Steen)
Solution Manual Modern Operating Systems (3rd Ed., Andrew Tanenbaum)
Solution Manual Computer Networks (4th Ed., Andrew S. Tanenbaum)
Solution Manual Computer Networks (5th Ed., Andrew S. Tanenbaum, David J. Wetherall)
Solution Manual Operating Systems Design and Implementation (3rd Ed., Andrew Tanenbaum & Albert Woodhull)
Solution Manual UNIX Unbounded : A Beginning Approach (5th Ed., Amir Afzal)
Solution Manual Introduction to Operating Systems and Networks (Ruth Watson)
Solution Manual Operating Systems (3rd Ed., Harvey Deitel, Paul Deitel & David Choffnes)
Solution Manual Operating Systems Principles (Lubomir Bic & Alan Shaw)
Solution Manual A Practical Guide to Linux : Commands, Editors, and Shell Programming (Mark Sobell)
Solution Manual A Practical Guide to Red Hat Linux : Fedora Core and Red Hat Enterprise Linux (2nd Ed., Mark Sobell)
Solution Manual A Practical Guide to Red Hat Linux : Fedora Core and Red Hat Enterprise Linux (3rd Ed., Mark Sobell)
Solution Manual A Practical Guide to Fedora and Red Hat Enterprise Linux: College Edition (Mark Sobell)
Solution Manual A Practical Guide to Ubuntu Linux (Mark Sobell)
Solution Manual Automata, Computability and Complexity : Theory and Applications (Elaine Rich)
Solution Manual Modern Digital Electronics (R.P. Jain)
Solution Manual Linear Systems and Signals (B.P. Lathi)
Solution Manual Modern Digital and Analog Communications Systems (3rd Ed., B. P. Lathi)
Solution Manual Introduction to Digital Systems (Milo D. Ercegovac, Lang & Moreno)
Solution Manual Embedded Systems : Architechture, Programming and Design (Raj Kamal)
Solution Manual Modern Power System Analysis (D. P. Kothari & I. J. Nagrath)

Solution Manual Basic Electrical Engineering (2nd Ed., D.P. Kothari, I.J. Nagrath)
Solution Manual Electric Machines (3rd Ed., D.P. Kothari, I.J. Nagrath)
Solution Manual Circuits and Networks (A. Sudhakar & S. Palli Shyammohan)
Solution Manual Electrical and Electronic Technology (9th Ed., Edward Hughes, John Hiley, Keith Brown & Ian McKenzie-Smith)
Solution Manual Electrical and Electronic Technology (10th Ed., Edward Hughes, John Hiley, Keith Brown & Ian McKenzie-Smith)
Solution Manual Electric Motors and Drives : Fundamentals, Types and Applications (3rd Ed., Austin Hughes)
Solution Manual Modern Processor Design : Fundamentals of Superscalar Processors (John P. Shen)
Solution Manual Computer Networks : Principles, Technologies and Protocols for Network Design (N. Olifer & V. Olifer)
Solution Manual Computer Networking : Internet Protocols in Action (Jeanna Matthews)
Solution Manual Computer Organization (5th Ed., Hamacher et al.)
Solution Manual CMOS Digital Integrated Circuits : Analysis and Design (3rd Ed., Sung-Mo Kang & Yusuf Leblebici)
Solution Manual Introduction to Logic Design (1st Ed., Alan B Marcovitz)
Solution Manual Introduction to Logic Design (2nd Ed., Alan B Marcovitz)
Solution Manual Introduction to Logic Design (3rd Ed., Alan B Marcovitz)
Solution Manual Introduction to Logic and Computer Design (Alan B Marcovitz)
Solution Manual Digital Principles and Design (Donald D. Givone)
Solution Manual Programmable Logic Controllers (3rd Ed., Frank Petruzella)
Solution Manual Programmable Logic Controllers (4th Ed., Frank Petruzella)

List of Solutions Manuals and Test Banks

contact me to :   mattosbw1@gmail.com
mattosbw1(at)gmail.com

NOTE : "THIS SERVICE IS NOT AVAILABLE FOR :   CHINA, INDIA, RUSSIA, PAKISTAN, IRAQ, IRAN, PHILIPPINES, NORTH KOREA, NEPAL, BANGLADESH, SRI LANKA, MALDIVES, BHUTAN & COLOMBIA".

If your wanted solutions manual is not in this list, also can ask me if is available (it is a partial list). Then if you need solutions manual only contact me by email.

"ARE NOT AVAILABLES BOOKS IN DIGITAL FORMAT", ONLY SOLUTIONS MANUALS AND TEST BANKS.

I do not review the forums, just send me an email. Please do not use emails from servers "LIVE" , all they are take as spam emails in my inbox.

- Math, Statistics & Probability :

Solution manual Advanced Engineering Mathematics (8th Ed., Erwin Kreyszig)
Solution manual Advanced Engineering Mathematics (9th Ed., Erwin Kreyszig)
Solution manual Advanced Engineering Mathematics (10th Ed., Erwin Kreyszig)
Solution manual Advanced Engineering Mathematics (2nd Ed, Michael Greenberg)
Solution manual Advanced Engineering Mathematics (6th Ed., Peter O'Neil)
Solution manual Statistics and Finance : An Introduction (David Ruppert)
Solution manual Statistics and Data Analysis for Financial Engineering (David Ruppert)
Solution Manual Mathematical Statistics for Economics and Business (Ron C. Mittelhammer)
Solution manual Advanced Modern Engineering Mathematics (3rd Ed., Glyn James)
Solution manual Modern Engineering Mathematics (4th Ed., Glyn James)
Solution manual Differential Equations and Dynamical Systems (3rd Ed., Lawrence Perko)
Solution manual Introductory Differential Equations with Boundary Value Problems (3rd Ed., Martha Abell & James Braselton)
Solution manual A Modern Introduction to Differential Equations (2nd Ed., Henry J. Ricardo)
Solution manual Elementary Differential Equations (7th Ed., Boyce)
Solution manual Elementary Differential Equations (8th Ed., Boyce & Diprima)
Solution manual Elementary Differential Equations (9th Ed., Boyce & Diprima)
Solution manual Elementary Differential Equations and Boundary Value Problems (7th Ed., Boyce & Diprima)
Solution manual Elementary Differential Equations and Boundary Value Problems (8th Ed., Boyce & Diprima)

Solution manual Elementary Differential Equations and Boundary Value Problems (9th Ed., Boyce & Diprima)
Solution manual Differential Equations : An Introduction to Modern Methods and Applications (James Brannan & William Boyce)
Solution manual Differential Equations with Boundary Value Problems : An Introduction to Modern Methods and Applications (James Brannan & William Boyce)
Solution manual An Introduction to Mathematical Cryptography (J. Hoffstein, J. Pipher, J.H. Silverman)
Solution manual Advanced Calculus : A Transition to Analysis (Thomas Dence & Joseph Dence)
Solution manual Calculus : Early Transcendentals Combined (8th Ed., Anton, Bivens & Davis)
Solution manual Calculus : Early Transcendentals Combined (9th Ed., Anton, Bivens & Davis)
Solution manual Calculus : Multivariable (8th Ed., Anton, Bivens & Davis)
Solution manual Calculus : Multivariable (9th Ed., Anton, Bivens & Davis)
Solution manual Calculus : Early Transcendentals Single Variable (8th Ed., Anton, Bivens & Davis)
Solution manual Calculus : Early Transcendentals Single Variable (9th Ed., Anton, Bivens & Davis)
Solution manual Calculus : Late Transcendentals Combined (8th Ed., Anton, Bivens & Davis)
Solution manual Calculus : Late Transcendentals Combined (9th Ed., Anton, Bivens & Davis)
Solution manual Calculus : Late Transcendentals Single Variable (8th Ed., Anton, Bivens & Davis)
Solution manual Calculus : Late Transcendentals Single Variable (9th Ed., Anton, Bivens & Davis)
Solution manual Introduction to the Finite Element Method : Theory, Programming and Applications (Erik G. Thompson)
Solution manual A Physicist's Guide to Mathematica (2nd Ed., Patrick Tam)
Solution manual Mathematics for Engineers : A Modern Interactive Approach (3rd., Anthony Croft & Robert Davison)
Solution manual Measurement and Data Analysis for Engineering and Science (Patrick F Dunn)
Solution manual Elementary Linear Algebra (4th Ed., Stephen Andrilli & David Hecker)
Solution manual Elementary Linear Algebra Edition Abridged (9th Ed., Anton & Rorres)
Solution manual Elementary Linear Algebra (9th Ed., Anton)
Solution manual Elementary Linear Algebra with Applications (9th Ed., Anton & Rorres)
Solution manual Boundary Value Problems and Partial Differential Equations (6th Ed., David Powers)
Solution manual Introductory Statistics : Using Technology (5th Ed., Prem S. Mann)
Solution manual Introductory Statistics (6th Ed., Prem S. Mann)
Solution manual Introductory Statistics (7th Ed., Prem S. Mann)
Solution manual Basic Real Analysis (Houshang H. Sohrab)

Solution manual Modern Algebra : An Introduction (6th Ed., John Durbin)
Solution manual The Art and Craft of Problem Solving (2nd Ed., Paul Zeitz)
Solution manual Numerical Linear Algebra (Gr=E9goire Allaire, Sidi Mahmoud Kaber, K. Trabelsi)
Solution manual Introductory Statistics for the Behavioral Sciences (6th Ed., Welkowitz, Cohen & Ewen)
Solution manual Statistics : Principles and Methods (5th Ed., Richard Johnson)
Solution manual Statistics : Principles and Methods (6th Ed., Richard Johnson)
Solution manual Statistical Bioinformatics : with R (Sunil K. Mathur)
Solution manual Parameter Estimation and Inverse Problems (Richard Aster, Brian Borchers & Clifford Thurber)
Solution manual Codes : An Introduction to Information Communication and Cryptography (Norman L. Biggs)
Solution manual Geometry and Its Applications (2nd Ed., Walter A. Meyer)
Solution manual Elementary Differential Geometry (2nd Ed., A.N. Pressley)
Solution manual Fractal Geometry : Mathematical Foundations and Applications (2nd Ed., Kenneth Falconer)
Solution manual Analytical and Computational Methods of Advanced Engineering Mathematics (Grant B. Gustafson & Calvin H. Wilcox)
Solution manual How to Read and Do Proofs : An Introduction to Mathematical Thought Processes (4th Ed., Daniel Solow)
Solution manual How to Read and Do Proofs : An Introduction to Mathematical Thought Processes (5th Ed., Daniel Solow)
Solution manual A Probability Path (Sidney Resnick)
Solution manual Probability, Reliability, and Statistical Methods in Engineering Design (Achintya Haldar, Sankaran Mahadevan)
Solution manual An Engineers Guide to MATLAB (3rd Ed., Magrab, Azarm, Balachandran, Duncan, Herold & Walsh)
Solution manual Intuitive Probability and Random Processes using MATLAB (Steven Kay)
Solution manual Modeling Random Processes for Engineers and Managers (James Solberg)
Solution manual Probability and Random Processes with Applications to Signal Processing (3rd Ed., Henry Stark & John W. Woods)
Solution manual Probability, Statistics, and Random Processes for Engineers (4th Ed., Henry Stark & John W. Woods)
Solution manual Probability, Statistics, and Random Processes For Electrical Engineering (3rd Ed., Alberto Leon-Garcia)
Solution manual Probability Concepts in Engineering : Emphasis on Applications to Civil and Environmental Engineering (2nd Ed., Ang & Tang)
Solution manual Applied Statistics for Engineers and Physical Scientists (3rd Ed., Johannes Ledolter & Robert Hogg)
Solution manual Applied Statistics and Probability for Engineers (3rd Ed., Montgomery & Runger)
Solution manual Applied Statistics and Probability for Engineers (4th Ed., Montgomery & Runger)

Solution manual Applied Statistics and Probability for Engineers (5th Ed., Montgomery & Runger)
Solution manual Engineering Statistics (3rd Ed., Montgomery, Runger & Hubele)
Solution manual Engineering Statistics (4th Ed., Montgomery, Runger & Hubele)
Solution manual Engineering Statistics (5th Ed., Montgomery, Runger & Hubele)
Solution manual Introduction to Statistical Quality Control (5th Ed., Montgomery)
Solution manual Introduction to Statistical Quality Control (6th Ed., Montgomery)
Solution manual Calculus : One Variables (10th Ed., Salas, Hille, Etgen)
Solution manual Calculus : One and Several Variables (8th Ed., Salas, Hille, Etgen)
Solution manual Calculus : One and Several Variables (10th Ed., Salas, Hille, Etgen)
Solution manual Squaring the Circle : Geometry in Art and Architecture (Paul Calter)
Solution manual Technical Mathematics (5th Ed., Paul Calter & Michael Calter)
Solution manual Technical Mathematics with Calculus (5th Ed., Paul Calter & Michael Calter)
Solution manual Technical Mathematics with Calculus, Canadian Edition (Paul Calter & Michael Calter)
Solution manual Techniques of Problem Solving (Luis Fern=E1ndez, Haedeh Gooransarab)
Solution manual Probability and Statistics in Engineering (4th Ed., Hines, Montgomery, Goldsman & Borror)
Solution manual A First Course in Design and Analysis of Experiments (Gary W. Oehlert)
Solution manual Design and Analysis of Experiments (6th Ed., Douglas Montgomery)
Solution manual Design and Analysis of Experiments (7th Ed., Douglas Montgomery)
Solution Manual Experimental Methods for Engineers (8th Ed., Jack P. Holman)
Solution manual Introduction to Engineering Experimentation (2nd Ed., Wheeler & Ganji)
Solution manual Introduction to Engineering Experimentation (3rd Ed., Wheeler & Ganji)
Solution manual Introduction to the Design & Analysis of Experiments (Canavos & Koutrouvelis)
Solution manual Modern Methods For Quality Control and Improvement (2nd Ed., Wadsworth, Stephens, Godfrey)
Solution manual Essential Statistics for Economics, Business and Management (Teresa Bradley)
Solution manual Statistics and Econometrics : Methods and Applications (Ashenfelter, Levine & Zimmerman)
Solution manual Applied Combinatorics (5th Ed., Alan Tucker)
Solution manual Vector Calculus (Miroslav Lovric)
Solution manual Applied Multivariate Techniques (Subhash Sharma)

Solution manual Mathematical Modeling (3rd Ed., Mark Meerschaert)
Solution manual Discrete Mathematics : Mathematical Reasoning and Proof with Puzzles, Patterns, and Games (Douglas Ensley, J. Winston Crawley)
Solution manual Probability, Random Variables and Random Signal Principles (4th Ed., Peyton Z., Jr. Peebles)
Solution manual Introduction to C++, Excel MATLAB & Basic Engineering Numerical Methods V1.1 (Harvey Stenger & Charles Smith)
Solution manual Numerical Methods for Engineers and Scientists : An Introduction with Applications Using MATLAB (1st Ed., Amos Gilat & Vish Subramaniam)
Solution manual Numerical Methods for Engineers and Scientists : An Introduction with Applications Using MATLAB (2nd Ed., Amos Gilat & Vish Subramaniam)
Solution manual MATLAB : An Introduction with Applications (2nd Ed., Amos Gilat)
Solution manual MATLAB : An Introduction with Applications (3rd Ed., Amos Gilat)
Solution manual MATLAB : An Introduction with Applications (4th Ed., Amos Gilat)
Solution manual Matlab : A Practical Introduction to Programming and Problem Solving (Stormy Attaway)
Solution manual Matlab : A Practical Introduction to Programming and Problem Solving (2nd Ed., Stormy Attaway)
Solution manual Data, Statistics, and Decision Models with Excel (Harnett & Horrell)
Solution manual Understanding Analysis (Stephen Abbott)
Solution manual Time Series Analysis With Applications in R (2nd Ed., Jonathan D. Cryer & Kung-Sik Chan)
Solution manual Time Series Analysis and Its Applications : With R Examples (2nd Ed., Robert Shumway & David Stoffer)
Solution manual Doing Statistics for Business with Excel : Data, Inference, and Decision Making (2nd Ed. Pelosi & Sandifer)
Solution manual Engineering with Excel (3rd Ed., Ronald W. Larsen)
Solution manual Spreadsheet Tools for Engineers Using Excel 2007 (Byron Gottfried)
Solution manual Spreadsheet Tools for Engineers using Excel (2nd Ed. Byron Gottfried)
Solution manual Spreadsheet Tools for Engineers using Excel (3rd Ed. Byron Gottfried)
Solution manual Introduction to Matlab 7 (Etter, Kuncicky & Moore)
Solution manual Introduction to Matlab 6 for Engineers (1st Ed., William Palm III)
Solution manual Introduction to Matlab 7 for Engineers (2nd Ed., William Palm III)
Solution manual Introduction to Matlab for Engineers (3rd Ed., William Palm III)
Solution manual A Concise Introduction to MATLAB (William J Palm III)
Solution manual Numerical Methods for Engineers (Bilal M. Ayyub, Richard H. McCuen)
Solution manual Numerical Methods for Engineers (4th Ed. Steven Chapra, Raymond Canale)
Solution manual Numerical Methods for Engineers (5th Ed. Steven

Chapra, Raymond Canale)
Solution manual Numerical Methods for Engineers (6th Ed. Steven Chapra, Raymond Canale)
Solution manual Applied Numerical Methods with MATLAB for Engineers and Scientists (1st Ed., Steven Chapra)
Solution manual Applied Numerical Methods with MATLAB for Engineers and Scientists (2nd Ed., Steven Chapra)
Solution manual Applied Numerical Methods with MATLAB for Engineers and Scientists (3rd Ed., Steven Chapra)
Solution manual MATLAB for Engineers (1st Ed., Holly Moore)
Solution manual MATLAB for Engineers (2nd Ed., Holly Moore)
Solution manual Statistics for Engineers and Scientists (1st Ed., William Navidi)
Solution manual Statistics for Engineers and Scientists (2nd Ed., William Navidi)
Solution manual Statistics for Engineers and Scientists (3rd Ed., William Navidi)
Solution manual Principles of Statistics for Engineers and Scientists (William Navidi)
Solution manual Probability (Jim Pitman)
Solution manual Basic Probability Theory (Robert B. Ash)
Solution manual An Introduction to Stochastic Modeling (3rd Ed., Samuel Karlin & Howard M. Taylor)
Solution manual An Introduction to Stochastic Modeling (4th Ed., Mark Pinsky & Samuel Karlin)
Solution manual Stochastic Calculus for Finance (Steven E. Shreve)
Solution manual Markov Processes for Stochastic Modeling (Oliver Ibe)
Solution manual Mathematical Statistics with Applications (K.M. Ramachandran & Chris Tsokos)
Solution manual Probability : A Graduate Course (Allan Gut)
Solution manual Linear Algebra Done Right (2nd Ed., Sheldon Axler)
Solution manual Precalculus : A Prelude to Calculus (Sheldon Axler)
Solution manual Statistics for Business (Derek Waller)
Solution manual An Introduction to the Mathematics of Financial Derivatives (2nd Ed., Salih Neftci)
Solution manual Elementary Number Theory with Applications (2nd Ed., Thomas Koshy)
Solution manual Introduction to Probability Models (9th Ed., Sheldon Ross)
Solution manual Introduction to Probability Models (10th Ed., Sheldon Ross)
Solution manual Introductory Statistics (2nd Ed., Sheldon Ross)
Solution manual Introductory Statistics (3rd Ed., Sheldon Ross)
Solution manual Introduction to Probability and Statistics for Engineers and Scientists (4th Ed., Sheldon Ross)
Solution manual Basic Mathematics through Applications (4th Ed. by Akst, Bragg)
Solution manual Developmental Mathematics (6th Ed., Bittinger & Beecher)
Solution manual Developmental Mathematics (7th Ed., Bittinger & Beecher)
Solution manual Developmental Mathematics : Basic Mathematics and Algebra (1st Ed., Lial, Hornsby, McGinnis, Salzman & Hestwood)

Solution manual Developmental Mathematics : Basic Mathematics and Algebra (2nd Ed., Lial, Hornsby, McGinnis, Salzman & Hestwood)
Solution manual Essential Mathematics (2nd Ed., Margaret Lial & Stanley Salzman)
Solution manual Essential Mathematics (3rd Ed., Margaret Lial & Stanley Salzman)
Solution manual Prealgebra & Introductory Algebra (2nd Ed. by Elayn El Martin-Gay)
Solution manual Prealgebra (5th Ed., Bittinger, Ellenbogen & Johnson)
Solution manual Prealgebra (5th Ed., Elayn El Martin-Gay)
Solution manual Prealgebra : An Integrated Approach (Lial & Hestwood)
Solution manual Integrated Arithmetic and Basic Algebra (4th Ed., Jordan & Palow)
Solution manual Introductory Algebra through Applications (1st Ed., Akst & Bragg)
Solution manual Introductory Algebra through Applications (2nd Ed., Akst & Bragg)
Solution manual Beginning Algebra (10th Ed., Lial, Hornsby & McGinnis)
Solution manual Elementary Algebra Early Graphing for College Students (3rd Ed., Allen R. Angel)
Solution manual Intermediate Algebra with Applications & Visualization (3rd Ed., Rockswold & Krieger)
Solution manual Intermediate Algebra (10th Ed., Lial, Hornsby & McGinnis)
Solution manual Beginning and Intermediate Algebra (4th Ed., Lial, Hornsby & McGinnis)
Solution manual Elementary and Intermediate Algebra : Graphs & Models (3rd Ed., Bittinger, Ellenbogen & Johnson)
Solution manual Algebra for College Students (4th Ed., Mark Dugopolski)
Solution manual Algebra for College Students (5th Ed., Mark Dugopolski)
Solution manual Algebra For College Students (6th Ed., Robert F Blitzer)
Solution manual Algebra for College Students (3rd Ed., Allen R. Angel)
Solution manual Algebra for College Students (6th Ed., Lial, Hornsby & McGinnis)
Solution manual Statistics, Data Analysis, and Decision Modeling (3rd Ed., James Evans)
Solution manual Statistics, Data Analysis, and Decision Modeling (4th Ed., James Evans)
Solution manual College Geometry : A Discovery Approach (2nd Ed., David Kay)
Solution manual College Geometry : Using The Geometer's Sketchpad - Preliminary Edition (Barbara Reynolds & William Fenton)
Solution manual College Geometry : A Problem Solving Approach with Applications (2nd Ed., Musser, Trimpe & Maurer)
Solution manual A Survey of Mathematics with Applications (8th Ed., Angel, Abbott & Runde)
Solution manual A Survey of Mathematics with Applications: Expanded Edition (8th Ed., Angel, Abbott & Runde)
Solution manual Mathematical Ideas (11th Ed., Miller, Heeren & Hornsby)

Solution manual Mathematical Ideas: Expanded Edition (11th Ed., Miller, Heeren & Hornsby)
Solution manual Mathematical Thinking : Problem-Solving and Proofs (2nd Ed., John P. D'Angelo & Douglas B. West)
Solution manual Thinking Mathematically (4th Ed., Robert F. Blitzer)
Solution manual Introduction to Mathematical Thinking: Algebra and Number Systems (Will J. Gilbert & Scott A. Vanstone)
Solution manual Mathematical Reasoning : Writing and Proof (1st Ed., Ted A. Sundstrom)
Solution manual Mathematical Reasoning : Writing and Proof (2nd Ed., Ted A. Sundstrom)
Solution manual Mathematical Reasoning for Elementary Teachers (4th Ed., Calvin T. Long & Duane W. DeTemple)
Solution manual Mathematical Reasoning for Elementary Teachers (5th Ed., Long, DeTemple & Millman)
Solution manual Mathematics for Elementary School Teachers (4th Ed., O'Daffer, Charles, Cooney, Dossey & Schielack)
Solution manual Mathematics for Elementary Teachers (2nd Ed., Sybilla Beckmann)
Solution manual Finite Mathematics and Calculus with Applications (7th Ed., Lial, Greenwell & Ritchey)
Solution manual Finite Mathematics and Calculus with Applications (8th Ed., Lial, Greenwell & Ritchey)
Solution manual Additional Calculus Topics (11th Ed., Barnett, Ziegler & Byleen)
Solution manual College Mathematics for Business, Economics, Life Sciences & Social Sciences (11th Ed., Barnett, Ziegler & Byleen)
Solution manual Introductory Mathematical Analysis for Business, Economics and the Life and Social Sciences (12th Ed., Haeussler, Paul & Wood)
Solution manual Finite Mathematics for Business, Economics, Life Sciences and Social Sciences (11th Ed., Barnett, Ziegler, Byleen)
Solution manual Finite Mathematics (9th Ed., Lial, Greenwell & Ritchey)
Solution manual Calculus and Its Applications (9th Ed., Bittinger & Ellenbogen)
Solution manual Calculus for Business, Economics, Life Sciences & Social Sciences (11th Ed., Barnett, Ziegler & Byleen)
Solution manual Calculus with Applications (9th Ed., Lial, Greenwell & Ritchey)
Solution manual Calculus with Applications : Brief Version (9th Ed., Lial, Greenwell & Ritchey)
Solution manual Concepts of Calculus with Applications (Martha Goshaw)
Solution manual University Calculus : Elements with Early Transcendentals (Hass, Weir & Thomas, Jr.)
Solution manual Thomas' Calculus, Early Transcendentals: Media Upgrade (11th Ed., Thomas Jr., Weir, Hass & Giordano)
Solution manual Thomas' Calculus: Media Upgrade (11th Ed., Thomas Jr., Weir, Hass & Giordano)
Solution manual University Calculus : Alternate Edition (Hass, Weir & Thomas, Jr.)
Solution manual Differential Equations Computing and Modeling (4th Ed., Edwards & Penney)

Solution manual Differential Equations and Boundary Value Problems : Computing and Modeling (4th Ed., Edwards & Penney)
Solution manual Elementary Differential Equations with Boundary Value Problems (6th Ed., Edwards & Penney)
Solution manual Elementary Differential Equations (6th Ed., Edwards & Penney)
Solution manual Fundamentals of Differential Equations (7th Ed., Nagle, Saff & Snider)
Solution manual Fundamentals of Differential Equations with Boundary Value Problems (5th Ed., Nagle, Saff & Snider)
Solution manual Differential Equations and Linear Algebra (3rd Ed., Goode & Annin)
Solution manual Discrete Mathematical Structures (6th Ed., Kolman, Busby & Ross)
Solution manual College Algebra Enhanced with Graphing Utilities (5th Ed., Sullivan & Sullivan III)
Solution manual College Algebra (10th Ed., Lial, Hornsby & Schneider)
Solution manual College Algebra : Graphs and Models (4th Ed., Bittinger, Beecher, Ellenbogen & Penna)
Solution manual College Algebra Essentials (8th Ed., Michael Sullivan)
Solution manual College Algebra (3rd Ed., Judith A. Beecher, Judith A. Penna & Marvin L. Bittinger)
Solution manual College Algebra (8th Ed., Michael Sullivan)
Solution manual College Algebra (9th Ed., Michael Sullivan)
Solution manual Algebra and Trigonometry for College Readiness (Margaret L. Lial & John Hornsby)
Solution manual Algebra and Trigonometry Enhanced with Graphing Utilities (5th Ed., Sullivan & Sullivan III)
Solution manual Algebra and Trigonometry : Graphs & Models (4th Ed., Bittinger, Beecher, Ellenbogen & Penna)
Solution manual Trigonometry : A Unit Circle Approach (8th Ed., Michael Sullivan)
Solution manual Precalculus (3rd Ed., Lial, Hornsby & Schneider)
Solution manual Precalculus (4th Ed., Lial, Hornsby & Schneider)
Solution manual Precalculus : Enhanced with Graphing Utilities (5th Ed., Sullivan & Sullivan III)
Solution manual Precalculus : Functions and Graphs (3rd Ed. Mark Dugopolski)
Solution manual Precalculus : Graphs & Models and Graphing (4th Ed., Bittinger, Beecher, Ellenbogen & Penna)
Solution manual Discrete and Combinatorial Mathematics (5th ed., Ralph P. Grimaldi)
Solution manual Discrete Mathematics (Sherwood Washburn, Thomas Marlowe & Charles T. Ryan)
Solution manual Discrete Mathematics (5th ed., John Dossey, Albert Otto, Lawrence Spence & Charles Vanden Eynden)
Solution manual Mathematics for New Technologies (Don Hutchison & Mark Yannotta)
Solution manual Fundamental Finite Element Analysis and Applications: with Mathematica and Matlab Computations (Asghar Bhatti)
Solution manual Advanced Topics in Finite Element Analysis of Structures: With Mathematica and MATLAB Computations (Asghar Bhatti)
Solution manual The Finite Element Method in Engineering (4th Ed., by

Rao)
Solution manual An Introduction to the Finite Element Method (3rd Ed., J. N. Reddy)
Solution manual Fundamentals of Finite Element Analysis (1st Ed., David V. Hutton)
Solution manual Simulation Modeling and Analysis (3rd Ed., Averill Law & David Kelton)
Solution manual Simulation Modeling and Analysis (4th Ed., Averill Law)
Solution manual The Finite Element Method : Its Basis and Fundamentals (6th Ed., Zienkiewicz, R. L. Taylor & J.Z. Zhu)
Solution manual Algebra : Form and Function (William McCallum, Eric Connally & Deborah Hughes-Hallett)
Solution manual Algebra : Form and Function, Preliminary Edition (William McCallum, Eric Connally & Deborah Hughes-Hallett)
Solution manual Applied Calculus (2nd Ed., Deborah Hughes-Hallett, et al.)
Solution manual Applied Calculus (3rd Ed., Deborah Hughes-Hallett, et al.)
Solution manual Applied Calculus (4th Ed., Deborah Hughes-Hallett, et al.)
Solution manual Calculus : Multivariable (3rd Ed., William G. McCallum, Deborah Hughes-Hallett, et al.)
Solution manual Calculus : Multivariable (4th Ed., William G. McCallum, Deborah Hughes-Hallett, et al.)
Solution manual Calculus : Multivariable (5th Ed., William G. McCallum, Deborah Hughes-Hallett, et al.)
Solution manual Calculus : Single Variable (3rd Ed., Deborah Hughes-Hallett, Andrew M. Gleason, et al.)
Solution manual Calculus : Single Variable (4th Ed., Deborah Hughes-Hallett, Andrew M. Gleason, et al.)
Solution manual Calculus : Single Variable (5th Ed., Deborah Hughes-Hallett, Andrew M. Gleason, et al.)
Solution manual Calculus : Single and Multivariable (3rd Ed., Deborah Hughes-Hallett, Andrew M. Gleason, et al.)
Solution manual Calculus : Single and Multivariable (4th Ed., Deborah Hughes-Hallett, Andrew M. Gleason, et al.)
Solution manual Calculus : Single and Multivariable (5th Ed., Deborah Hughes-Hallett)
Solution manual Functions Modeling Change : A Preparation for Calculus - Texas Edition (2nd Ed., Eric Connally, Deborah Hughes-Hallett & Andrew M. Gleason)
Solution manual Functions Modeling Change : A Preparation for Calculus (2nd Ed., Eric Connally, Deborah Hughes-Hallett, et al.)
Solution manual Functions Modeling Change : A Preparation for Calculus (3rd Ed., Eric Connally)
Solution manual Differential Equations (A. King, J. Billingham, S. Otto)
Solution manual Regression Methods in Biostatistics : Linear, Logistic, Survival, and Repeated Measures Models (Eric Vittinghoff, David Glidden, Stephen Shiboski, Charles McCulloch)
Solution manual A Modern Introduction to Probability and Statistics : Understanding Why and How (F.M. Dekking, C. Kraaikamp, H.P. Lopuha=E4,

L.E. Meester)
Solution manual Statistical Methods for the Analysis of Repeated Measurements (Charles S. Davis)
Solution manual Bayesian Core : A Practical Approach to Computational Bayesian Statistics (Jean-Michel Marin, Christian Robert)
Solution manual The Bayesian Choice : From Decision-Theoretic Foundations to Computational Implementation (2nd Ed., Christian Robert)
Solution manual Essentials of Stochastic Processes (Rick Durrett)
Solution manual Methods of Multivariate Statistics (Muni Srivastava)
Solution manual Regression Analysis : Theory, Methods, and Applications (Ashish Sen & Muni Srivastava)
Solution manual Applied Probability and Statistics (Mario Lefebvre)
Solution manual Basic Probability Theory with Applications (Mario Lefebvre)
Solution manual Foundations of Hyperbolic Manifolds (2nd Ed., John Ratcliffe)
Solution manual Fourier and Laplace Transforms (R. J. Beerends , H. G. ter Morsche)
Solution manual Infinite-Dimensional Dynamical Systems (James C. Robinson)
Solution manual Mathematical Methods for Physics and Engineering, (3rd Ed., Riley, Hobson & Bence)
Solution manual Numerical Methods in Engineering with MATLAB (Jaan Kiusalaas)
Solution manual Numerical Methods in Engineering with Python (Jaan Kiusalaas)
Solution manual An Introduction to Numerical Analysis (Endre Suli and David Mayers)
Solution manual Fundamentals of Engineering Numerical Analysis (Parviz Moin)
Solution manual Statistical Design (George Casella)
Solution manual Statistical Inference (2nd Ed., George Casella, Roger L. Berger)
Solution manual Monte Carlo Statistical Methods (2nd Ed., Christian P. Robert, George Casella)
Solution manual Introducing Monte Carlo Methods with R (Christian Robert & George Casella)
Solution manual Introduction to Mathematical Structures and Proofs (Larry J. Gerstein)
Solution manual Analyzing Categorical Data (Jeffrey S. Simonoff)
Solution manual Fundamentals of Complex Analysis with Applications to Engineering, Science, and Mathematics (3rd Ed., E. Saff & Arthur Snider)
Solution manual Probability & Statistics for Engineers & Scientists (8th Ed., Walpole, Myers, Ye)
Solution manual Probability & Statistics for Engineers & Scientists (9th Ed., Walpole, Myers, Ye)
Solution manual Statistics for Engineering and the Sciences (5th Ed., Mendenhall & Sincich)

List of Solutions Manuals and Test Banks

```
----------------------------------------
```

contact me to :   mattosbw1@gmail.com
mattosbw1(at)gmail.com

NOTE : "THIS SERVICE IS NOT AVAILABLE FOR : CHINA, INDIA, RUSSIA, PAKISTAN, IRAQ, IRAN, PHILIPPINES, NORTH KOREA, NEPAL, BANGLADESH, SRI LANKA, MALDIVES, BHUTAN & COLOMBIA".

If your wanted solutions manual is not in this list, also can ask me if is available (it is a partial list). Then if you need solutions manual only contact me by email.

"ARE NOT AVAILABLES BOOKS IN DIGITAL FORMAT", ONLY SOLUTIONS MANUALS AND TEST BANKS.

I do not review the forums, just send me an email. Please do not use emails from servers "LIVE" , all they are take as spam emails in my inbox.

- Physics & Astronomy :

Solution manual Introduction to Solid State Physics (8th Ed., Charles Kittel)
Solution manual Quantum Physics (3rd Ed., Stephen Gasiorowicz)
Solution manual Fundamentals of Nuclear Reactor Physics (Elmer Lewis)
Solution manual Physics of Solar Energy (C. Julian Chen)
Solution manual Solar Engineering of Thermal Processes (3rd Ed., John Duffie & William Beckman)
Solution manual Physics of Condensed Matter (Prasanta Kumar Misra)
Solution Manual Human Body Dynamics (Aydin Tozeren)
Solution manual Solid-State Physics : Introduction to the Theory (2nd Ed., James Patterson, Bernard Bailey)
Solution manual Introduction to Nuclear Engineering (3rd Ed., John R. Lamarsh & Anthony J. Baratta)
Solution manual Nuclear Energy : An Introduction to the Concepts, Systems, and Applications of Nuclear Processes (6th Ed., Raymond L. Murray)
Solution manual Fundamentals of Electromagnetics with Engineering

Applications (Stuart M. Wentworth)
Solution manual Physics (7th Ed. by Paul E. Tippens)
Solution manual Physics (6th Ed., Cutnell & Johnson)
Solution manual Physics (7th Ed., Cutnell & Johnson)
Solution manual Physics (8th Ed., Cutnell & Johnson)
Solution manual Essentials of Physics (Cutnell & Johnson)
Solution manual Understanding Physics (1st Ed., Cummings, Laws, Redish & Cooney)
Solution manual Introductory Physics : Building Understanding (Jerold Touger)
Solution manual Physics Matters : An Introduction to Conceptual Physics (James Trefil & Robert Hazen)
Solution manual How Things Work : The Physics of Everyday Life (3rd Ed., Louis Bloomfield)
Solution manual An Introduction to Modern Astrophysics (2nd Ed., Bradley W. Carroll & Dale A. Ostlie)
Solution manual Foundations of Astrophysics (Barbara Ryden & Bradley Peterson)
Solution manual Physics (5th Ed., Halliday, Resnick, Krane)
Solution manual Fundamentals of Physics (6th Ed., David Halliday, Robert Resnick & Jearl Walker)
Solution manual Fundamentals of Physics (7th Ed., David Halliday, Robert Resnick & Jearl Walker)
Solution manual Fundamentals of Physics (8th Ed., David Halliday, Robert Resnick & Jearl Walker)
Solution manual Fundamentals of Physics (9th Ed., David Halliday, Robert Resnick & Jearl Walker)
Solution manual The Physics of Everyday Phenomena : A Conceptual Introduction to Physics (3rd Ed., Thomas Griffith)
Solution manual The Physics of Everyday Phenomena : A Conceptual Introduction to Physics (4th Ed., Thomas Griffith)
Solution manual The Physics of Everyday Phenomena : A Conceptual Introduction to Physics (5th Ed., Thomas Griffith)
Solution manual Physics of Everyday Phenomena : A Conceptual Introduction to Physics (6th Ed., W. Thomas Griffith & Juliet W. Brosing)
Solution manual Integrated Science (2nd Ed., Tillery et al.)
Solution manual Integrated Science (3rd Ed., Tillery et al.)
Solution manual Integrated Science (4th Ed., Tillery et al.)
Solution manual Physical Science (5th Ed., Tillery)
Solution manual Physical Science (6th Ed., Tillery)
Solution manual Physical Science (7th Ed., Tillery)
Solution manual Physical Science (8th Ed., Tillery)
Solution manual The Physical Universe (11th Ed., Konrad Krauskopf & Arthur Beiser)
Solution manual The Physical Universe (12th Ed., Konrad Krauskopf & Arthur Beiser)
Solution manual Physics of the Life Sciences (Jay Newman)
Solution manual Introduction to Biomedical Engineering (2nd Ed., John Enderle, Susan Blanchard, Joseph Bronzino)
Solution manual Introduction to Biomedical Engineering (3rd Ed., John Enderle, Joseph Bronzino)
Solution manual Physics in Biology and Medicine (3rd Ed., Paul

Davidovits)
Solution manual Optics (1st Ed., Ajoy Ghatak)
Solution manual Optics (4th Ed., Eugene Hecht)
Solution manual Nonlinear Optics (3rd Ed., Robert Boyd)
Solution manual Introduction to Optics (3rd Ed., Frank L Pedrotti, Leno M Pedrotti & Leno S Pedrotti)
Solution manual Principles of Physical Optics (Charles Bennett)
Solution manual Optics : Principles and Applications (Kailash Sharma)
Solution manual Continuum Electromechanics (James R. Melcher)
Solution manual Electromagnetic Noise and Quantum Optical Measurements (Hermann A. Haus)
Solution manual Matter and Interactions I : Modern Mechanics (2nd Ed., Ruth W. Chabay & Bruce A. Sherwood)
Solution manual Matter and Interactions : Volume 1 : Modern Mechanics (3rd Ed., Ruth W. Chabay & Bruce A. Sherwood)
Solution manual Matter and Interactions II : Electric and Magnetic Interactions (2nd Ed., Ruth W. Chabay & Bruce A. Sherwood)
Solution manual Matter and Interactions : Volume 2 : Electric and Magnetic Interactions (3rd Ed., Ruth W. Chabay & Bruce A. Sherwood)
Solution manual Thermal Stresses (2nd Ed., Noda, Hetnarski & Tanigawa)
Solution manual Introduction to Statistical Physics (Kerson Huang)
Solution manual Extended Irreversible Thermodynamics (3rd Ed., D. Jou, J. Casas-Vazquez & G. Lebon)
Solution manual An Introduction to Thermodynamics and Statistical Mechanics (2nd Ed, Keith Stowe)
Solution manual Equilibrium and Non-Equilibrium Statistical Thermodynamics (Michel Le Bellac, Fabrice Mortessagne & G. George Batrouni)
Solution manual Elements of Statistical Mechanics: With an Introduction to Quantum Field Theory and Numerical Simulation (Ivo Sachs & Siddhartha Sen)
Solution manual Quantum Transport (2nd Ed., Supriyo Datta)
Solution manual Ocean Waves and Oscillating Systems (Johannes Falnes)
Solution manual Statistical Mechanics (2nd Ed., R.K. Pathria)
Solution manual Statistical Mechanics (3rd Ed., R.K. Pathria , Paul D. Beale)
Solution manual Quantum Mechanics (Gennaro Auletta, Mauro Fortunato & Giorgio Parisi)
Solution manual Fundamentals of Quantum Mechanics (C.L. Tang)
Solution manual Astronomy : A Physical Perspective (2nd Ed., Marc L. Kutner)
Solution manual Classical Mechanics (Douglas Gregory)
Solution manual Electromagnetic Field Theory Fundamentals (2nd Ed., Singh Guru & Hiziroglu)
Solution manual Special Relativity : From Einstein to Strings (P.M. Schwarz & J.H. Schwarz)
Solution manual Gravity : An Introduction to Einstein's General Relativity (James Hartle)
Solution manual A Short Course in General Relativity (3rd Ed., James Foster & J. David Nightingale)
Solution manual Statistical Thermodynamics (Normand Laurendeau)
Solution Manual Introductory Statistical Thermodynamics (Nils Dalarsson , Mariana Dalarsson & Leonardo Golubovic)

Solution manual Statistical Thermodynamics and Microscale Thermophysics (Van P. Carey)
Solution manual Thermal Physics (Ralph Baierlein)
Solution manual Topics in Atomic Physics (Charles E. Burkhardt, Jacob J. Leventhal)
Solution manual Foundations of Quantum Physics (Charles E. Burkhardt, Jacob J. Leventhal)
Solution manual Essential University Physics (2nd Ed., Richard Wolfson)
Solution manual Essential College Physics (Andrew Rex, Richard Wolfson)
Solution manual Applied Physics (8th Ed., Dale Ewen, Ronald Nelson, Neill Schurter & Erik Gundersen)
Solution manual Applied Physics (9th Ed., Dale Ewen, Neill Schurter & Erik Gundersen)
Solution manual Analytical Mechanics (7th Ed., Grant R. Fowles, George Cassiday)
Solution manual Orbital Mechanics for Engineering Students (1st Ed., Howard Curtis)
Solution manual Orbital Mechanics for Engineering Students (2nd Ed., Howard Curtis)
Solution manual Diagnostic Ultrasound Imaging : Inside Out (Thomas Szabo)
Solution manual Astronomy : A Beginner's Guide to the Universe (5th Ed., Eric Chaisson & Steve McMillan)
Solution manual The Cosmic Perspective (5th Ed., Jeffrey O. Bennett, Megan Donahue, Nicholas Schneider & Mark Voit)
Solution manual The Cosmic Perspective Media Update (4th Ed., Jeffrey O. Bennett, Megan Donahue, Nicholas Schneider & Mark Voit)
Solution manual The Essential Cosmic Perspective Media Update (4th Ed., Jeffrey O. Bennett, Megan Donahue, Nicholas Schneider & Mark Voit)
Solution manual The Essential Cosmic Perspective Media Update (3rd Ed., Jeffrey O. Bennett, Megan Donahue, Nicholas Schneider & Mark Voit)
Solution manual The Essential Cosmic Perspective (3rd Ed., Jeffrey O. Bennett, Megan Donahue, Nicholas Schneider & Mark Voit)
Solution manual Astronomy Today (5th Ed., Eric Chaisson & Steve McMillan)
Solution manual Astronomy Today (6th Ed., Eric Chaisson & Steve McMillan)
Solution manual Conceptual Physical Science (3rd Ed., Paul G. Hewitt, John A. Suchocki & Leslie Hewitt)
Solution manual Conceptual Physical Science (4th Ed., Paul G. Hewitt, John A. Suchocki & Leslie Hewitt)
Solution manual Conceptual Integrated Science (Paul G. Hewitt, Suzanne Lyons, John A. Suchocki & Jennifer Yeh)
Solution manual Physics : Concepts & Connections (4th Ed., Art Hobson)
Solution manual Physics : Concepts & Connections (5th Ed., Art Hobson)
Solution manual Conceptual Physics (10th Ed., Paul Hewitt)
Solution manual Conceptual Physics (11th Ed., Paul Hewitt)
Solution manual Conceptual Physics Fundamentals (Paul G. Hewitt)
Solution manual College Physics : A Strategic Approach (2nd Ed.,

Randall D. Knight, Brian Jones, Stuart Field)
Solution manual College Physics (6th Ed., Jerry Wilson, Anthony Buffa & Bo Lou)
Solution manual College Physics (7th Ed., Jerry Wilson, Anthony Buffa & Bo Lou)
Solution manual College Physics (8th Ed., Young & Geller)
Solution manual Modern Physics (2nd Ed., Randy Harris)
Solution manual Modern Physics for Scientists and Engineers (John Morrison)
Solution manual Solid State Physics : Essential Concepts (David Snoke)
Solution manual Physics with Mastering Physics (3rd Ed., James Walker)
Solution manual Physics with Mastering Physics (4th Ed., James Walker)
Solution manual Active Learning Guide (Alan Van Heuvelen & Eugenia Etkina)
Solution manual E&M TIPERs : Electricity & Magnetism Tasks (C. J. Hieggelke, D. P. Maloney, T. L. O'Kuma & Steve Kanim)
Solution manual Physics : Principles with Applications (6th Ed., Douglas C. Giancoli)
Solution manual Physlet=AE Physics : Interactive Illustrations, Explorations and Problems for Introductory Physics (Wolfgang Christian & Mario Belloni)
Solution manual University Physics with Modern Physics with Mastering Physics (11th Ed., Hugh Young & Roger Freedman)
Solution manual University Physics with Modern Physics with Mastering Physics (12th Ed., Hugh Young & Roger Freedman)
Solution manual Physics for Scientists and Engineers (3rd Ed., Douglas C. Giancoli)
Solution manual Physics for Scientists and Engineers with Modern Physics (3rd Ed., Douglas Giancoli)
Solution manual Physics for Scientists and Engineers with Modern Physics (4th Ed., Douglas Giancoli)
Solution manual Physlet=AE Quantum Physics : An Interactive Introduction (Mario Belloni, Wolfgang Christian & Anne Cox)
Solution manual Introduction to Electrodynamics (3rd Ed., David J. Griffiths)
Solution manual Introduction to Quantum Mechanics (2nd Ed., David Griffiths)
Solution manual Quantum Mechanics : An Accessible Introduction (Robert Scherrer)
Solution manual Modern Quantum Mechanics (J. J. Sakurai)
Solution manual Modern Quantum Mechanics (2nd Ed., J. J. Sakurai & Jim Napolitano)
Solution manual The Physics of Sound (3rd Ed., Richard Berg & David Stork)
Solution manual Electromagnetism : Principles and Applications (1st Ed., Paul Lorrain, Dale R. Corson)
Solution manual Classical Electromagnetism (Jerrold Franklin)
Solution manual Classical Electrodynamics (2nd Ed., John David Jackson)
Solution manual Nanoengineering of Structural, Functional and Smart Materials (Mark Schulz, Ajit Kelkar, Mannur Sundaresan)
Solution manual Introduction to Color Imaging Science (Hsien-Che Lee)
Solution manual An Introduction to Astrobiology (Iain Gilmour & Mark

Sephton)
Solution manual An Introduction to Galaxies and Cosmology (Mark HJones & Robert Lambourne)
Solution manual An Introduction to the Solar System (Neil McBride & Iain Gilmour)
Solution manual Quantum Physics (Michel Le Bellac)
Solution manual Laser Fundamentals (2nd Ed., William T. Silfvast)
Solution manual Laser Electronics (3rd Ed., Joseph T. Verdeyen)
Solution manual Introductory Quantum Optics (Christopher Gerry & Peter Knight)
Solution manual Introduction to Plasma Physics: With Space and Laboratory Applications (D. A. Gurnett & A. Bhattacharjee)
Solution manual A Short Introduction to Quantum Information and Quantum Computation (Michel Le Bellac)
Solution manual A Quantum Approach to Condensed Matter Physics (Philip L. Taylor & Olle Heinonen)
Solution manual A First Course in String Theory (Barton Zwiebach)
Solution manual A First Course in Computational Physics and Object-Oriented Programming with C++ (David Yevick)
Solution manual A Course in Modern Mathematical Physics : Groups, Hilbert Space and Differential Geometry (Peter Szekeres)
Solution manual Ultrasonic Nondestructive Evaluation Systems: Models and Measurements (Lester W. Schmerr & Sung-Jin Song)
Solution manual Explorations : Stars Galaxies and Planets (1st Ed. Updated, Thomas Arny)
Solution manual Explorations : An Introduction to Astronomy (2nd Ed., Thomas Arny)
Solution manual Explorations : An Introduction to Astronomy (3rd Ed. Updated, Thomas Arny)
Solution manual Explorations : An Introduction to Astronomy (4th Ed. Updated, Thomas Arny)
Solution manual Explorations : An Introduction to Astronomy (5th Ed. Updated, Thomas Arny)
Solution manual Astronomy : Journey to the Cosmic Frontier (3rd Ed., John D. Fix)
Solution manual Astronomy : Journey to the Cosmic Frontier (4th Ed., John D. Fix)
Solution manual Astronomy : Journey to the Cosmic Frontier (5th Ed., John D. Fix)
Solution manual Pathways to Astronomy with Starry Night Pro (Steven Schneider & Thomas T Arny)
Solution manual From Molecules to Networks (2nd Ed., John Byrne & James Roberts)
Solution manual Biotechnology (David Clark & Nanette Pazdernik)
Solution manual Light and Video Microscopy (Randy Wayne)

List of Solutions Manuals and Test Banks
----

contact me to :   mattosbw1@gmail.com
mattosbw1(at)gmail.com

NOTE : "THIS SERVICE IS NOT AVAILABLE FOR :   CHINA, INDIA, RUSSIA, PAKISTAN, IRAQ, IRAN, PHILIPPINES, NORTH KOREA, NEPAL, BANGLADESH, SRI LANKA, MALDIVES, BHUTAN & COLOMBIA".

If your wanted solutions manual is not in this list, also can ask me if is available (it is a partial list). Then if you need solutions manual only contact me by email.

"ARE NOT AVAILABLES BOOKS IN DIGITAL FORMAT", ONLY SOLUTIONS MANUALS AND TEST BANKS.

I do not review the forums, just send me an email. Please do not use emails from servers "LIVE" , all they are take as spam emails in my inbox.

- Civil Engineering and Architecture :

Solution manual Mechanical and Structural Vibrations : Theory and Applications (by Jerry H. Ginsberg)
Solution manual Fundamentals of Structural Analysis (1st Ed., Leet & Uang)
Solution manual Fundamentals of Structural Analysis (2nd Ed., Leet & Uang)
Solution manual Fundamentals of Structural Analysis (3rd Ed., Leet, Uang & Gilbert)
Solution manual Fundamentals of Structural Analysis (4th Ed., Leet, Uang & Gilbert)
Solution manual A Structures Primer (Harry F. Kaufman)
Solution manual Steel Design (4th Ed., William T. Segui)
Solution manual Structural and Stress Analysis (2nd Ed., Megson)
Solution manual Structural Steel Design ASD Method (4th Ed., Jack McCormac)
Solution manual Structural Steel Design (4th Ed., Jack McCormac)
Solution manual Structural Steel Design (5th Ed., Jack C. McCormac & Stephen F. Csernak)
Solution manual Structural Steel Design : A Practice Oriented Approach (Abi Aghayere & Jason Vigil)
Solution manual Unified Design of Steel Structures (1st Ed., Louis

Geschwindner)
Solution manual Unified Design of Steel Structures (2nd Ed., Louis Geschwindner)
Solution manual Steel Structures : Behavior and LRFD (1st Ed., Ramulu Vinnakota)
Solution manual The Engineering of Foundations (1st Ed., Rodrigo Salgado)
Solution manual Introduction to Infrastructure : An Introduction to Civil and Environmental Engineering (Michael R. Penn, Philip J. Parker)
Solution manual Civil and Environmental Systems Engineering (2nd Ed., Charles S. Revelle, Earl Whitlatch, Jeff Wright)
Solution manual Mechanics of Materials : A Modern Integration of Mechanics and Materials in Structural Design (Christopher Jenkins & Sanjeev Khanna)
Solution manual Analysis and Design of Shallow and Deep Foundations (Lymon Reese, William Isenhower & Shin-Tower Wang)
Solution manual Elementary Structures for Architects and Builders (5th Ed., Ronald Shaeffer)
Solution manual Statics and Strength of Materials for Architecture and Building Construction (3rd Ed., Onouye & Kane)
Solution manual Statics and Strength of Materials for Architecture and Building Construction (4th Ed., Onouye & Kane)
Solution manual Finite Element Techniques in Structural Mechanics (C. T. F. Ross)
Solution manual Fundamental Finite Element Analysis and Applications: with Mathematica and Matlab Computations (Asghar Bhatti)
Solution manual Advanced Topics in Finite Element Analysis of Structures : With Mathematica and MATLAB Computations (Asghar Bhatti)
Solution manual Adjustment Computations : Spatial Data Analysis (4th Ed., Charles Ghilani & Paul Wolf)
Solution manual Adjustment Computations : Spatial Data Analysis (5th Ed., Charles Ghilani)
Solution manual Surveying (5th Ed., Jack McCormac)
Solution manual Surveying with Construction Applications (6th Ed., Barry Kavanagh)
Solution manual Surveying with Construction Applications (7th Ed., Barry Kavanagh)
Solution manual Surveying : Principles and Applications (8th Ed., Barry Kavanagh)
Solution manual Surveying Fundamentals and Practices (5th Ed., Jerry Nathanson, Michael Lanzafama & Philip Kissam)
Solution manual Surveying Fundamentals and Practices (6th Ed., Jerry Nathanson, Michael Lanzafama & Philip Kissam)
Solution manual Structural Analysis (5th Ed., Hibbeler)
Solution manual Structural Analysis (7th Ed., Hibbeler)
Solution manual Structural Analysis - SI Units (7th Ed., Hibbeler)
Solution manual Structural Analysis (8th Ed., Hibbeler)
Solution manual Dynamics of Structures (3rd Ed., Chopra)
Solution manual Dynamics of Structures (4th Ed., Chopra)
Solution manual Designing with Geosynthetics (5th Ed., Robert M. Koerner)
Solution manual Geotechnical Earthquake Engineering (Steven L. Kramer)

Solution manual Principles of Geotechnical Engineering (6th Ed., Braja M. Das)
Solution manual An Introduction to Geotechnical Engineering (2nd Ed., Robert D. Holtz, William D. Kovacs, Thomas C. Sheahan)
Solution manual Foundation Design : Principles and Practices (2nd Ed., Donald P. Coduto)
Solution manual Geotechnical Engineering: Principles and Practices (2nd Ed., Donald P. Coduto, Man-chu Ronald Yeung & William A. Kitch)
Solution manual Geotechnical Engineering: Principles and Practices - International Version (2nd Ed., Donald P. Coduto, Man-chu Ronald Yeung & William A. Kitch)
Solution manual Fundamentals of Structural Stability (George Simitses & Dewey Hodges)
Solution manual Fundamentals of Structural Mechanics (2nd Ed., keith D. Hjelmstad)
Solution Manual Structural Dynamics : Theory and Applications (Tedesco, McDougal & Ross)
Solution manual Fundamentals of Structural Dynamics (2nd Ed., Roy Craig & Andrew Kurdila)
Solution manual Concrete (2nd Ed., Sidney Mindess, J. Francis Young, David Darwin)
Solution manual Design of Concrete Structures (13th Ed., Nilson, Darwin & Dolan)
Solution manual Design of Concrete Structures (14th Ed., Nilson, Darwin & Dolan)
Solution manual Structures (6th Ed., Daniel Lewis Schodek & Martin Bechthold)
Solution manual Concrete Structures (Mehdi Setareh & Robert Darvas)
Solution manual Reinforced Concrete Design : A Practical Approach (Brzev & Pao)
Solution manual Reinforced Concrete : A Fundamental Approach (6th Ed., Edward Nawy)
Solution manual Prestressed Concrete : A Fundamental Approach - ACI, AASHTO, IBC 2009 Codes Version (5th Ed. Update, Edward Nawy)
Solution manual Reinforced Concrete Design (6th Ed., Chu-Kia Wang, Charles Salmon)
Solution manual Reinforced Concrete Design (7th Ed., Chu-Kia Wang, Charles Salmon & Jos=E9 Pincheira)
Solution manual Reinforced Concrete Design (6th Ed., George Limbrunner & Abi Aghayere)
Solution manual Reinforced Concrete Design (7th Ed., George Limbrunner & Abi Aghayere)
Solution manual Reinforced Concrete : Mechanics and Design (4th Ed., James MacGregor & James Wight)
Solution manual Reinforced Concrete : Mechanics and Design (5th Ed., James Wight & James MacGregor)
Solution manual Reinforced Concrete : Mechanics and Design - International Version (5th Ed., James Wight & James MacGregor)
Solution manual Reinforced Concrete : Mechanics and Design (6th Ed., James Wight & James MacGregor)
Solution manual Structural Concrete : Theory and Design (3rd Ed., M. Nadim Hassoun & Akthem Al-Manaseer)
Solution manual Structural Concrete : Theory and Design (4th Ed., M.

Nadim Hassoun & Akthem Al-Manaseer)
Solution manual Design of Reinforced Concrete (6th Ed., Jack McCormac & James Nelson)
Solution manual Design of Reinforced Concrete (7th Ed., ACI 318-05 Code Edition, by Jack McCormac)
Solution manual Design of Reinforced Concrete (8th Ed., Jack McCormac & Russell Brown)
Solution manual Structural Analysis : Using Classical and Matrix Methods (3rd Ed., James Nelson, Jr., Jack McCormac)
Solution manual Structural Analysis : Using Classical and Matrix Methods (4th Ed., Jack McCormac)
Solution manual Pavement Design and Materials (A. T. Papagiannakis, E. A. Masad)
Solution manual Pavement Analysis and Design (2nd Ed., Yang H. Huang)
Solution manual Traffic Engineering (4th Ed., Roger P. Roess, Elena S. Prassas, William R. McShane)
Solution manual Principles of Highway Engineering and Traffic Analysis (3rd Ed., Fred Mannering, Walter Kilareski & Scott Washburn)
Solution manual Principles of Highway Engineering and Traffic Analysis (4th Ed., Fred Mannering, Walter Kilareski & Scott Washburn)
Solution manual Highway Engineering (7th Ed., Paul Wright & Karen Dixon)
Solution manual Soil Mechanics : Concepts and Applications (2nd Ed., William Powrie)
Solution manual Unsaturated Soil Mechanics (Ning Lu & William Likos)
Solution manual Soil Mechanics and Foundations (2nd Ed., Muni Budhu)
Solution manual Soil Mechanics and Foundations (3rd Ed., Muni Budhu)
Solution manual Soils and Foundations - SI Units (6th Ed., Liu & Evett)
Solution manual Soils and Foundations (7th Ed., Liu & Evett)
Solution manual Fundamentals of Soil Mechanics for Sedimentary and Residual Soils (Laurence Wesley)
Solution manual Essentials of Soil Mechanics and Foundations : Basic Geotechnics (7th Ed., David McCarthy)
Solution manual Foundations and Earth Retaining Structures (Muniram Budhu)
Solution manual Design Analysis in Rock Mechanics (William G. Pariseau)
Solution manual Probability Concepts in Engineering : Emphasis on Applications to Civil and Environmental Engineering (2nd Ed., Ang & Tang)
Solution manual Hydraulic Control Systems (Noah Manring)
Solution manual Open Channel Hydraulics (A. Osman Akan)
Solution manual Open Channel Hydraulics (1st Ed., Terry Sturm)
Solution manual Open Channel Hydraulics (2nd Ed., Terry Sturm)
Solution manual Open-Channel Flow (2nd Ed., M. Hanif Chaudhry)
Solution manual Frozen Ground Engineering (2nd Ed., Orlando Andersland & Branko Ladanyi)
Solution manual Hydraulics in Civil and Environmental Engineering (4th Ed. Andrew Chadwick)
Solution manual Fundamentals of Hydraulic Engineering Systems (4th Ed., Robert Houghtalen, A. Osman Akan, Ned H. C. Hwang)
Solution manual Transportation Engineering : An Introduction (3rd Ed.,

C. Jotin Khisty, B. Kent Lall)
Solution manual Introduction to Transportation Engineering (2nd Ed., Banks)
Solution manual Urban Transportation Planning (2nd Ed., Meyer & Miller)
Solution manual Transportation Engineering and Planning (3rd Ed., Papacostas & Prevedouros)
Solution manual Transportation Engineering and Planning - SI Edition (3rd Ed., Papacostas & Prevedouros)
Solution manual Structural Wood Design : A Practice-Oriented Approach (Abi Aghayere & Jason Vigil)
Solution manual Simplified Design of Wood Structures (6th Ed., James Ambrose & Patrick Tripeny)
Solution manual Simplified Design of Steel Structures (8th Ed., James Ambrose & Patrick Tripeny)
Solution manual Materials and Components of Interior Architecture (7th Ed., J. Rosemary Riggs)
Solution manual Olin's Construction : Principles, Materials, and Methods (8th Ed., H. Leslie Simmons)
Solution manual Basic Construction Materials (8th Ed., Theodore Marotta, John C. Coffey, Cynthia LaFleur-Brown & Christine LaPlante)
Solution manual Fundamentals of Residential Construction (2nd Ed., Edward Allen & Rob Thallon)
Solution manual Fundamentals of Building Construction : Materials and Methods (4th Ed., Edward Allen & Joseph Iano)
Solution manual Fundamentals of Building Construction : Materials and Methods (5th Ed., Edward Allen & Joseph Iano)
Solution manual Composites for Construction : Structural Design with FRP Materials (Lawrence Bank)
Solution manual Building Construction : Principles, Materials, and Systems (Madan Mehta, Diane Armpriest & Walter Scarborough)
Solution manual Construction Contracts (2nd Ed., Jimmie Hinze)
Solution manual Construction Contracts (3rd Ed., Jimmie Hinze)
Solution manual Construction Planning and Scheduling (3rd Ed., Jimmie W. Hinze)
Solution manual Construction Planning and Scheduling (4th Ed., Jimmie W. Hinze)
Solution manual Sustainable Construction and Design (Regina Leffers)
Solution manual Global Engineering and Construction (J. K. Yates)
Solution manual Construction Mathematics (Virdi & Baker)
Solution manual Materials for Civil and Construction Engineers (3rd Ed., Michael S. Mamlouk & John P. Zaniewski)
Solution manual Construction Management (3rd Ed., Daniel Halpin)
Solution manual Construction Management (4th Ed., Daniel Halpin & Bolivar Senior)
Solution manual Financial Management and Accounting Fundamentals for Construction (Daniel Halpin & Bolivar Senior)
Solution manual Construction Management Fundamentals (1st Ed., Schexnayder & Mayo)
Solution manual Construction Management Fundamentals (2nd Ed., Knutson, Schexnayder, Fiori & Mayo)
Solution manual Construction Planning, Equipment, and Methods (6th Ed., Peurifoy & Schexnayder)

Solution manual Construction Planning, Equipment, and Methods (7th Ed., Peurifoy, Schexnayder & Shapira)
Solution manual Construction Planning, Equipment, and Methods (8th Ed., Peurifoy, Schexnayder, Shapira & Schmitt)
Solution manual Construction Methods and Management (7th Ed., Stephens Nunnally)
Solution manual Construction Methods and Management (8th Ed., Stephens Nunnally)
Solution manual Construction Project Administration (8th Ed., Edward Fisk, Wayne Reynolds)
Solution manual Construction Project Administration (9th Ed., Edward Fisk, Wayne Reynolds)
Solution manual Construction Project Management (3rd Ed., Gould & Joyce)
Solution manual The Management of Construction : A Project Lifecycle Approach (F. Lawrence Bennett)
Solution manual Construction Accounting and Financial Management (1st Ed., Steven Peterson)
Solution manual Construction Accounting and Financial Management (2nd Ed., Steven Peterson)
Solution manual Principles and Practices of Commercial Construction (8th Ed., Cameron K. Andres & R.C. Smith)
Solution manual Construction Cost Analysis and Estimating (Phillip Ostwald)
Solution manual Cost Analysis and Estimating for Engineering and Management (Phillip Ostwald & Timothy McLaren)
Solution manual Construction Estimating Using Excel (Stephen J. Peterson)
Solution manual Heating and Cooling of Buildings : Design for Efficiency (2nd Ed., Jan Kreider, Peter Curtiss & Ari Rabl)
Solution manual Heating, Cooling, Lighting : Sustainable Design Methods for Architects (3rd Ed., Norbert Lechner)
Solution manual Mechanical and Electrical Systems in Architecture, Engineering and Construction (5th Ed., Frank R. Dagostino & Joseph B. Wujek)
Solution manual Mechanical and Electrical Equipment for Buildings (10th Ed., Stein, Reynolds, Grondzik, Kwok)
Solution manual Mechanical and Electrical Equipment for Buildings (11th Ed., Grondzik, Kwok, Stein & Reynolds)
Solution manual Mechanical & Electrical Systems in Buildings (4th Ed., Richard Janis & William Tao)
Solution manual Introduction to Naval Architecture : Formerly Muckle's Naval Architecture for Marine Engineers (4th Ed., E.C. Tupper)
Solution manual Architectural Drawing and Light Construction (8th Ed., Philip A. Grau, III & Edward J. Muller)
Solution manual NEW Autodesk Civil 3D : Procedures & Applications (Harry O. Ward)
Solution manual Structural Health Monitoring with Piezoelectric Wafer Active Sensors (Victor Giurgiutiu)
Solution manual Architecture Design Notebook (2nd Ed., Peter Fawcett)
Solution manual Civil Drafting Technology (7th Ed., David A. Madsen, Terence M. Shumaker & David P. Madsen)
Solution manual Introduction to Homeland Security (2nd Ed., Bullock &

- Math, Statistics & Probability :

Solution manual A Second Course in Statistics : Regression Analysis (6th Ed., Mendenhall & Sincich)
Solution manual A Second Course in Statistics : Regression Analysis (7th Ed., Mendenhall & Sincich)
Solution manual Miller & Freund's Probability and Statistics for Engineers (7th Ed., Johnson, Miller, Freund)
Solution manual Miller & Freund's Probability and Statistics for Engineers (8th Ed., Johnson, Miller, Freund)
Solution manual Numerical Methods Using Matlab (4th Ed., Mathews & Fink)
Solution manual Applied Numerical Analysis Using MATLAB (2nd Ed.,

Laurene v. Fausett)
Solution manual Applied Numerical Analysis (7th Ed., Curtis F. Gerald, Patrick O. Wheatley)
Solution manual Friendly Introduction to Numerical Analysis (Bradie)
Solution manual Elementary Linear Algebra (2nd Ed., Spence, Insel & Friedberg)
Solution manual Elementary Linear Algebra with Applications (9th Ed., Kolman & Hill)
Solution manual Introductory Linear Algebra : An Applied First Course (8th Ed., Kolman & Hill)
Solution manual Linear Algebra with Applications (6th Ed., S. Leon)
Solution manual Linear Algebra with Applications (7th Ed., S. Leon)
Solution manual Linear Algebra for Engineers and Scientists Using Matlab (Hardy)
Solution manual Linear Algebra with Applications (3rd Ed., Bretscher)
Solution manual Linear Algebra with Applications (4th Ed., Bretscher)
Solution manual Modern Matrix Algebra (Hill & Kolman)
Solution manual Matrix Methods : Applied Linear Algebra (3rd Ed., Richard Bronson & Gabriel B. Costa)
Solution manual A Transition to Abstract Mathematics : Learning Mathematical Thinking and Writing (2nd Ed., Randall Maddox)
Solution manual Partial Differential Equations and Boundary Value Problems with Fourier Series (2nd ed., Asmar)
Solution manual Applied Partial Differential Equations (4th Ed., Haberman)
Solution manual Technical Calculus (5th Ed., Dale Ewen, Joan S. Gary & James E. Trefzger)
Solution manual Technical Mathematics (2th Ed., Dale Ewen, Joan S. Gary & James E. Trefzger)
Solution manual Technical Mathematics with Calculus (2th Ed., Dale Ewen, Joan S. Gary & James E. Trefzger)
Solution manual Introductory Mathematics (4th Ed., Cook)
Solution manual Mathematics for the Technical Trades (Cook)
Solution manual College Mathematics (7th Ed., Cleaves & Hobbs)
Solution manual Fundamentals of Statistics (2nd Ed., Michael III Sullivan)
Solution manual Fundamentals of Statistics (3rd Ed., Michael III Sullivan)
Solution manual Statistics : Informed Decisions Using Data (2nd Ed., Michael III Sullivan)
Solution manual Modern Elementary Statistics (12th Ed., John E. Freund, Benjamin M. Perles)
Solution manual Statistics : The Art and Science of Learning From Data (Agresti & Franklin)
Solution manual Statistics : The Art and Science of Learning From Data (2nd Ed., Agresti & Franklin)
Solution manual Elementary Statistics : Picturing the World (3rd Ed., Larson & Farber)
Solution manual Elementary Statistics : Picturing the World (4th Ed., Larson & Farber)
Solution manual Elementary Statistics : Picturing the World (5th Ed., Larson & Farber)
Solution manual A First Course in Statistics (9th Ed., McClave &

Sincich)
Solution manual A First Course in Statistics (10th Ed., McClave & Sincich)
Solution manual Statistics (10th Ed., McClave & Terry Sincich)
Solution manual Statistics (11th Ed., McClave & Terry Sincich & William Mendenhall)
Solution manual Interactive Statistics (3rd Ed., Martha Aliaga & Brenda Gunderson)
Solution manual Statistics for the Life Sciences (3rd Ed., Samuels & Witmer)
Solution manual Statistics for the Life Sciences (4th Ed., Samuels, Witmer & Schaffner)
Solution manual Applied Statistics and the SAS Programming Language (5th Ed., Cody & Smith)
Solution manual Biostatistics for the Health Sciences (R. Clifford Blair & Richard Taylor)
Solution manual Biostatistics : How It Works (Steve Selvin)
Solution manual Business Statistics : First Course (4th Ed., Levine, Krehbiel & Berenson)
Solution manual Business Statistics : First Course (5th Ed., Levine, Krehbiel & Berenson)
Solution manual Course in Business Statistics (4th Ed., Groebner, Shannon, Fry & Smith)
Solution manual Business Statistics : A Decision Making Approach (6th Ed., Groebner, Shannon, Fry & Smith)
Solution manual Business Statistics : A Decision-Making Approach (7th Ed., Groebner, Shannon, Fry & Smith)
Solution manual Business Statistics : A Decision-Making Approach (8th Ed., Groebner, Shannon, Fry & Smith)
Solution manual Statistics for Business & Economics (10th Ed., McClave, Benson & Sincich)
Solution manual Statistics for Managers Using Excel (5th Ed., Levine)
Solution manual Statistics for Managers Using Microsoft Excel (4th Ed., Levine, Stephan, Krehbiel & Berenson)
Solution manual Statistics for Business and Economics (5th Ed., Newbold, Carlson & Thorne)
Solution manual Statistics for Business and Economics (6th Ed., Newbold, Carlson & Thorne)
Solution manual Statistics for Business and Economics (7th Ed., Newbold, Carlson & Thorne)
Solution manual Basic Business Statistics : Concepts and Applications (10th Ed., Berenson, Krehbiel & Levine)
Solution manual Basic Business Statistics (11th Ed., Berenson, Levine & Krehbiel)
Solution manual John E. Freund's Mathematical Statistics with Applications (7th Ed., Miller)
Solution manual Probability and Statistical Inference (7th Ed., Hogg & Tanis)
Solution manual Probability and Statistical Inference (8th Ed., Hogg & Tanis)
Solution manual Introduction to Mathematical Statistics (6th Ed., Hogg, Craig & McKean)
Solution manual Introduction to Mathematical Statistics and Its

Applications (4th Ed., Larsen & Marx)
Solution manual Introduction to Mathematical Statistics and Its Applications (5th Ed., Larsen & Marx)
Solution manual A Brief Course in Mathematical Statistics (Hogg & Tanis)
Solution manual Fundamentals of Probability, with Stochastic Processes (3rd Ed., Saeed Ghahramani)
Solution manual A First Course in Probability (7th Ed., Sheldon Ross)
Solution manual A First Course in Probability (8th Ed., Sheldon Ross)
Solution manual Applied Multivariate Statistical Analysis (6th Ed., Johnson & Wichern)
Solution manual Multivariate Data Analysis (6th Ed., Hair, Black, Babin, Anderson & Tatham)
Solution manual Multivariate Data Analysis (7th Ed., Hair, Black, Babin, Anderson)
Solution manual Essential MATLAB for Engineers and Scientists (3rd Ed., Brian Hahn & Dan Valentine)
Solution manual Essential MATLAB for Engineers and Scientists (4th Ed., Brian Hahn & Dan Valentine)
Solution manual Introduction to Applied Statistical Signal Analysis : Guide to Biomedical and Electrical Engineering Applications (3rd Ed. Richard Shiavi)
Solution manual Construction Mathematics (Surinder Virdi & Roy Baker)
Solution manual Numerical Methods in Biomedical Engineering (Stanley Dunn, Alkis Constantinides & Prabhas Moghe)
Solution manual Probability and Statistics with Integrated Software Routines (Ronald Deep)
Solution manual Finite Element Analysis with Error Estimators : An Introduction to the FEM and Adaptive Error Analysis for Engineering Students (J. Akin)
Solution manual Basic Engineering Mathematics (4th Ed., John Bird)
Solution manual Engineering Mathematics (4th Ed., John Bird)
Solution manual Engineering Mathematics (5th Ed., John Bird)
Solution manual Higher Engineering Mathematics (5th Ed., John Bird)
Solution manual Construction Mathematics (Virdi & Baker)
Solution manual Mathematics for Electrical Engineering and Computing (Mary Attenborough)
Solution manual Probability and Random Processes : With Applications to Signal Processing and Communications (Miller & Childers)
Solution manual Introductory Statistics for Engineering Experimentation (Peter Nelson, Karen Copeland & Marie Coffin)
Solution manual Understanding Engineering Mathematics (Bill Cox)
Solution manual Statistics And Probability For Engineering Applications With Microsoft Excel (Decoursey)
Solution manual Business Math Using Calculators : With 10-Key Computer Assisted Instruction (Burton)
Solution manual Mathematics for Economics and Business (5th Ed., Ian Jacques)
Solution manual Business Math, Brief (7th Ed., Cleaves & Hobbs)
Solution manual Math for Merchandising: A Step-by-Step Approach (3rd Ed., Moore)
Solution manual Mathematics for Business (7th Ed., Salzman , Miller & Clendenen)

Solution manual Mathematics for Business (8th Ed., Salzman , Miller & Clendenen)
Solution manual Basic College Mathematics with Early Integers (K. Elayn Martin-Gay)
Solution manual Developmental Mathematics (K. Elayn Martin-Gay)
Solution manual An Introduction to Analysis (3rd Ed., William Wade)
Solution manual An Introduction to Analysis (4th Ed., William Wade)
Solution manual A Friendly Introduction to Analysis (2nd Ed., Witold A.J. Kosmala)
Solution manual Advanced Calculus (Gerald Folland)
Solution manual Analysis : With an Introduction to Proof (4th Ed., Steven R. Lay)
Solution manual Essentials of Basic College Mathematics (John Jr Tobey, Jr., Jeffrey Slater)
Solution manual Basic College Mathematics (5th Ed., John Tobey & Jeffrey Slater)
Solution manual Prealgebra (3rd Ed., Jamie Blair, John Tobey & Jeffrey Slater)
Solution manual Elementary Algebra Early Graphing for College Students (3rd Ed., Allen Angel)
Solution manual Elementary Algebra (Michael Sullivan III, Katherine R. Struve & Janet Mazzarella)
Solution manual Elementary Algebra for College Students (7th Ed., Allen R. Angel)
Solution manual Experiencing Introductory and Intermediate Algebra Through Functions and Graphs (3rd Ed., JoAnne Thomasson & Robert Pesut)
Solution manual Introductory Algebra (3rd Ed., K. Elayn Martin-Gay)
Solution manual Beginning Algebra (6th Ed., John Jr Tobey & Jeffrey Slater)
Solution manual Beginning Algebra : Early Graphing (Jamie Blair, John Tobey & Jeffrey Slater)
Solution manual Beginning and Intermediate Algebra (2nd Ed., Jamie Blair, John Tobey & Jeffrey Slater)
Solution manual Introductory Algebra (4th Ed., Robert Blitzer)
Solution manual Introductory and Intermediate Algebra (2nd Ed., Robert Blitzer)
Solution manual Intermediate Algebra for College Students (7th Ed., Allen Angel)
Solution manual Intermediate Algebra (Michael Sullivan III & Katherine Struve)
Solution manual Intermediate Algebra (3rd Ed., K. Elayn Martin-Gay)
Solution manual Essentials of Intermediate Algebra for College Students (Robert Blitzer)
Solution manual Intermediate Algebra (4th Ed., Robert Blitzer)
Solution manual Intermediate Algebra for College Students (5th Ed., Robert Blitzer)
Solution manual Algebra A Combined Approach (3rd Ed., K. Elayn Martin-Gay)
Solution manual Elementary & Intermediate Algebra (Michael Sullivan III, Katherine R. Struve & Janet Mazzarella)
Solution manual Essentials of Introductory and Intermediate Algebra for College Students (Robert F. Blitzer)

Solution manual Algebra for College Students (3rd Ed., Allen R. Angel)
Solution manual Algebra for College Students (5th Ed., Robert F Blitzer)
Solution manual College Algebra Essentials (8th Ed., Michael Sullivan)
Solution manual College Algebra (4th Ed., Robert Blitzer)
Solution manual College Algebra Essentials (2nd Ed., Robert F. Blitzer)
Solution manual College Algebra : An Early Functions Approach (Robert F. Blitzer)
Solution manual College Algebra : Concepts Through Functions (1st Ed., Michael Sullivan III & Michael Sullivan)
Solution manual College Algebra : Concepts Through Functions (2nd Ed., Michael Sullivan III & Michael Sullivan)
Solution manual College Algebra Enhanced with Graphing Utilities (4th Ed., Michael Sullivan III & Michael Sullivan)
Solution manual Essentials of College Algebra : Enhanced with Graphing Utilities (4th Ed., Michael Sullivan III & Michael Sullivan)
Solution manual Algebra and Trigonometry (8th Ed., Michael Sullivan)
Solution manual Algebra and Trigonometry (3rd Ed., Robert F. Blitzer)
Solution manual Algebra and Trigonometry: An Early Functions Approach (Robert Blitzer)
Solution manual Algebra & Trigonometry (7th Ed., Michael Sullivan)
Solution manual Algebra and Trigonometry Enhanced With Graphing Utilities (4th Ed., Michael Sullivan III & Michael Sullivan)
Solution manual Trigonometry (7th Ed., Michael Sullivan)
Solution manual Trigonometry (8th Ed., Michael Sullivan)
Solution manual Trigonometry Enhanced with Graphing Utilities (4th Ed., Michael Sullivan III & Michael Sullivan)
Solution manual Precalculus (8th Ed., Michael Sullivan)
Solution manual Precalculus (3rd Ed., Robert Blitzer)
Solution manual Precalculus (4th Ed., Robert Blitzer)
Solution manual Precalculus (1st Ed., J. S. Ratti & Marcus S. McWaters)
Solution manual Precalculus : A Right Triangle Approach (2nd Ed., J. S. Ratti & Marcus S. McWaters)
Solution manual Precalculus Essentials (2nd Ed., Robert Blitzer)
Solution manual Precalculus Essentials (3rd Ed., Robert Blitzer)
Solution manual Precalculus : Concepts Through Functions, A Unit Circle Approach to Trigonometry (1st Ed., Michael Sullivan III & Michael Sullivan)
Solution manual Precalculus : Concepts Through Functions, A Unit Circle Approach to Trigonometry (2nd Ed., Michael Sullivan III & Michael Sullivan)
Solution manual Precalculus : Concepts Through Functions, A Right Triangle Approach to Trigonometry (1st Ed., Michael Sullivan III & Michael Sullivan)
Solution manual Precalculus : Concepts Through Functions, A Right Triangle Approach to Trigonometry (2nd Ed., Michael Sullivan III & Michael Sullivan)
Solution manual Precalculus Enhanced with Graphing Utilities (4th Ed., Michael Sullivan III & Michael Sullivan)
Solution manual Precalculus Enhanced with Graphing Utilities (5th Ed., Michael Sullivan III & Michael Sullivan)

Solution manual Precalculus Essentials : Enhanced with Graphing Utilities (4th Ed., Michael Sullivan III & Michael Sullivan)
Solution manual Excursions in Modern Mathematics (5th Ed., Peter Tannenbaum)
Solution manual Excursions In Modern Mathematics with Mini-Excursions (6th Ed., Peter Tannenbaum)
Solution manual Quantitive Reasoning & the Environment (Greg Langkamp & Joseph Hull)
Solution manual Fundamentals of Mathematics (10th Ed., William M Setek & Michael A Gallo)
Solution manual Learning Math in Elementary and Middle School & IMAP Package (4th Ed., Cathcart, Pothier, Vance & Bezuk)
Solution manual Understanding the Math You Teach: Content and Methods for Prekindergarten Through Grade 4 (Anita C. Burris)
Solution manual Algebra Connections (Ira J. Papick & UMO University of Missouri)
Solution manual Calculus Connections (Asma Harcharras, Dorina Mitrea)
Solution manual Data Analysis and Probability Connections: Mathematics for Middle School Teachers (Debra A. Perkowski & Michael Perkowski)
Solution manual Geometry Connections (John K. Beem)
Solution manual Elementary Math Modeling Updated (2nd Ed., Mary Ellen Davis & C. Henry Edwards)
Solution manual Additional Calculus Topics (11th Ed., Raymond Barnett, Michael Ziegler & Karl Byleen)
Solution manual Finite Math and Its Application (9th Ed., Larry J Goldstein, David I Schneider & Martha J. Siegel)
Solution manual Finite Mathematics and Its Application (10th Ed., Larry J Goldstein, David I Schneider & Martha J. Siegel)
Solution manual Introductory Mathematical Analysis for Business, Economics and the Life and social Sciences (11th Ed., Haeussler, Paul & R.J. Wood)
Solution manual Introductory Mathematical Analysis for Business, Economics and the Life and Social Sciences (12th Ed., Haeussler, Paul & R.J. Wood)
Solution manual Additional Calculus Topics (9th Ed., Raymond Barnett, Michael Ziegler & Karl Byleen)
Solution manual College Mathematics for Business, Economics, Life Sciences and Social Sciences (10th Ed., Raymond Barnett, Michael Ziegler & Karl Byleen)
Solution manual Brief Calculus and Its Applications (11th Ed., Larry Goldstein, David Schneider, David Lay & Nakhle Asmar)
Solution manual Brief Calculus and Its Applications (12th Ed., Larry Goldstein, David Schneider, David Lay & Nakhle Asmar)
Solution manual Calculus and its Applications (10th Ed., Larry Goldstein, David Schneider, David Lay)
Solution manual Calculus and its Applications (11th Ed., Larry Goldstein, David Schneider, David Lay & Nakhle Asmar)
Solution manual Calculus and its Applications (12th Ed., Larry Goldstein, David Schneider, David Lay & Nakhle Asmar)
Solution manual Calculus for Business, Economics, Life Sciences and Social Sciences (10th Ed., Raymond Barnett, Michael Ziegler & Karl Byleen)
Solution manual Calculus, Early Transcendentals (6th Ed., C. Henry

Edwards & David Penney)
Solution manual Calculus, Early Transcendentals (7th Ed., C. Henry Edwards & David Penney)
Solution manual Calculus (9th Ed., Dale Varberg, Edwin Purcell & Steve Rigdon)
Solution manual Calculus Early Transcendentals (Dale Varberg, Edwin Purcell & Steve Rigdon)
Solution manual Calculus (3rd Ed., Monty Strauss, Gerald Bradley & Karl Smith)
Solution manual Calculus (6th Ed., Henry Edwards & David E. Penney)
Solution manual Single Variable Calculus (3rd Ed., Monty Strauss, Gerald Bradley & Karl Smith)
Solution manual Vector Calculus (3rd Ed., Susan Colley)
Solution manual Applied Linear Algebra (Peter Olver & Cheri Shakiban)
Solution manual Differential Equations and Linear Algebra (2nd Ed., Jerry Farlow, James E. Hall, Jean Marie McDill & Beverly West)
Solution manual Differential Equations and Linear Algebra (2nd Ed., C. Henry Edwards & David Penney)
Solution manual Differential Equations and Linear Algebra (3rd Ed., C. Henry Edwards & David Penney)
Solution manual Differential Equations (2nd Ed., John Polking, Al Boggess & David Arnold)
Solution manual Differential Equations with Boundary Value Problems (2nd ed., John Polking, Al Boggess & David Arnold)
Solution manual Discrete Mathematics with Graph Theory (3rd Ed., Edgar Goodaire & Michael Parmenter)
Solution manual Essential Discrete Mathematics (Todd Feil & Joan Krone)
Solution manual Statistical Methods for the Social Sciences (4th Ed., Agresti & Finlay)
Solution manual A Brief Course in Mathematical Statistics (Tanis & Hogg)
Solution manual Business Mathematics, 10th Ed. (Miller, Salzman & Clendenen)
Solution manual Elementary Statistics (6th Ed., Weiss)
Solution manual Elementary Statistics (7th Ed., Weiss)
Solution manual Elementary Statistics (8th Ed., Weiss)
Solution manual Elementary Statistics Using the Graphing Calculator: For the TI-83/84 Plus (Mario Triola)
Solution manual Elementary Statistics Using the TI-83/84 Plus Calculator (2nd Ed., Mario Triola)
Solution manual Elementary Statistics Using the TI-83/84 Plus Calculator (3rd Ed., Mario Triola)
Solution manual Elementary Statistics Update (9th Ed., Mario Triola)
Solution manual Elementary Statistics (10th Ed., Mario Triola)
Solution manual Elementary Statistics (11th Ed., Mario Triola)
Solution manual Elementary Statistics - Technology Update (11th Ed., Mario Triola)
Solution manual Essentials of Statistics (2nd Ed., Mario Triola)
Solution manual Essentials of Statistics (3rd Ed., Mario Triola)
Solution manual Essentials of Statistics (4th Ed., Mario Triola)
Solution manual Introductory Statistics (7th Ed., Neil Weiss)
Solution manual Introductory Statistics (8th Ed., Neil Weiss)

Solution manual Introductory Statistics (9th Ed., Neil Weiss)
Solution manual Intro Stats (2nd Ed., De Veaux, Velleman & Bock)
Solution manual Intro Stats (3rd Ed., De Veaux, Velleman & Bock)
Solution manual Stats: Data and Models, (De Veaux, Velleman & Bock)
Solution manual Stats: Data and Models, (2nd Ed., De Veaux, Velleman & Bock)
Solution manual Elementary Statistics Using Excel (2nd Ed., Mario Triola)
Solution manual Elementary Statistics Using Excel (3rd Ed., Mario Triola)
Solution manual Elementary Statistics Using Excel (4th Ed., Mario Triola)
Solution manual Stats : Modeling the World (2nd Ed., Bock, Velleman & De Veaux)
Solution manual Stats : Modeling the World (3rd Ed., Bock, Velleman & De Veaux)
Solution manual Statistical Reasoning for Everyday Life (2nd Ed., Bennett, Briggs & Triola)
Solution manual Statistical Reasoning for Everyday Life (3rd Ed., Bennett, Briggs & Triola)
Solution manual Business Statistics (Triola & Franklin)
Solution manual Business Statistics (1st Ed., Sharpe, De Veaux & Velleman)
Solution manual Business Statistics (2nd Ed., Sharpe, De Veaux & Velleman)
Solution manual Business Statistics : A First Course (Sharpe, De Veaux & Velleman)
Solution manual Biostatistics for the Biological and Health Sciences with Statdisk (Marc Triola & Mario Triola)
Solution manual Biostatistics : A Guide to Design, Analysis and Discovery (2nd Ed., Ronald Forthofer, Eun Lee, Mike Hernandez)
Solution manual A Course in Probability (Neil A. Weiss)
Solution manual Probability and Statistics (3rd Ed., DeGroot & Schervish)
Solution manual Probability and Statistics (4th Ed., DeGroot & Schervish)
Solution manual Statistics for Science and Engineering (John Kinney)
Solution manual Mathematical Proofs : A Transition to Advanced Mathematics (1st Ed., Chartrand, Polimeni & Zhang)
Solution manual Mathematical Proofs : A Transition to Advanced Mathematics (2nd Ed., Chartrand, Polimeni & Zhang)
Solution manual Elementary Number Theory (5th Ed., Kenneth H. Rosen)
Solution manual History of Mathematics : Brief Version (Victor J. Katz)
Solution manual Geometry : An Investigative Approach (2nd Ed., Phares G. O'Daffer & Stanley Clemens)
Solution manual A First Course in Abstract Algebra (7th Ed., John Fraleigh)
Solution manual Complex Variables with Applications (3rd Ed., David Wunsch)
Solution manual Numerical Analysis with CD-ROM (Timothy Sauer)
Solution manual Numerical Analysis and Scientific Computation (Jeffery Leader)

Solution manual Linear Algebra and Differential Equations (Gary Peterson & James Sochacki)
Solution manual Elementary Differential Equations (2nd Ed., Werner Kohler & Lee Johnson)
Solution manual Elementary Differential Equations with Boundary Value Problems (2nd Ed., Werner Kohler & Lee Johnson)
Solution manual Fundamentals of Differential Equations (6th Ed., Kent B. Nagle, Late, Edward B. Saff & Arthur David Snider)
Solution manual Fundamentals of Differential Equations and Boundary Value Problems (4th Ed., Kent B. Nagle, Late, Edward B. Saff & Arthur David Snider)
Solution manual Linear Algebra and Its Applications with CD-ROM, Update (3rd Ed., David C. Lay)
Solution manual Introduction to Linear Algebra (5th ed., Lee W. Johnson, R. Dean Riess & Jimmy T. Arnold)
Solution manual Calculus for the Life Sciences (Marvin L. Bittinger, Neal Brand & John Quintanilla)
Solution manual Calculus with Applications for the Life Sciences (Raymond N. Greenwell, Nathan P. Ritchey & Margaret L. Lial)
Solution manual Calculus : An Integrated Approach to Functions and Their Rates of Change, Preliminary Edition (Robin J. Gottlieb)
Solution manual Calculus (9th Ed., George B. Thomas, Jr. & Ross L. Finney)
Solution manual Thomas' Calculus, Alternate Edition (9th Ed., George B. Thomas, Jr. & Ross L. Finney)
Solution manual Calculus : A Complete Course (2nd Ed., Ross L. Finney, Franklin D. Demana, Bert K. Waits & Daniel Kennedy)
Solution manual Calculus (Elgin H. Johnston & Jerry Mathews)
Solution manual Thomas' Calculus, Updated (10th Ed., George B. Thomas, Jr., Ross L. Finney, Maurice D. Weir & Frank R. Giordano)
Solution manual Thomas' Calculus (11th Ed., George B. Thomas, Jr., Maurice D. Weir, Joel D. Hass & Frank R. Giordano)
Solution manual Thomas' Calculus Early Transcendentals (11th Ed., George B. Thomas, Jr., Maurice D. Weir, Joel D. Hass & Frank R. Giordano)
Solution manual University Calculus (Joel D. Hass, Maurice D. Weir & George B. Thomas, Jr.)
Solution manual University Calculus : Alternate Edition (Joel D. Hass, Maurice D. Weir & George B. Thomas, Jr.)
Solution manual Thomas' Calculus, Media Upgrade (11th Ed., George B. Thomas, Jr., Maurice D. Weir & Frank R. Giordano)
Solution manual Thomas' Calculus, Early Transcendentals, Media Upgrade (11th Ed., George B. Thomas, Jr., Maurice D. Weir, Joel D. Hass & Frank R. Giordano)
Solution manual Calculus with Applications (8th Ed., Margaret L. Lial, Raymond N. Greenwell & Nathan P. Ritchey)
Solution manual Calculus with Applications, Brief Version (8th Ed., Margaret L. Lial, Raymond N. Greenwell & Nathan P. Ritchey)
Solution manual Finite Mathematics with Applications (9th Ed., Margaret L. Lial, Thomas W. Hungerford & John Holcomb)
Solution manual Finite Mathematics with Applications (10th Ed., Margaret L. Lial, Thomas W. Hungerford & John Holcomb)
Solution manual Finite Mathematics (8th Ed., Margaret L. Lial, Raymond

N. Greenwell & Nathan P. Ritchey)
Solution manual Mathematics with Applications (9th Ed., Margaret L. Lial, Thomas W. Hungerford & John Holcomb)
Solution manual Mathematics with Applications (10th Ed., Margaret L. Lial, Thomas W. Hungerford & John Holcomb)
Solution manual Mathematical Ideas (10th Ed., Miller, Heeren & Hornsby)
Solution manual Mathematical Ideas (11th Ed., Miller, Heeren & Hornsby)
Solution manual Mathematical Ideas Expanded Edition (10th Ed., Miller, Heeren & Hornsby)
Solution manual Mathematical Ideas Expanded Edition (11th Ed., Miller, Heeren & Hornsby)
Solution manual Using and Understanding Mathematics: A Quantitative Reasoning Approach (3rd Ed., Bennett & Briggs)
Solution manual Using and Understanding Mathematics: A Quantitative Reasoning Approach (4th Ed., Bennett & Briggs)
Solution manual A Problem Solving Approach to Mathematics (9th Ed., Billstein, Libeskind & Lott)
Solution manual A Survey of Mathematics with Applications (7th Ed., Angel, Abbott & Runde)
Solution manual A Survey of Mathematics with Applications: Expanded Edition (7th Ed., Angel, Abbott & Runde)
Solution manual Mathematics All Around (3rd Ed., Tom Pirnot)
Solution manual Mathematics for Elementary School Teachers (3rd Ed., Phares O'Daffer, Randall Charles, Thomas Cooney, John Dossey & Jane Schielack)
Solution manual Mathematics for Elementary School Teachers (4th Ed., Phares O'Daffer, Randall Charles, Thomas Cooney, John Dossey & Jane Schielack)
Solution manual Mathematics for Elementary Teachers with Activities (Sybilla Beckmann)
Solution manual Mathematics for Elementary Teachers plus Activities Manual (2nd Ed., Sybilla Beckmann)
Solution manual A Problem Solving Approach to Mathematics for Elementary School Teachers (8th Ed., Billstein, Libeskind & Lott)
Solution manual A Problem Solving Approach to Mathematics for Elementary School Teachers (9th Ed., Billstein, Libeskind & Lott)
Solution manual A Problem Solving Approach to Mathematics for Elementary School Teachers (10th Ed., Billstein, Libeskind & Lott)
Solution manual Essentials of Using and Understanding Mathematics : A Quantitative Reasoning Approach (Jeffrey Bennett & William Briggs)
Solution manual Technical Calculus with Analytic Geometry (4th Ed., Allyn Washington)
Solution manual Basic Technical Mathematics (8th Ed., Allyn Washington)
Solution manual Basic Technical Mathematics (9th Ed., Allyn Washington)
Solution manual Basic Technical Mathematics with Calculus (8th Ed., Allyn Washington)
Solution manual Basic Technical Mathematics with Calculus (9th Ed., Allyn Washington)
Solution manual Basic Technical Mathematics with Calculus Metric

Version (8th Ed., Allyn Washington)
Solution manual Introduction to Technical Mathematics (5th Ed., Washington, Triola & Reda)
Solution manual A Graphical Approach to Precalculus (4th Ed., Hornsby, Lial & Rockswold)
Solution manual A Graphical Approach to Precalculus with Limits (3rd Ed., Hornsby, Lial & Rockswold)
Solution manual A Graphical Approach to Precalculus with Limits : A Unit Circle Approach (4th Ed., Hornsby, Lial & Rockswold)
Solution manual A Graphical Approach to Precalculus with Limits : A Unit Circle Approach (5th Ed., Hornsby, Lial & Rockswold)
Solution manual Precalculus : Functions and Graphs (5th Ed., Demana, Waits, Foley & Kennedy)
Solution manual Precalculus : Graphical, Numerical, Algebraic (7th Ed., Demana, Waits, Foley & Kennedy)
Solution manual Precalculus : Graphs and Models Graphing Calculator Manual Package (3rd Ed., Bittinger, Beecher, Ellenbogen & Penna)
Solution manual Precalculus : Graphs and Models Graphing Calculator Manual Package (4th Ed., Bittinger, Beecher, Ellenbogen & Penna)
Solution manual Functioning in the Real World : A Precalculus Experience (2nd Ed., Gordon, F. Gordon, Tucker & Siegel)
Solution manual Precalculus with Modeling and Visualization (3rd Ed., Gary K. Rockswold)
Solution manual Precalculus with Modeling and Visualization (4th Ed., Gary K. Rockswold)
Solution manual Precalculus (2nd Ed., Beecher, Penna & Bittinger)
Solution manual Precalculus (3rd Ed., Beecher, Penna & Bittinger)
Solution manual Precalculus (3rd Ed., Mark Dugopolski)
Solution manual Precalculus (4th Ed., Mark Dugopolski)
Solution manual Precalculus : Functions and Graphs (2nd Ed., Mark Dugopolski)
Solution manual Precalculus : Functions and Graphs (3rd Ed., Mark Dugopolski)
Solution manual Fundamentals of Precalculus (Mark Dugopolski)
Solution manual Trigonometry (1st Ed., Mark Dugopolski)
Solution manual Trigonometry (2nd Ed., Mark Dugopolski)
Solution manual Trigonometry (3rd Ed., Mark Dugopolski)
Solution manual Trigonometry (8th Ed., Lial, Hornsby & Schneider)
Solution manual Trigonometry (9th Ed., Lial, Hornsby & Schneider)
Solution manual Trigonometry : A Circular Function Approach (Marie Aratari)
Solution manual A Graphical Approach to Algebra and Trigonometry (4th Ed., Hornsby, Lial & Rockswold)
Solution manual A Graphical Approach to Algebra and Trigonometry (5th Ed., Hornsby, Lial & Rockswold)
Solution manual Algebra and Trigonometry : Graphs and Models Graphing Calculator Manual Package (3rd Ed., Bittinger, Beecher, Ellenbogen & Penna)
Solution manual Algebra and Trigonometry (2nd Ed., Beecher, Penna & Bittinger)
Solution manual Algebra and Trigonometry (3rd Ed., Beecher, Penna & Bittinger)
Solution manual College Algebra and Trigonometry (1st Ed., J. S. Ratti

& Marcus S. McWaters)
Solution manual College Algebra and Trigonometry (2nd Ed., J. S. Ratti & Marcus S. McWaters)
Solution manual College Algebra and Trigonometry (3rd Ed., Mark Dugopolski)
Solution manual College Algebra and Trigonometry (4th Ed., Mark Dugopolski)
Solution manual College Algebra and Trigonometry : A Unit Circle Approach (5th Ed., Mark Dugopolski)
Solution manual Algebra and Trigonometry with Modeling and Visualization (3rd Ed., Gary Rockswold)
Solution manual Algebra and Trigonometry with Modeling and Visualization (4th Ed., Gary Rockswold)
Solution manual College Algebra and Trigonometry (3rd Ed., Lial, Hornsby & Schneider)
Solution manual College Algebra and Trigonometry (4th Ed., Lial, Hornsby & Schneider)
Solution manual A Graphical Approach to College Algebra (4th Ed., John Hornsby, Margaret Lial & Gary Rockswold)
Solution manual A Graphical Approach to College Algebra (5th Ed., John Hornsby, Margaret Lial & Gary Rockswold)
Solution manual College Algebra : Graphs and Models Graphing Calculator Manual Package (3rd Ed., Bittinger, Beecher, Ellenbogen & Penna)
Solution manual College Algebra (J. S. Ratti & Marcus S. McWaters)
Solution manual College Algebra with Modeling and Visualization (3rd Ed., Gary Rockswold)
Solution manual College Algebra with Modeling and Visualization (4th Ed., Gary Rockswold)
Solution manual Essentials of College Algebra with Modeling and Visualization (3rd Ed., Gary Rockswold)
Solution manual Essentials of College Algebra (Lial, Hornsby & Schneider)
Solution manual Essentials of College Algebra, Alternate Edition (Lial, Hornsby & Schneider)
Solution manual Essentials of College Algebra (10th Ed., Lial, Hornsby & Schneider)
Solution manual College Algebra (3rd Ed., Mark Dugopolski)
Solution manual College Algebra (4th Ed., Mark Dugopolski)
Solution manual College Algebra (5th Ed., Mark Dugopolski)
Solution manual College Algebra in Context with Applications for the Managerial, Life, and Social Sciences (1st Ed., Ronald Harshbarger & Lisa Yocco)
Solution manual College Algebra in Context with Applications for the Managerial, Life, and Social Sciences (2nd Ed., Ronald Harshbarger & Lisa Yocco)
Solution manual College Algebra (2nd Ed., Judith Beecher, Judith Penna & Marvin Bittinger)
Solution manual College Algebra (9th Ed., Margaret Lial, John Hornsby & David Schneider)
Solution manual Essentials of Geometry for College Students (2nd Ed., Margaret Lial, Barbara Brown, Arnold Steffenson & L. Murphy Johnson)
Solution manual Algebra for College Students (5th Ed., Margaret Lial,

John Hornsby & Terry McGinnis)
Solution manual Introductory and Intermediate Algebra (2nd Ed., Margaret Lial, John Hornsby & Terry McGinnis)
Solution manual Introductory and Intermediate Algebra (3rd Ed., Margaret Lial, John Hornsby & Terry McGinnis)
Solution manual Introductory and Intermediate Algebra (4th Ed., Margaret Lial, John Hornsby & Terry McGinnis)
Solution manual Beginning and Intermediate Algebra (3rd Ed., Margaret Lial, John Hornsby & Terry McGinnis)
Solution manual Beginning and Intermediate Algebra (4th Ed., Margaret Lial, John Hornsby & Terry McGinnis)
Solution manual Elementary and Intermediate Algebra (1st Ed., Tom Carson, Ellyn Gillespie & Bill Jordan)
Solution manual Elementary and Intermediate Algebra (2nd Ed., Tom Carson, Ellyn Gillespie & Bill Jordan)
Solution manual Elementary and Intermediate Algebra (3rd Ed., Tom Carson, Bill Jordan)
Solution manual Introductory and Intermediate Algebra : A Combined Approach (2nd Ed., Marvin Bittinger & Judith Beecher)
Solution manual Introductory and Intermediate Algebra (3rd Ed., Marvin Bittinger & Judith Beecher)
Solution manual Introductory and Intermediate Algebra through Applications (2nd Ed., Geoffrey Akst & Sadie Bragg)
Solution manual Elementary and Intermediate Algebra (1st Ed., George Woodbury)
Solution manual Elementary and Intermediate Algebra (2nd Ed., George Woodbury)
Solution manual Elementary and Intermediate Algebra (2nd Ed., Mark Dugopolski)
Solution manual Elementary and Intermediate Algebra (3rd Ed., Mark Dugopolski)
Solution manual Elementary and Intermediate Algebra : Concepts and Applications (4th Ed., Marvin Bittinger, David Ellenbogen & Barbara Johnson)
Solution manual Beginning and Intermediate Algebra with Applications and Visualization (Gary Rockswold & Terry Krieger)
Solution manual Elementary and Intermediate Algebra : Graphs & Models (2nd Ed., Marvin Bittinger, David Ellenbogen & Barbara Johnson)
Solution manual Foundations of Mathematics (Marvin Bittinger & Judith Penna)
Solution manual Intermediate Algebra (9th Ed., Marvin Bittinger)
Solution manual Intermediate Algebra (10th Ed., Marvin Bittinger)
Solution manual Intermediate Algebra : Graphs & Models (2nd Ed., Marvin Bittinger, David Ellenbogen & Barbara Johnson)
Solution manual Intermediate Algebra : Graphs & Models (3rd Ed., Marvin Bittinger, David Ellenbogen & Barbara Johnson)
Solution manual Intermediate Algebra (8th Ed., Margaret Lial, John Hornsby & Terry McGinnis)
Solution manual Intermediate Algebra (9th Ed., Margaret Lial, John Hornsby & Terry McGinnis)
Solution manual Intermediate Algebra with Applications and Visualization (2nd Ed., Gary Rockswold & Terry Krieger)
Solution manual Intermediate Algebra (Tom Carson, Ellyn Gillespie &

Bill Jordan)
Solution manual Intermediate Algebra (2nd Ed., Tom Carson, Ellyn Gillespie & Bill Jordan)
Solution manual Intermediate Algebra (3rd Ed., Tom Carson, Bill Jordan)
Solution manual Intermediate Algebra: Concepts and Applications (7th Ed., Marvin Bittinger & David Ellenbogen)
Solution manual Beginning Algebra (10th Ed., Margaret Lial, John Hornsby & Terry McGinnis)
Solution manual Prealgebra and Introductory Algebra (Marvin Bittinger & David Ellenbogen)
Solution manual Prealgebra and Introductory Algebra (2nd Ed., Marvin Bittinger & David Ellenbogen)
Solution manual Introductory Algebra (9th Ed., Marvin Bittinger)
Solution manual Introductory Algebra (10th Ed., Marvin Bittinger)
Solution manual Prealgebra and Introductory Algebra (2nd Ed., Margaret Lial, John Hornsby, Terry McGinnis & Diana Hestwood)
Solution manual Prealgebra and Introductory Algebra (3rd Ed., Margaret Lial, Diana Hestwood, John Hornsby & Terry McGinnis)
Solution manual Elementary Algebra with Early Systems of Equations (Tom Carson & Ellyn Gillespie)
Solution manual Elementary Algebra (2nd Ed., Tom Carson, Ellyn Gillespie & Bill Jordan)
Solution manual Elementary Algebra (3rd Ed., Tom Carson, Bill Jordan)
Solution manual Elementary Algebra : Concepts and Applications (6th Ed., Marvin Bittinger & David Ellenbogen)
Solution manual Elementary Algebra : Concepts and Applications (7th Ed., Marvin Bittinger & David Ellenbogen)
Solution manual Introductory Algebra (Richelle Blair)
Solution manual Introductory Algebra (8th Ed., Margaret Lial, John Hornsby & Terry McGinnis)
Solution manual Introductory Algebra (9th Ed., Margaret Lial, John Hornsby & Terry McGinnis)
Solution manual Beginning Algebra with Applications and Visualization (Gary Rockswold & Terry Krieger)
Solution manual Integrated Arithmetic and Basic Algebra (3rd Ed., Bill Jordan & William Palow)
Solution manual Introductory Algebra through Applications (Geoffrey Akst & Sadie Bragg)
Solution manual Prealgebra (3rd Ed., Margaret Lial & Diana Hestwood)
Solution manual Prealgebra (4th Ed., Margaret Lial & Diana Hestwood)
Solution manual Prealgebra (4th Ed., Marvin Bittinger & David Ellenbogen)
Solution manual Prealgebra (5th Ed., Marvin Bittinger, David Ellenbogen & Barbara Johnson)
Solution manual Prealgebra (2nd Ed., Tom Carson)
Solution manual Basic Mathematics (9th Ed., Marvin Bittinger)
Solution manual Basic Mathematics (10th Ed., Marvin Bittinger)
Solution manual Basic Mathematics Preliminary Edition (Robert Prior)
Solution manual Basic Mathematics with Early Integers (Marvin Bittinger & Judith Penna)
Solution manual Basic College Mathematics (7th Ed., Margaret Lial, Stanley Salzman & Diana Hestwood)

Solution manual Basic College Mathematics (8th Ed., Margaret Lial, Stanley Salzman & Diana Hestwood)
Solution manual Basic Mathematics through Applications (3rd Ed., Geoffrey Akst & Sadie Bragg)
Solution manual Fundamental Mathematics through Applications (3rd Ed., Geoffrey Akst & Sadie Bragg)
Solution manual Wave Motion (J. Billingham & A. C. King)
Solution manual Solving ODEs with MATLAB (L. F. Shampine, I. Gladwell & S. Thompson)
Solution manual Numerical Solution of Partial Differential Equations: An Introduction (2nd Ed., K. W. Morton & D. F. Mayers)
Solution manual Measure Theory and Filtering : Introduction and Applications (Lakhdar Aggoun & Robert J. Elliott)
Solution manual Mathematical Models in Biology : An Introduction (Elizabeth S. Allman & John A. Rhodes)
Solution manual Insurance Risk and Ruin (David C. M. Dickson)
Solution manual Data Analysis and Graphics Using R : An Example-based Approach (2nd Ed., John Maindonald & John Braun)
Solution manual Applied Optimization with MATLAB Programming (1st Ed., P. Venkataraman)
Solution manual Applied Optimization with MATLAB Programming (2nd Ed., P. Venkataraman)
Solution manual Convex Optimization (Stephen Boyd & Lieven Vandenberghe)
Solution manual Concrete Abstract Algebra : From Numbers to Gr=F6bner Bases (Niels Lauritzen)
Solution manual A Concrete Approach to Abstract Algebra : From the Integers to the Insolvability of the Quintic (Jeffrey Bergen)
Solution manual Calculus : Concepts and Methods (Ken Binmore & Joan Davies)
Solution manual An Introduction to Partial Differential Equations (Yehuda Pinchover & Jacob Rubinstein)
Solution manual An Introduction to Ordinary Differential Equations (James C. Robinson)
Solution manual An Introduction to Mathematical Physiology and Biology (2nd Ed., J. Mazumdar)
Solution manual An Introduction to Financial Option Valuation : Mathematics, Stochastics and Computation (Desmond Higham)
Solution manual An Interactive Introduction to Mathematical Analysis (Jonathan Lewin)
Solution manual An Introduction to Mathematical Finance: Options and Other Topics (1st Ed., Sheldon M. Ross)

List of Solutions Manuals and Test Banks
----

contact me to :   mattosbw1@gmail.com
mattosbw1(at)gmail.com

NOTE : "THIS SERVICE IS NOT AVAILABLE FOR :   CHINA, INDIA, RUSSIA,
PAKISTAN, IRAQ, IRAN, PHILIPPINES, NORTH KOREA, NEPAL, BANGLADESH, SRI
LANKA, MALDIVES, BHUTAN & COLOMBIA".

If your wanted solutions manual is not in this list, also can ask me if is available (it is a partial list). Then if you need solutions manual only contact me by email.

"ARE NOT AVAILABLES BOOKS IN DIGITAL FORMAT", ONLY SOLUTIONS MANUALS AND TEST BANKS.

I do not review the forums, just send me an email. Please do not use emails from servers "LIVE" , all they are take as spam emails in my inbox.

- Environmental Engineering, Earth and Environmental Sciences :

Solution manual Principles of Environmental Engineering and Science (1st Ed., Mackenzie Davis & Susan Masten)
Solution manual Principles of Environmental Engineering and Science (2nd Ed., Mackenzie Davis & Susan Masten)
Solution manual Introduction to Environmental Engineering (Richard Mines & Laura Lackey)
Solution manual Introduction to Environmental Engineering (4th Ed., MacKenzie Davis & David Cornwell)
Solution manual Introduction to Environmental Engineering and Science (2nd Ed., Gilbert Masters)
Solution manual Introduction to Environmental Engineering and Science (3rd Ed., Gilbert Masters & Wendell Ela)
Solution manual Thermal Environmental Engineering (3rd Ed., Thomas H. Kuehn, James W. Ramsey, James L. Threlkeld)
Solution manual Solar Energy Engineering (Soteris Kalogirou)
Solution manual Environmental Science and Engineering (2nd Ed., J. Glynn Henry, Gary W. Heinke)
Solution manual Solar Engineering of Thermal Processes (2nd Ed., John Duffie & William Beckman)
Solution manual Solar Engineering of Thermal Processes (3rd Ed., John Duffie & William Beckman)
Solution manual Energy Technology and Directions for the Future (Fanchi)

Solution manual Civil and Environmental Systems Engineering (2nd Ed., Charles S. Revelle, Earl Whitlatch, Jeff Wright)
Solution manual Environmental Engineering : Fundamentals, Sustainability, Design (James Mihelcic, Julie Zimmerman)
Solution manual Environmental Engineering Science (Nazaroff & Alvarez - Cohen)
Solution manual Environmental Engineering (4th Ed., Ruth Weiner & Robin Matthews)
Solution manual Environmental Pollution and Control (4th Ed., Peirce, Vesilind & Weiner)
Solution manual Introduction to Engineering and the Environment (1st Ed., Edward Rubin)
Solution manual Basic Environmental Technology : Water Supply, Waste Management & Pollution Control (5th Ed., Jerry Nathanson)
Solution manual Water and Wastewater Technology - SI Units (5th Ed., Mark J. Hammer, Sr. & Mark Hammer, Jr.)
Solution manual Water and Wastewater Technology (6th Ed., Mark J. Hammer, Sr. & Mark Hammer, Jr.)
Solution manual Water and Wastewater Technology (7th Ed., Mark J. Hammer, Sr. & Mark Hammer, Jr.)
Solution manual Water and Wastewater Engineering (Mackenzie L. Davis)
Solution manual Water and Wastewater Engineering : Water Supply and Wastewater Removal (3rd Ed., Nazih K. Shammas & Lawrence K. Wang)
Solution manual Water Supply and Pollution Control (8th Ed., Viessman Jr., Hammer, Perez & Chadik)
Solution manual Water Supply and Pollution Control - International Version (8th Ed., Viessman Jr., Hammer, Perez & Chadik)
Solution manual Water Treatment : Principles and Design (2nd Ed., by MWH)
Solution manual Water Resources Engineering (Ralph A. Wurbs & Wesley P. James)
Solution manual Water Resources Engineering 2005 Edition (Larry W. Mays)
Solution manual Water Resources Engineering (2nd Ed., Larry W. Mays)
Solution manual Water Resources Engineering (2nd Ed., Chin)
Solution manual Water Chemistry (Benjamin)
Solution manual Aquatic Pollution : An Introductory Text (3rd Ed., Edward A. Laws)
Solution manual Plant Pathology (5th Ed., George Agrios)
Solution manual Radiation Detection and Measurement (3rd Ed., Glenn Knoll)
Solution manual Radiation Detection and Measurement (4th Ed., Glenn Knoll)
Solution manual Principles of Sequence Stratigraphy (Octavian Catuneanu)
Solution manual The Earth's Ionosphere : Plasma Physics & Electrodynamics (2nd Ed., Michael Kelley)
Solution manual Atmosphere, Ocean and Climate Dynamics : An Introductory Text (Marshall & Plumb)
Solution manual Atmospheric Science : An Introductory Survey (2nd Ed., John Wallace, Peter Hobbs)
Solution manual Environmental Issues : An Introduction to Sustainability (3rd Ed., McConnell & Abel)

Solution manual Environmental Science : Toward A Sustainable Future (10th Ed., Wright & Nebel)
Solution manual Hazard City : Assignments in Applied Geology (3rd Ed., King, Carpenter & Wilson)
Solution manual Introduction to Environmental Geology (4th ERd., Edward Keller)
Solution manual The Science of Grapevines : Anatomy and Physiology (Markus Keller)
Solution manual Geoenvironmental Engineering : Site Remediation, Waste Containment, and Emerging Waste Management Technologies (Hari Sharma & Krishna Reddy)
Solution manual Natural Hazards : Earth's Processes as Hazards, Disasters and Catastrophes (2nd Ed., Keller & Blodgett)
Solution manual Essentials of Oceanography (9th Ed., Trujillo & Thurman)
Solution manual Exercises for Weather and Climate (6th Ed., Greg Carbone)
Solution manual Fundamentals of Ground Water (Franklin Schwartz & Hubao Zhang)
Solution manual Practical Problems in Groundwater Hydrology (Scott Bair & Terry Lahm)
Solution manual Groundwater Hydrology (3rd Ed., David Keith Todd & Larry Mays)
Solution manual Groundwater Science (Charles Fitts)
Solution manual Frozen Ground Engineering (2nd Ed., Orlando Andersland & Branko Ladanyi)
Solution manual Stormwater Management for Land Development : Methods and Calculations for Quantity Control (Thomas A. Seybert)
Solution manual Urban Hydrology, Hydraulics, and Stormwater Quality : Engineering Applications and Computer Modeling (A. Osman Akan & Houghtalen)
Solution manual Hydraulics in Civil and Environmental Engineering (4th Ed. Andrew Chadwick)
Solution manual Hydrologic Analysis and Design (3rd Ed., Richard H. McCuen)
Solution manual Introduction to Hydrology (5th Ed., Warren Viessman, Jr. , Gary L. Lewis)
Solution manual Fundamentals of Hydraulic Engineering Systems (4th Ed., Robert Houghtalen, A. Osman Akan, Ned H. C. Hwang)
Solution manual Agriculture's Ethical Horizon (Robert Zimdahl)
Solution manual Environmental Contaminants : Assessment and Control (Daniel Vallero)
Solution manual A Problem-Solving Approach to Aquatic Chemistry (James Jensen)
Solution manual Hazardous Waste Management (2nd Ed., Michael LaGrega, Phillip Buckingham & Jeffrey Evans)
Solution manual Environmental Biotechnology : Principles and Applications (1st Ed., Bruce Rittmann & Perry McCarty)
Solution manual Chemistry for Environmental Engineering and Science (5th Ed., Clair Sawyer, Perry McCarty & Gene Parkin)
Solution manual Geology for Engineers and Environmental Scientists (3rd Ed., Alan Kehew)
Solution manual Ocean Waves and Oscillating Systems (Johannes Falnes)

Solution manual Radiation Detection and Measurement (3rd Ed., Glenn Knoll)
Solution manual Probability Concepts in Engineering : Emphasis on Applications to Civil and Environmental Engineering (2nd Ed., Ang & Tang)
Solution manual Hydrology : Water Quantity and Quality Control (2nd Ed., Wanielista, Kersten & Eaglin)
Solution manual Hydrology and Floodplain Analysis (4th Ed., Philip Bedient, Wayne Huber & Baxter Vieux)
Solution manual Hydrology : An Introduction (Brutsaert)
Solution manual Applied Atmospheric Dynamics (Amanda H. Lynch & John J. Cassano)
Solution manual Mid-Latitude Atmospheric Dynamics : A First Course (Jonathan E. Martin)
Solution manual Adjustment Computations : Spatial Data Analysis (4th Ed., Charles Ghilani & Paul Wolf)
Solution manual Adjustment Computations : Spatial Data Analysis (5th Ed., Charles Ghilani)
Solution manual Ecology (4th Ed., Manuel C. Molles)
Solution manual Industrial Ecology and Sustainable Engineering (T. E. Graedel & Braden R. Allenby)
Solution manual Principles of Environmental Science : Inquiry and Applications (4th Ed., Cunningham)
Solution manual Principles of Environmental Science : Inquiry and Applications (5th Ed., Cunningham)
Solution manual Environmental Science : A Global Concern (9th Ed., Cunningham)
Solution manual Environmental Science : A Global Concern (10th Ed., Cunningham)
Solution manual Essential Environmental Science (1st Ed., Edward Keller & Daniel Botkin)
Solution manual Environmental Science : Earth as a Living Planet (6th Ed., Daniel Botkin & Edward Keller)
Solution manual Environmental Science : Earth as a Living Planet (7th Ed., Daniel Botkin & Edward Keller)
Solution manual Environmental Science : Earth as a Living Planet, Canadian Edition (Daniel Botkin & Edward Keller & Isobel Heathcote)
Solution manual Introduction to Marine Biogeochemistry (2nd Ed., Susan Libes)
Solution manual Farm Management (5th Ed., Ronald Kay, William Edwards & Patricia Duffy)
Solution manual Farm Management (6th Ed., Ronald Kay, William Edwards & Patricia Duffy)
Solution manual Environmental Geology (6th Ed., Carla Montgomery)
Solution manual Environmental Geology (7th Ed., Carla Montgomery)
Solution manual Environmental Geology (8th Ed., Carla Montgomery)
Solution manual Natural Disasters (4th Ed., Patrick Abbott)
Solution manual Natural Disasters (5th Ed., Patrick Abbott)
Solution manual Natural Disasters (6th Ed., Patrick Abbott)
Solution manual Geography Information Systems (2nd Ed., Kang-tsung Chang)
Solution manual Meteorology (2nd Ed., Danielson et al.)
Solution manual Fundamentals of Oceanography (4th Ed., Duxbury,

Sverdrup)
Solution manual Fundamentals of Oceanography (5th Ed., Duxbury, Sverdrup)
Solution manual Introduction to Geography (8th Ed., Getis et al.)
Solution manual Introduction to Geography (9th Ed., Getis et al.)
Solution manual Introduction to Geography (10th Ed., Getis et al.)
Solution manual Introduction to Geography (11th Ed., Getis et al.)
Solution manual Physical Geology : The Earth Revealed (4th Ed., Plummer, McGeary & Carlson)
Solution manual Physical Geology : The Earth Revealed (6th Ed., Plummer, McGeary & Carlson)
Solution manual Physical Geology : Earth Revealed (7th Ed., Plummer, McGeary & Carlson)
Solution manual Physical Geology (9th Ed., Plummer, McGeary & Carlson)
Solution manual Physical Geology (10th Ed., Plummer, McGeary & Carlson)
Solution manual Physical Geology (11th Ed., Plummer, McGeary & Carlson)
Solution manual Physical Geology (12th Ed., Plummer, McGeary & Carlson)
Solution manual Exploring the World Ocean (W. Sean Chamberlin & Tommy Dickey)
Solution manual Mastering ArcGIS (3rd Ed., Maribeth Price)
Solution manual Mastering ArcGIS (4th Ed., Maribeth Price)
Solution manual An Introduction to the World's Oceans (7th Ed., Sverdrup et al.)
Solution manual An Introduction to the Worlds Oceans (8th Ed., Sverdrup et al.)
Solution manual An Introduction to the Worlds Oceans (9th Ed., Sverdrup & Armbrust)
Solution manual An Introduction to the Worlds Oceans (10th Ed., Sverdrup & Armbrust)
Solution manual Laboratory Studies in Earth History (8th Ed., Brice et al.)
Solution manual Laboratory Studies in Earth History (9th Ed., Brice et al.)
Solution manual Exploring Geology (1st Ed., Reynolds et al.)
Solution manual Manual of Mineral Science (23rd Ed., Cornelis Klein & Barbara Dutrow)
Solution manual Isotopes : Principles and Applications (3rd Ed., Gunter Faure & Teresa Mensing)
Solution manual Earth Science : Understanding Environmental Systems (Edgar Spencer)
Solution manual Fundamentals of Weed Science (3rd Ed., Robert Zimdahl)
Solution manual Field and Laboratory Exercises in Animal Behavior (Tillberg, Breed & Hinners)
Solution manual Soils : An Introduction (6th Ed., Michael Singer & Donald Munns)
Solution manual Soils, Land, and Life (Stan Buol)
Solution manual Soils in Our Environment (10th Ed., Raymond Miller & Duane Gardiner)
Solution manual Soils in Our Environment (11th Ed., Raymond Miller & Duane Gardiner)

Solution manual Soil Microbiology, Ecology and Biochemistry (3rd Ed., Eldor Paul)
Solution manual Soil in the Environment : Crucible of Terrestrial Life (Daniel Hillel)
Solution manual Design Analysis in Rock Mechanics (William G. Pariseau)
Solution manual Forest Management and Planning (Bettinger, Boston, Siry & Grebner)
Solution manual Agricultural Systems : Agroecology and Rural Innovation for Development (Sieglinde Snapp & Barry Pound)
Solution manual Plant Systematics (Michael Simpson)
Solution manual The Nature and Properties of Soils (14th Ed., Nyle Brady & Raymond Weil)
Solution manual Elements of the Nature and Properties of Soils (2nd Ed., Nyle Brady & Ray Weil)
Solution manual Materials and the Environment : Eco-informed Material Choice (Michael Ashby)

List of Solutions Manuals and Test Banks

contact me to :   mattosbw1@gmail.com
mattosbw1(at)gmail.com

NOTE : "THIS SERVICE IS NOT AVAILABLE FOR :   CHINA, INDIA, RUSSIA, PAKISTAN, IRAQ, IRAN, PHILIPPINES, NORTH KOREA, NEPAL, BANGLADESH, SRI LANKA, MALDIVES, BHUTAN & COLOMBIA".

If your wanted solutions manual is not in this list, also can ask me if is available (it is a partial list). Then if you need solutions manual only contact me by email.

"ARE NOT AVAILABLES BOOKS IN DIGITAL FORMAT", ONLY SOLUTIONS MANUALS AND TEST BANKS.

I do not review the forums, just send me an email. Please do not use emails from servers "LIVE" , all they are take as spam emails in my inbox.

- Electrical, Electronics & Computer Engineering :

Solution Manual Antenna Theory and Design (2nd Ed., Stutzman & Thiele)
Solution Manual Antennas for All Applications (3rd Ed., John Kraus & Ronald Marhefka)
Solution Manual Principles of Neurocomputing for Science and Engineering (Fredric M. Ham & Ivica Kostanic)
Solution Manual Introduction to Algorithms (2nd Ed., Cormen, et al.)
Solution Manual Algorithms (Dasgupta, et al.)
Solution Manual Applied Operating Systems Concepts (Silberschatz, Galvin & Gagne)
Solution Manual Operating System Concepts (6th Ed., Silberschatz, Galvin & Gagne)
Solution Manual Operating System Concepts (7th Ed., Silberschatz, Galvin & Gagne)
Solution Manual Operating System Concepts (8th Ed., Silberschatz, Galvin & Gagne)
Solution Manual Operating Systems Concepts with Java (6th Ed., Silberschatz, Galvin & Gagne)
Solution Manual Operating System Concepts with Java (7th Ed., Silberschatz, Galvin & Gagne)
Solution Manual Operating System Concepts with Java (8th Ed., Silberschatz, Galvin & Gagne)
Solution Manual C++ Program Design (3rd Ed., Cohoon & Davidson)
Solution Manual Java : Program Design 5.0 (Cohoon & Davidson)
Solution Manual Programming in C++ : Lessons and Applications (Timothy B. D'Orazio)
Solution Manual Applied C : An Introduction and More (Alice Fischer)
Solution Manual Programming Languages : Principles and Paradigms (1st Ed., Allen Tucker & Robert Noonan)
Solution Manual Programming Languages : Principles and Paradigms (2nd Ed., Allen Tucker & Robert Noonan)
Solution Manual Introduction to Parallel Computing (2nd Ed., Grama, Karypis, Kumar & Gupta)
Solution Manual Parallel Programming in C with MPI and Open MP (Michael J Quinn)
Solution Manual Data Communications and Network Security (Houston H. Carr & Charles Snyder)
Solution Manual Data Communications and Networks (David Miller)
Solution Manual Management Information Systems (3rd Ed., Post & Anderson)
Solution Manual Management Information Systems (4th Ed., Post & Anderson)
Solution Manual Database Management Systems (3rd Ed. Post)
Solution Manual Management Information Systems (9th Ed., James A. O'Brien, George Marakas)
Solution Manual Introduction to Systems Analysis and Design (Whitten & Bentley)
Solution Manual Systems Analysis & Design : An Active Approach (2nd Ed., Marakas)
Solution Manual An Introduction to Object-Oriented Programming with

Java (4th Ed., C. Thomas Wu - Otani)
Solution Manual An Introduction to Object-Oriented Programming with Java (5th Ed., C. Thomas Wu - Otani)
Solution Manual A Comprehensive Introduction to Object-Oriented Programming With Java (C. Thomas Wu)
Solution Manual Data Structures and the Java Collections Framework (1st Ed., William Collins)
Solution Manual Data Structures and the Java Collections Framework (2nd Ed., William Collins)
Solution Manual Data Structures and the Standard Template Library (William Collins)
Solution Manual Database System Concepts (4th Ed., Silberschatz)
Solution Manual Database System Concepts (5th Ed., Silberschatz)
Solution Manual Database System Concepts (6th Ed., Silberschatz, Korth & Sudarshan)
Solution Manual Database Management Systems (3rd Ed., Ramakrishnan & Gehrke)
Solution Manual Fundamentals of Network Security (Eric Maiwald)
Solution Manual Computing Concepts (1st Ed., Haag, et al.)
Solution Manual Computing Concepts (2nd Ed., Haag et al.)
Solution Manual Microsoft Office 2003 (Haag et al.)
Solution Manual Advanced Programming Using Visual Basic .NET (2nd Ed., Julia Case Bradley & Anita Millspaugh)
Solution Manual Advanced Programming Using Visual Basic 2005 (3rd Ed., Julia Case Bradley & Anita Millspaugh)
Solution Manual Programming with Java (Julia Case Bradley & Anita Millspaugh)
Solution Manual Programming in C#.Net (1st Ed., Julia Case Bradley & Anita Millspaugh)
Solution Manual Programming in Visual C# 2005 (2nd Ed., Julia Case Bradley & Anita Millspaugh)
Solution Manual Learning Programming Using Visual Basic.Net (Bill Burrows & Joe Lanford)
Solution Manual Programming in Visual Basic.NET : Visual Basic.NET 2005 (6th Ed., Julia Case Bradley & Anita Millspaugh)
Solution Manual Programming in Visual Basic .Net : 2003 Update Edition (5th Ed., Julia Case Bradley & Anita Millspaugh)
Solution Manual Survey of Operating Systems (2nd Ed., Jane Holcombe & Charles Holcombe)
Solution Manual Principles of Voice and Data Communications (Regis J. Bates & Marcus Bates)
Solution Manual Mike Meyers' Network+ Guide To Managing and Troubleshooting Networks (Michael Meyers)
Solution Manual Introduction to Windows Server 2003 (Eric Ecklund)
Solution Manual Programming The Web : An Introduction (Barrie Sosinsky & Valda Hilley)
Solution Manual Programming The Web Using XML (Ellen Pearlman & Eileen Mullin)
Solution Manual Internet Marketing : Building Advantage in a Networked Economy (2nd Ed., Rafi Mohammed et al.)
Solution Manual Internet Technologies at Work (Fred T. Hofstetter)
Solution Manual Internet Literacy (4th Ed., Fred T. Hofstetter)
Solution Manual Software Engineering : A Practitioner's Approach (5th

Ed., Roger Pressman)
Solution Manual Software Engineering : A Practitioner's Approach (6th Ed., Roger Pressman)
Solution Manual Software Engineering : A Practitioner's Approach (7th Ed., Roger Pressman)
Solution Manual Web Engineering : A Practioner's Approach (1st Ed., Roger S. Pressman & David Lowe)
Solution Manual Object-Oriented Software Engineering (Stephen Schach)
Solution Manual Object-Oriented and Classical Software Engineering (5th Ed., Steve Schach)
Solution Manual Object-Oriented and Classical Software Engineering (6th Ed., Steve Schach)
Solution Manual Object-Oriented and Classical Software Engineering (7th Ed., Steve Schach)
Solution Manual Object-Oriented and Classical Software Engineering (8th Ed., Steve Schach)
Solution Manual Introduction to Object-Oriented Analysis and Design (Steve Schach)
Solution Manual Communication Networks (2nd Ed., Alberto Leon-Garcia & Indra Widjaja)
Solution Manual Fundamentals of Digital Logic with Verilog Design (1st Ed., Stephen Brown & Zvonko Vranesic)
Solution Manual Fundamentals of Digital Logic with Verilog Design (2nd Ed., Stephen Brown & Zvonko Vranesic)
Solution Manual Continuous and Discrete Control Systems (John Dorsey)
Solution Manual Engineering Circuit Analysis (6th Ed., William Hayt, Jack Kemmerly & Steven Durbin)
Solution Manual Engineering Circuit Analysis (7th Ed., William Hayt, Jack Kemmerly & Steven Durbin)
Solution Manual Engineering Electromagnetics (7th Ed., William Hayt & John Buck)
Solution Manual Engineering Electromagnetics (8th Ed., William Hayt & John Buck)
Solution Manual Principles of Electronic Materials and Devices (2nd Ed., Safa O. Kasap)
Solution Manual Principles of Electronic Materials and Devices (3rd Ed., Safa O. Kasap)
Solution Manual Programming in Haskell (Graham Hutton)
Solution Manual Probability and Random Processes With Applications to Signal Processing and Communications (Miller & Childers)
Solution Manual Logic in Computer Science : Modelling and Reasoning about Systems (2nd Ed., Michael Huth & Mark Ryan)
Solution Manual Introduction to Distributed Algorithms (2nd., Gerard Tel)
Solution Manual Information Theory, Inference and Learning Algorithms (David J. C. MacKay)
Solution Manual Digital Systems Engineering (William Dally & John Poulton)
Solution Manual Concepts in Programming Languages (by John Mitchell)
Solution Manual Simulation Modeling and Analysis (3rd Ed., Averill Law & David Kealton)
Solution Manual Simulation Modeling and Analysis with Expertfit Software (4th Ed., Averill Law)

Solution Manual System Modeling and Analysis : Foundations of System Performance Evaluation (Hisashi Kobayashi & Brian Mark)
Solution Manual Wireless Communications (Andrea Goldsmith)
Solution Manual Testing of Digital Systems (N. K. Jha & S. Gupta)
Solution Manual Space-Time Coding (Hamid Jafarkhani)
Solution Manual Space-Time Block Coding for Wireless Communications (Erik Larsson & Petre Stoica)
Solution Manual Smart Electronic Materials : Fundamentals and Applications (Jasprit Singh)
Solution Manual Radio-Frequency Electronics : Circuits and Applications (Jon Hagen)
Solution Manual Photonic Devices (Jia-ming Liu)
Solution Manual Networking Wireless Sensors (Bhaskar Krishnamachari)
Solution Manual Mobile Wireless Communications (Mischa Schwartz)
Solution Manual Introduction to Color Imaging Science (Hsien-Che Lee)
Solution Manual Fundamentals of Wireless Communication (David Tse & Pramod Viswanath)
Solution Manual Fundamentals of Modern VLSI Devices (Yuan Taur & Tak H. Ning)
Solution Manual Electronic and Optoelectronic Properties of Semiconductor Structures (Jasprit Singh)
Solution Manual An Introduction to Statistical Signal Processing (Robert M. Gray)
Solution Manual An Introduction to Radio Frequency Engineering (Christopher Coleman)
Solution Manual Algebraic Codes for Data Transmission (Richard Blahut)
Solution Manual Fundamentals of Solid State Electronics (C.T. Sah)
Solution Manual Fundamentals of Solid State Engineering (2nd Ed., Manijeh Razeghi)
Solution Manual Robot Modeling and Control (Spong, Hutchinson & Vidyasagar)
Solution Manual Theory of Applied Robotics : Kinematics, Dynamics and Control (Reza N. Jazar)
Solution Manual Control of Robot Manipulators in Joint Space (R. Kelly, V. Santib=E1=F1ez, A. Lor=EDa)
Solution Manual Modelling and Control of Robot Manipulators (2nd Ed., Lorenzo Sciavicco, Bruno Siciliano)
Solution Manual Robotics : Modelling, Planning and Control (Bruno Siciliano, Lorenzo Sciavicco, Luigi Villani & Giuseppe Oriolo)
Solution Manual Fundamentals of Semiconductor Fabrication (Gary S. May, Simon M. Sze)
Solution Manual Semiconductor Devices : Physics and Technology (2nd Ed, Simon M. Sze)
Solution Manual Physics of Semiconductor Devices (3rd Ed., Simon M. Sze, Kwok K. Ng)
Solution Manual Electric Machinery (6th Ed., Fitzgerald)
Solution Manual Electric Machinery Fundamentals (4th Ed., Chapman)
Solution Manual Electric Machinery Fundamentals (5th Ed., Chapman)
Solution Manual Electric Machinery and Power System Fundamentals (Chapman)
Solution Manual Local Area Networks (2nd Ed., Keiser)
Solution Manual Signals and Systems : Analysis of Signals Through Linear Systems (1st Ed., M.J. Roberts)

Solution Manual Fundamentals of Signals and Systems (M.J. Roberts)
Solution Manual Introduction to Signals and Systems (Lindner)
Solution Manual Semiconductor Physics and Devices : Basic Principles (3rd Ed., Donald Neamen)
Solution Manual Semiconductor Physics and Devices : Basic Principles (4th Ed., Donald Neamen)
Solution Manual An Introduction to Semiconductor Devices (Donald Neamen)
Solution Manual Microelectronic Circuit Analysis and Design (3rd Ed., Donald Neamen)
Solution Manual Microelectronic Circuit Analysis and Design (4th Ed., Donald Neamen)
Solution Manual Electronic Circuit Analysis and Design (2nd Ed., Donald Neamen)
Solution Manual Design for Electrical and Computer Engineers (1st Ed., Ralph Ford & Chris Coulston)
Solution Manual Fundamentals of Modeling and Analyzing Engineering Systems (Cha, Rosenberg, Dym)
Solution Manual Linear Systems (Panos J. Antsaklis & Anthony N. Michel)
Solution Manual A Linear Systems Primer (Panos J. Antsaklis & Anthony N. Michel)
Solution Manual Principles of Linear Systems (Philip E. Sarachik)
Solution Manual Linear Systems Control : Deterministic and Stochastic Methods (Elbert Hendricks, Ole Jannerup & Paul Haase S=F8rensen)
Solution Manual Power Systems Harmonics : Fundamentals, Analysis and Filter Design (George J. Wakileh)
Solution Manual Principles of Adaptive Filters and Self-learning Systems (Anthony Zaknich)
Solution Manual Algebraic Methods for Nonlinear Control Systems (2nd Ed., Conte, Moog & Perdon)
Solution Manual Discrete-Time Control Systems (2nd Ed., K. Ogata)
Solution Manual Modern Control Engineering - Problems B (3rd Ed., K. Ogata)
Solution Manual Modern Control Engineering (4th Ed., K. Ogata)
Solution Manual Modern Control Engineering (5th Ed., K. Ogata)
Solution Manual Modern Control Engineering - International Version (5th Ed., K. Ogata)
Solution Manual LabVIEW 8 Student Edition (Bishop)
Solution Manual LabVIEW 2009 Student Edition (Bishop)
Solution Manual Learning with LabVIEW 2009 (Bishop)
Solution Manual Introduction to Feedback Control (Li Qiu & Kemin Zhou)
Solution Manual Modeling and Simulation of Dynamic Systems (Robert Woods, Jr. & Kent Lawrence)
Solution Manual Feedback Control Systems (4th Ed., Charles L. Phillips, Royce D. Harbor)
Solution Manual Feedback Control Systems (5th Ed., Charles L. Phillips, John Parr)
Solution Manual Feedback Control of Dynamic Systems (4th Ed., Gene Franklin, J.D. Powell, Abbas Emami-Naeini)
Solution Manual Feedback Control of Dynamic Systems (5th Ed., Gene Franklin, J.D. Powell, Abbas Emami-Naeini)
Solution Manual Feedback Control of Dynamic Systems (6th Ed., Gene

Franklin, J.D. Powell, Abbas Emami-Naeini)
Solution Manual Feedback Control of Dynamic Systems - International Version (6th Ed., Gene Franklin, J.D. Powell, Abbas Emami-Naeini)
Solution Manual Predictive Control with Constraints (Jan Maciejowski)
Solution Manual Computer Numerical Control : Operation and Programming (3rd Ed., Stenerson & Curran)
Solution Manual Engineering Problem Solving with C (3rd Ed., Etter)
Solution Manual Engineering Problem Solving with C++ (2nd Ed., Etter)
Solution Manual Process Control Instrumentation Technology (8th Ed., Johnson)
Solution Manual Electrical Power and Controls (2nd Ed., Skvarenina & DeWitt)
Solution Manual Electronics and Computer Math (8th Ed., Deem & Zannini)
Solution Manual Circuits, Signals, and Systems for Bioengineers : A MATLAB-Based Introduction (John Semmlow)
Solution Manual Signals and Systems for Bioengineers : A MATLAB-Based Introduction (2nd Ed., John Semmlow)
Solution Manual VLSI Test Principles and Architectures : Design for Testability (Laung-Terng Wang, Cheng-Wen Wu & Xiaoqing Wen)
Solution Manual Mechatronics : Principles and Applications (Godfrey Onwubolu)
Solution Manual Mechatronics (Sabri Cetinkunt)
Solution Manual Introduction to Mechatronic Design (J. Edward Carryer, Matthew Ohline & Thomas Kenny)
Solution Manual Introduction to Mechatronics and Measurement Systems (2nd Ed., David Alciatore & Michael Histand)
Solution Manual Introduction to Mechatronics and Measurement Systems (3rd Ed., David Alciatore & Michael Histand)
Solution Manual Introduction to Mechatronics and Measurement Systems (4th Ed., David Alciatore & Michael Histand)
Solution Manual Machine Vision : Theory, Algorithms, Practicalities (3rd Ed., E. R. Davies)
Solution Manual Essential Java for Scientists and Engineers (Brian D. Hahn & Katherine M. Malan)
Solution Manual Guide to Microsoft Excel 2002 for Scientists and Engineers (3rd Ed., Bernard V. Liengme)
Solution Manual 10-Key Touch Key : Developing Speed and Accuracy (Burton)
Solution Manual Introduction to C++ Programming, Brief Version (Y. Daniel Liang)
Solution Manual Introduction to C++ Programming, Comprehensive (Y. Daniel Liang)
Solution Manual C++ for Business Programmers (2nd Ed., John C. Molluzzo)
Solution Manual Introduction to Java Programming - Brief Version (7th Ed., Liang)
Solution Manual Introduction to Java Programming - Brief Version (8th Ed., Liang)
Solution Manual Introduction to Java Programming - Brief Version - International Edition (8th Ed., Liang)
Solution Manual Introduction to Java Programming - Comprehensive Version (6th Ed., Liang)

Solution Manual Introduction to Java Programming - Comprehensive Version (7th Ed., Liang)
Solution Manual Introduction to Java Programming - Comprehensive Version (8th Ed., Liang)
Solution Manual Introduction to Java Programming - Comprehensive Version - International Edition (8th Ed., Liang)
Solution Manual Introduction to Java Programming : Fundamentals First (6th Ed., Y. Daniel Liang)
Solution Manual Objects First With Java : A Practical Introduction Using BlueJ (3rd Ed., Barnes & Kolling)
Solution Manual Simply Java Programming : An Application-Driven=99 Tutorial Approach (Deitel)
Solution Manual ADTs, Data Structures, and Problem Solving with C++ (2nd Ed., Larry R. Nyhoff)
Solution Manual Java : An Introduction to Computing (Joel Adams, Larry R. Nyhoff & Jeffrey Nyhoff)
Solution Manual Advanced Java=99 2 Platform How to Program (Deitel & Santry)
Solution Manual SQL for SQL Server (Bijoy Bordoloi & Douglas B. Bock)
Solution Manual SQL Clearly Explained (3rd Ed., Jan Harrington)
Solution Manual An Introduction to Programming Using Visual Basic 2005 (6th Ed., Schneider)
Solution Manual An Introduction to Programming Using Visual Basic 2008 (7th Ed., Schneider)
Solution Manual An Introduction to Programming Using Visual Basic 2010 (8th Ed., Schneider)
Solution Manual Simply Visual Basic .NET (Harvey M. Deitel, Paul J. Deitel, Tem R. Nieto)
Solution Manual Simply Visual Basic 2005 (2nd Ed., Harvey & Paul Deitel)
Solution Manual Simply Visual Basic 2008 (3rd Ed., Harvey & Paul Deitel)
Solution Manual Visual Basic 2005 How to Program (3rd Ed., Deitel)
Solution Manual Visual Basic 2008 How to Program (4th Ed., Deitel)
Solution Manual Visual Basic 2010 How to Program (5th Ed., Deitel)
Solution Manual An Introduction to Programming with Visual Basic 6.0 (4th Ed., Schneider)
Solution Manual Visual Basic.Net Programming (2nd Ed., Jeffrey Tsay)
Solution Manual Simply Visual Basic .NET (Harvey & Paul Deitel & Nieto)
Solution Manual Mechatronics (Sabri Cetinkunt)
Solution Manual PC Systems, Installation and Maintenance (2nd Ed., R.P. Beales)
Solution Manual Introduction to Linear Programming (Leonid N. Vaserstein)
Solution Manual Electric Circuits Fundamentals (8th Ed., Thomas Floyd)
Solution Manual Introductory Circuit Analysis (11th Ed., Robert L. Boylestad)
Solution Manual Introductory Circuit Analysis (12th Ed., Robert L. Boylestad)
Solution Manual Principles of Electric Circuits : Conventional Current Version (8th Ed., Thomas Floyd)
Solution Manual Principles of Electric Circuits : Conventional Current

Version (9th Ed., Thomas Floyd)
Solution Manual Principles of Electric Circuits : Electron Flow Version (8th Ed., Thomas L. Floyd)
Solution Manual Principles of Electric Circuits : Electron Flow Version (9th Ed., Thomas L. Floyd)
Solution Manual Contemporary Electric Circuits : Insights and Analysis (2nd ed., Strangeway, Petersen, Gassert & Lokken)
Solution Manual Introductory Electronic Devices and Circuits : Electron Flow Version (7th Ed., Paynter)
Solution Manual Introductory Electronic Devices and Circuits : Conventional Flow Version (7th Ed., Paynter)
Solution Manual Electronics Technology Fundamentals : Conventional Flow (2nd Ed., Robert T. Paynter & Toby Boydell)
Solution Manual Electronics Technology Fundamentals : Conventional Flow (3rd Ed., Robert T. Paynter & Toby Boydell)
Solution Manual Electronics Technology Fundamentals : Electron Flow (2nd Ed., Robert T. Paynter, Toby Boydell)
Solution Manual Electronics Technology Fundamentals : Electron Flow (3rd Ed., Robert T. Paynter, Toby Boydell)
Solution Manual Introductory DC/AC Circuits (6th Ed., Nigel P. Cook)
Solution Manual Introductory DC/AC Electronics (6th Ed., Nigel P. Cook)
Solution Manual Electronic Devices : Conventional Current Version (7th Ed., Floyd)
Solution Manual Electronic Devices : Conventional Current Version (8th Ed., Floyd)
Solution Manual Electronic Devices : Electron Flow Version (7th, Floyd)
Solution Manual Electronic Devices : Electron Flow Version (8th, Floyd)
Solution Manual Electronics Fundamentals : Circuits, Devices and Applications (7th Ed., Thomas L. Floyd)
Solution Manual Electronics Fundamentals : Circuits, Devices and Applications (8th Ed., Floyd & Buchla)
Solution Manual Electronic Devices and Circuit Theory (9th Ed., Boylestad, Nashelsky)
Solution Manual Electronic Devices and Circuit Theory (10th Ed., Boylestad, Nashelsky)
Solution Manual The Science of Electronics : DC/AC (David M. Buchla, Thomas L. Floyd)
Solution Manual The Science of Electronics : Digital (Floyd & Buchla)
Solution Manual The Science of Electronics: Analog Devices (Floyd & Buchla)
Solution Manual Digital Electronics : A Practical Approach (7th Ed., Kleitz)
Solution Manual Digital Electronics : A Practical Approach (8th Ed., Kleitz)
Solution Manual Digital Systems : Principles and Applications (10th Ed., Tocci, Widmer & Moss)
Solution Manual Digital Systems : Principles and Applications (11th Ed., Tocci, Widmer & Moss)
Solution Manual Digital Electronics with VHDL - Quartus II Version (Kleitz)

Solution Manual Digital Fundamentals (9th Ed., Floyd)
Solution Manual Digital Fundamentals (10th Ed., Floyd)
Solution Manual Digital Fundamentals with PLD Programming (Thomas L. Floyd)
Solution Manual The 8051 Microcontroller (4th Ed., MacKenzie & Chung-Wei Phan)
Solution Manual The 8051 Microcontroller and Embedded Systems (2nd Ed., Muhammad Ali Mazidi, Janice Mazidi & Rolin McKinlay)
Solution Manual INTEL Microprocessors 8086/8088, 80186/80188, 80286, 80386, 80486, Pentium, Prentium ProProcessor, Pentium II, III, 4, (7th Ed., Barry B. Brey)
Solution Manual Microcontroller Technology : The 68HC11 (5th Ed., Peter Spasov)
Solution Manual PIC Microcontroller (Muhammad Ali Mazidi, Rolin McKinlay & Danny Causey)
Solution Manual HCS12 Microcontrollers and Embedded Systems : Using Assembly and C with CodeWarrior (Muhammad Ali Mazidi, Danny Causey & Janice Mazidi)
Solution Manual The x86 PC : Assembly Language, Design, and Interfacing (5th Ed., Muhammad Ali Mazidi, Janice Mazidi & Danny Causey)
Solution Manual The AVR Microcontroller and Embedded Systems : Using Assembly and C (Muhammad Ali Mazidi, Sarmad Naimi & and Sepehr Naimi)
Solution Manual Industrial Electronics (James A. Rehg, Glenn J. Sartori)
Solution Manual Programmable Controllers Using the Allen-Bradley SlC-500 Family (2nd Ed., Dave Geller)
Solution Manual Programmable Logic Controllers (James A. Rehg, Glenn J. Sartori)
Solution Manual Fundamentals of Programmable Logic Controllers, Sensors, and Communications (3rd Ed., Jon Stenerson)

Summary: Short reminder for unmoderated newsgroups that crossposting is permitted
```

Keywords: FAQ, ham, amateur, radio, moderated, unmoderated, crossposting, permitted

Posted-By: auto-faq 3.3.2 beta (PGPMoose V2.0, Perl 5.005)
Archive-name: radio/ham-radio/moderated/crossposting
Revision: 1.2 2011/11/02 04:08:53
Posting-Frequency: posted monthly
URL: http://www.panix.com/~rram/usenet/rram/index.html

Changes followed by "|".

After a 30-day public discussion and feedback period to gauge reader opinions in March of 2009:

http://groups.google.com/group/rec.radio.amateur.moderated/browse_thread/thread/d7d337db35f23326

the rec.radio.amateur.moderated Moderation Team had decided to consider |
amending its charter, and permit limited simultaneous crossposting to
rec.radio.amateur.moderated and one other unmoderated
amateur-radio-related discussion newsgroup. After a successful trial |
period (90 days, through early July 2009), we decided to adopt this |
change permanently. |

Approved rec.radio.amateur.* newsgroups are those that are currently listed in the latest version of the "List of Big Eight Newsgroups" which is crossposted monthly to news.announce.newgroups, news.groups, and news.lists.misc.

Approved alt.radio.amateur.* and alt.ham-radio.* newsgroups are those that have been created consistent with the suggestions in "So You Want to Create an Alt Newsgroup" at:

  http://www.faqs.org/faqs/alt-creation-guide/

Approved regional hierarchy newsgroups are those that contain either "radio.amateur" or "ham-radio" in their names, including uk.radio.amateur and aus.radio.amateur.misc.

We will make every reasonable effort to keep our list of approved newsgroups up-to-date. In case we have overlooked any, and a submission is rejected in error as a result, the rejected submitter can E-mail us at our administrative contact address (in the signature at the bottom of this article, and the default Reply-To for the rejection message) requesting that it be added, and that the article be approved. We may still choose to reject articles crossposted to any alt.* newsgroup with an inappropriate name, including obscene language, embedded name-calling, or encouragement of unlawful conduct.

Please direct any comments, questions, or criticisms to rec-radio-amateur-moderated-request@panix.com.

Does anyone here have any spare terminal covers for a Bunnel Flameproof
morse key?  How about any good ideas for creating one from scratch?

No, I bought it that way. I'm thinking it would be fairly simple to get a piece of hard plastic square rod and drill-press out a cavity. But I don't have a drill press and I'm hoping maybe someone might be convinced to make one.

I have a Realistic PRO-2003 AM/FM scanning receiver for sale. It is in very
good shape and comes with the manual. I'm asking $45 plus postage for it.
You may contact me off the newsgroup.

Thanks

Henry

I was aware of that and waited too long to grab one, so I got one from
Ebay, which didn't have the cover. I'll see if JH Bunnel has any covers
left over.

I recently converted a couple of CB's to different bands: one to 10 meters and the other to 12. Although both have effective noise blankers (they are Cobra/ Uniden CB's), I'm wondering if it's possible to make the blankers adjustable in any way? When aligning them, two Toko (or similar) inductors on the board have to be adjusted for minimal noise but of course I wouldn't be able to adjust these on the road since they are internal. Thoughts or ideas?

Thanks,
Bill

Hi,
I have put together a short book on regenerative radio receivers to
mark the 100'th year of the discovery.
It is available here:
http://www.webstore.com/Regenerative-Radio-Receiver-
Book,name,14754474,auction_id,auction_details
It explains all the main topics needed to make a regenerative receiver
work right first time.

Unfortunately Mr Kitchin does not seem to understand the basic theory
of how regenerative radio receivers work. People who have built his
circuits often have irresolvable problems trying to get them to work.
In my book I indicate exactly what the problems are and how they are
solved. There are also a bunch of circuits that are of general
interest to anyone building any type of radio. All in all for the
price you get a lot more than you would get in a copy of QST for
example.
The book is now here:
http://www.webstore.com/Regenerative-Radio-Receiver-Book,name,14754474,auction_id,auction_details

Are you sure that inductors you talking about are in audio circuit
are they are in RF gain circuit some CBs come built in noise limiter?

Listened to many a ball game on a little one tube ginny I built from
plans in a book I found in the school library. . Later added a pre-
amp and two tube audio amp. Last thing I added to it was a preselector
using two ferrite loop sticks and a 2 section variable cap. All the
different sections were on their own chassis. It evolved to its final
stage over 8 years. When I was in college my friends thought I was
nuts for listening to a junky radio like that.

Jimmie

Actually there WAS a direct conversion receiver in QST in the 60's that
used two 6BY7's in a balanced mixer with a B&W #350 2Q4 phase shift
network.  It was actually a single sideband receiver as the detector was
an image reject mixer.

Hey OM:

Don't use a 555 use a TL494. A 555 has no control of the leading and
trailing edge of the so called square wave. /while one FET is going
off the other FET will come on. Towit the off time of most power FET's
is longer that the on time, thus the FET that you want to turn off
will still be on when the FET that you want on comes on thus for a

time both FET's will be on. Been there done that.

All you need is a power FET bridge, 4 FET drivers and the controller.

back in the day we used to make our own vibrator supplies , and now
with neo magnets out there I can keep the arcing down to nothing and
Suppressor diodes to keep the spikes down, the diodes and magnets they
didn't use back in the day 'cause they were to costly, all they could
use was buffer capacitors.

A lot of old marine electronics used 60Hz vibrators that worked well with
transformers designed for 60Hz service. Some of those transformers actually had primary windings or taps on the primary windings that matched common 117vac, 60Hz supplies.

Although the cheap, crimped cans (on the vibrators) was ugly to open, they could be opened and the vibrator repaired. Most had burned or welded closed points. The points were often good for one or two filings or dressings before the point of no return. Putting the can back on was a little messy, but hey, beauty was not usually important.

Just put up a 80 meter dipole today, but had some difficulty with two things: proper tying off of the lift/ support rope and proper tying off of the guys. When I say "support rope" here's what I mean: one side of the dipole was anchored high in a tree while the other from a 30' telephone pole. The tree had a pulley installed, so the "support rope" hangs down from there as well as the eye bolt from the telephone pole (support rope through the eye bolt). So, I'm not sure where or how to tie the support rope ends. Right now, on the tree side, I just have several turns around a low branch with a knot; basically the same with the telephone pole side. What is the proper way to secure the base of the supoort rope?

How do I tie the guy wires?

Thanks for any help.

Is the "telephone" pole your own property
or that of the utility company.

If it belongs to the utility company,
your dipole will be considered a hazard and removed.

=================================

The pulley is fine .Hang a brick or 2 or more fixed to the support rope
(the one running through the pully)
With the tree moving when it is windy ,the brick(s) keep(s) the dipole nicely stretched while possibly bobbing up and down a bit.

At our local radio club 2 wire dipoles are each suspended in between the branches of 2 trees , having a pulley and a hanging brick on both trees. Whereas here in the north of Scotland it can be veeeery windy the above setup is working well ;we never had a broken dipole.

How difficult are transistor with an Ft of 5GHz to use? There are
some really cheap ones around these days like the 2sc3356 for
example. I'd like to some to make a regenerative receiver but I worry
that even after careful PCB layout I would still have problems.
Anyway I am starting a new website where I intend to present many
useful circuits. It is located at http://circuitprofile.scienceontheweb.net
At the moment there is only XOR circuit, but that XOR circuit should
be helpful for anyone making a huff and puff stabilized oscillator
circuit.

But why?

Cheap really high frequency transistors are great, when you need very high frequency characteristics.

But there are also plenty of cheap transistors that don't go so high in frequency that are more than good enough at lower frequencies.

Those "lesser" transistors have to be more available than the really high frequency transistors.

Take note that a lot of "popular" transistors are that way because they've been specified in construction articles, which in turn causes the parts places to carry them, which then also means others specify them in construction articles.

I hacked a short monopole antenna plus antenna preamp with an NEC
20GHz FET on 1.6mm thick FR4 material, and it worked pretty well. I
needed to have a very linear phase response (20MHz to 2GHz) and it
took some work to get the bypassing right; there was a source resistor
to develop the needed gate bias voltage, and getting it bypassed
correctly kept me busy for a while. One result of the project was
that I became much less afraid to try things like that, though. I
didn't have any stability problems. I used 0402 size parts, mostly
because they fit together better with the transistor than 0603, though
I really don't relish working with things as small as 0402.

I agree with Michael that you should avoid using transistors that have
much higher Ft's than you need, but maybe you're thinking of a 1GHz
regen receiver.

With regard to the parts that places like DigiKey and Mouser and other
authorized distributors stock: I seriously doubt that any homebrew
projects are going to have much effect on what they stock. It's the
parts that are bought for production, by the reel, or at least by
hundreds for some of the more exotic parts, that get their attention.
If you see them with a stock of 10,000 or more of something, you can
bet they didn't get them because they got some orders from random
homebrewers.

Cheers,
Tom

But in the old days, it did matter. When there were local parts stores, and small mail order places. Why were there all those 2N706s specified for a long time, until 2N2222s became common? People still specify "1N34" when what they are really specifying is a germanium small signal diode, much of the time people didn't really care what the part number was, I seem to recall ads just saying "germanium diodes".

Even today, there is a relatively small handful of components specified, albeit a more recent selection.

I have no idea what came first. Did whoever used the 2N706 first look through databooks and find something "right" and then buy some, or did it start with going to the parts store and finding what was available? But as I said, once the parts were in the construction articles, those were the parts you'd see in the ads, back when the ads were the full line of what was carried, or a good part of it. Those places didn't carry a full line, they carried what would sell, so they'd carry what was being specified in the construction articles.

If you look at the UK or European magazines, you'd see the same small subset of parts being used, albeit a different set of specific devices.

It still holds true with a place like Dan's Small Parts. He has the familiar FETs, a dozen or so types of small signal bipolar transistors, unless he ends up with some overstock of some "exotic" device that's more or less like the common devices. He doesn't carry endless ICs, so he does pick to match what is commonly used. It's not a good place for exotic components or a wide range of components, but for non-digital projects it's a better place than many, since they carry radio type components like variable capacitors, so it often avoids orders to multiple places.

The flip side is that in keeping to a small selection of common parts, one can keep those in stock at home, and be able to throw together a lot of things on whim. Who doesn't have some 2N3055s and 2N2222s and 2N3906s and MPF102s?

It was a different era. The hobby suppliers worked as middlemen between the distributors and the hobbyists. The distributors often didnt' want to deal with small orders. So new places rose up that would buy in bulk and sell in small quantities to hobbyists. Since they were small companies in themselves, they couldn't afford to buy large quantities of lots of parts, so they picked the popular ones.

I remember about 1974 wanting some "new" ICs, the MC4044P and the MC1648 and the old style parts stores didn't carry things like that yet (and wouldn't, they'd start disappearing in a few years), so the only way was to go through a complicated procedure to get them from the local Hamilton Avnet distributor. And it seemed at the time that they weren't the general distributors such as Mouser, if you needed some other company's parts that they weren't a distributor for, you'd have to go to some other distributor that did carry the line. You'd look in the phone book and someone would be a distributor for Motorola, another for RCA and so on.

When Active Electronics opened up, it was a big deal because they were carrying multiple lines, and were sort of willing to deal with the hobbyist (initially we'd fill out a form, then it would get sent back to the warehouse to be filled, but slowly they prepackaged components and it was self serve for the common ones). It was sort of like the old parts stores, except carrying more leading edge components. But even when a wider variety of parts was available from places like that, we'd all stick to more or less the same handful of parts.

Digikey is an example of all this. Started out selling a keyer kit, they started selling parts and if I'm remembering properly, there was a period when they listed all or most of their stock in their magazine ads. Then they grew and grew more, going from a small company catering to hobbyists with a select number of devices, to being a major source of parts from a wide range of companies, and really dealing with selling to other companies, but still having some sort of reasonable policy for the small time buyer.

In a local homebrewing magazine, they started to use some generic specifiers for small signal transistors and diodes, and there was a table in the magazine that listed a number of different types that one could use.

TUN = Transistor Universal NPN
TUP = Transistor Universal PNP
DUS = Diode Universal Silicium
DUG = Diode Universal Germanium

I think some hobbyists would just go to the store for "5 TUN, 3 DUS" and get what they needed.

Hey, I'm just guessing here, but I'd bet that the 2N706 ("High speed
logic switch," says the data sheet I brought up) was used by the
hundreds of thousands, maybe by the millions, by computer
manufacturers and other industrial/military electronics suppliers back
in the pre-integrated circuit days. That made them inexpensive and
readily available, and on the surplus market. Remember
"PolyPaks" (sp?)? I still have the 30MHz universal counter I built
out of PolyPaks parts, including Nixie tubes. I certainly had no
illusions about me and hobby people like me driving the market for
parts. I remember having a distinct impression at the time that the
hobbyist parts companies bought what they could get their hands on for
very low cost and sold what they could to us geeks. There's a supply-
side reason a lot of those companies were located in the Boston tech
corridor, Silicon Valley, or the L.A. aerospace zone. Yes, certainly
some of them bought stock of things they could move from distributors,
but I still don't see that the hobbyists drove what parts became the
standards.

The people designing ICs these days do it so they can sell large
quantities of them. That means getting them designed into reasonably
high volume products, and that's NOT the hobby or ham market. Heck,
the stuff I design professionally is never sold in high enough volume
to warrant design of any electronics parts 'specially for it, and it's
produced in higher volume than any but the highest volume ham gear--
orders of magnitude more volume than any homebrew projects.

Perhaps we're looking at this from completely different viewpoints.
I'm looking at it from the point of view of a company that makes and
sells, say, semiconductors. From that point of view, you don't ask
how many the hobby market will buy--you find markets that need
millions of parts. If you're successful, you don't mind that a tiny
fraction of those parts end up in hobby projects, but when the main
market dries up, you are unlikely to continue making wafers of that

part just to supply homebrewers.

That's not to say the home experimenter or low-volume industrial user has no impact on the large (or smaller) semiconductor manufacturer, by the way. I know that feedback from a ham trying to get low phase noise, who happened to discover a problem with a particular chip, had a significant effect on the manufacturer of that chip. I know that my own feedback to a very large semiconductor manufacturer caused them to discover a furnace problem and they shut down that line to fix it. I know that my feedback to the semiconductor product planners that come by occasionally has some effect on what they decide to do because they respect that what we do is pretty much cutting-edge, but the ideas would never see the light of day if they don't see a significant market for the resulting products (and that market is never going to be because of things I design, for sure).

Cheers,
Tom

============================

In the UK we must be lucky having a number of 1-2 band small parts suppliers (usually also being radio amateurs) having a good selection of solid state and electronic-mechanical components , like Modecomponents and JAB Electronics .
They also accept Paypal . Moreover the GQRP Club sells a number of popular RF components to members.
Hence ,no problems with getting components .

Back in the day.... mid 1960's, I helped out at a service shop in Goldsboro, NC,

and tried at first to get the shop boss to find a particular transistor or
diode to
complete a repair. He referred me to three cigar boxes. One was for power
transistors, mixed types, another for small signal NPN's, and last for small
signal PNP's. A glass jar held small signal diodes and for larger power
diodes,
I was shown the "back room" where a huge pile of defunct radio, tape player,
TV and
CB radios lie. Help yourself, kid!

Old Chief Lynn, W7LTQ

Changes followed by "|".

After a 30-day public discussion and feedback period to gauge reader opinions in March of 2009:

http://groups.google.com/group/rec.radio.amateur.moderated/browse_thread/thread/d7d337db35f23326

the rec.radio.amateur.moderated Moderation Team had decided to consider |
amending its charter, and permit limited simultaneous crossposting to
rec.radio.amateur.moderated and one other unmoderated
amateur-radio-related discussion newsgroup. After a successful trial |
period (90 days, through early July 2009), we decided to adopt this |
change permanently. |

Approved rec.radio.amateur.* newsgroups are those that are currently listed in the latest version of the "List of Big Eight Newsgroups" which is crossposted monthly to news.announce.newgroups, news.groups, and news.lists.misc.

Approved alt.radio.amateur.* and alt.ham-radio.* newsgroups are those that have been created consistent with the suggestions in "So You Want to Create an Alt Newsgroup" at:

http://www.faqs.org/faqs/alt-creation-guide/

Approved regional hierarchy newsgroups are those that contain either "radio.amateur" or "ham-radio" in their names, including uk.radio.amateur and aus.radio.amateur.misc.

We will make every reasonable effort to keep our list of approved newsgroups up-to-date. In case we have overlooked any, and a submission is rejected in error as a result, the rejected submitter can E-mail us at our administrative contact address (in the signature at the bottom of this article, and the default Reply-To for the rejection message) requesting that it be added, and that the article be approved. We may still choose to reject articles crossposted to any alt.* newsgroup with

```
an inappropriate name, including obscene language, embedded
name-calling, or encouragement of unlawful conduct.

Please direct any comments, questions, or criticisms to
rec-radio-amateur-moderated-request@panix.com.

I have a Realistic PRO-2003 AM/FM scanning receiver for sale.  It is in very
good shape and comes with the manual.  I'm asking $45 plus postage for it.
You may contact me off the newsgroup.

Thanks

Henry

In most cases high Ft transistors are ok in lower frequency
applications, high Ft means they have current gain which is flat in
frequency and is still some near 1 at Ft.
Oscillations are probably one chance if low frequency design allows
feedback or is not bandwidth limited.

One way out of these is to add extra loss at high frequencies which
lowers gain and lessen probability for oscillations.
Resistor 10..47ohm at collector (base) or tiny ferrite bead has high
impedance at high frequencies but don't affect low frequency
amplification significantly.

In most cases these values need experiments if needed at all, as
instability depends gain used and feedback available.

Gl Kari B

Summary: Recruitment announcement for ham-radio-related FAQ articles
Keywords: FAQ, Intro, amateur, ham, radio, recruit, recruitment
Xref: news2.google.com rec.radio.amateur.antenna:10216 rec.radio.amateur.dx:729
rec.radio.amateur.equipment:1100 rec.radio.amateur.homebrew:1969
rec.radio.amateur.misc:2568 rec.radio.amateur.policy:10266 rec.radio.info:2013
```

Posted-By: auto-faq 3.3.2 beta (PGPMoose V2.0, Perl 5.005)
Archive-name: radio/ham-radio/recruitment
Revision: 1.2 2009/11/25 14:41:01
Posting-Frequency: posted monthly
URL: http://www.faqs.org/faqs/radio/personal-intro/

Changes followed by "|".

The rec.radio.info newsgroup, first established in 1993, has been recently revived by an active moderation team. We are currently seeking suitable information, FAQ, and bulletin articles from the entire rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our newsgroup.

```
We are seeking a replacement maintainer for the following information
bulletin formerly posted to rec.radio.amateur.* (and currently archived
at http://www.faqs.org/faqs/radio/personal-intro/ ):

 radio/personal-intro
 Subject: Guide to the rec.radio Newsgroups
 Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
 Last Posted: 9 Nov 2001 06:18:17 GMT
 Posting-Frequency: 15th of each month

One significant omission, requiring immediate updates, for this article       |
is that it does not mention newer amateur radio newsgroups created since      |
it was written, including:                                                    |

 rec.radio.amateur.antenna                                                    |
 rec.radio.amateur.boatanchors                                                |
 rec.radio.amateur.dx                                                         |
 rec.radio.amateur.equipment                                                  |
 rec.radio.amateur.homebrew                                                   |
 rec.radio.amateur.moderated                                                  |
 rec.radio.amateur.space                                                      |

We are willing to provide any technical support necessary to get this
article updated and automatically posted again at a regular interval.
This would include establishing contact with the original maintainer for
any necessary permissions.  We would prefer to seek a new, dedicated
maintainer at this time, rather than start auto-posting the original
article ourselves.

For more information about our newsgroup, see:

http://www.panix.com/~rram/usenet/rri/index.html

Please direct any comments, questions, or criticisms to
rec-radio-info-request@panix.com.

I'm getting tired of looking at all the old data books on my shelves that I seldom/never use. Anyone interested in such things? My collection is mostly semiconductor: Motorola, TI, National, ... I can recycle them for free, but if someone wants to pick them up or pay for shipping plus some nominal charge for packing them, I'd be happy to get rid of them that way.

Cheers,
Tom

How about a list of the manuals? I'd hate to spend a lot of loot on
shipping charges for a bunch of books that I already have.
Are they databooks? Which technology?
Application manuals? Which vendors? Approx year of publication?

Thanks for offering them to us before recycling.

Summary: Short reminder for unmoderated newsgroups that crossposting is permitted
Keywords: FAQ, ham, amateur, radio, moderated, unmoderated, crossposting,
permitted

Posted-By: auto-faq 3.3.2 beta (PGPMoose V2.0, Perl 5.005)
Archive-name: radio/ham-radio/moderated/crossposting
Revision: 1.2 2011/11/02 04:08:53
Posting-Frequency: posted monthly
URL: http://www.panix.com/~rram/usenet/rram/index.html

Changes followed by "|".

After a 30-day public discussion and feedback period to gauge reader opinions in March of 2009:

http://groups.google.com/group/rec.radio.amateur.moderated/browse_thread/thread/d7d337db35f23326

the rec.radio.amateur.moderated Moderation Team had decided to consider |
amending its charter, and permit limited simultaneous crossposting to
rec.radio.amateur.moderated and one other unmoderated
amateur-radio-related discussion newsgroup. After a successful trial |
period (90 days, through early July 2009), we decided to adopt this |
change permanently. |

Approved rec.radio.amateur.* newsgroups are those that are currently listed in the latest version of the "List of Big Eight Newsgroups" which is crossposted monthly to news.announce.newgroups, news.groups, and news.lists.misc.

Approved alt.radio.amateur.* and alt.ham-radio.* newsgroups are those that have been created consistent with the suggestions in "So You Want to Create an Alt Newsgroup" at:

  http://www.faqs.org/faqs/alt-creation-guide/

Approved regional hierarchy newsgroups are those that contain either

"radio.amateur" or "ham-radio" in their names, including
uk.radio.amateur and aus.radio.amateur.misc.

We will make every reasonable effort to keep our list of approved newsgroups up-to-date. In case we have overlooked any, and a submission is rejected in error as a result, the rejected submitter can E-mail us at our administrative contact address (in the signature at the bottom of this article, and the default Reply-To for the rejection message) requesting that it be added, and that the article be approved. We may still choose to reject articles crossposted to any alt.* newsgroup with an inappropriate name, including obscene language, embedded name-calling, or encouragement of unlawful conduct.

Please direct any comments, questions, or criticisms to
rec-radio-amateur-moderated-request@panix.com.

```

I have several 1kW television transmitter modules that will work fine on 6 meters.

A full write up and pictures are available here.
http://www.gemoto.com/LarcanPA.htm

These are the "low-split" modules that do not require any further
modification.

With some work, these amplifiers will produce well over 1kW on 2 meters.
  Check this writeup by Brian Justin, WA1ZMS
http://members.rennlist.org/warren/larcan_2m.pdf

RF input and DC input connectors are included but other parts are needed
to get operational. DC power supply 50V @ 50A, RF coaxial relays,
cooling fans, etc. Some assembly required. :)

Price as per the web page above, $370 plus packing and shipping from
Nova Scotia, Canada. Total cost approx $455 - $470. Proceeds of the
sale go towards my ham club.

Contact info on my original ad on QRZ.
http://forums.qrz.com/showthread.php?324147-6M-solid-state-1kW-amplifiers

I assume Dave got the email I sent him yesterday with a partial list,
and that nobody else has any interest (either).  That's quite
reasonable, considering the availability of old data sheets as PDFs on
the web these days...which is a large part of why I'm wanting to get
these books outta here.

Cheers,
Tom

Hi Tom,
Thanks for following up on the books. No, I didn't get your email with the list of manuals. If you don't mind, please send it again. My correct email is
dgminala at mediacombb dot net.   Just substitute the appropriate characters for the "at" and "dot" the address.

--
Things work out best for the people who make the best of the way things work out.

Dave M

Summary: Recruitment announcement for ham-radio-related FAQ articles
Keywords: FAQ, Intro, amateur, ham, radio, recruit, recruitment

Posted-By: auto-faq 3.3.2 beta (PGPMoose V2.0, Perl 5.005)
Archive-name: radio/ham-radio/recruitment
Revision: 1.2 2009/11/25 14:41:01
Posting-Frequency: posted monthly
URL: http://www.faqs.org/faqs/radio/personal-intro/

Changes followed by "|".

The rec.radio.info newsgroup, first established in 1993, has been recently revived by an active moderation team. We are currently seeking suitable information, FAQ, and bulletin articles from the entire rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our newsgroup.

We are seeking a replacement maintainer for the following information

bulletin formerly posted to rec.radio.amateur.* (and currently archived at http://www.faqs.org/faqs/radio/personal-intro/):

radio/personal-intro
Subject: Guide to the rec.radio Newsgroups
Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
Last Posted: 9 Nov 2001 06:18:17 GMT
Posting-Frequency: 15th of each month

One significant omission, requiring immediate updates, for this article |
is that it does not mention newer amateur radio newsgroups created since |
it was written, including: |

rec.radio.amateur.antenna |
rec.radio.amateur.boatanchors |
rec.radio.amateur.dx |
rec.radio.amateur.equipment |
rec.radio.amateur.homebrew |
rec.radio.amateur.moderated |
rec.radio.amateur.space |

We are willing to provide any technical support necessary to get this article updated and automatically posted again at a regular interval. This would include establishing contact with the original maintainer for any necessary permissions. We would prefer to seek a new, dedicated maintainer at this time, rather than start auto-posting the original article ourselves.

For more information about our newsgroup, see:

http://www.panix.com/~rram/usenet/rri/index.html

Please direct any comments, questions, or criticisms to
rec-radio-info-request@panix.com.

What is currently being made are audio tubes, plus perhaps 6146s, 807s, 811s, 572bs, and a few rectifier tubes. Guitar amplifiers are why there is still even such a thing as a new small tube business. 12AX7s,ATs, maybe AYs, EL84s,EL34s, 6L6s,6550s, KT88s, and a few mixafewofem spec beam power pentodes. There are also some power triodes including 2A3, 300B, etc but at ridiculous prices.

Better you should ask: What tubes can I get cheap in quantity? That I can get a lifetime supply of cheap? Answer: the tubes that DON"T go into guitar amps, hi-fi equipment, CB linears (sweep tubes) or the few specific rare types that are scarce for old radios people collect. Answer: everything else. Almost all series string heater types. Six and twelve volt heater tubes for TVs. Design around those rather than the types you have to bid against guitar and hi-fi people, who often have too much money.

I would use seven and nine pin miniatures out of the later RCA tube manuals as much as possible after checking to see that the price is cheap, from a tube vendor price list. When you rule out popular audio types and sweep tubes and the rare birds like 6E5 seeing eyes, the rest are cheap. Audio sharks often buy whole tube caddys and throw the series string tubes in the dumpster.

> I just got four of these little buggers. What was it used for?

VHF push-pull transmitter, like the rest of the QQ series. Double tetrode
with a common cathode and common g2. Interesting pinout isn't it?

I have some QQV03-10 valves that I intend to try for audio. They are
supposed to be quite good.

FU set to rec.audio.tubes

Thanks Scott, that was my first thought but I am not allowed to
modify the board... I was hoping the CMOS version of the old chip may
work at the elevated voltage level. Im thinking the one that has
worked all these years was a cherry picked mil spec device, its PN is
751448

Jimmie

Exactly the point. RG8/U and similar 1/2" diameter coax have very low loss over the typical 100 ft length at frequencies below 30mhz. So it should be possible to put a balum transformer (coax choke) between the coax and a balanced antenna (dipole), perhaps with a length of balanced line between the balum and the antenna. In my case the run from the shack to the roof would be around 30' or less. I can't run twin lead (open wire) line between the shack and the roof, but I can run it from that point to a dipole. I also don't want the tuner outside the shack.
  Hard line might even be a better idea, CATV type hard line is typically 75 ohm impedance. I'd have to have the special connectors for the stuff, and would need to have a short length of RG/8U from the hardline to the transmatch, and another from the hardline to the balum (because it would need to be flexible at those points.

Folks,
I got a nice Agilent E4401B spectrum analyzer for a bargain on Ebay,
only problem being the tightest resolution bandwidth is 1 kHz. Now for
that SA the upgrade to 10 Hz bandwidth is nothing more than typing in a
secret code. Problem is Agilent won't give you the code, the scope being
obsolete.
Anybody know of a third party solution, a hack, or ???
Thanks in advance --
Paul Probert W9PHP

So?

It's a line driver, not ttl. It would start with "75" from some=20
manufacturers.

If it's worked all this time, then look at it from a different angle. The=
=20
IC has gone bad in such a fashion that it works at lower voltages.=20
Replace the IC, and likely it will go back to working. The heat issue may=
=20
be that it's bad, not because it's receiving too much voltage.

After thirty years, don't suddenly think the issue is too much voltage.

If the IC was working and doens't now, then I wouldn't trust it even at=20
lower voltages. But if you're fussing over supply voltage, then reveal=20
what else uses the +-15v lines, chances are good they aren't fussy either=
=20
(whereas the voltages to the line driver define the RS-232 levels and=20
someone may have deliberately chosen to go for the maximum RS-232 voltages=
=20
rather than lower voltages that may not be so obviously high and low.

   Michael VE2BVW

Kenneth,

Is your shack below ground or without windows?
My shack is in the basement. I run 600 ohm open wire
from the Palstar Balanced Tuner (with balun in the input) to
feed thru insulators in a Plexiglas insert in the Window. Then
600 ohm to the doublet using string to the separators to
hold the feedline in a position away from the house.

The Palstar Tuner is similar to your description. It tunes my
210 foot doublet on most frequencies and its L equivalent
circuit is broad enough to make retuning for small frequency
changes unnecessary.

If you use your current balun on the input, an L (unbalanced) looks
like a balanced circuit on the output. Of course you must
insulate your capacitors above ground, ditto the inductor.

The ARRL Guide to Antenna Tuners has an excellent discussion
on balanced vs. unbalanced lines that you might wish to read
as well as balanced vs unbalanced tuners.

73,
Ed, N5EI

The only window in my shack faces the front of the house. The window is a a special hurricane resistant shatter proof glass. Also the window is 25 feet behind the location of the operating position in the shack room. Access to the window is not possible, and the XYL won't hear about feedline visible in the front of the house. I have a 2" plastic conduit running from the operating position to the attic crawl space that currently has on run of RG/8U for my vertical, with room for one or two more runs. Running the twinlead next to the coax would probably not be a good idea.

Living in a bungalow ,hence having a ground floor shack ,I run DC cables , 2 coax lines and twin feeder (450 Ohms ,the wide variety) all in the same plastic duct (about 2 metres long) to the loft from where coax is fed to an outside 2m beam and and a discone antenna (the latter used for local 2m FM operations) and the twin feeder to a doublet (all fed through a double cement block wall)
The 12 V DC cables run from solar charged batteries located on the loft.

With all those cables running through the same 2 metres long plastic duct I don't experience any problems with RF operations with the twin feeder.

BTW the plastic duct is a piece of square 65 x 65 mm gutter drain pipe ,widely used here in the UK.

The two inch plastic conduit runs from the shack up through a wall into
the ceiling and into the attic. The overall length must be about 15-20
feet. There would be another 20 feet through the attic to reach the
vent turbine and the roof. The twinlead if it ran though the pipe and
the attic would probably twist many times. It might work, but it goes
against all 'textbook' logic.

In any event, I'm thinking of building the transmatch as a 'T' network
using the two 500pf 2kv variable caps and the roller coil. I will
insulate the bottom end of the roller coil from ground to leave the
option open of running the T match with a balum on the input side, but I
intend to try the coax choke on the far end of an unbalanced feed first.

As for the T match, it seems to be the sole surviver among transmatch
circuits. Both the 'ultimate' and the 'spc' are simply alternate forms
of the 'T' match that do not have any benefits.

Archive-name: radio/ham-radio/moderated/crossposting
Revision: 1.1 2009/04/12 19:42:04
Posting-Frequency: posted monthly
URL: http://www.panix.com/~rram/usenet/rram/index.html

Changes followed by "|".

After a 30-day public discussion and feedback period to gauge reader opinions in March of 2009:

http://groups.google.com/group/rec.radio.amateur.moderated/browse_thread/thread/d7d337db35f23326

the rec.radio.amateur.moderated Moderation Team has decided to consider amending its charter, and permit limited simultaneous crossposting to rec.radio.amateur.moderated and one other unmoderated amateur-radio-related discussion newsgroup. We are currently trying this on a temporary basis (90 days, through early July 2009), and adopt it permanently if successful.

Approved rec.radio.amateur.* newsgroups are those that are currently listed in the latest version of the "List of Big Eight Newsgroups" which is crossposted monthly to news.announce.newgroups, news.groups, and news.lists.misc.

Approved alt.radio.amateur.* and alt.ham-radio.* newsgroups are those that have been created consistent with the suggestions in "So You Want to Create an Alt Newsgroup" at:

http://www.faqs.org/faqs/alt-creation-guide/

Approved regional hierarchy newsgroups are those that contain either "radio.amateur" or "ham-radio" in their names, including uk.radio.amateur and aus.radio.amateur.misc.

We will make every reasonable effort to keep our list of approved newsgroups up-to-date. In case we have overlooked any, and a submission is rejected in error as a result, the rejected submitter can E-mail us at our administrative contact address (in the signature at the bottom of this article, and the default Reply-To for the rejection message) requesting that it be added, and that the article be approved. We may still choose to reject articles crossposted to any alt.* newsgroup with an inappropriate name, including obscene language, embedded name-calling, or encouragement of unlawful conduct.

Please direct any comments, questions, or criticisms to rec-radio-amateur-moderated-request@panix.com.

But the new chips behave the same as the old, I got it working by
mounting a cooling fan over it.

I came across a list of mods like this for Agilent equipment on the
internet. Dont know where I saw them but at least this will let you
know they are out their. Happy Hunting.

In tube and transistor and tube amplifiers I am familiar with the definition of a class A, class B, and class C amplifiers. Until recently I had assumed class AB1 and AB2 must be somewhere in between class A and class B, however after reading some post in other news groups I'm beginning to suspect my understanding of class AB1 and AB2 may not be accurate or complete. So what is the accurate definition of a class AB1 and a class AB2 amplifier?

Thank you,

Michael Rawls

Technically all class "B" amplifiers are really class AB. A class B amplifier has a conduction angle of 180 degrees. A class AB amplifier has a conduction angle of between 360 degrees and 180 degrees. You can't run the amp at EXACTLY 180 degrees because tubes (and transistors) are not perfect devices and will distort (go non-linear) in the fuzzy region just before cutoff. Therefor the devices must be biased to draw some resting current to make sure that at least ONE of the two devices in a push-pull circuit are running in the linear region at all times.

With tubes (valves) the amount of bias required is a function of the Mu (gain) of the device (at least for triodes). Tetrode and beampower tubes are always biased so the device will draw enough resting current to avoid crossover distortion. Low Mu triodes are biased in the same manor as tetrodes (but will require MUCH higher bias). High Mu triodes (or triode connected tetrodes) will not draw very much current at zero bias. These tubes are run in what is called class B. Since the tubes are run at zero bias they require driving power over 180 degress of the conduction angle, which meets the definition of class B.

Most tetrodes do not have enough gain in their screen grids so that the tube can be driven to full output in class AB1. The 6L6 for example when biased at about -35 volts with 300 volts on g2 and a plate voltage of 400-500 volts will not be driven to it's maximum current of 110ma (per plate) without driving the grids positive. In fact the difference between class AB1 and AB2 for the 6L6 is ONLY the driving voltage. The g2 and bias voltages are the SAME for class AB1 and AB2, only the g-g peak signal voltage is different. The type 6146 tube has enough gain in the screen grid that the difference between AB1 and AB2 max ratings is very small, in AB1 it delivers a max of 120w RMS output (max ICAS) while it can go to about 132w in AB2. The 807 tube (same curves as the 6L6) maxes out at 90W in AB1 and 120W in AB2 (ICAS ratings).

With solid state devices the terms AB1 and AB2 have no meaning since the device will only conduct with the control element biased in the forward direction (bipolar transistors and enhancement mode mosfets). A power JFET could, in theory operate in class AB2, but there are very few examples of power JFET's in production (ditto for depletion mode mosfets). So we only use AB with no modifier.

Revision: 1.2 2009/11/25 14:41:01
Posting-Frequency: posted monthly
URL: http://www.faqs.org/faqs/radio/personal-intro/

Changes followed by "|".

The rec.radio.info newsgroup, first established in 1993, has been recently revived by an active moderation team. We are currently seeking suitable information, FAQ, and bulletin articles from the entire rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our newsgroup.

We are seeking a replacement maintainer for the following information bulletin formerly posted to rec.radio.amateur.* (and currently archived at http://www.faqs.org/faqs/radio/personal-intro/):

radio/personal-intro
Subject: Guide to the rec.radio Newsgroups
Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
Last Posted: 9 Nov 2001 06:18:17 GMT
Posting-Frequency: 15th of each month

One significant omission, requiring immediate updates, for this article |
is that it does not mention newer amateur radio newsgroups created since |
it was written, including: |

rec.radio.amateur.antenna |
rec.radio.amateur.boatanchors |
rec.radio.amateur.dx |
rec.radio.amateur.equipment |
rec.radio.amateur.homebrew |
rec.radio.amateur.moderated |
rec.radio.amateur.space |

We are willing to provide any technical support necessary to get this article updated and automatically posted again at a regular interval. This would include establishing contact with the original maintainer for any necessary permissions. We would prefer to seek a new, dedicated maintainer at this time, rather than start auto-posting the original article ourselves.

For more information about our newsgroup, see:

http://www.panix.com/~rram/usenet/rri/index.html

Please direct any comments, questions, or criticisms to rec-radio-info-request@panix.com.

Vintage tube Microphone / Phono preamplifier built by Audio Arts.

A boutique piece of gear from days gone by. Probably could be modded
to work with modern equipment. A great project for the enthusiast.

The unit is clean and powers up nicely.... no further testing was
performed at this time.

Follow the link for photos and full description....

I suspect you unintentionally shorted one output. While these are
short-protected, they do run hot when this happens.

Check the output volgate on the outputs: pin 3, 6, 8, 11 (this is from heart,
pls verify). If it is either +15 or -15 you're OK, if it is
significantly different you found your root cause.
Pls also check voltages with the chip removed (socketed?).

Typical cause for this is an incorrect serial cable and/or broken serial
connecter (bent pins?), or bad internal connector (flatcable incorrect).
The art to make correct serial cross cables has been largely lost in
30 years and I suspect that's your cause.

73,

Geert Jan PE1HZG

Coax loss at high SWR is a myth? It's been tabulated in every handbook
for the past century.

> Common Ferrite core balums do not usually work well at impedances above

Often it's the choice made, though.

Baluns that deal with less than optimal impedances are available but they are no magic bullet. Substantial engineering effort and material must go into them to deal with the stresses at operating away from their natural sweet spot (as you point out 50 ohm ballpark.)

> (Insulate the

t
> affected by it's surroundings.

The coax to 450 ohm twinlead via choke "balun"... wow, it sounds like you are getting the worst of all possible worlds here. I agree that transformer-type baluns are stressed at high impedances but purposefully putting a 9:1 mismatch on the end of your coax is just asking for a world of hurt with anything except the most shortest coax runs (a few feet.)

You might want to back up a few steps and consider if you can locate a coax-to-twinlead tuner, almost certainly not broadband, on the wall or roof of the shack or house. That way you have a nice controlled 50 ohm coax run inside, and it's all twinlead outside. If the shack is far from the tuner, today there are remotely operated tuners just for this purpose. In the most traditional set ups mechanical remote operation (chains, pulleys, etc.) was sometimes used (look in any 30's/40's/50's handbook.) (When I was a kid my uncle who was a ham, used a scheme involving bicycle cranks and extra long chains for rotating his beam!)

Len Cebik's webpages are an excellent resource on ladder line, all band doublets, and link-coupled tuners. I can't emphasize enough how excellently this can work out. Don't paint yourself into a corner.

Would anyone know of a reliable repair shop that can
repair a taut band 50 microamp meter movement that has
a broken band?

Thanks,

Jim, WA5DXP

Check out their website. Heath is going back into the kit business.

HEATHKIT IS BACK In The Kit Business!

In late August, Heathkit will debut their new line of Do-it-Yourself kits for common around-the-house items. The first kit will be a Garage Parking Assistant (GPA). The Garage Parking assistant kit lets you build your own system that uses ultrasonic sound waves to locate your car as it enters the garage. The system signals to the driver using LED lights mounted on the wall when the car is detected and in the perfect spot for parking.

The GPA-100 kit consists of two primary assemblies - The LED Display in kit form and the pre-assembled ultrasonic range module. the kit will include everything you need to complete the project except a soldering iron and hand tools.

Next on the market will be a Wireless Swimming Pool Monitor kit followed by many more. Heathkit wants to continue to bring to its customers interesting, unique Heathkit products. Heathkit is interested in learning what types of products kit builders would like to build. Kit builders can submit their suggestions through this website using the Contact Us email.

A fail to provide value is what killed a lot of electronics business ,
it happened here as well and an insistence on recycling old tech
solutions when the opposition was leaping generations ahead in quality
and miniaturisation
I said affordable and a lot of people think building their own radios as
exampled a k3 or k3 (as do I), if Heathkit were to produce a kit of
similar value and quality it would sell and sell well , same as that
solid state   3 to 55 mhz gallon amp kit for a less than two grand with
fill filtering .
  but how large is the if ?

I would not hold my breath if I were you. This is not the same Heathkit that we all remember. Their primary business is selling training materials.

Yes. I was trying to remember if what is now "Heath" was a subset of what existed after a retrench, or if the old company shut down and sold the name and whatever was of value to some other company. I can't remember which. I remember when the kits stopped, the story was "No more kits" in large print, then "but training material continues" in very fine print, but I can't remember the complete story.

There was some fuss a year or two ago when someobdy bought the rights to the old manuals and started charging for them. That the company sold off those rights suggests it is a distinctively separate company now, but I can't remember.

I'm crossing my fingers but I don't expect anything big from Heath, at
least not for a while. They are just testing the water now and if the
response is good they will add to the line. Might be a few years before
they go 'all in' on the kit business.

I've never ordered any of their educational products, but I've been told
that the manuals are up to par with the best of the materials they
produced in the kit business.

It wasn't only a shift in consumer attitude toward DIY that killed off
the old Heath. Electronics has become more high tech with tiny parts
that defy kit builders. The pendulum has swung back though, and DIY is
in vogue again. Witness MAKE magazine, Adafruit.com, sparkfun.com,
evilmadscientist.com etc. The 'maker movement is the new DIY. This
will involve different kinds of kits, such as building your own CNC
mill, laser cutter or 3D printer. (google the web, such projects are
common). If heath can offer products into this area they will scratch

an itch and do well.

Thanks!

There ARE still about 750,000 US HAMs who build from scratch, or kits, when we can find them!

That is a large enough market, but, when added to the "Make Use Of" crowd, and the "Instructable" folks, the computer "modders", X10, and Arduino fans, and we can see a market of at least 1.5 million potential kit builders!

I know that in building the inexpensive kits from India, that usually don't contain the cases, knobs, transformers, (no problem!), there are a lot of us hungering for more projects, that are more complete!

The kits mentioned aren't going to be of interest to anyone.

For some good ideas of what would be of interest, just check old HeathKit catalogs. Times may have changed, but we haven't. We like amateur radio kits, stereo kits, clock kits, computer kits. Only a bit of updating is necessary to sell all you can make.

Ah yes
the good old days.

Though I built a few Knightkits in my time
I never built any Heathkits but I did once own
a Heathkit Cheyenne transmitter.

At one time I used the external power supply
as a battery charger for my '53 Chevy truck.
(bought it in 1971)

I just took the heavy duty 6v filament winding
and ran it to a bridge rectifier.

The truck usually did start on cold days...
but quite often I'd park it on the top of a hill
and "pop the clutch" to get it started.

The hill was long enough to give me three chances
and only once did that method not work :)

Times have changed...
and Heathkit will never be what it was back in the old days...
nothing will be like it once was back then

www.elecraft.com

No I don't work for them but I have given them my credit card number
several times.  My primary HF rig is a K2/100.

===============================
I still regularly use a Heathkit ET-3300 Laboratory Breadbord as well as
an Ultrasonic Cleaner I both kit-built in 1975.

What is all this junk XXX stuff on this site.  If this is a amateur
radio homebrew site why have all this TRASH on it?
How about blocking this stuff and cleaning up the site so we don't
have to plow through trash to get to the good info!

73's pml

Hey OT:

Try this Indian ham his web page for an amp is here:
http://www.foxdelta.com/products/rfamp.htm#mrf

He notes in other links that it comes from a clone mod of K7ES's ARRL
1981-3 handbook amp using MRF454's

His amp uses MRF455's, which the spec says they gots 13 db power gain.
meaning 3 watts in 60 watts on paper.
albiet he uses push pull, so I recall somewhere he gets 5 watts in 100
watts out in the real world.

I'm using a Motorola MC3362 in a 2 meter receiver with good results.
However, I know there is a similar Motorola device that has a built in RF amplifier. Does anyone have the part number please? I've done searches to no avail.
Thanks. Howard. G3UPZ

I'm looking at my Motorola "Wireless Semiconductor Solutions (Device

Data - Vol. 1), 1998. When did Motorola spin off ON Semi? Some time not long after that, I think. Anyway, in the selector guide on page 1.1-12, it lists the MC3362 as having typical 0.7uV sensitivity, and the similar MC3363 as having an RF amplifier and 0.4uV sensitivity. Both are listed as dual conversion parts. There are also some single conversion parts listed, but they have poorer sensitivities. Looks like you can find the data sheet for it several places on the web, but where you find the part itself is another matter. Maybe they are common at certain surplus dealers...

Cheers,
Tom

The sensitivities are at 12dB SINAD. Hope that helps. On Oct 28, 12:16=A0pm, "Howard James" <h.james.ja...@btinternet.com> wrote:

Changes followed by "|".

After a 30-day public discussion and feedback period to gauge reader opinions in March of 2009:

http://groups.google.com/group/rec.radio.amateur.moderated/browse_thread/thread/d7d337db35f23326

the rec.radio.amateur.moderated Moderation Team has decided to consider amending its charter, and permit limited simultaneous crossposting to rec.radio.amateur.moderated and one other unmoderated amateur-radio-related discussion newsgroup. We are currently trying this on a temporary basis (90 days, through early July 2009), and adopt it permanently if successful.

Approved rec.radio.amateur.* newsgroups are those that are currently listed in the latest version of the "List of Big Eight Newsgroups" which is crossposted monthly to news.announce.newgroups, news.groups, and news.lists.misc.

Approved alt.radio.amateur.* and alt.ham-radio.* newsgroups are those that have been created consistent with the suggestions in "So You Want to Create an Alt Newsgroup" at:

  http://www.faqs.org/faqs/alt-creation-guide/

Approved regional hierarchy newsgroups are those that contain either "radio.amateur" or "ham-radio" in their names, including uk.radio.amateur and aus.radio.amateur.misc.

We will make every reasonable effort to keep our list of approved newsgroups up-to-date. In case we have overlooked any, and a submission is rejected in error as a result, the rejected submitter can E-mail us at our administrative contact address (in the signature at the bottom of this article, and the default Reply-To for the rejection message) requesting that it be added, and that the article be approved. We may still choose to reject articles crossposted to any alt.* newsgroup with an inappropriate name, including obscene language, embedded name-calling, or encouragement of unlawful conduct.

Please direct any comments, questions, or criticisms to rec-radio-amateur-moderated-request@panix.com.

Just acquired from an old lady her old CB transceiver. It's rather old;
crystal controlled. Is it feasable to swap out the 27 MHz crystals and
replace them with 10M crystals? Is there a source for these crystals?
And would any major modifications to the rig be required?

Any info would be appreciated (and yes, I hold  a Technician class
license).

possible but expensive , an o2 based pll is much easier needing only a
few tracks cut and a retune

So long as it uses a pair of crystals per channel (or one for transmit and a tuneable receiver), those are the easiest to convert. Just change crystals, and maybe a slight realignment is needed.

Of course, there was a period when the CB sets were synthesized but via multiple crystals, mixed together. Those would require more effort to move to 10M, one would have to figure out what was going on and then recalculate, and likely realignment would be more important/difficult. I don't recall anyone writing about converting those.

But if there is a pair of crystals per channel, all you need is to either scrounge up suitable crystals or go to a crystal manufacturer with information about the CB set, and they'll grind a set for you. Maybe costly at this point.

The transmit were usually overtone, the actual frequency being around 9MHz, the receive crystals would be the signal frequency minus the IF frequency (often 455KHz, but some had a higher IF), and they too were usually overtone crystals. The good thing is that since you're moving it to a ham band, you can pick any frequency within the band, the bad part is that some parts of the band are better than others in terms of activity, especially for AM, and you need to find a pair of crystals for the frequency.

There was a period when CB sets often had a tuneable receiver, either with a few crystal controlled channels for receiver or none at all, and those would be best, since you can then find any crystal that works and provides a useful frequency, without having to worry about the receive crystal taht also has to be the same frequency, but with the offset for the IF.

Yes, it's quite possible, and in fact, a series of articles was published in 73 Magazine back in the late 70s. Recently, a few kind souls scanned and made PDF files of the entire run of 73 Magazine. You can Google for 73 magazine download for places tha tthey can be downloaded. Most are Torrent downloads, and might be the most expedient way to get them. The total download is nearly 17 GB, so it's not trivial. Single issues range from 15 to 50 MB.
If you can provide the make & model of your CB, I'll check to sse if your radio was covered. I can extract and email just the article for your radio if it's covered.

Matter of fact, if you search back through the archives of this list, you'll find a number of places that you can download from. It was only a few months ago that this was discussed.

If it's old enough to use crystals, it probably AM only. Aren't technicians permitted on 10m cw and ssb only?

Geoff.

Correct. SSB only (American CB sets are AM unless it has SSB modes as well)....

USA Tech class emissions (10M) allowed are:
J3E Emission (AM, single sideband, suppressed carrier. Single analog channel. Telephony, voice, sound broadcasting.)

and R3E Emission (AM, single sideband, reduced or controlled carrier. Single analog channel. Telephony, voice, sound broadcasting.)

Designations can be found at
http://www.ominous-valve.com/emission.txt

Years ago I actually took an old CB set and bought a crystal for the
lower end of the CW band and used it as a cw transmitter.
Used my HQ-140-X receiver.

Worked fine. When the band was open I worked Japan on it
with an indoor whip antenna!

That was a long time ago and I forgot where I got the crystal
but it could not have been more than few bucks.

Nowadays, a custom crystal could run over $20 from a crystal manufacturer, so if you need more than 1 or 2 crystals for the conversion, it's hardly worth it unless you are doing it because you like to tinker. Probably one of the easiest ways to get on 10M is to look for a used Ranger/RCI 10M rig or the Uniden HR-2510/2600 or even the Radio Shack 10M rig. For $75-150 you have a rig with 100 Hz tuning steps and 25-100W.

Here's a 2600 on eBay that is listed as non-working, but maybe only because the seller has no way to test it. At least one can see what it looks like, so if one comes across one at a hamfest...

http://www.ebay.com/itm/Uniden-HR2600-President-10-meter-tranceiver-radio-parts-lot-HR-2600-HR-2600-/160676316781?pt=LH_DefaultDomain_0&hash=item25690e066d

I have a need to completely disable the AGC circuit in a Cobra 142 GTL CB.
How would this be done please?

Thank you,
Eric

The earlier Radio Shack HTX-100 had a slightly better receiver (quieter)
and had CW as a mode- both different on the HTX-10.

THat's why all those Heathkit Sixers did so well, when the band opened up,
very little power was needed (of course, offset by the fact that the band
wasn't always open). Ten is the same way (though antennas are longer),
there was even that Hammarlund receiver with the CB transmitter built in,
that could easily be used on 10m.

I came by what appears to be a power supply module from some old
military gear. It uses a synchronous vibrator unless my analysis of
the circuit it way off. My plan is to build a circuit to replace the
vibrator with a couple of power FETs driven by a 555 osc and a bridge
rectfier to handle rectification of the output. I was wondering if
there were any circuit designs around before I started to reinvent the
wheel. Also what freqency do they use. Seems like I heard 100Hz at one
time but I dont trust my memory on something I learned 40 years ago.
Any help would be much appreciate.

Jimmie

Disabling AGC is usuallly required when working on the radio so most
maintenance books should have what you need for that particular radio.

The earliest replacements would have been a couple of power transistors on a heatsink, with a few resistors and capacitors, relying on the existing transformer for feedback (and frequency control).

Of course a lot of early power inverters were about the same, save that they weren't built around a vibrator supply.

Look in forty year old ARRL Handbooks, I'm certain the 1971 edition (the first I ever saw) has a simple inverter that is on that level.

I'm sure some built fancier ones, but I'm sure many got by with something pretty simple. SOme small companies that deal in antique radios sell virbrator replacements.

I have a circuit board exposure frame for sale. $100 plus

postage from zip 55082. Payment in US$ in advance by check
or money order. Sorry, no Paypal. Unpackaged weight 35 lbs.

Kepro BTX-200 ultra-violet exposure frame.

Kepro Circuit Systems Inc

12 X 16 inch exposure area.

3 or 5 lamps. Manual or 0 - 5 minute timer.

It can be viewed at:

http://home.comcast.net/~hsknoll/site/?/photos/
&PHPSESSID=29ec62ea0bf1fe4d25e318b011cf0bbf

or

http://tinyurl.com/yktwxpz   click on photo to enlarge it.

If you are interested, please send me your zip code so I can figure shipping costs.

Yes, there are several schematics on the web for solid state vibrator
replacements, but most are too simplistic and are prone to failure due to
unsuppressed transients destroying the semiconductors.
There is one that appears to be a good design at
http://antiqueradios.com/gallery/v/temp/VIBRA2.jpg.html. The component
values are all indicated on the schematic. The circuit can be built into a
salvaged vibrator can. Be sure to provide some method of heatsinking for
the transistors. The only drawback that I can see with this circuit is the
lack of "dead time", that is, a short time interval at the switching point
to keep both transistors from conducting at the same time. A more involved

design might be able to eliminate that problem.
This circuit is the one I would build if I were in need of a vibrator
replacement.

Here's a circuit that uses a digital gate to provide the "dead time" needed
to protect the transistors.

Don't know why but for whatever reason I still recall the HQ-105-TR

The xmtr was for the CB band but I am sure it could have been usable on
10 meters

Anyway, back in the old days 10 meter AM was great!

I believe that military equipment was 400 hz...

(if so, the xfmr would not be usable at 60hz)

If it's in working condition it would be easy enough to check.

Posting-Frequency: posted monthly
URL: http://www.faqs.org/faqs/radio/personal-intro/
```

Changes followed by "|".

The rec.radio.info newsgroup, first established in 1993, has been recently revived by an active moderation team. We are currently seeking suitable information, FAQ, and bulletin articles from the entire rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our newsgroup.

We are seeking a replacement maintainer for the following information bulletin formerly posted to rec.radio.amateur.* (and currently archived at http://www.faqs.org/faqs/radio/personal-intro/):

radio/personal-intro
Subject: Guide to the rec.radio Newsgroups
Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
Last Posted: 9 Nov 2001 06:18:17 GMT
Posting-Frequency: 15th of each month

One significant omission, requiring immediate updates, for this article |
is that it does not mention newer amateur radio newsgroups created since |
it was written, including: |

rec.radio.amateur.antenna |
rec.radio.amateur.boatanchors |
rec.radio.amateur.dx |
rec.radio.amateur.equipment |
rec.radio.amateur.homebrew |
rec.radio.amateur.moderated |
rec.radio.amateur.space |

We are willing to provide any technical support necessary to get this article updated and automatically posted again at a regular interval. This would include establishing contact with the original maintainer for any necessary permissions. We would prefer to seek a new, dedicated maintainer at this time, rather than start auto-posting the original article ourselves.

For more information about our newsgroup, see:

http://www.panix.com/~rram/usenet/rri/index.html

Please direct any comments, questions, or criticisms to rec-radio-info-request@panix.com.

Is there such thing as a modern databook or catalog of currently-produced vacuum tubes? I'm tinkering with the idea of making a modern tube broadcast AM receiver that I can run all the time without thinking "gee, I'm going to pay through the nose for more tubes when the time comes".

=====================================
The data sheets of most currently-produces vacuum tubes can be found on
the Internet .Just type into your favourite search engine :
vacuum tube <model nr>
Nowadays most info on whatever is available on-line.

Good Luck with your (future) home-brew receiver.

Pick a popular tube and build around it.

Was it the Conar receiver that used only 6U8s? Something like that, which of course has the advantage of not requiring a bunch of different tubes.

A double triode is bound to be easy to get still, they were so common. A 7360 was too exotic, it didn't appear in any consumer equipment (though that sort of tube did appear in some tv sets, though I'm not sure enough that decades later there'd be a lot of stock).

It's interesting to contrast tubes with semiconductors. With tubes, one tried to minimize the number of active elements, since they used up so much power (in the filament) and space. With transistors, and even more so with ICs, each stage could have loads of active devices, it was a different method of design, allowed because the transistors were small and low power. So a dual triode for instance, might seem lacking, but what could you build if you were willing to use multiple tubes per stage?

Double triodes, particularly 12ax7, I see are currently manufactured and
easily available.  Can a superheterodyne receiver be made from just
that?  Anyone have any useful schematics?

I think you are headed in the wrong direction.  You can build a nice
superhet based on the original designs from the 40s and 50s in the RCA
tube manual.  All of these tubes are still very common, not expensive,
and available as NOS.

There was a fellow, I think his name was Bob DeRocca, who published a
refined 8-tube superhet on the rar+p group.  Might be able to dig up
those threads via Google Groups search.  I saved the schematic but have
no idea what filename I saved it under!

I think what I'm trying to accomplish is establishing some sort of
```

barrier against the inevitable day when the supply of good cheap tubes
is gone and what we're left with is mostly guitar amp tubes.

I found a Bob LeRocca on rar+p who appears to be the one you're talking
about, but I can't seem to locate any mention of an 8-tube superhet.
I'll stick my head in there and see if anyone remembers this.

Still, my question remains: can one build a decent superhet radio out of
nothing but 12ax7 dual triodes?

Anyone had experience of using mimic's as post diode balanced mixer
amplifiers?
In theory they look OK, 50 Ohms in and out and good high level signal
handling. This is to be for a 45 MHz first IF.

Well the 400 Hz is a bit odd for a vibrator pack.
Are you sure that the supply wasn't designed for 400Hz AC?
That could be explained by use in Aircraft where 400HZ supply
is quite common. Most mechanical vibrators actually do run at
about 100 Hz. I have built solid state replacement for several
and they all had that in common.
Of course the builder could have used a 400 Hz transformer, but that
wouldn't match a normal vibrator at all.
BTW the old Marconi spark transmitters (like on the Titanic) used a 400HZ
tuned keying relay to protect the operator. Just like a modern zero
crossing switch!

Assuming you have a decent filter after the mixer to extract the band you want, the MMIC amps work fine. However, I'd be wary of any recent Avago parts. The data sheets can be very inaccurate, and the parts may not behave as advertised. I've had very good luck with NEC, and a lot of MiniCircuits amps are decent as well. RFMD also has some nice parts. The Avago parts that were actually designed when they were Agilent (or better yet HP) are also good. If the parts are advertised as 50 Ohms in & 50 Ohms out, there is a lot less to go wrong. The ones that require custom matching networks take more care to get running right because of circuit & component parasitics.

When using the MiniCircuit MMICs, I recommend using the "optional" choke between the device and its biasing resistor (as shown on device datasheets). Without it, you can lose a few dB of gain. The value is not critical. At 45 MHz, 5 or 6 turns through a VHF ferrite bead should be enough. The MAR-4 is a decent choice unless you need more gain or output level. The datasheets show gain and max power out (P1dB)...if you want it to be linear, stay below that point. If you know the level at 45 MHz and the level you want out of the MMIC, you can place a simple resistive PI or T attenuator between your 45 MHz source and the MMIC, then the output of the MMIC would be the level arriving at the MMIC plus it's associated gain.

Hello.
I'm succesfully use M/A-COM MAAMSS0017 and MCL GALI-6F.
Very important element is a 2 dB attenuator (for example, "T" of 5.6,
220 and 5.6 OHms) before XTAL filters.

Is a bad idea... attenuatr before MMIC increase NF receiever.

At least for the BCB yes, though the AVC control ability of the 12AX7 is
questionable. For the IF stage use both haves of the tube connected in
series with the first section as a common cathode amp and the second
section as a cathode driven amp (common grid, NOT grounded grid as the
second section grid is grounded for RF via a capacitor and is connected
via a resistor to the plate of the first section). For the converter
stage the two sections are again in series, the lower section is a
Hartley oscillator (cathode to tapped coil) and the upper section is the
mixer, grid connected via a resistor to the plate of the lower section
and cap coupled to the antenna coil. Use one section of a 12aX7 diode

connected as the detector (or as a triode infinite impedance type detector). One or two triodes as a phase inverter driving (get this) 4 or 6 12AX7's in a zero bias class B push pull parallel amp (should be good for a couple of watts).

Don't you mean a cascode for the IF amp?

You could get fancy. A dual-triode as a balanced mixer. A similar arrangement for the IF stages, in the IC world the differential amplifier is pretty common, and one reason seems to be the ability to control gain. Have a balanced mixer as the detector, and feed the "bfo" input with the incoming signal via a limiter.

The reality is, people have pretty much followed what came before. Once in a while someone comes along with something "radically" different and then there's another period of following along.

So the solid stated direct conversion receiver came along (the concept existed before solid state, but I don't think "direct conversion" was used before that 1968 article by Hayward. So instead of building regens, direct conversion receivers were commonplace, despite the limitations. It took some time before someone realized a better mixer would help, endless articles about better mixers. It took almost 20 years from that Hayward article before someone really started building good direct conversion receivers, Roy Llewellyn using a diode DBM but actually terminating it properly (somehing done in VHF converters and I think by then in ham receivers for the first mixer, but not migrated to direct conversion receivers until about 1985 or so). Then Gary Breed extended the concept, adding phasing (not a new concept, not even to direct conversion receivers, but still a leap forward) followed by Rick Campbell's various works on the subject.

Somewhere in there, superhets came back, because suddenly everyon was writing about crystal ladder filters. They'd been around before the full wave hit, but something happened to cause a turn. And with cheap filters, the superhet became inexpensive again, and actually simpler than some of those fancier direct conversion receivers (though often their complications came in the audio section).

It's hard to stretch the limits, but somehow and sometime, it happens, and then there's some new development, followed by it becoming the status quo, until someone stretches things again.

Michael VE2BVW

Hey OM:

Yes you can use only 12AX7's, you might need to cascode them to reduce
the miller effect so the disadvantage would be you are going to use
twice as many tubes.
There's lots of audio circuits out there, but for RF you would have to
use a 12AT7 the input capacitance of normal 12AX7's sux big time
unless you go thru a bunch of them and find sum hot 12AX7's
In the old days we used 12AT7's in garage door opener receivers they
used the low power band in the low end of VHF before it went away.
They were made here in Detroit by VEMCO.

HF band should be no problem, see this link on miller effect of
12AX7's:

http://www.aikenamps.com/MillerCapacitance.html

Hey OM:

Why buy tubes when you can roll your own:
Yup I seen it on youtube sum youtuber has a video how to make a
triode, like 1/2 of a 12AX7.

73 OT,
de n8zu

While cleaning out an old file, I found pages 25/26 of the October, 1947, issue of CQ Magazine which STARTS the description of the "Construction and theory of operation of a two-tube audio amplifier". Unfortunately, the schematic is NOT on those first two pages.

If someone who has that particular issue could scan the REST of that article and email it to

< W0PBV at ARRL dot net >

I would greatly appreciate it.

Clifford, would you share schematic of the one you built. Im using my
function generator to drive a flip-flop to drive a pair of power FETs.
Seems to be working but I would like to see someone elses design. BTW
this thing seems to work from 50 to 500 HZ. There is also a winding on
it that may be an input to run it off the mains. Not sure of that yet
as I have never seen one before.

Jimmie

The problem is that this is not "a site". This is Usenet.
Usenet is a distributed service that is hosted on many different
servers on the Internet, all under different control.
So there is no "blocking this stuff and cleaning up", at least not
on the servers. Any blocking you will have to do yourself on your
own system.

No, there are about 200 out of 750,000 that know the right end of a
soldering gun or pencil.

I wish it were otherwise...

Good Day all!
My "new" (it began building in 1985) receiver is very nearly finished and ready for use.
It was long delayed by family events and a multitude of synthesiser problems, but now we have DDS synthesisers this is no longer an issue.
Just a few AGC attack problems to iron out and some tuned circuits at the front end to arrange.
I have some very nice 12.5mm toroids (violet) which work Very well from 1 to 20 MHz but take a severe dive in performance above there.
What I need is a source of toroids of the same size but with a frequency range with high Q from say 15 to 60 Mhz. These are for the bandpass tuned rf filter and the 1st IF @ 45 MHz.
Anyone got any ideas where I might obtain a few out here in NZ.
None of the local suppliers have anything like this and they are also generally very ignorant of the proper use of toroids especially at HF.
Any suggestions very gratefully received.
Regards Clifford Wright ZL1BDA ex G3NIA

I got a few HF/VHF toroids recently from <http://rockby.com.au>.

Just make sure you verify that the mix you select is correct for the purpose (resonant, not transformer) you need, and has the permeability you want. There's a lot of confusing information on the net about what different mixes are good for, and I'm only just starting to get my head around it.

Rockby stock # 25651 is smaller than you want, but mix 12, mu=3, which should be good in resonant circuits from 20-200MHz, if I have my facts straight. I also have some stock #25298, mu=40 and mix 63, which should be ok in resonant circuits from 10-80MHz, and in transformers to 800MHz.

If anyone can verify or discredit the above suitabilities, I'd like to know before I spend too much time playing with circuits around these (I haven't found time yet, still trying to figure out how to make decent PCBs, necessary to get a ground plane at 2m).

Clifford Heath.

Good day all!
My latest build is a version of the VK5BR noise cancellor.
So far (using different toroid cores from those specified) I have got about
3 "S" points of noise reduction.
I am expecting a shipment of cores from Amidon in the next few days and
will try the final version with 2 FT50-75 cores as specifid in the later
"Amateur Radio" article.
Basically though I am quite pleased with it. It means more adjustments, but
in a rural location, but with bad power line noise, it seems to help.
FYI, Don't go by the "radio communication" circuit.
It has several errors. Look up VK5BR's own site with all the corrections.
It would be very intersting to hear of others experience with this gadget.
Anyone else made one?
Cliff Wright ZL1BDA ex G3NIA

Just a quick follow up on the RF amplifier question. Yes I do need a bit
of gain (say 12 dB) before the mixer. One reason is that for many years I
have experimented with low angle radiation on 14 MHz cw. Signals are
often quite weak from the antipodes of NZ (the western mediterranean
area) and I often work them when the band appears dead around local noon.
Fortunately my neighbouring ham is not very active these days.
Anyway for now I am using a cascode JFET amplifier with a relatively high
supply current and this seems adequate. However applying AGC is a bit of
a problem.
Cliff Wright ZL1BDA

After a 30-day public discussion and feedback period to gauge reader opinions in March of 2009:

http://groups.google.com/group/rec.radio.amateur.moderated/browse_thread/thread/d7d337db35f23326

the rec.radio.amateur.moderated Moderation Team has decided to consider amending its charter, and permit limited simultaneous crossposting to rec.radio.amateur.moderated and one other unmoderated amateur-radio-related discussion newsgroup. We are currently trying this on a temporary basis (90 days, through early July 2009), and adopt it permanently if successful.

Approved rec.radio.amateur.* newsgroups are those that are currently listed in the latest version of the "List of Big Eight Newsgroups" which is crossposted monthly to news.announce.newgroups, news.groups, and news.lists.misc.

Approved alt.radio.amateur.* and alt.ham-radio.* newsgroups are those that have been created consistent with the suggestions in "So You Want to Create an Alt Newsgroup" at:

  http://www.faqs.org/faqs/alt-creation-guide/

Approved regional hierarchy newsgroups are those that contain either "radio.amateur" or "ham-radio" in their names, including uk.radio.amateur and aus.radio.amateur.misc.

We will make every reasonable effort to keep our list of approved newsgroups up-to-date. In case we have overlooked any, and a submission is rejected in error as a result, the rejected submitter can E-mail us at our administrative contact address (in the signature at the bottom of this article, and the default Reply-To for the rejection message) requesting that it be added, and that the article be approved. We may still choose to reject articles crossposted to any alt.* newsgroup with an inappropriate name, including obscene language, embedded name-calling, or encouragement of unlawful conduct.

Please direct any comments, questions, or criticisms to rec-radio-amateur-moderated-request@panix.com.

I built some stuff recently and even with the freight it was a done deal
being so affordable  , glad they helped

Hi Clifford,

In Oz the source used to be RJ & US IMPORTS
http://users.catchnet.com.au/~rjandusimports/

But they have ceased trading, although there's still lots of info on
their site.

I think now the best local source is
http://www.minikits.com.au/products.html#ferrites

In the USA, try "The Toroid King" at
http://www.partsandkits.com/

But these days I usually just look an ebay for any radio bits and pieces.

Regards .... Zim VK3GJZ

Summary: Recruitment announcement for ham-radio-related FAQ articles
Keywords: FAQ, Intro, amateur, ham, radio, recruit, recruitment
Xref: g2news1.google.com rec.radio.amateur.antenna:22542 rec.radio.amateur.dx:1090
rec.radio.amateur.equipment:2660 rec.radio.amateur.homebrew:4630
rec.radio.amateur.misc:6550 rec.radio.amateur.policy:32539 rec.radio.info:2648

Posted-By: auto-faq 3.3.2 beta (PGPMoose V2.0, Perl 5.005)
Archive-name: radio/ham-radio/recruitment
Revision: 1.2 2009/11/25 14:41:01
Posting-Frequency: posted monthly
URL: http://www.faqs.org/faqs/radio/personal-intro/

Changes followed by "|".

The rec.radio.info newsgroup, first established in 1993, has been recently revived by an active moderation team. We are currently seeking suitable information, FAQ, and bulletin articles from the entire rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our newsgroup.

We are seeking a replacement maintainer for the following information bulletin formerly posted to rec.radio.amateur.* (and currently archived at http://www.faqs.org/faqs/radio/personal-intro/):

radio/personal-intro
Subject: Guide to the rec.radio Newsgroups
Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
Last Posted: 9 Nov 2001 06:18:17 GMT
Posting-Frequency: 15th of each month

One significant omission, requiring immediate updates, for this article |

```
is that it does not mention newer amateur radio newsgroups created since      |
it was written, including:                                                    |

 rec.radio.amateur.antenna                                                    |
 rec.radio.amateur.boatanchors                                                |
 rec.radio.amateur.dx                                                         |
 rec.radio.amateur.equipment                                                  |
 rec.radio.amateur.homebrew                                                   |
 rec.radio.amateur.moderated                                                  |
 rec.radio.amateur.space                                                      |
```

We are willing to provide any technical support necessary to get this
article updated and automatically posted again at a regular interval.
This would include establishing contact with the original maintainer for
any necessary permissions. We would prefer to seek a new, dedicated
maintainer at this time, rather than start auto-posting the original
article ourselves.

For more information about our newsgroup, see:

http://www.panix.com/~rram/usenet/rri/index.html

Please direct any comments, questions, or criticisms to
rec-radio-info-request@panix.com.

Turn the sweep control to EXT (all the way clockwise). Feed one input to the chanel 1 input as usual. Feed the other input to the two binding posts near the sweep control. This is the horizontal input. The center of the sweep control is the horizontal gain .

```

A friend of mine gave me some of his old electronics magazines.
Though I really enjoyed looking at the ones from the 1950's...
the ones from 1970 were noteworthy for having construction articles
on tube, transistor and integrated circuit designs.

No, there were not any designs I saw employing both tubes and IC's
but I would not be surprised if someone created such a project at one
time or another

Well the unit is all operating now with the proper ferrite core transformers.
Results vary with band but on 7 MHz I an getting about 20 dB reduction in
background QRN. 14 MHz is not quite as marked but still about 15 dB.
Quite worthwhile! But one has to remember that this circuit reduces the
LOCAL noise background not ionispheric noise or QRM.
Overall I would recommend it to those troubled by electrical noise.
However I do have some reservations about the Low Q chokes used as front
end tuned circuits. I suspect that the phase shift one needs is not as
accurately obtained and it might work better with some high Q toroids in
their place. That will be tried next as soon as they arrive.
Another thing- Does anyone know of a source of adapters from surface
mountto DIL IC's. This is becoming more and more necessary as newer chips
are NOT being produced in DIL packages. I've had a lot of trouble with a
motor controller chip for an electric bicycle which was 24 pin Surface
mount only.

Clifford wright ZL1BDA ex G3NIA.

Wouldn't it make more sense to sort the local noises and that should get
you a similar amount , it did here easily being worth several s points

There are a couple of adapter board vendors out ther. Unfortunately,
they typically cost more than the IC's. Digikey sells "surfboards", and
there are also these guys:

http://www.adapt-plus.com/products/adapters/prod_smt_board.html

http://www.schmartboard.com/index.asp?page=products_smttodip&id=450

I have a Realistic PRO-2003 AM/FM scanning receiver for sale. It is in very
good shape and comes with the manual. I'm asking $45 plus postage for it.
You may contact me off the newsgroup.

Thanks

Henry

Thanks Doug I will follow that up.
After all the chips only cost $5 each so paying up to $10
for an adapter wouldn't be too high a price to pay, it saves so much
trouble. I'm 71 and I surprised myself in that, I was, in the end able to
wire all 24 pins. I'll have to redo a few though and I'm very concerned
about the durability of the joints under vibration as it is an electric
bike controller for a BLDC sensorless electric motor.

Atec77. I'm a bit puzzled about your response!
The whole idea of the system is to reduce the QRN we get around here from
nearby elderly 11 Kv power lines above ground.
W have underground power in our subdivision but the crud is (We have tested
it) radiated from the lines themselves.
Obviously it is MUCH easier to null out local stuff like this than randomly
phased and levelled long distance signals. That is what VK5BR set out to
do, with some success.
When I have my new delivery of toroids I will try out my theory on the
tuned phase shift network on the noise amplifier. If there is a notable
difference I'll post it here.
Best Regards Clifford Wright ZL1BDA ex G3NIA.

My question relates to the qrm you accept , we recently solved a problem here with an HT line which was determined by various means to be at fault . The power company refused to consider their spark transmitter line was at fault but after taking legal advice and making formal complaint they fixed the problem replacing some ceramics dropping the qrm some 3 to 4 s points and oddly the incoming 240vac got much cleaner . You do as an individual have rights so although laudable in the attempt to remove the noise (and I admit I have not been studying the discussion) I don't remember mention of your complaints process , feel free to refresh my memory if you wish , once sourced the problem as you discovered may be addressed by various methods , personally I have several tx and rx antennas which when switched between various loop and wires is very successful in assisting communications plus the use of dsp filtering has altered the radio experience considerably ,VA3AGM did some very useful work which is inexpensive and works very well with my sdr and may be used equally with almost any radio you desire . Personally I don't particularly like digital process and revel in the audio on my KWM2 and AWA but sometimes have little choice , so maybe I can help ?

Coincidently scan ebay for one of these , building one is cheap enough
and my copy works better than I expected

Ah now I understand! Well both my neighbouring fellow ham and I had
already follwed this up as far as we could go, Indeed we did get quite an
improvement on the original situation. We had the radio inspectors from
Auckland out here twice and weny out on a survey with them by car, with a
whole lot of gear to find tha sources of the interference.
This resulted in a reduction from S8 on 40 M down to about S5/6. The
trouble is that I have always been interested in weak signal work on 20
when I work the Antipodes of the Auckland area (Spain and the Western
Mediterranean) when the band is apparently very dead. VK5BR's device got
the noise down almost as much again and I have hopes of an improved and
higher Q phasing network imprving on that.
BTW my fellow ham actually works for one of the local power companies!
NOT our local one unfortunately!
Of course out here in the country we always have the dreaded electric
fences clicking in the background!
As to aerials. Well I have a reasonable QTH near the top of a hill, but
as I have other hobbies, including amateur astronomy I don't have
unlimited space (the observatory has to go somewhere).
So I have a G5RV with proper open wire feeders and the mast that supports
it is tuned to behave as a 5/8 wave vertical on 20m as well.
Overall I would say that the vertical is about 4 Decibels worse than the
G5RV as far as noise pickup is concerned.
My noise antenna runs along the top of a fence below the G5RV for about
3/4 of a wavelength at 14 MHz.
As an old timer I'm afraid that I am not very enamoured of digital radio
, it's OK in synthesisers etc but doing it all in software takes all the
"human" interface out for me. I still use a 1918 morse key for example.
Some of the gear I have seen lately, you might just as well get on the
internet!!! However I still build a lot of my own gear and the commercial

stuff I use has been heavily modified,improved and upgraded.
73's Cliff Wright ZL1BDA ex G3NIA

Hi,
I have a big self supporting tower in the yard, it is grounded by grounding rods and of course itself. I am attaching two satelite dishes to the tower. The most practical way is using 2x4 wood, this will work great just screwing them to the wood and it will squeeze itself to the brackets and support nicely. I am wondering about the connection to the tower because there will not be grounded to the tower. There wont be any connection (metal to metal) form the satelite dish and the tower, that leads me to believe that the only grounding would be the shielded cable which gets grounded to the nice new 50" plazma.

My question is should i ground that? Should the satelite dish itself be grounded to the tower? Is there any reason for this? Safety wise or interference wise? It would be very simple to do, but not sure if I should or want to. Please give me advice as to either ground the dish to tower or not to. Does anyone think there will be issues? Should I or shouldn't I?

Thanks for any advice.

If the feedline is unbalanced then at some point it should be grounded to avoid "static" noise. The antenna should be connected to ground though a lightning arrester for safety.

Hi

The feedline is the cable coax, there is no balun or tuner inline I would imagine. Just the simple satelite dish with dual LNB and it receives from two different satelites.

So it is in my best interests, best viewing interests, best protection of the new TV to ground out the satelite dish, its arm, its base to the tower and that in turn will ground out into the ground obviously.

Simple copper connection between tower and satellite. Easily done.

Thanks for the advice.

>

If the tower is galvanized steel, do not hook the copper directly to it.
You need a clamp to go between the two differant kinds of metel. If not ,
there will be corosion and could weaken the tower.
You could always use a piece of galvanized wire and stainless steel clamps.

> Simple copper connection between tower and satellite. Easily done.

I assumme you meant between the tower and the satellite DISH. A copper
connection between the tower and the satellite would be awfuly expensive and
get tangled quickly. :-)

Geoff.

Hey OM

You should only have one ground rod everything should ground to it. So
you should ground the dish to the tower with the shortest possible
ground wire preferribly copper strap.

I you have more than one ground rod then there can be standing voltage
difference between the ground rods which could be on the order of
thousands of volts.

Not true. The "Bible" on grounding is contained in Motorola Standard R56. Chapter 4 deals with "outdoor" grounding and Chapter 5 deals with "indoor" grounding. 518 pages total!

We drive ground rods (usually 2 joined together with ground rod couplers) at each corner of our buildings and then bond #2 wire to each set of ground rods, forming a circle around the building and buried at 24"-30" or so. Another #2 wire is connected from this ring (at one point) to a single ground buss on the external wall of the building. We build a similar ring around the tower base. The tower ring is connected to the building ring. Page 102 of the R56 manual shows this...

http://www.radioandtrunking.com/downloads/motorola/R56_2005_manual.pdf

Hmmm, Raypsi seems to be confusing Ground Rods, with the NEC Requirement of having only ONE Ground/Neutral Bonding Point, for each individual Distribution System, which is to be made at the Entrance Panel, or Main Panel, in the System. Ground Rods can be, as many as a user needs, or as few as ONE, depending on Soil Conductivity, and what is Grounded. For some PowerHouses in Alaska, there are as many as 10 Grounding Rods,

connected with Bare (0) Phosphor/Bronze Conductors placed around the
building, and bonded to each of the Diesel Gensets inside the building.
Just Say'en.... YMMV....

Incorrect , one bonding point per system but multiple grounding rods
when qualified is fine

Hey OM:

I see it all the time out on the water. You look at why fowl like
FLAMINGOs stand on one leg in the water? Because the ones that stood
on 2 legs got eletrocuted when lightening hit the water. The voltage
difference set up between their little legs was enough to kill them.
That's why FLAMINGOs stand on one leg. They also don't read technical
books but have learned from evolution the hard way.

Thousands of years of evolution can't be over looked, FLAMINGOs know
one ground point is the best. .

73 OT

Hey OM:

The Pink Flamingo motel got them stuck in the front lawn and the motel
has hooks on the walls of every room. for miskrittens like me. The yl
got her own whip.

I need to find the internal ram board for an Icom 745/751.  I broke
mine by pushing too hard when reinstalling.

Money is tight, as we all know.  Do you have one that I can buy?

I sure would appreciate it.

Thank you.

I recently came across some literature suggesting on-line Ham receiving stations available for transmitter testing. In other words, I send out a signal on one of the Ham bands and on one of the on-line frequencies, and then either hear my signal immediately on-line or a short time afterwards.
Are there frequencies set up on-line and on the Ham bands for such testing?
What are the links & frequencies?

Thanks,
Ted

They're general coverage receivers out there that you can tune to any frequency that is within their capabilities.
Google "online receivers" or such.

Archive-name: radio/ham-radio/moderated/crossposting
Revision: 1.1 2009/04/12 19:42:04
Posting-Frequency: posted monthly
URL: http://www.panix.com/~rram/usenet/rram/index.html

Changes followed by "|".

After a 30-day public discussion and feedback period to gauge reader opinions in March of 2009:

http://groups.google.com/group/rec.radio.amateur.moderated/browse_thread/thread/d7d337db35f23326

the rec.radio.amateur.moderated Moderation Team has decided to consider amending its charter, and permit limited simultaneous crossposting to rec.radio.amateur.moderated and one other unmoderated amateur-radio-related discussion newsgroup. We are currently trying this on a temporary basis (90 days, through early July 2009), and adopt it permanently if successful.

Approved rec.radio.amateur.* newsgroups are those that are currently listed in the latest version of the "List of Big Eight Newsgroups" which is crossposted monthly to news.announce.newgroups, news.groups, and news.lists.misc.

Approved alt.radio.amateur.* and alt.ham-radio.* newsgroups are those that have been created consistent with the suggestions in "So You Want to Create an Alt Newsgroup" at:

  http://www.faqs.org/faqs/alt-creation-guide/

Approved regional hierarchy newsgroups are those that contain either "radio.amateur" or "ham-radio" in their names, including uk.radio.amateur and aus.radio.amateur.misc.

We will make every reasonable effort to keep our list of approved newsgroups up-to-date. In case we have overlooked any, and a submission is rejected in error as a result, the rejected submitter can E-mail us at our administrative contact address (in the signature at the bottom of this article, and the default Reply-To for the rejection message) requesting that it be added, and that the article be approved. We may still choose to reject articles crossposted to any alt.* newsgroup with an inappropriate name, including obscene language, embedded name-calling, or encouragement of unlawful conduct.

Please direct any comments, questions, or criticisms to rec-radio-amateur-moderated-request@panix.com.

Thanks, guys, I'll look into those. Just so you know, I'm looking for a
live or nearly live on-line receiver in the 20 meter band, USB. I have a
new rig I'll be trying out soon and I'd like to hear what it sounds like.
73, Ted

Appreciate the response from all here, gentlemen. In fact, the very concept of a software receiver has me intrigued to try setting up my own on the PC. However, as I look at some of the ones people are using at the websdr.org link, I find most are out of stock. Of course, Winradio has been around for years, but a much higher price tag. Any info on getting a "Softrock" or similar receiver would be welcome. Thanks, Ted

After the prior post mentioning SDR radios, and me seeing how they work withe the web radios, I am now intrigued by the concept. There are several DIY and assembled brands used, with SoftRock being among the best price. However, SoftRock does not appear to be available at this time and several other brands may be "retired" as well.

What would be recommended? I don't want to spend a fortune, but still want decent quality, preferably covering the HF bands. SSB, AM, FM. I see a brand called Elektor SDR offering assembled kits under $150 US. However, some people have problems with setup and a weak receiver. Now they have a preamp for another $75 or so.

Appreciate any thoughts on the subject.

Thanks,
Ted Ham

The SoftRock kits aren't retired; it's just that they appear in batches

and usually sell out within a day or so. If you're interested in getting one, your best bet is to join the softrock40 group and wait for an announcement:
  http://groups.yahoo.com/group/softrock40/

Alternatively, you could try contacting Tony Parks directly. It sounds like the SoftRock RX Ensemble kit would suit you (continuously-tunable receiver with bandpass filters for 160m-10m on a single board; I built the previous two-board version and have been very happy with it).

The SoftRock kits have the advantage of excellent build documentation (http://www.wb5rvz.com/sdr/) and lots of troubleshooting experience on the mailing list, but it's worth looking at some of the other similar kits from other suppliers too.

For example, the Soft66RF is much like the RX Ensemble, but designed to use off-the-shelf inductors:
  http://zao.jp/radio/66RF/index_e.php

And Funkamateur do a line of cheap fixed-frequency/IF receivers along the lines of the SR Lite, but with all through-hole components, and with LF and VHF variants available:
  http://www.box73.de/catalog/index.php?cPath=112_113_143

(If you have an existing radio with a suitably wide IF output, a fixed-frequency receiver on the IF frequency is the cheapest and easiest way of playing with SDR; the SR Lite or Funkamateur kits cater for that.)

Hope this helps,

--

I have a project where I am going to modify an internal receiver circuit that uses Toko style coils for the various stages. I want to be able to determine the resonant frequency of these coils. I'm told I can do this with a dip meter, but I'm not sure how. The Toko coils are shielded. If I just bring the dip meter coil near, I don't get a response. Am I going to have to remove the Toko coils from the circuit, remove the metal shield, and then move the dip meter close and adjust for the dip or is there a simpler way?

Thanks in advance,
Jer

Are they just coils that you resonate with an external capacitance, or
do they include capacitors?  If they are coils, you should be able to
resonate them with an external capacitor, and leave the leads long
enough (formed in a loop) to couple to the GDO.  The leads add some
inductance that you can at least estimate and subtract out.  If you
can't couple closely enough with a single turn loop like that, you can
use multiple turns, again estimating or measuring the inductance of
those turns and subtracting it out.

If the shield cans also contain capacitors (as is typical for IF
transformers), things get more complicated...

Removing the shield can is probably not a good idea.  If the coil
inside is open (doesn't have a powdered iron tube around it), then the
inductance of the coil will be somewhat lowered when it's inside the
shield.  If the coil inside does have a powdered iron tube around it,
you may not be able to couple well enough to the coil to measure it.

You may also have other ways to measure the coil/resonator...you can
do a lot even with a general-coverage receiver.

Cheers,
Tom

So if it's a commercial receiver, the information may already be out
there, but nobody would know until you reveal the receiver, and the stage
you want to modify.

Yes, I have the original coil specs, but only in frequency and the schematics do show whether they are coil only or have an internal capacitor present. The problem I'm facing is that I know the new frequency I want to use, which is about half as high as the current frequency, but I don't know how to figure out the correct number of new windings I'll need. The coils are all Toko in shielded cans, so there are a lot of unknowns. Even knowing the frequencies they are on now, I still haven't been able to measure it and that is where I must start. I guess if I have to remove each one, break the internal capactor, and then form a loop around the dip meter coil with a new cap in parallel with the coil, I could, but I was hoping for a simpler way.

Jer

Posted-By: auto-faq 3.3.2 beta (PGPMoose V2.0, Perl 5.005)
Archive-name: radio/ham-radio/recruitment
Revision: 1.2 2009/11/25 14:41:01
Posting-Frequency: posted monthly
URL: http://www.faqs.org/faqs/radio/personal-intro/

Changes followed by "|".

The rec.radio.info newsgroup, first established in 1993, has been recently revived by an active moderation team. We are currently seeking suitable information, FAQ, and bulletin articles from the entire rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our newsgroup.

We are seeking a replacement maintainer for the following information bulletin formerly posted to rec.radio.amateur.* (and currently archived at http://www.faqs.org/faqs/radio/personal-intro/):

radio/personal-intro
Subject: Guide to the rec.radio Newsgroups
Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
Last Posted: 9 Nov 2001 06:18:17 GMT
Posting-Frequency: 15th of each month

One significant omission, requiring immediate updates, for this article |
is that it does not mention newer amateur radio newsgroups created since |
it was written, including: |

- rec.radio.amateur.antenna |
- rec.radio.amateur.boatanchors |
- rec.radio.amateur.dx |
- rec.radio.amateur.equipment |
- rec.radio.amateur.homebrew |
- rec.radio.amateur.moderated |
- rec.radio.amateur.space |

We are willing to provide any technical support necessary to get this article updated and automatically posted again at a regular interval. This would include establishing contact with the original maintainer for any necessary permissions. We would prefer to seek a new, dedicated maintainer at this time, rather than start auto-posting the original article ourselves.

For more information about our newsgroup, see:

http://www.panix.com/~rram/usenet/rri/index.html

Please direct any comments, questions, or criticisms to rec-radio-info-request@panix.com.

Do you like sporty? Chances are you love sports NFL jerseys! A sports jersey is something that you cherish all your life as a favourite piece of memorabilia. It can be your own, or you may have obtained it from someone else like a professional athlete. This can be preserved for life as a momento, and why people often get their sports 2011 jersey framed as a treasure. http://jerseys-seller.com/

If you have an L/C meter or bridge you can connect the unknown shielded
coil in series with an inductor of known value and measure the two in
series. Then subtract the known inductance from the reading. (works
for coil without parallel capacitor). For a parallel LC combo with a

bridge you can measure the combined L C reactances at different
frequencies and work out the L and C values, but the math is a bit involved.

If you run coax up to the roof, how about using some 70 ohm CATV coax?
I have some here I got for free, 3/4 in diameter. Oftentimes cable TV
companies have shorter 'reel ends' they are willing to give away. The
stuff is 'semi-rigid' but you may be able to get it to feed up that
conduit anyway. Worth a try. (BTW I do *not* mean RG-6 junk here, I mean
the larger diameter semi-rigid types only)

On the roof, if you must go the 'balun' route, a 4:1 or more likely 9:1 unun may be OK. Obviously, a balanced tuner accessible for adjustments would be best.

CATV 'hardline' is not near as lossy as RG-8 or RG-213 types up around 10 meters. So try some- and don't worry that it's not 50 ohm impedance, just use it as if it were.

I built the SPC type tuner myself, nearly 20 years ago. It's not always the answer, but oftentimes it worked pretty good, allowing me to extend the usable BW of some narrow antennas and still keep the amps happy.

Good day! Has anyone got any application information for the Toyocom 45E2B2 45 MHz 4 pole filter. It comes as 2x3 lead crystal cans. Unfortunately it has been over 20 years since I started this reciever project. (It was put to one side after a HEAP of sythesiser problems)
Of course I cannot now find any data on how the two crystal units are coupled together.

What info I has gives a Zi/o of 4K Ohms and 0.8 pF but the only info on
coupling the 2 is an unexplained figure of 1pF?
That seems too small to me even at 45 MHz!
So what I need urgently is an clarification of the coupling required between
the 2 units.
Has any kind person got this info anywhere? Or does anyone have circuit
information on a receiver which used this filter? That would give me a lot of
clues.
73's Clifford Wright ZL1BDA ex G3NIA Helensville New Zealand.

Hello.
Your filter is now a discontinued product and placed at
http://www.epsontoyocom.co.jp/english/discon/discon_filter.html

As usual, negative capacitance mean tuned resonant tank, slightly
distuned from 45 MHz.
If you can not measure shape of passband characteristics, simply
ignore these -1 pF.

If you interested, can see on my upconv receievers at
http://www.cqham.ru/forum/showthread.php?t=3D9688

As In/Out match with filters on UM5 crystals I use L-match (series L
and paraleal C near to quartz filter).

Older boards with similar filters:

Thanks Genadiz.
I am an "old timer" and still trying to keep up with new technology at 71
years, after 60 years of electronics!!! A close inspection of your boards
appears to show that there is simply a low value preset capacitor from the
junction of the 2 Xtal units to ground. Is that correct?
I have tried the offset 45 MHz tuned circuit, but it is quite possible
that I had the LC ratio wrong. Perhaps I should aim for a ~4K Ohm
reactance? Unfortunately I don't read Cyrillic. My language skills are
mostly in French, German and Maori with a bit of Swedish and about 20
words of Russian. In any event the only real problem now is the coupling
of the 2 filter units as in your older designs. Matching to the input and
output of the filter is no great problem. 73's Cliff Wright

I'm point you to russian fourm for see pictures, not for reading.

In this (your) case, I propouse use at middle a tank with fixed
1...1.5 uH and 1..10 pF trimmer cap - align this circuit (at same time
align input and output of filter) until the shape of passband is good
enough.

This case related only to my type of filters - in your case, you need
little L.

Bolshoi Spasiba Genadiz!!!
You have even done some design work for me, for which I thank you.
I will go over your sites again as I now have access to a good translation programme.

Especially, I want to point you to new prototype - RX with codename
"Voronenok" =3D Crow child.
http://www.cqham.ru/forum/attachment.php?attachmentid=3D93427
It is a simplified version of my old big boards - only 160*225 mm
size.
No NFM detector and simplified 1-st LO synthesizer.
Bay the way, in a synthesizer way i'm inspired by John Miles KE5FX.
Control program (for Atmega32/Atmega644 or AT91SAM7S64) also uploaded
to forum.

Well Genadiz! I have designed the L networks and used your values for the
parallel tuned circuit between them. All is well! As you say you can tidy up
the filter response with the tuned circuit. It goes into the receiver today.
Thank's again for your great help!
Vy73's Cliff wright ZL1BDA.

Follow up to VK5BR noise canceller as promised.
Well it is all going quite well. The input coils have link windings to
match the input to 50 Ohms and are all wound on the appropriate Amidon
toroids.
Works very well against local QRN on 3.5/7 and 10 MHZ bands.
Not as effective on 14, 18 and 21 Mhz. However I suspect that this might
be partially due to the ferrite grade used in the rf transformers.
Amidon only specify it up to 15 Mhz and I am going to try a grade specified
to 30MHz when I can get some in. BTW I have used the later circuit with 2
transformers to reduce rf losses. The RX/TX circuit shown works well and
doesn't seem to cause any damage to the unit with 200 watts going to the
antenna.
Altogether a very interesting circuit and worth while for those doing weak
signal work, or in a very bad QTH.
One major point however. If you use a vertical and have a horizontal noise
pickup antenna you may well find it very ineffective. Probably it
overwhelms the adjustment range of the RF phasing control, but I have not
determined this yet.
Give it a try if you have problems.
73's Cliff Wright Helensville ZL1BDA ex G3NIA NZVRS

> 73's Cliff Wright Helensville ZL1BDA ex G3NIA NZVRS

I built something very similar to the mfj unit , the cores are specified
to 30 mhz so you should benefit when changing , I can switch between a
horizontal beverage and a sloper and being able to change in such a
manner does in fact have nothing but advantages as well as often
improving rx several s points
  I suggest you try micrometals who have exactly what's required and
good delivery

Being out of ham for nearly 20 years, I am recently getting back involved on HF voice (10-80 meters). I have a small 2 watt QRP SSB rig that I would like to boost up to at least 100 W PEP in the mobile. What amps are available accepting low drive on HF for >100 w output? How about schematics or plans? Thank you, John

I have a couple of devices with electret condenser mics, one is an old Casi=
o PDA (running Windows CE), another is a 1/8" headphone adapter with a buil=
t-in microphone (for iPhone/iPad).  Both devices have working mics, but rec=
ordings are noisy. The noise is slightly different in each case. With the P=
DA, recordings have a rumbling noise over them. With the iPhone adapter, re=
cordings have a popping sound that appears every second or so. Does anyone =
recognize these symptoms and can they be fixed with a new electret mic elem=
ent, or by some simple modification such as wiring a resistor or capacitor =
in? (I have a few electret mics taken out of old radios/etc, that may still=
 be good.)

I have a circuit board exposure frame for sale.  $100 plus
postage from zip 55082. Payment in US$ in advance by check
or money order. Sorry, no Paypal. Unpackaged weight 35 lbs.

Kepro BTX-200 ultra-violet exposure frame.

Kepro Circuit Systems Inc

12 X 16 inch exposure area.

3 or 5 lamps.  Manual or 0 - 5 minute timer.

It can be viewed at:

http://home.comcast.net/~hsknoll/site/?/photos/
&PHPSESSID=29ec62ea0bf1fe4d25e318b011cf0bbf

or

http://tinyurl.com/yktwxpz   click on photo to enlarge it.

If you are interested, please send me your zip code so I can figure shipping
costs.

I have a Realistic PRO-2003 AM/FM scanning receiver for sale. It is in very good shape and comes with the manual. I'm asking $45 plus postage for it. You may contact me off the newsgroup.

Thanks

Henry

> I have a couple of devices with electret condenser mics, one is an old Ca=
sio PDA (running Windows CE), another is a 1/8" headphone adapter with a bu=
ilt-in microphone (for iPhone/iPad). =A0Both devices have working mics, but=
 recordings are noisy. The noise is slightly different in each case. With t=
he PDA, recordings have a rumbling noise over them. With the iPhone adapter=
, recordings have a popping sound that appears every second or so. Does any=
one recognize these symptoms and can they be fixed with a new electret mic =
element, or by some simple modification such as wiring a resistor or capaci=
tor in? (I have a few electret mics taken out of old radios/etc, that may s=
till be good.)
```

My guess is that the noises are not the fault of the mic. That said,
you can always try another mic. Does either device offer the option
of recording an external input (not the built-in mic)? If so, try
that--I guess with the second device it IS an external mic. Some
noises are inherent in various lossy compression schemes, and some
devices (especially ones with a lot of digital stuff going on inside
them) don't do a very good job shielding sensitive analog inputs such
as a mic input from electrical noise generated in the device.

Hey OM:

That resistor is part of the OA3 circuit. All you need is noisy zeners
that can handle the current. You would need 3 watts worth of zeners.
Three 25 volt 1 watt zeners, or five 15 volt 1 watt would give you
more head room. Or 15, 5 volt 1/2 watt zeners, or 1/4 watt. Put 15 SMD
5volt 1/4 watt zeners between the 2 pins on an octal plug, pin 2
connect the anode of the zener string and pin 5 connect the cathode of
the zener string. If you are lucky you can find a 5 watt 75 volt zener

73 OM

de n8zu

GE raypsi,

Wow, what happens when one is asleep! "programmable zener TL431?" One
of the hundreds
of devices that have slipped under my radar!
Is it as noisy in operation as just a few zeners?
My experiences as are no doubt yours too, are that solid state devices
inserted into
vacuum tube perfected circuits just add to the noise generated by computers,
cell phones,
switching power supplies etc.
Do you then need two of those little stinkers (TL431) to come up with
drive for series
FET? (shooting for 75 or so volts, I take it) (or am I too old to understand
solid state?)

TU RAYPSI

W7LTQ

Mouser stocks a 75V, 5W zener
(http://www.mouser.com/ProductDetail/ON-Semiconductor/1N5374BG/?qs=sGAEpiMZZMstCHp3EWKGl2gui9JjXqQ8miO99TtxueA%3d)
that should do the job. Cheap at $0.36 each.
http://www.mouser.com

You can also download the datasheet from that page.

I'm interested in getting several of these filters (for the 75A4):

500 Hz, anything between up to but not including 3.1 kHz.

Need sources, prices.

Make reply post or send private email to the source of this post
(=arthures@mv.com)

Thanks.

Rockwell-Collins still makes the size J filters. From the 2005 catalogue:

NSN	Type	Bandwidth
526-9089-000	F455J-31	2.8
526-9091-000	F455J-60	5.5
526-9154-000	F455J-05	0.38
526-9155-000	F455J-15	1.2
526-9156-000	F455J-21	2

You can also make adaptors out of perfboard to fit the PC board mount filters onto a socket, if you find them at a hamfest.

Otherwise try collinsfilters@rockwellcollins.com.

Hey OT:

I used a programmable zener TL431 in an SMD package because in SMD
they were 1%. Then I just use the math to figure the resistors to
program it to the voltage for an OA2. I've replaced OA2's in 3 of my
EICO 753's, along with the Zeners they use in the VFO, with TL431's.
To wit all the TL431 is, is an 60db op amp with an internal temp
stabilized zener. Without temp stabilization a straight zener will
drift all over the place, with temp changes, I've seen 15 volt zeners
go down to 12 volts when heated up. So that string of 5 zeners would
get down to 60 volts when things get hot.
And as far as noise goes you can't use negative feedback in a zener.
The noise goes back into the input of a TL431 and gets canceled out.
You could let it go and just like a zener it would make a great noise

bridge source.

The main issue is temperature compensation, a zener will go down in
voltage when heated up, so if you use a zener you best put it in a
temp controlled oven. And you can use a TL431 to control the temp. of
that oven.

73 OT

Does 'better' mean tighter or less ringing?

There are sure times when I wish I had a less nasty-sounding filter for
AM on the R-390.

Posting-Frequency: posted monthly
URL: http://www.panix.com/~rram/usenet/rram/index.html

Changes followed by "|".

After a 30-day public discussion and feedback period to gauge reader opinions in March of 2009:

http://groups.google.com/group/rec.radio.amateur.moderated/browse_thread/thread/d7d337db35f23326

the rec.radio.amateur.moderated Moderation Team has decided to consider amending its charter, and permit limited simultaneous crossposting to rec.radio.amateur.moderated and one other unmoderated amateur-radio-related discussion newsgroup. We are currently trying this on a temporary basis (90 days, through early July 2009), and adopt it permanently if successful.

Approved rec.radio.amateur.* newsgroups are those that are currently listed in the latest version of the "List of Big Eight Newsgroups" which is crossposted monthly to news.announce.newgroups, news.groups, and news.lists.misc.

Approved alt.radio.amateur.* and alt.ham-radio.* newsgroups are those that have been created consistent with the suggestions in "So You Want to Create an Alt Newsgroup" at:

  http://www.faqs.org/faqs/alt-creation-guide/

Approved regional hierarchy newsgroups are those that contain either "radio.amateur" or "ham-radio" in their names, including uk.radio.amateur and aus.radio.amateur.misc.

We will make every reasonable effort to keep our list of approved newsgroups up-to-date. In case we have overlooked any, and a submission is rejected in error as a result, the rejected submitter can E-mail us at our administrative contact address (in the signature at the bottom of this article, and the default Reply-To for the rejection message) requesting that it be added, and that the article be approved. We may still choose to reject articles crossposted to any alt.* newsgroup with an inappropriate name, including obscene language, embedded name-calling, or encouragement of unlawful conduct.

Please direct any comments, questions, or criticisms to rec-radio-amateur-moderated-request@panix.com.

I'll have to put on my "to do" list that I need to search the web for sources of these filters (as well as ER magazine). And, see if Collins has a website of their own (I should have done that, too, but I have variable lazyness...and I'm not in a big hurry on this project).

I did send to that Collins email address a request for further information and have not, as yet, received an answer (I notice email responses to email queries can be all over the spectrum from minutes later to days later to no answer at all).

For a nice-sounding CW filter, I have used an audio frequency equalizer (picked up mine from a thrift store for $5, its a Realistic [Radio Shack] jobber). I max boost 500 Hz sliding pot on both channels, and max depress the pots on all other frequencies, and feed speaker output into input of one channel, output of that channel into input of the other channel, and run output of other channel into input of an amplifier driving either a speaker or earphones. Bandwidth "sounds" (not measured) like maybe about 300-400 Hz. The next frequencies above and below 500 Hz are 250 Hz and 1 kHz. I might get narrower if I boost at 250, etc, but tone is too low for my ears. I thought I wasn't getting any detectable ringing at all on this setup. The calibrations are max/min 12 db, so that should put unwanted frequencies down 24+ db per channel, or 48 db for both, no?

Scott, for AM on the R-390: are you sure its the filter? Not distortion in the audio string? Have you tried any other post detection path (eg. a separate receiver, even an old AM radio where you feet the 455 kc output from the R-390 to the input of the IF on the AM radio and see what audio quality you can get? I'm not familiar with the R390 (does it have mechanical filters?).

You might try setting the filters on the two ears a little bit different, so that higher tones are to the right and lower tones are to the left. I find this helps pick out signals from a pileup.

The filters on those cheap EQs are probably fairly wide; you can measure the Q with a meter and a signal generator if you want to really know.

There is lots of distortion in the audio string, although the line output is definitely much cleaner than the speaker level output. However, there is

just outrageous amounts of ringing on the 8KC filter. If I go to the 16 KC
filter it's much cleaner but of course there's a wider bandwidth too.

FWIW, I have an F 455 J 31 in front of me that I'd be happy to part with for any reasonable payment. As far as I know, it's in good condition, removed from (if I'm not mistaken) a Collins 490T HF avionics transceiver. I'd be happy to check it on an HP8753ES network analyzer to insure it's OK, if I find info on pin connections and in/out matching to the analyzer's 50+j0 ohms. I gather this is the one you _don't_ need, but perhaps someone else does. (Looks like probably pins 1&2, and 6&7, are the in/out...9 pin miniature tube base.)

Cheers,
Tom

During transmission (modulation peaks?) the VR tube glow intensity
will change and even shift pattern from one part of the tube to others
with some hysteresis. This is normal. Arcing is not normal. But note
that the glow and shadows might show some structure (kinda shadows and
shadow edges) shifting as the current through the VR tube changes and
maybe you suspect that is arcing?

Tim.

Something I've wondered for awhile now is this: Since you get the same VSWR with a load both higher than or lower than your "expected" load (we'll call this Z0, and the actual load Zl), either Zl/Z0 or Z0/Zl respectively, is one siutation more likely to kill an amp than the other?

When Zl>Z0, you tend to (ignoring phase effects here) end up with a higher voltage sitting on the finals than when Zl=Z0... but less current than the matched case. With Zl<Z0, it's typically lower voltage but higher current. Based on what I know from, e.g., power supply design, there's usually more of a margain from overvoltage than there is from overcurrent, in that you can often find parts that inherently withstand a 2:1 or better overvoltage margain with just a bit of extra cost, whereas overcurrent will tend to overheat the power devices and getting rid of, e.g., 2-4x as much heat (vs. matched case) can require significantly greater heatsinking which often isn't cheap.

In the extreme case, I'd expect that far more amps will blow when shorted than when open-circuited. But I don't really have much experience in this area... so... could anyone comment on what you tend to see in real designs? Perhaps also compare and contrast tube-based amp with solid-state ones?

Thanks you,

```
---Joel

I put a neon bulb across the dropping resistor, well across a piece of
the dropping resistor. I used a photo transistor to couple to my
counter. Over a 12 hour peiod I got 10 to 15 hits. With the Zeners in
place I havent had any.. First noticed the problem when the plate
current meter on my amp went from 0 to full scale just setting on the
bench. Bias supply is set up so unless the amp is keyed it has the
full -75V on the grids cutting the amp off when keyed it drops to
about -45. When I caught it on my storage scope it was about -18v. I
like the VR tubes too, now that I am more certain thats whats causing
the problem I dont mind ordering a couple more VR tubes. Before I
order new ones I am thinking of trying the same monitoring setup again
with the tube in place but this time changing the bias adjust pot.
That would be the only thing I havent checked. I hate intermittent
problems like this.

Jimmie

A fairly tricky question :)

You are right that voltage margin is usually less expensive to obtain than current margin, but in RF devices this is not always true; e.g., the classic MRF316 can withstand 9 amps and 35 volts, for a nominal output (VHF) power of 80 W, and is guaranteed to survive a 30:1 mismatch (with any phase angle), but other transistors are less tolerant - e.g. the widely known MRF455 is rated for 18V (only) and 15A for a 60W power (HF).

But the main question is that the output matching network transforms load impedances in a way not easy for the final user to predict, so a short on output may appear to the device as something very different, whilst a reactive load could well appear like a short or open circuit or something like that. Adding to this the transformation of load impedance caused by the transmission line, we can hardly know the difference between the effects of a load impedance and those of another - and this is why the specifications are usually given in terms of generic mismatch.

As for the difference in behaviour between solid state and tube amps, the latter are notoriously more tolerant because failures in tubes are usually rather "slow" (causes are mainly overheating, but also evaporation of electrodes due to excessive current or disruptive discharge due to overvoltage, and each of these causes requires a certain amount of time to reach "final damage"), while the fusion of a part of a semiconductor device (due to excessive current or power dissipation, or formation of hot spots) or the disruptive discharge in a junction (usually due to avalanche effect) are very fast phenomena, which kill the device in very little time, or even in almost no time at all... but all this is true at more or less any working frequency, not only in RF.

```
Hoping to have shed some little light... :)

Thanks all, problem turned out not to be the tube. still not
absolutely sure but  it was either the bias pot or a cap. I'm fairly
certain I changed out the cap about a year ago so best guess is the
pot. What I am thinking was happening is the pot was opening up
sending its share of the current through the tube overloading it with
about 90 ma of current causing the tube to arc. Should have just
shotgunned the circuit from the beginning.

Jimmie

hey OM

The dead give away should have been the series resistor to that OA3
heating up big time since P=3DI^2R the current doubled, the power
quadrupled that resistor would have could have let its' smoke out.

Mario is right...it's a pretty tricky question, or at least it's tricky to answer accurately!

I fully agree with him that it's difficult to know what impedance will be reflected by any particular load, when viewed at the plates/collectors/drains of the output devices.

Something else to consider: generally too much current (by only a little, anyway) will cause heating, but it may take many milliseconds or seconds for the heat to build up to the point of being dangerous. On the other hand, when you get enough voltage to cause problems, the problem is quite often instantaneous: within a microsecond or so. Poof. Automatic protection circuits have a bit easier time handling excess power (current; heat) than they do excess voltage.

Cheers,
Tom

Unless the original designer was paranoid enough to use an over sized resistor in the first place. Back when I first started out in ham radio building with tubes I was guilty of using a 50W resistor in a 5-10 watt circuit. (half because I got the 50W part cheap and half because I knew that I didn't quite know what I was doing and wanted to be safe).

In my case problem was only momentary, maybe a second  sometimes going
days without doing it sometimes 3 or 4 times in a couple of minutes.
For a long time I was convinced it was in the amp instead of the power
supply because I once disconnected the power supply from the amp and
it ran continuously for a few weeks without failing. This turned out
to be just bad luck. Fortunately I am on the air about as sporadically
as the amp was failing. There is no telling how many times it failed
while I was using it and I just didn't notice.

Jimmie

Hi all,

I use RFSim99 pretty often, and appreciate all it does. I've come across a few "strangenesses" in the past, and just found a new one to add to the list:

In the RF Calculator Resonance/Reactance tool, enter 10MHz and 50pF. The resonating inductance is correctly shown as 5.066uH. Now change the capacitance to 50nF; you'd expect the inductance to show as 5.066nH, but it shows instead as 5.061nH. Change the capacitance to 50uF and the inductance shows as 5.066pH as expected. This isn't a big error, but it's a little puzzling that it's there at all. I discovered it when calculating values for a very narrow LC filter near 10MHz; I'm not sure if the error is worse than this at some points or not. This particular error seems to be only in the calculator, not in the simulator.

Cheers,
Tom

Many simplest solid-state amps "SWR protection" circuitry is in fact "overvoltage protection" circuitry (e.g. Zl>Z0).

The output transformer and low-pass network can also be seriously overstressed when Zl<Z0.

For a while, thermal runaway was a big problem with bipolar continuous duty (especially FM) amps when Zl<Z0. Today most solid-state amps (even if not bipolar) have overtemp and overcurrent protection as a belt-and-suspenders on top of temperature-dependent bias. Overtemp by itself won't stop the worst transformed loads but with overcurrent protection the past couple generations of HF finals aren't so easy to kill.

BTW... my Ten Tec Triton IV (1976 vintage) still has the original final transistors.

For a lot of medium-power homebrew gear the cost of any final protection is more than the cost of the finals. Witness the many IRF510 amps. For a while on my bench I was burning through IRF510's like they were goin out of style :-)

I am looking for archival issues of vintage magazine "Radio News"
published by Hugo Gernsback back in 20s. Especially the one from
December of 1925. Is there any digital library offering access to this
materials? Or maybe somebody digitalized own collection and uploaded it
somewhere? I will be very grateful for any piece of information. :)

warning - this is clearly crazy
** just for fun, so pls bear with me! **
** calls for sanity --> /dev/null :-D **

Hello everyone!

I am considering building a broad tuning range, high impedance HF tank circuit that could be used for several _old-fashioned_ things, like a regen receiver or an analog RF generator, with a pair of twists:
- PTO TUNING, as seen in many professional and ham radios, but with very limited tuning range and custom-made slow motion drives.
- a generic MICROMETRIC SCREW for tuning slow motion drive was, as I saw in one of Jiri Vackar's patents.

PTO HF TUNING
I envision using a moving magnetic core either for main tuning or for band setting. A designer of interesting hobby radios by the name of (Sir) Douglas Hall obtained extremely wide tuning ratios with PT coils and extremely small fine-tuning variables, in the order of 10pF,

without band-switching on HF, unattainable with variable capacitors. He also claimed better Q over the whole range. But his PT drive was really rough, only good enough for approximate band setting. It should be easy to do better.

MICROMETRIC SCREWS
Standard mechanical micrometers used for depth or thickness measurement contain a screw that moves a steel rod over a 25mm / 1 inch range. They typically have a resolution of 0.01mm using the venier scale. This implies repositioning to 1 part over 2500 over the full range. Other features are extremely smooth motion, very small backlash, and low price. I also have a thermostat that I could use to heat the whole mechanical arrangement and help stability....

QUESTION
Assuming that my favorite HF range is 3-15 MHz and that core travel will be 25mm or less, what core size and mix you propose for best Q and stability over a broad tuning range?

MY CURRENT CANDIDATE
Amidon cyl. core for HF PTOs R61-050-180
1.8" length x 1/2" diameter, material 61.
Excess length is necessary to keep linearity throughout the range.
I wish diameter was larger, closer to a roughly square length/diameter ratio, but that's what's available.

SECOND BEST (probably WAAAY SECOND)
A cylindrical RFI core. I can count many many reasons not to use one, but I wonder if I am grasping at straws.

Any comments?

Thank you in advance!

N1JPR

I know you're going super gorilla on all this... but attacking this from the low end up: the KD1JV brass-screw-tuned PTO is very easy to realize and while not super duper stable, it's about as good as you can do for a couple bucks. He has examples of covering 5.0 to 5.5 MHz (75M SSB rig):

  http://kd1jv.qrpradio.com/ssbrig/SSB.HTM

and covering 3.0 to 2.95 or so MHz (40M CW rig):

  http://kd1jv.qrpradio.com/ARRLHBC/ARRL_MMR40.html

Unlike ferrite materials where putting the core in increases inductance, putting a brass slug into a coil reduces its inductance.

KD1JV's designs are supremely reproducible. He does not use unobtanium parts, that's for sure!

I have used these and while they are not awful temperature stable by themselves, with some compensation maybe they could be better.

Tim N3QE.

Tim.

I've already seen that one. :)
So, is that mean, that this magazine is not avalaible on the Internet?

I guess not...
Your best bet would be to check regularly on eBay. You will find a copy
there sooner or later.

Or tell us which particular article you are looking for. Someone might have
it...

And people will be more likely to help if you include a valid email address.

Regards .... Zim

Hey OM;

61 Ferrite material is good to 10Mhz.

But Sir Douglas Hall used a band switch to cover those frequencies and
a 500pf variable capacitor to get to the lower bands, the 10pf was for
band spread.

Looking for physical dimensions of metal clad mica capacitors such as Unelco/Semco/Underwood types. CCI has them listed as types J101 and 3HS0006. I need the smallest physical sized ones (100pF) for a 902 MHz amp conversion. I emailed CCI, but thought I would ask here as well.

Thanks all,

N0EDV

RF Parts has J101's listed, and the page at http://www.rfparts.com/caps_met=
alcase.html
shows the size (bottom of the page). J602 is quite a bit smaller than
J101...

If you want "small," you might consider ceramics from American
Technical Ceramics.  The ATC 800 R series could possibly give you what
you need, in a small package.  These are specifically designed for
very low RF ESR and low ESL, and ability to transfer heat out to the
terminations.  I suppose Johanson has similar parts; I just happen to
be more familiar with the ATC parts.

Cheers,
Tom

Mica capacitors may be a little more traditional (and I see them in UHF app notes still)... but I can't see any reason to not use a modern microwave-type porcelain or glass cap here.

e.g. http://www.atceramics.com/pdf/prod_select(4).pdf

I just built and tested a DEMI 2304-144 transverter and it is now for sale. Set up for 9.3W in at 144 MHz and gives 1.00W at 2304. The receive sensitivity is good, with my 2304 MHz signal at -85 dBm giving S8 to S9 on my FT-857 IF radio. Unit is built with common IF in/out, split TX/RX at 2304 and requires a 10 MHz source for the synthesized L.O. Switch is installed for dual frequency operation, but is not wired. By wiring this switch, you can select between 2304 and one other frequency - 2320 or 2424 MHz (NOTE: 2320 is NOT an authorized TX frequency in the USA, but 2424 is). No T/R relay included, but unit is built to work with standard 24V SMA relays. Photos of transverter on the ham radio page at my website below. Unit has been tested at 2304 MHz only.

Price: $495.00. Save yourself 5 bucks and 18 weeks of your life (DEMI's quoted lead time for factory built units). $15 shipping to

CONUS, $25 shipping to Alaska or Hawaii. No International shipping,
sorry (too much money and too much friggin' paperwork!

I want to put a second battery (for my radios) in my 1994 F-150 pickup truck and connect it to the original battery (for the starter and engine) with a relay such that the batteries are in parallel when the engine is running (and the generator is presumably generating) and are separate when the engine is not running. I did this with my previous '84 F-100 pickup, but I can't find the "on when engine is running" wire in my F-150. Does this wire appear anywhere under the hood?

```

Changes followed by "|".

After a 30-day public discussion and feedback period to gauge reader opinions in March of 2009:

http://groups.google.com/group/rec.radio.amateur.moderated/browse_thread/thread/d7d337db35f23326

the rec.radio.amateur.moderated Moderation Team has decided to consider amending its charter, and permit limited simultaneous crossposting to rec.radio.amateur.moderated and one other unmoderated amateur-radio-related discussion newsgroup. We are currently trying this on a temporary basis (90 days, through early July 2009), and adopt it permanently if successful.

Approved rec.radio.amateur.* newsgroups are those that are currently listed in the latest version of the "List of Big Eight Newsgroups" which is crossposted monthly to news.announce.newgroups, news.groups, and news.lists.misc.

Approved alt.radio.amateur.* and alt.ham-radio.* newsgroups are those that have been created consistent with the suggestions in "So You Want to Create an Alt Newsgroup" at:

  http://www.faqs.org/faqs/alt-creation-guide/

Approved regional hierarchy newsgroups are those that contain either "radio.amateur" or "ham-radio" in their names, including uk.radio.amateur and aus.radio.amateur.misc.

We will make every reasonable effort to keep our list of approved newsgroups up-to-date. In case we have overlooked any, and a submission is rejected in error as a result, the rejected submitter can E-mail us at our administrative contact address (in the signature at the bottom of this article, and the default Reply-To for the rejection message) requesting that it be added, and that the article be approved. We may still choose to reject articles crossposted to any alt.* newsgroup with an inappropriate name, including obscene language, embedded name-calling, or encouragement of unlawful conduct.

Please direct any comments, questions, or criticisms to rec-radio-amateur-moderated-request@panix.com.

I've got a problem. A good problem.

Always wanted a clamp meter - but never wanted to pay the price.

So when the cheapie Chinese models came along, I bought one.
A model DT3266E to be precise.
2A~ 20A~ 200A~   coupla ohms scales and voltage scales
with attached leads.

Anyway, I knew in my head that cheapie clamp ons are only
  good for AC - and that's what the range selecter said too.

But still, I bought a way expensive little lead acid battery for a Honda
Recon 4 wheel RV, and filled it with the acid provided then hooked it to
a charger.

I tried the clip on. It read 2.5 A initially.
That seemed about right.
It tapered to 0.9 A in the next few hours. THAT seemed right.

Here's the problem: if it works on DC (or maybe rough DC)
  why is it marked for AC only?

Brian W

You're assuming it works... are you sure that the DC values that were
read were anywhere close to being accurate?

Rough and ready test only: it was agreeing with the MC meter on the charger.

Chances are the charger is putting out pulses (half wave or full wave from a rectifier) instead of filtered DC. The magnetic field around the wire is building up and falling similar to an AC current would act.
I would not trust the exect values of the meter for the DC current unless verified by another meter.

Could be a problem with the iron circuit getting sturated at higher levels of DC current, even though it seems to work at the lower levels, and also there may be the problem of magnetising the core, and causing subsequent measurements to be inaccurate.

Thanks for the sensible suggestions, folks. The clamp is made from
laminations, no doubt.
  Just surprised it tracked so well on low DC amps.

Try it on straight DC, such as the main battery leads in your vehicle
with headlights or sidelights only.  You may just discover that
Ralph's explanation is correct.

(I have a cheapie battery charger which is nothing more than a
transformer and full-wave bridge, so the waveform of charge current is
a series of pulses at 100 Hz.  I have two clampmeters, an AC-only unit
which registers on my cheapie battery charger's output, and a
Hall-effect cheapie which shows DC correctly.  Must admit I haven't
tried the HE one on the battery charger yet.  Expect a "compromised"
reading or just average current.  Note to self ...).

Good day!
Can anyone point me towards a good design for a good RF stage for my home
brew HF receiver. I have no less than 6 others hams in my small town and
one within 400 metres, so I need good strong signal performance.
10 to 15 dB gain would be ample, but I would like to have 50 Ohm input and
output impeadances.
The receiver is an upconverter to 45MHz with a 15 kHz bandwidth xtal filter
followed by a downconverting mixer to either 9MHz or 10.7 MHz with separate
IF strips.
Tuning is by a PA0KLT synthesiser.
I have been a bit out of touch lately and am not very up to date with the
latest MOSFETS etc. The mixers use the 1992 Ulrich Rohde FET double
balanced mixer circuit.
The rest of the sytem was built back in the early 1990's but put to one
side until a better frequency sythesiser was available.
Now it looks like the time to get things moving again!
Regards Cliff Wright ZL1BDA ex G3NIA.

Hello Cliff,

try to find "Experimental Methods in RF Design" published by ARRL,
authors : W7ZOI, KK7B, W7PUA.

It is a gold mine of infos and circuits !

For excellent intermod quality, consider also H-mode converters.

This link is very informative :

http://martein.home.xs4all.nl/pa3ake/hmode/

Wandering way off topic - the talk of charging batteries with 'rough' DC
reminds me that some years ago now, it was found that a "two steps
forward, one step back" charging approach is supposed to have a very
healthy effect on batteries.   That is to say, a leaky recifier that
discharges at a fraction of the rate that it charges on each half cycle
is supposed to eliminate the formation of spurs and peaks on electrodes
which improves battery life....
(Come to think of it, this 6 amp charger of mine never charges much over
2 amps any more, even when working into a battery with a dead cell)

Ah, one of my favorite subjects...

You don't mention any specific numbers you're trying to reach...
```

I've been working on something where I need a modest-gain HF amplifier with good intermod performance. I have a couple of Spectrum Microwave amplifiers that have about 20dB gain, nice noise figure around 3dB, and about +55dBm TOI. But...they cost close to $1000 each, and need 400mA at 24V--about ten watts! That's fine for testing, but not to actually use in the circuit, both the cost and the power dissipation.

For about a watt dissipation, I can get similar gain and almost as good TOI--but poorer NF--using a couple op amp packages, the first op amp to get the gain and the second to buffer the output and drive 50 ohms. The NF in the mid-teens is still good enough for HF work, especially when faced with huge signals. If you look at differential op amps designed to drive high speed ADCs, you'll find some pretty nice third order distortion numbers. Parts from Analog Devices, Linear Technology and Texas Instruments all come to mind.

As Piero suggests, you need to pay attention to the mixers to get similarly excellent performance there -- and even to the crystal filters, to be sure that they are up to the task of keeping distortion low.

Also, I've built quite a few preselection filters for HF, and after trying lots of different types of inductors (ferrite and powdered iron toroid core, and magnetic-cored solenoid coils), decided that the only coils I could use and guarantee adequately low distortion were ones with non-magnetic cores...nominally "air" core coils. Unfortunately, they are not as nice about rejecting external fields as the toroids, so I've had to be careful about shielding.

I also spent quite a bit of time looking for switches with adequately low distortion. I needed to switch filters quickly and potentially millions of times, so I looked at every electronic switch I could find. None of them was particularly good at HF. I found some tiny reed relays, and they are OK, but even they contribute significant distortion--barely good enough for what I was doing. Thankfully, they last pretty much forever when switching RF at less than perhaps +10dBm. RF armature relays that I've tested are all pretty darned good--but have finite life.

Summary: if you want to be serious about low distortion, you need to look at pretty much every part of the circuit. That includes asking questions like, "Do I really need that RF amplifier, or is the NF going straight into the mixer good enough?" and, "Can I rearrange the circuit blocks to get even better performance?"

Cheers,
Tom

Hi Cliff,

Piero and Tom gave you good comments.

If you need a strong front end your problem is not in the rf amplifier. You need a strong 1st and 2nd mixer and for this there is no better solution than the H-Mode Mixer. Having a una upconversion 1st IF, your critical point will be the 2nd mixer that will receive strong signal amplified by this stage..

If you look at PA3AKE web page you con find info regarding my simplified version I7SWX 2T H-Mode Mixer (http://martein.home.xs4all.nl/pa3ake/hmode/2t-hmode.html). This has only 2 transformers and homebrewed, not purchased. You will see the info on transformers winding, the one with 5 windings may seem difficult but is not. In low bands you may avoid to have a preamp. Look at the G3XJP project Pic-A-Star (RSGB RadCom and also reported in the Handbook).

Changes followed by "|".

The rec.radio.info newsgroup, first established in 1993, has been recently revived by an active moderation team. We are currently seeking suitable information, FAQ, and bulletin articles from the entire rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our newsgroup.

We are seeking a replacement maintainer for the following information bulletin formerly posted to rec.radio.amateur.* (and currently archived at http://www.faqs.org/faqs/radio/personal-intro/):

radio/personal-intro
Subject: Guide to the rec.radio Newsgroups
Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
Last Posted: 9 Nov 2001 06:18:17 GMT
Posting-Frequency: 15th of each month

One significant omission, requiring immediate updates, for this article |
is that it does not mention newer amateur radio newsgroups created since |
it was written, including: |

rec.radio.amateur.antenna |
rec.radio.amateur.boatanchors |
rec.radio.amateur.dx |
rec.radio.amateur.equipment |
rec.radio.amateur.homebrew |
rec.radio.amateur.moderated |
rec.radio.amateur.space |

We are willing to provide any technical support necessary to get this article updated and automatically posted again at a regular interval. This would include establishing contact with the original maintainer for any necessary permissions. We would prefer to seek a new, dedicated maintainer at this time, rather than start auto-posting the original article ourselves.

For more information about our newsgroup, see:

http://www.panix.com/~rram/usenet/rri/index.html

Please direct any comments, questions, or criticisms to
rec-radio-info-request@panix.com.

Why do yo need more amplification in front of your receiver. It's
making more sense to use a tunable preselector.And putting the
amplification in the IF's.

Regards,
Jan PE1SBG

When the band is open with lots of strong signals you don't want a preamp, in fact you might want to switch in an attenuator to reduce the signal strength into the first mixer. The K3 gives the user the option of using a preamp or an attenuator (or BOTH(!) since the preamp has more gain than the attenuator has attenuation so using both just gives less gain). You also have the option of an IF preamp and two gain settings for it.

In the Picstar there is a preamp using 4 parallel jfets that can be switched as an RF preamp or an IF preamp. Since the Picastar's first mixer is used on transmit and receive the preamp is used as an IF preamp (actually postamp) on transmit. The use of the preamp in the receiver for RF gives the best NF, while in the IF stage it gives the best IP. The K3 uses a bipolar transistor for the preamp stage and there can be some debate as to which type of preamp is actually better (probably the bipolar gives the best IP and the parallel fet gives the best NF). I think the fet preamp is preferred on the east side of the 'pond' and the bipolar is favored on the west side.

Other than saving some parts (but costing something for switches) using the same mixer bilaterally is probably not the greatest idea.
Personally, I would use the H-Mode mixer for the receiver and provide the option to switch in a preamp and/or attenuator before the mixer, and an IF preamp after. The RF preamp would use a 2n3886 or 2n5109 bipolar transistor running with as high a collector current as possible for the best IP. The IF preamp might use the parallel fets.
For the transmit mixer I'd use one of the MCL canned diode mixers with a bipolar preamp. The transmit mixer doesn't need to be a high IP type mixer, we can control the signal levels here to get the best results and distribute the power gain in previous and prior stages as required.

Hi all=85

I've recently purchased a 2m linear amplifier kit to replace a FL-2025 linear that keeled over on me some time back. The set I'll be using it is a Yaesu FT-290R II and I intend to run the set in low power mode (~300mW as best I can tell) to reduce the size of any attenuators in-circuit.

In fact, I intend to make the attenuators switchable; probably a two-port device using SMA connectors, so I can switch to a 5W attenuator if I want to use a handheld into it, or even take it out completely if I plug in a homebrew set of <100mW power.

The power amp module I'm using is the Mitsubishi RA60H1317M, which has a maximum input power limit of 100mW. I've been told 50mW is plenty enough to saturate the output, so likely, I'll be aiming for no more than 50mW. By my reckoning, a 10dB attenuator should give me 30mW. I'm only allowed 30W FM on my grade license, and the set previously only did 25W, so if it's that rather than the full 60W, I'm happy.

I am allowed to use up to 100W SSB, and maybe I might look into eeking out the full 60W PEP there, but that'll be a later project.

One thing I wish to ensure though, is that should the set accidentally get switched to full power, or swapped for another set, that something *other* than the amplifier module or transceiver, blows up. If I smoke an attenuator, big deal. I'd like to ensure however that the fault can be quickly detected and suitable protection is in place.

I'm thinking along the lines of voltage clamping with diodes. Working backwards; 100mW RMS into 50 ohms, gives 2.236Vrms. Converting this to a peak-to-peak voltage, we have 3.162V, which means a voltage swing from -1.581V to +1.581V.

This seems close-enough to the 1.4V forward voltage drop that's typically seen when combining two 1N4148 diodes in series. Two pairs of series-connected diodes in an anti-parallel configuration, would divert the RF power when the peak-to-peak voltage exceeds 2.8V. This translates to an RMS voltage of 1.980V, which across 50ohms gives 78.4mW.

Safely within the amplifier's limits. I'm wondering what the catch is. It looks simple, but I notice people don't do it, which makes me think there's a reason why this is a bad idea, aside from the fact the diodes are going to distort like hell. (And lets face it, the amp will distort if you overdrive it anyway=85)

Apart from use of appropriate attenuator circuits, and making sure you check power levels at all times, is there anything I can do to prevent such accidents?

Regards,
Stuart Longland VK4MSL

How about an automatic PINdiode attennuator. I've seen one in a magazine.
You might find with Google.

Regards,
Jan PE1SBG

Wouldn't a simple power divider do the job ?
  some sort of resistor arrangement acting as a pad

Or maybe a few feet of lossy coax.

Democrats view George Orwell's novel "1984" as a cautionary tale.

Republicans see the novel as their blueprint.

Ahh okay, that's one possibility=85 I could conceivably default to
fairly high attenuation, then ramp it up until it hits the desired
mark.

http://www.rf114.com/lib/download.php?code=3Dtbl_board&seq_name=3Dbseq&seq=
=3D695
is one such circuit I dug up.  I'll have to delve into the theory a
bit more to see if I can make it work.

Thanks

It would, and I aim to use one of these. The plan is a small module
with two SMA connectors (or similar) plugs in and provides the
attenuation. A resistive pad=85 the amount of coax needed here would
not be practical unless it was *very* lossy. A few feet would be
quite inconvenient, and again, would offer fixed-value attenuation
only, unless I missed something.

However, I can design an attenuator to give me 50mW from 500mW
(-10dB), all will be fine, but the moment 5W gets pumped in, for
whatever reason, up goes the amp in smoke, as it will be 500mW, not

50mW that gets through.

I'd just like something cheap that can let out the smoke rather than the amplifier module. Smoke isn't a bad thing in itself, as it'll tell me I've done the wrong thing, and if it's a cheap part/module that can be field-replaceable, that is even better. An amplifier module does not classify as a cheap field-replaceable part however.

Maybe a simple fuse in-line like they do on signal generators to protect them from people transmitting into them. You can calculate the current for your low power setting by using Ohm's Law and then add say 50% to that value to find the fuse rating. You could test it by hooking up a dummy load in place of the amp and set the radio to low power. The fuse shouldn't blow. Set the radio to the most likely power if you forget to go to lower power and try it. The fuse should blow quickly. They make fuses that look like leaded resistors, so you could probably break the PC trace on the RF input line inside the amp and solder the fuse across the break. You'd have to open the amp to replace, but having it in the trace will keep lead length down.

Calculating for 50 mW at 50 Ohms, yields about 32 mA. DigiKey (in the USA) sells 50 mA fuses in surface mount packages, which would be ideal for putting across a cut in a circuit trace inside the amp. A 50 mA fuse should blow at about 125 mW.

Hey OT:

Fuses are nice, I can tell you from experience, they are slow slow
slow when it comes time to blow, even so called fast blow fuses are
slow.
The real reason to have a fuse is to prevent a fire.

Need to move this to finance a new project. Set up for 10W in at 144 MHz. Output 1W at 2304 MHz. Works perfectly. My 2304 weak signal source at -85 dBm gives S9 on my I.F. radio. $495 and free shipping to USA only, no International. You can see it along with more details at http://corbenflyer.tripod.com/ on my ham radio page there and it has my email contact info.

I found one for my fog lights relay power, in the fuse box, mounted on
the driver side inner fender liner. I used a connection going to a relay
that is only on when ignition.

When connecting a second battery, for accessories, that charges when the
engine is on, but can't discharge the main battery, I always use

a the heavy duty RV diode block, with center connector fed by heavy wire (4 to 10 gauge) that connects to the alternator positive post, after separating that charging wire from the alternator.

```
Alt   Pos. charging wire   Battery
+ ------------/ /-----------  +
    cut or disconnect Alternator charging wire,

reroute Alt + wire to Diode pack Center Bolt,
Alt+----------------------|
Orig. battery +------|<  Post >|-----+(new battery)
```

The two 150 Amp to 300 Amp diodes usually are in a heat sink, sold by most auto and RV stores and online dealers, audio stores, or, here:

> http://www.hellroaring.com/

who promotes very low voltage drops, less than .0005 VDC!
Also sells Solid State Relays...

```

Looking through my junkbox I found a roller coil and several larger variable capacitors that I had put away some years ago with the idea of

building a 'transmatch'. I have one 250pf and two 500pf variables, probably in the 300 watt category (which would be fine for me). In looking over QST articles I see three different possible configurations:
1: the Ultimate Transmatch from 1970
2: the SPC transmatch from the late 1970's
3: the "T" network

From what I've read, the old Ultimate circuit had a good wide range and low loss. It's bad point was that it could act as a high pass network instead of a band pass network in some settings. This means it would have very little harmonic suppression. The SPC circuit would always act as a bandpass network, but in some settings it's loss was high. As a result both of these have fallen out of favor these days. The "T" network is what most current antenna tuners are using. Yet the "T" network has two problems: 1: there are many combinations of settings that will yield a good match but many combinations result in high currents or high voltages across the components resulting in arc over or smoke. 2: The "CLC" "T" network always acts as a high pass network so has little harmonic suppression. (The "LCL" "T" network would act as a low pass network, but would require TWO variable inductors and cost quite a bit more).

The reason why the "T" network is acceptable today is that most modern transmitters have enough harmonic suppression that the antenna tuner does not need to add any more. With this in mind, it would also appear that the older Ultimate Transmatch circuit would be acceptable today. It does not have the high loss of the SPC or the 'cranky' behavior of the "T" network.

I think that I can use the two 500pf variables (Johnson 500E20) as the dual section part of the circuit by ganging them with insulated couplings and mounting the capacitors with ceramic standoffs. They are twice as large as what the original circuit called for though. The 250pf (Johnson 250E45) variable will serve as the series capacitor. It also needs to be mounted on ceramic standoffs. The roller coil has one end with wide spacing.
I also have two national 'velvet vernier' dials for the caps and a turns counter dial for the coil.

Has anybody out there experimented with these circuits, what results did you get?

You left out the most important part: What kind of antennas are you
trying to feed? Are they resonant? Just centerfeds? Longwire?
Multi-band? Coax fed? Balanced Fed?

IMHO, these are the factors that should be considered when you
choose a network before you build the antenna tuner.

You may want to read the ARRL Antenna Tuner Book (New) to
get an idea of what commercial firms are building and their
efficiencies. It is very revealing!

For the most part I will be using coax fed antennas.

There is an idea I've been thinking about and I wonder if it will work. There is a myth that high SWR on coax will produce a high line loss. Most of the loss involved with having a high SWR is in the coupling to the receiver / transmitter, not so much in the transmission line itself, at least not at HF. So long as a high voltage is no present on the transmission line (arc over) or a very high current (resistive loss), and the dielectric material does not introduce loss at the frequency involved common 1/2" dia coax should work fine as an unbalanced feed line even at a high swr ratio.

Common Ferrite core balums do not usually work well at impedances above 50/75 ohms input. Using them to convert an unbalanced transmatch to a balanced one AT THE OUTPUT is usually not a good idea. (Insulate the transmatch from ground and put the balum at the input works better).
A "choke" balum made by winding 10 turns or so of coax in a loop about a foot or so in diameter has lower loss than a ferrite core balum, no core heating.

So my idea was to run a length of coax from the shack through the attic crawl space and up to the roof (though a vent turbine). On the roof would be a coax choke balum connected to 450 ohm twinlead "open wire" line. This would connect to a "multiband" dipole. There is no way I can run the open wire line from the shack up to the roof, this stuff must be run 'in the clear' anyway. Coax being an unbalanced line is not affected by it's surroundings.

I've done some more reading, and both the 'ultimate' circuit and the SPC circuit are modifications of the 'CLC T' network, neither one of them actually being an improvement of the latter. Most of todays antenna tuners are 'T' networks, the remainder are 'L' networks with the C being switchable between the input and output. Also the 'C' can be series or parallel. (The series-C 'L' network is actually 1/2 of a 'T' network, just as the parallel-C 'L' network is actually 1/2 of a Pi network).

Maybe I should have jumper plugs and jacks in the circuit so I can quickly re-wire it to any of the above configurations (T L, C and Pi with both series and shunt C).

BTW the 500pf variables I have measure out at about 488pf and a minimum C of 19pf which is over 20 to 1 in range. The 250pf variable I have has a minimum C of about 30pf, so the 500pf units will actually work better on 10 meters than the smaller one. Of course their voltage rating is 'only' about 1.5-2 KV while the larger is about 3.5KV, but this isn't going to be a full gallon tuner.

There is no myth that high swr can cause high loss, especially in coax.

It depends on how much loss the line has and how much the swr actually is. If you only have a db or so of loss, then a 5:1 swr is not that much of an issue. If you have a line loss of 2 or 3 db or more and then have a 5:1 swr or higher, you can loose 3 db or more in the feedline in addition to the actual loss in the feedline at a matched load

Below 440 there is very little loss in the dielectric, but mostly in the center wire of the coax and then usually the shield. As the swr goes up, the IR loss of the conductors goes up.

As far as the coupling loss to the transmitter, most modern transceivers are set for a 50 ohm load and will cut the power back or not couple very well to the transmission line. Even most of the built in tuners are only good for about a 3:1 swr.

Hello

Some late thoughts about amplifier candidate...
One simple but low cost one could be push-pull Jfet amplifier using
two J309 in parallel, gate grounded. Input can matched to 50 ohm using
1:0.7 input transformer (fets do have lower input impedance than 50 ohm
) and output at drains can be 4:1 balanced transformer.
Spice analysis shows around 9dB gain and very good wide-band input
matching, probably noise figure is also not much greater than one fet
alone, actually it should be lower. One thing needed is quite equal
fets, Idss and Vp, four matched fets should be still easy to find.
Sorry don't have more exact figures to give, but this could be one
candidate to evaluate.

```

30 year old piece of equipment operating pretty much flawlessly for
that entire period. VCC and VEE on the 1448 is +/- 15 volts and the
chip is overheating..... even with inputs and outputs disconnected the
chip still overheats(130 F). I noticed that the manufacturer's sets
the MAX power supply voltages at +/- 15 and understand this was
probably designed on the hairy edge of failure but like I said its
been working for 30 years and replacement chips work no better, what
gives. Power supply can not be adjusted and there are other chips on
the board that require the +- 15. d BTW cooling the chip makes it
work. operating the chip from an external +- 12V power supply makes it
work but modifying the circuit may not be an option. I saw where there
are some CMOS versions of the 1488, I was wondering if they would
handle the +- 15 volts better.

TIA
Jimmie

30 year old piece of equipment operating pretty much flawlessly for
that entire period. VCC and VEE on the 1448 is +/- 15 volts and the
chip is overheating..... even with inputs and outputs disconnected the
chip still overheats(130 F). I noticed that the manufacturer's sets
the MAX power supply voltages at +/- 15 and understand this was
probably designed on the hairy edge of failure but like I said its
been working for 30 years and replacement chips work no better, what
gives. Power supply can not be adjusted and there are other chips on
the board that require the +- 15. d BTW cooling the chip makes it
work. operating the chip from an external +- 12V power supply makes it
work but modifying the circuit may not be an option. I saw where there
are some CMOS versions of the 1488, I was wondering if they would
handle the +- 15 volts better.

TIA
Jimmie

I would hang a small PC fan in there, and call it a modification

Can you cut the circuit trace of the voltages (Vcc, Vee) feeding the IC and strap in a pair of diodes (in series) such as IN914 types in each supply line? Each diode drops about .7V, so you would end up with about +/- 13.5V at the IC. If you want even lower voltage at the IC, add in another diode or two in each supply line. Ensure proper polarity...in the Vcc supply lines, the diode cathodes would go toward the IC and the Vee diodes would have the anodes toward the IC. Just a thought. Or, if you know how much current the device draws through each supply (Vcc and Vee), you could place a single zener diode in series with the supply voltages to the IC and the polarities would be opposite of using 1N914 diodes. Just find a zener of about 2.5-3V that is rated at about twice the current the IC draws from each supply.

Hey OT

cmos will handle +- 15volts but runs hot, if it's flawless rail to
rail you won't have a problem they will run hotter if not taken all
the way down town.

While I still remember with the inputs unloaded the outputs won't go
to the rail so both transistors are half way on, thus consuming loads
of power. And creating high Pd.

To test how hot it gets you should take the inputs to - or + and leave
them there.

 hey OT

The National DS14c88 is the cmos replacement the specs take it to
+-13volts, at 15volts it draw more current so the loads on the output
have to be low enough to stay below the Pd of I think it was 1300mw

WOW! A murder house! Funny you are asking so much for it. Does it come
with a crack kitchen?

What you may want to consider is a type N pigtail terminated with the
correct size of ring terminal.  Add a wire mesh grip strain relief and
you'd have a pretty solid installation.
Alternatively you could mount a type N chassis connector to an angle
bracket and wire the center pin to a plain 3/8 24 stud insulated
stud.

```

Changes followed by "|".

After a 30-day public discussion and feedback period to gauge reader
opinions in March of 2009:

http://groups.google.com/group/rec.radio.amateur.moderated/browse_thread/thread/

d7d337db35f23326

the rec.radio.amateur.moderated Moderation Team has decided to consider amending its charter, and permit limited simultaneous crossposting to rec.radio.amateur.moderated and one other unmoderated amateur-radio-related discussion newsgroup. We are currently trying this on a temporary basis (90 days, through early July 2009), and adopt it permanently if successful.

Approved rec.radio.amateur.* newsgroups are those that are currently listed in the latest version of the "List of Big Eight Newsgroups" which is crossposted monthly to news.announce.newgroups, news.groups, and news.lists.misc.

Approved alt.radio.amateur.* and alt.ham-radio.* newsgroups are those that have been created consistent with the suggestions in "So You Want to Create an Alt Newsgroup" at:

  http://www.faqs.org/faqs/alt-creation-guide/

Approved regional hierarchy newsgroups are those that contain either "radio.amateur" or "ham-radio" in their names, including uk.radio.amateur and aus.radio.amateur.misc.

We will make every reasonable effort to keep our list of approved newsgroups up-to-date. In case we have overlooked any, and a submission is rejected in error as a result, the rejected submitter can E-mail us at our administrative contact address (in the signature at the bottom of this article, and the default Reply-To for the rejection message) requesting that it be added, and that the article be approved. We may still choose to reject articles crossposted to any alt.* newsgroup with an inappropriate name, including obscene language, embedded name-calling, or encouragement of unlawful conduct.

Please direct any comments, questions, or criticisms to rec-radio-amateur-moderated-request@panix.com.

Summary: Recruitment announcement for ham-radio-related FAQ articles
Keywords: FAQ, Intro, amateur, ham, radio, recruit, recruitment
Xref: g2news2.google.com rec.radio.amateur.antenna:23031 rec.radio.amateur.dx:1024
rec.radio.amateur.equipment:2810 rec.radio.amateur.homebrew:4710
rec.radio.amateur.misc:6427 rec.radio.amateur.policy:33292 rec.radio.info:2402

Posted-By: auto-faq 3.3.2 beta (PGPMoose V2.0, Perl 5.005)
Archive-name: radio/ham-radio/recruitment
Revision: 1.2 2009/11/25 14:41:01
Posting-Frequency: posted monthly
URL: http://www.faqs.org/faqs/radio/personal-intro/

Changes followed by "|".

The rec.radio.info newsgroup, first established in 1993, has been recently revived by an active moderation team. We are currently seeking suitable information, FAQ, and bulletin articles from the entire rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our newsgroup.

We are seeking a replacement maintainer for the following information bulletin formerly posted to rec.radio.amateur.* (and currently archived at http://www.faqs.org/faqs/radio/personal-intro/):

radio/personal-intro
Subject: Guide to the rec.radio Newsgroups
Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
Last Posted: 9 Nov 2001 06:18:17 GMT
Posting-Frequency: 15th of each month

One significant omission, requiring immediate updates, for this article |
is that it does not mention newer amateur radio newsgroups created since |

```
it was written, including:                                              |

 rec.radio.amateur.antenna                                              |
 rec.radio.amateur.boatanchors                                          |
 rec.radio.amateur.dx                                                   |
 rec.radio.amateur.equipment                                            |
 rec.radio.amateur.homebrew                                             |
 rec.radio.amateur.moderated                                            |
 rec.radio.amateur.space                                                |
```

We are willing to provide any technical support necessary to get this article updated and automatically posted again at a regular interval. This would include establishing contact with the original maintainer for any necessary permissions. We would prefer to seek a new, dedicated maintainer at this time, rather than start auto-posting the original article ourselves.

For more information about our newsgroup, see:

http://www.panix.com/~rram/usenet/rri/index.html

Please direct any comments, questions, or criticisms to rec-radio-info-request@panix.com.

The very idea that most Moslems think of Bin Laden as a hero is crazy.
He has caused the death of more Moslems than their "enemies".  After the
Navy Seals left with Bin Laden's body the US requested instructions from
the Saudis about what to do with his remains.  We offered to have it
returned to them for proper burial.  They didn't want ANYTHING to do
with him and told us to do what we thought proper.  The Navy buried him
at sea with proper respect and with Muslem prayers  (as correctly as
they knew how).

Real easy to crack, google BackTrack 3 and weep. I preffer
cracking them for it is assured there is not much traffic on the
WEP and WPK pretected WiFi's .

Question to the VLF folks, regarding DL4YHF's software "Spectrum Lab":

Does anyone know how to write very long waterfall spectral recordings to a computer file but on a separate hard disk? In a way that they can later be read back in and looked at in their whole length, scrolling around between beginning and end.

If that is not possible, is there another software that can do this?

I'm building an EchoLink interface and one of the signals to the tranceiver
is COR.
What does COR stand for please?
I have no reference to COR in my Kenwood TS2000 manual. I suspect it may
have something to do with squelch.
Thanks.
Howard.

COR = Carrier Operated Relay
A signal used in a repeater to indicate that a carrier is being received.
Used to be a common signal in old tube-type equipment, where the receiver
and transmitters were controlled by relays. Modern solid-state equipment
doesn't have a COR signal... it's usually a logic-level signal from the
squelch circuit that indicates that the receiver has detected a carrier.

COR is (I believe) an acronym for "Carrier Operated Relay", and is often referred to these days as "COS" ("Carrier Operated Squelch").

It's a signal which comes from a receiver of some sort, which means "I'm detecting a sufficiently strong carrier to 'believe' that there is an incoming signal of some sort."

Just what this signal actually indicates, depends on the radio. It might be from RF detection in the front end, or be based on the S-meter circuitry in an FM limiter/discriminator, or might be based on a reduction in the noise level in the signal coming out of the FM discriminator (the latter is most common in VHF FM radios).

In the case of a COR signal coming out of an Echolink or similar interface, it would be controlled by software, and I'd imagine that it probably means "We're receiving incoming audio packets via the Ethernet." You'd feed it (possibly with inversion and/or buffering) to the PTT input to your transceiver.

If it's intended as an *input* to the Echolink interface, then it would probably be connected to a "signal arriving, speaker on!" output from your transceiver... but most transceivers don't have one of these.

```

Correct. Looking at a TS-2000 manual on line (I do not own a TS-2000), I would say the signal you want is on the ACC2 port on the rear of the radio and called MSQ. This pin goes to ground when the squelch is opened and/or receiving a signal. It is an "open" when the audio is squelched. If your Echolink interface is looking for a "ground" signal to indicate the presence of RX audio, this pin should work as is. If your interface needs a positive voltage during RX, then you would need an NPN transistor used as an inverter.

Hi Howard

I strongly sujest to you to start reading the repeater builder mailling =
list=20
and to go on there web page..

even if you dont whant to build a repeater you will learn a lot about =
signal=20
type and there uses..

"Howard James" wrote in message=20
news:b5qdnSImY5PfVUfQnZ2dnUVZ7vidnZ2d@bt.com...

I'm building an EchoLink interface and one of the signals to the =
tranceiver
is COR.
What does COR stand for please?
I have no reference to COR in my Kenwood TS2000 manual. I suspect it may
have something to do with squelch.
Thanks.
Howard.=20

Hello all,

Has anybody yet played with or seen the Si535x clock generator chips that showed up in the new Mouser catalog? It's i2c programmable (like the si570) and I was thinking that it could be used in a similar fashion as the si570 usb controlled vfo's that seem to be so common on the internet. The 535x series can generate 3 (or 8) different simulaneous clocks at any one time and I see some advantages to that, i.e. downconverter oscillator + vfo + detector oscillator all in one 10 pin package. BUT, and there's always a but, the datasheet doesn't show how to set up the divider registers, instead referring you to a PC program that will generate programming for you.

Has anybody skinned this cat yet and figured out the register programming?

73,
Kenn
KA5KXW

The MC1558, LM1558 and uA1558 are subs for the CA3458. The T suffix probably indicates that it's in a metal TO5 can. If so, you might have to get a type 1458 chip in a metal case. Unicorn Electronics (http://www.unicornelectronics.com/IC/LINEAR.html) has the LM1458H in a metal can. Same chip, just commercial temperature range rather than the Industrial temp range.

But then it's a fairly standard dual op-amp. I can never remember the RCA
prefixes, I was thinking he was looking for a CMOS era op-amp.

Given it is then a fairly generic op-amp, ie no high speed characteristics
or specially high input impedance, most generic op-amps would work.

David, thanks very much for the help and the source info. And, yes, it is a
TO5 metal can.

Emil

Good news! A new datasheet for this device appeared on the SI Labs
website today that details all of the registers!

Anybody on this NG ever build one of G3XJP's picastar designs?
I was starting to design my own QRP rig based on some of W8DIZ's (www.kitsandparts.com) circuits. I ended up ordering his toroid kits for the WA2EBY IRF510 amplifier and the PA3AKE bandpass filter. I already have a DDS-60 for my HFO and built an R1 receiver board to start with a direct conversion receiver. I was going to expand that into a transceiver using a 9mhz IF (I have some surplus filters) but then I ran into the RadCom articles on the picastar transceiver. This may very well end up being the poor man's K3! The only down side is having to etch your own PC boards. VK3PE did have some factory made boards run off, but I missed out on his last scheduled run, don't think he is going to make anymore....

I want to replace the vr 0A3 tube used in the bias circuit of a 6146B
amp with a 75V zener string. Can I just directly replace the tube with
the diodes or will I need to make other modifications to the circuit?

Jimmie

If you use diodes rated at the same current as the 0A3 (40ma) then it
should be a direct replacement, at least for a voltage regulator
application.

Forgot one thing, with zeners the CATHODE of the diode is wired to the
tube ANODE and visa versa (zeners work in the REVERSE mode!).

Typical OA3 is idling with between 5 and 40mA of current flowing
through it, so make sure the zener string can dissipate the power.
(75V * 0.040A =3D 3 watts worst case, but I'd expect less idle current
in a grid bias regulator.).

If this is a major redesign you might want to use a solid state series
pass regulator (e.g. TL783 or the like) and probably get rid of that
old wirewound pot in the bias circuit.

0A3's are not unobtanium, rare, or expensive. I kinda like seeing VR
tubes around the PA, nice purple/pink glow dims and brightens as I
key, and if they're not glowing then something's wrong.

The OA3 glows a bright orange since at 75 volts it would be using a pure
Neon gas mixture.  The other tubes in the series add some Argon, with
the 0D3/VR150 being pure Argon.  Argon glows blue to purple so the 0B3
and 0C3 tubes glow with a color somewhere in between orange and purple.

It draws about 30ma calculated by measuring the voltage drop across
the series dropping resistor. Once in a while it arcs, I think. I
tried another tube and that seemed to fix it for a while but it
started up again. There is a posssibility this is not the problem but
for now it seems most likely. If I can easily replace it with a zener
string I could be more sure that it is or isnt the cause. Plan for now
is to put 5 15V 1 watt zeners on a tube base I can plug into the
existing socket and see what happens. If that is the cause I will

readily invest in another tube because I think they look cool too.

Don't know if I read all the responses, but I hope someone explained the
need to provide a series current limiting resistor in the zener string.
Something that would keep the no load current up near the top of the zener's
operating range would be good.

Hey OM:
I take a DC supply from the filament voltage and use that to power a
programmable zener TL431. and use a FET to replace the OA3 driven by
the TL431.

I've replaced OA2's this way, all it takes is three 1/2 watt resistors
to set the voltage.

Hey OM:

That resistor is part of the OA3 circuit. All you need is noisy zeners
that can handle the current. You would need 3 watts worth of zeners.
Three 25 volt 1 watt zeners, or five 15 volt 1 watt would give you
more head room. Or 15, 5 volt 1/2 watt zeners, or 1/4 watt. Put 15 SMD
5volt 1/4 watt zeners between the 2 pins on an octal plug, pin 2
connect the anode of the zener string and pin 5 connect the cathode of
the zener string. If you are lucky you can find a 5 watt 75 volt zener

Huh? It's really not clear what you are saying. Have you visited the
ARRL web site?

Here are some of the sections they have listed relating to developing new hams under the "Licensing, Education & Training" tab:

*FCC License Info & Forms

ARRL can provide helpful FCC information about licensing requirements, forms, fees and regulations.

*Getting Licensed

Get the information you need to get started: find a class or study materials and prepare for your licensing exam. Already licensed? Take the next step and upgrade.

*Volunteer Examiner Coordinator

The ARRL Volunteer Examiner Coordinator (VEC) offers resources for finding an exam session, becoming a volunteer examiner and VE Team support.

*Volunteer Instructors/Mentors

*ARRL Courses & Training

ARRL training materials and online classes have been developed to help you learn at your own pace.

*FCC License Info & Forms

ARRL can provide helpful FCC information about licensing requirements, forms, fees and regulations.

*Get on the Air

You've got your license, now what? Find resources to help you set up your first station, get on the air and have fun! Learn More

Volunteer opportunities, recruitment and unique ways to support Amateur Radio advocacy.

    o Amateur Radio in the Classroom

This sure seems like a lot of stuff for a group that you claim is not supposed to be interested in beginners.

> The National VEC page, http://www.ncvec.org, apparently doesn't even
> acknowledge the ARRL.

Again, huh? This site is "unto themselves". They don't seem to acknowledge ANY group except themselves. Sorry, but IMHO, a totally bogus point.

> So much for making new hams.

One more time...Huh?

They DO have a VE program (I AM one), they have an Educational program to bring ham radio to kids in the class room, they set up space station contacts for kids in classrooms, they have a Volunteer Instructor program to teach people how to be instructors for training new hams, they have volunteer mentors, almost every article in QST has a "Hamspeak" section to explain unique ham terms to beginners.

Finally, what makes you think they don't want new hams? It would be in their best interest and longevity to have more new hams. Why would they shoot themselves in the foot by not wanting new hams?

The only thing that IS clear to me is that you have not read QST in a long time, have not been to their web site in a long time and seem to have a real grudge against them for whatever reason (certainly your prerogative). But you DO demonstrably have your facts wrong about them doing nothing to encourage new hams.

I would respectfully suggest that you visit their site, arrl.org, and at the main page choose the "Licensing, Education and Training" tab to see just how much they ARE doing to cultivate new hams. (Admittedly a tough job in the Internet Age, but contrary to what you are saying, they ARE trying).

73,
Joe

QEX is a magazine. They never made radios, Japanese or otherwise.

John

IF The ARRL want to have a real "Voice" at the Table
in Congress and at the FCC :Then they have to be as
'smart' as the other "Players" in the Washington, DC
Political 'Action' {Power} Game.

Look At Success : Look at the NRA Political Victory
Fund (NRA-PVF) : http://www.nrapvf.org/

You have and build your 'basic' ARRL Membership
-roughly- 155,000 ARRL Members
http://www.arrl.org/membership

+ Plus you have to have and build a supporting
{Independent} "Voice of Amateur Radio" PAC Fund

The ARRL has enough Members who are Lawyers
set-up and make a "Voice of Amateur Radio" PAC
Fund Do-Able and Work-Able -so- Just Do It !

Encourage Each ARRL Member to make a
Matching {Voluntary} Contribution to the
"Voice of Amateur Radio" [VoAR] PAC Fund
-so- Take the 155,000 ARRL Members
-by- $5 =3D $775,000 VoAR-PAC Fund : Figure about
20% for a Part-Time Lobbyist and leaves around
$1000 in 'political' contributions per Member of Congress
-by- $10 =3D $1,555,000 VoAR-PAC Fund : Figure about
20% for a Part-Time Lobbyist and leaves around $2000
in 'political' contributions per Member of Congress

? Is Your Amateur [Ham] Radio "Hobby" Worth an
Extra $5 to $10 per Year To You For A Seat At The
Table of Congress and the FCC in Washington, DC ?

Promote the "Voice of Amateur Radio" PAC Fund
to the American Public and the Corporate World
Git Them To Become Sponsors and Underwriters
of the "Voice of Amateur Radio" PAC Fund too.

Then Use the "Voice of Amateur Radio" PAC Fund
Money to Lobby Congress and the FCC to ensure
Fairness and Equal Treatment for Amateur Radio
in Congress and Before the FCC.

It's All Legal & It's All Good - it's very smart too ~ RHF
.
REALITY CHECK : WITH ONLY 155,000 MEMBERS
THE ARRL HAS THREE GOALS :
1st : Build Membership and Increase the Number of Hams
-or-lose-spectrum-and-vanish-from-the-air-waves-
2nd : Build Membership and Increase the Number of Hams
-or-lose-spectrum-and-vanish-from-the-air-waves-
3rd : Build Membership and Increase the Number of Hams
-or-lose-spectrum-and-vanish-from-the-air-waves-
.
.

The NRA has spun off an entire "separate" organization to do that, since
the tax status of the basic organization doesn't allow it.

The NRA also has about 4 million members; how many does ARRL have?

BPL has NOT "gone through."

The ARRL DOES lobby in D.C. - Chwat & Co., Alexandria,VA
Plus direct HQ access to the FCC commissioners and staff.

Your contributions are regularly requested, plus the most effective, personal letters to our representatives.

"non-profit" organizations do have restrictions on how money is spent, e.g. no money to political campaigns, etc.

W5MTV --- Hence "Look At {Better} Success" :
Look at the NRA Political Victory
Fund (NRA-PVF) : http://www.nrapvf.org/

The Are More and Bigger Challenges To Amateur Radio Then
Just BPL : Such As Lose of RF Spectrum and Radio Bands.
http://www.arrl.org/files/file/Hambands_color.pdf

Simple Fact : With just 155,000 Members the ARRL
is a relatively 'small' Constituency Group for anyone
Congressman or Senator; and the US Congress as a
whole; as contrasted to :
* NRA ~ 4 Million Members [25X ARRL]

```
* AARP ~ 40 Million Members [250X ARRL]
Both of Which Claim To Be "Non-Profit" Organizations too...

Again I Simply Posse The Question :
Why-Not ? : A "Voice of Amateur Radio" PAC Fund !

Ever since I got my ham ticket (in 1970) I've always wanted to build a complete transceiver. (I DID build a Heathkit SB102). The project always seemed a bit too complex though. The problem was I couldn't build it a piece at a time, and be able to then put all the bits in a box. In order to do that I'd have to design the entire rig ahead of time so all the subsystems could have access to the panel for their controls.

Fast forward. Today what with micro-controllers and control by wire parts (such as varicap diodes, digital pots, dds chips, etc) all the subsystems can go anywhere and you only have to have room in the box for all of them.

I've started designing a home brew transceiver around a few modules I've seen on line and in various magazines. I've got a DDS-60 for my VFO and I'm programming an Atmel atmega32 processor to control it. A Bandpass filter design by PA3AKE using toroids, an IF amplifier by W7ZOI and WA7MLH using fets and bipolar transistors, and a product detector (from a direct conversion receiver) by KK7B will form the basis for the receiver. I have some 9 mhz if filters purchased at Dayton many years ago. The transmitter stages will be based on 'stock' HB circuits. Later I might add KK7P's DSP unit with the PicaStar software.

So far I have the DDS working and I've built the KK7B product detector and audio filter board. I still have to build his audio amplifier circuit (I divided the project into two circuit boards). I started working on a cabinet to house the completed rig in. I had a nice surplus cabinet purchased in NYC back in the 1970's in my junk box just waiting for a project. Over the past two weeks I've been cutting openings in the front panel for the controls, LCD, and keypad. I still have to repaint the panel and the cabinet (40 years of storage hasn't helped the finish!).

What hams need are wealthy, high-profile members - like the NRA and AARP. They may be small, but fascinating people, even if they are stooges, can yield results.

So you need a dozen younger Barry Goldwaters ?
  or a 2nd organisation same as here because the incumbent are hopeless

Homebrew is still alive!  It's interesting to ponder how you're
adapting to modules that are available, and apparently avoiding having
to directly deal with nasties like ICs with thermal pads on the back
and ball grid arrays -- and comparing that with the parts that were
```

available back when you got started in ham radio. It's also
interesting how you are picking "modules" out of the published works
of other hams, to get to a design you can call your own while giving
credit to those original authors too. Thanks for sharing, Kenneth!

Cheers,
Tom

Dear OM's

I'm looking for some help concerning a defective driver pcb for a
yig oscillator inside the mentioned device above.

see link: (http://www.mikrocontroller.net/topic/215840#2149959)

I'm looking for the proper value of the destroyed resistor (< 50 ohm) in
the lower corner as well as for the value of the capacitor.

Have any of you a link to the service schematic of the mentioned driver,
or could send me a copy of it.

Any help would be appreciated.

Please keep us informed!
Web sites and links to pictures would be nice.
If you don't know how and are not too interested in learning I can
help you out with that part. Free of course.

There are a lot of folks who are serious about building things today.
I hope to do the same thing as you, but my plan is to go the soft rock
scheme.

Getting it done is always a problem. There are lots of distractions
that divert my attention!

So, is that a board that is actually part of the YTO assembly, A11?
There is a remote possibility I can find a schematic...if nobody else
has one handy.  I do worry, though, WHY it burned up:  is there a
shorted coil in the YTO?  I assume you have the 09562-90062.pdf
service manual that you can get from the Agilent website.
Unfortunately, it's pretty thin on component-level schematics.  Even
in instrument manuals with more detailed schematics, it's common to
treat the YTO as a "black box."

Cheers,
Tom

A bit more on this: tantalum caps have a bad habit of shorting out.
I can see from your posted pictures of the board that the burned axial
lead component is in series from pin 8 of the connector, which from
the partial schematic someone else posted to the thread is the +15V
supply. I can't quite trace out where the other end of the burned
component goes, but if it goes to that burned tantalum, then it's
reasonable to suspect that the capacitor shorted and drew enough
current through the axial lead component to burn up both itself and
the axial lead part, and that may be the extent of the problem. If
the axial lead part really was a resistor, it was probably a pretty
low value, as you suggest, and the value is probably not at all
critical. Is there any chance it was instead a low-value inductor?
You might trace out where that +15V power is used. It may help to

know that the 1826-1149 is an OP-07 op amp. If the tantalum is a
power supply filter cap (pretty likely), you'll of course want to use
one rated at least 25V on a 15V bus; 35V would be even better. These
days you could likely just use a ceramic to replace it...we have a lot
less trouble with ceramic shorting than with tantalums.

Cheers,
Tom

>helped the finish!).

Do you have a website? If not, it's not at all expensive to register your own domain -- something like wa2mze.org -- find someone to host the site -- GoDaddy comes to mind -- and in a few minutes your site is up.

Then, you can post details, photos, and the like and ask for ideas and assistance.

Just a thought.

The material posted here may or may not be factual.

The author is following the example set by
Senator Jon Kyl (R, AZ) who was caught citing
false statistics, after which his staff stated
that his comments were "not intended to be factual."

I agree with K7ITM that tants have a habit of burning out like the one in your photo. And I agree it looks like the tant and series R or L are just filtering a power supply coming onto the board.

From the photos, it looks like the square pad of the blown tant is connected to a ground plane inside the board. After removing the cap, you could buzz it out to check. But I think I see a + adjacent to the square pad on the top copper in your 01k photo. I wonder if there is an error in the PCB layout or the schematic. You might want to check if pin 8 is really +15V or -15V by measuring the voltage on the unplugged cable.

Ham radio is the original "Open Source Hardware"
(http://freedomdefined.org/OSHW). Hams have been sharing ideas for
years. I certainly am grateful to all those that have shared their
design work on the web or in magazines. The same thing has been going
on in software (www.fsf.org, www.gnu.org) as well.

One thing that does 'urk' me are magazine articles where the author has
a link to download a "hex" file for a project that uses computers but
does NOT make the source available. That's like not printing the
schematic IMHO!

There are many surface mount parts that are available in 'leaded'
packages which can be soldered by hand. Even those with .5mm spacing(!)
can be hand soldered to a well laid out PC board with a fine tip
soldering iron. You will need thin wire solder and some solder wick to
clean up shorts between leads, but it can be done. I require some
magnification to see what I'm doing and I have a binocular microscope of
10x power to inspect afterwards.

Learning how to lay out PC boards using cad software is a help. Eagle
Cad is a free download good for double sided boards up to about 4x3
inches and schematics of one sheet.

I have a website at hhttp://scharkalvin.weebly.com. I've started posting
some pictures of what I'm doing and hope to add more info as time permits.

Or go with a freebie such as www.tripod.com. Most of us can deal with
the "advertising and/or popups. If it's free, it's for me.

Yeah, I kind of wondered about the connections to the cap too.  Since
we don't have the board, it's hard to tell.  It does look like a 4-
layer board, and in that case the interior layers may be ground and
power (with the power possibly split between +15 and -15, or
such...).  I fully agree with Andrew:  ohm/buzz out the connections to
reverse-engineer as much of the schematic as you need.  It's a pretty
simple board, and shouldn't be difficult.  If there's a code on the
two transistors, I can probably tell you what they are (assuming they
aren't labeled 2N3904 or whatever).  Typical would be 4-nnn (for an
NPN) or 3-nnn (for a PNP) -- abbreviations for the full HP part
number, which would be 1854-xxxx or 1853-xxxx.  The full numbers were
a bit hard to put on small parts back then.

Cheers,
Tom

Dear om Andrew dear om Tom,

many thanks for your prompt replay.

Today before breakfast I start to fiddle out the connections from the pcb to the parts on it.
I'm not ready yet but probably this evening.

But its true as you noticed that all tree caps are routed to the inner layer (only three of them) with the pos. pol.

The neighbour of the burned resistor seems to be a coil (vio/red/green/silver/space/brown) colour marking (72uH? I have to check the meaning of silver labelling factor 0,1?).

The burned resistor is not directly connected to the destroyed cap but to one of the others 10u25V or 39u10V.

As you mentioned the OPA labelled as PMI9017 - is this part comparable to a OP07 (or OP27) ?
I have unfortunately no luck to find any doc in the web but some hints that PIM parts were manufactured for AD in the 80 years and later on AD take over this company.

I hope to fine more details this evening.

Many thanks for your help.
I will keep you informed on my progress.

Would be great to reanimate this HP8562B for ham purpose.

vy73 + tnx

Hi,

Just would like to share an article on audio encoding optimization for podcasting. No need to think what bit rate to choose the batch file will automatically encode your podcast with the best bit rate to preserve the best quality and smallest file size. The approach was tested on MP3, Nero AAC and OGG.

This paper will give you understanding on how one can achieve better compression ratio by bit rate optimization. The key point is that our approach describes a fully automated manner of choosing the bit rate that will preserve the audio quality you define. Read this paper through and find out how to save on size when encoding your podcasts, save on bandwidth when transmitting your audio streams in the network, make more audio tracks fit your memory stick when grabbed from a CD, or store more audio books on your mobile device. This paper will tell you how to save up to 50% on audio file size and up to 50% on the bit rate you encode your audio with still having a descent sound quality.

Read full text of how to encode audio with lowest bit rate at highest quality in this blog post:
http://blog.sevana.fi/optimize-bitrate-and-size-preserving-high-audio-quality-in-tracks-podcasts-tunes-with-aqua-wideband/

Yes, the 1826-1149 is an OP-07, and specifically an OP-07EZ. It
appears to still be available from Analog Devices, at least in a
plastic version, and you can get a full data sheet on their web site.
The web site also suggests that OP-27 is similar, the data sheet for
the OP-97 may give you some ideas too, and the OP-07 web page at
Analog Devices suggests the AD8677 as a replacement. In short, it
should not be difficult to find both data for the OP-07 and a suitable
replacement should that be necessary. And yes, Analog Devices
acquired PMI many years ago, but carries on the "OP" line of parts
today.

Cheers,
Tom

Addendum: the label on the op amp, PMI9017, is undoubtedly the date
code: 17th week of 1990. The 1826-1149 is an HP part number: all
common HP parts have a "4x4" HP number; ones special to a single
instrument or a few instruments may have a "5x5" number. Note that
the printed circuit board has a 4x4 number: 5062-0752. That suggests
to me that the YTO is used in several other instruments, though it
could also be the case that when it was made, the team _thought_ it
would be used in other places. I'd expect some of the boards in your
instrument will have 5x5 numbers beginning with 08562, showing that
they are used in the 8562. Many (most) parts with 4x4 part numbers
have one or more equivalent industry-standard part numbers; for
example a 316 ohm resistor could be purchased from any of several
different suppliers, all qualified to meet the requirements of the
particular 4x4 part number. But in some rare cases, a 4x4 number
refers to a part selected for especially good performance in some
area, and you couldn't be guaranteed to maintain performance of the
instrument with a similar non-selected "generic" part.

Cheers,
Tom

A. G. Lisi's E8 model may be showing us what both our space & time really are.

(Click link below.)

http://www.amperefitz.com/e8.htm

Crystals and chemical compounds are tied up with group theory which best explains (mathematically) exactly why they form the particular way they do.

Lisi's E8 model is a group theory model that may be showing us why our space forms the way it does via frequencies that cannot be directly measured from inside of our particular space-time realm (Wheeler - Feynman).

Dear Tom,

many thanks for your detailed explanation.

Today before my breakfast;-) I replaced two caps
a little choke and the destroyed resistor (I guess a value of 75Ohm)
by some parts of my ham box.
The second cap which was connected to the resistor which overheat was
shorted too but looks good from outside in contrast to the one which was
destroyed.
A quick and dirty solution for the moment until I get the proper infos.
This dirty solution was so far successful as I could see the spectrum of
the 300MHz test oscillator build in ;-)

Now I will check the docs in order to find out how to proof that the SA
is working properly.

I will keep you informed on further progress.

By the way I get some help from your good friend Barry WA4VZQ
via mail.

```

My idea is to make some sort of hinge so I could lower it over and raise it. I know I mentioned it before but now seems to be the time I need to do it. (My little boy is starting to find pieces of the antenna in the yard.)

My thought was to dig a hole beside my current antenna a couple of feet deep and in circumfrence. Place some 3 inch schedule 80 pipe (one for each corner) into the holw with a 2x2 or so piece of 1/4 inch steel on top. On the end of the plate would be welded a few pieces of black pipe the diameter of a hitch pin. There would be another piece of 2x2x1/4 piece of steel with more black iron pipe on it. The black iron pipe would in effect be the "hinge" part of the mechanism. (sort of the way I made the fold down gate for my trailer).

Here is where I am having trouble. On top of the "top" plate, I have some 2 inch black iron pipe. My first thought is two weld three of these as "legs" on top of the top plate, then put my cut down exisiting tower into this pipe, drilling a hole through each leg. (The new two inch pipe and the legs on the tower). Instering a grade 5 bolt into this. I have also thought, I wonder if it would be easier to just put the three legs up and use u bolts to attach the tv tower to the outside of the legs.

I would still need to climb part way up it or have the capability to to adjust my sat dish. I cant figure out a good way to do it with the tower leaned over.

By the way, I am a ham too!

The following are for sale.
PayPal or personal checks. PayPal takes credit cards.
Shipping to be added. Ship USA only.

VHF great looking homebrew transmitter. Must look at this.
(I got this with a Motorola power supply.
I'm not offering the power supply, but if someone is
interested in it. I estimate the weight of the power supply without the
transformer at 50 lbs, and the transformer at 70 pounds.) Neither the
transmitter nor the PS have been tested. The tube is a PL 4D21.
I will use 13 lbs as the shipping weight. $95.00
http://www.muchstuff.com/3-9-11mics/p1000756.jpg
http://www.muchstuff.com/3-9-11mics/p1000757.jpg

"Bud" index card metal box. I will use 1 lb. as shipping weight. $10.00
http://www.muchstuff.com/3-9-11mics/p1000760.jpg

Old, and I mean OLD!, Rheostat. 1.25 Amp. 32 ohms. I will use 4.5 lbs
as
shipping weight. $5.00.
http://www.muchstuff.com/3-9-11mics/p1000762.jpg
http://www.muchstuff.com/3-9-11mics/p1000763.jpg
http://www.muchstuff.com/3-9-11mics/p1000764.jpg

Fujiden Low Pass filter. 50 ohms impedance. "Fc-32 MHz" 100 W. I will
use
1 lb. as shipping weight. $10.00
http://www.muchstuff.com/3-9-11mics/p1000766.jpg

Palomar Engineers CW Filter. I will use 1 lb. as shipping weight.
$10.00

> I've started designing a home brew transceiver around a few modules I've seen on line and in various magazines. I've got a DDS-60 for my VFO and I'm programming an Atmel atmega32 processor to control it. A Bandpass filter design by PA3AKE using toroids, an IF amplifier by W7ZOI and WA7MLH using fets and bipolar transistors, and a product detector (from a direct conversion receiver) by KK7B will form the basis for the receiver. I have some 9 mhz if filters purchased at Dayton many years ago. The transmitter stages will be based on 'stock' HB circuits. Later I might add KK7P's DSP unit with the PicaStar software.
>
> So far I have the DDS working and I've built the KK7B product detector and audio filter board. I still have to build his audio amplifier circuit (I divided the project into two circuit boards). I started working on a cabinet to house the completed rig in. I had a nice surplus cabinet purchased in NYC back in the 1970's in my junk box just waiting for a project. Over the past two weeks I've been cutting openings in the front panel for the controls, LCD, and keypad. I still have to repaint the panel and the cabinet (40 years of storage hasn't helped the finish!).

Hi I am trying to work out alcohol content. On my hydrometer at the 40
point it 6.5%. This means if it dropped to 1.000 then the alcohol
content would be 6.5%. Obviously it would not go that low. With wine
It does go below this value. I wanted to work out the alcohol content
for this but the Hydrometer does not display below 5%.

If the Starting value of the wine is 1.080 (12.8%) and it goes below
1.000 then the alcohol content would I asume be higher. Is there a
calculation that I could use. There are websites that can adjust
readings for temprature adjustment but not a SG to alcohol conversion.

TIA

Desmond.

Erm ...

Des, this group is for "homebrewing" of radio equipment (transmitters, receivers, amplifiers, accessories), and has nothing to do with fermentation or fermentation products.

Greetings All:

I have entered my NS3 DDS based RF Analyzer design into the Renesas Rulz RX microcontroller design contest. There is a general description with links to three YouTube videos on the Renesas web site that

describe the capabilities of the analyzer. There is a pdf download for
the full project description illustrated with photos and schematics.
There is also a zip download for the public domain source code files
all posted at:

http://www.renesasrulz.com/docs/DOC-1747

The firmware is written in C under the Renesas RX Standard Tools
compiler which is free for up to 128K of code. The current software
size is less than 100K thus there is still room for customization
within the unlicensed tools size limit. I hope that in the future
someone will find the time to port the code over to the gcc compiler
alternative which would circumvent the free tools size limitation.

I have a limited number of bare PCB boards available for the various
modules but have not documented them on my website yet.

There are still many more features that could with time be added but I
think it is fair to say this project is out-of-the-gate.

73,
Tom, VA7TA

Looks really nice, Thomas!

I'm curious -- which GUI toolkit does this use?

Thanks,
---Joel Koltner

Changes followed by "|".

The rec.radio.info newsgroup, first established in 1993, has been recently revived by an active moderation team. We are currently seeking suitable information, FAQ, and bulletin articles from the entire rec.radio.* newsgroup hierarchy for simultaneous cross-posting to our newsgroup.

We are seeking a replacement maintainer for the following information bulletin formerly posted to rec.radio.amateur.* (and currently archived at http://www.faqs.org/faqs/radio/personal-intro/):

radio/personal-intro
Subject: Guide to the rec.radio Newsgroups
Maintainer: jeffreyh@Hawaii.Edu (Jeffrey Herman)
Last Posted: 9 Nov 2001 06:18:17 GMT
Posting-Frequency: 15th of each month

One significant omission, requiring immediate updates, for this article |
is that it does not mention newer amateur radio newsgroups created since |
it was written, including: |

rec.radio.amateur.antenna |
rec.radio.amateur.boatanchors |
rec.radio.amateur.dx |
rec.radio.amateur.equipment |
rec.radio.amateur.homebrew |
rec.radio.amateur.moderated |

We are willing to provide any technical support necessary to get this article updated and automatically posted again at a regular interval. This would include establishing contact with the original maintainer for any necessary permissions. We would prefer to seek a new, dedicated maintainer at this time, rather than start auto-posting the original article ourselves.

For more information about our newsgroup, see:

http://www.panix.com/~rram/usenet/rri/index.html

Please direct any comments, questions, or criticisms to rec-radio-info-request@panix.com.

Now on Kindle:
http://www.amazon.com/SolderSmoke-Adventures-Wireless-Electronics-ebook/dp/=
B004V9FIVW/ref=3Dsr_1_1?ie=3DUTF8&qid=3D1302513962&sr=3D8-1

SolderSmoke is the story of a secret, after-hours life in electronics.
Bill Meara started out as a normal kid, from a normal American town.
But around the age of 12 he got interested in electronics, and he has
never been the same.
To make matters worse, when he got older he became a diplomat. His
work has taken him to Panama, Honduras, El Salvador, the Spanish
Basque Country, the Dominican Republic, the Azores islands of
Portugal, London, and, most recently, Rome. In almost all of these
places his addiction to electronics caused him to seek out like-minded
radio fiends, to stay up late into the night working on strange
projects, and to build embarrassingly large antennas above innocent

foreign neighborhoods. SolderSmoke takes you into the basement workshops and electronics parts stores of these exotic foreign places, and lets you experience the life of an expatriate geek. If you are looking for restaurant or hotel recommendations, look elsewhere. But if you need to know where to get an RF choke re-wound in Santo Domingo, SolderSmoke is the book for you.

SolderSmoke is no ordinary memoir. It is a technical memoir. Each chapter contains descriptions of Bill=92s struggles to understand (really understand) radio-electronic theory. Why does P=3DIE? Do holes really flow through transistors? What is a radio wave? How does a frequency mixer produce sum and difference frequencies? If these are the kinds of questions that keep you up at night, this book is for you.

Finally, SolderSmoke is about brotherhood. International, cross-border brotherhood. Through the SolderSmoke podcast we have discovered that all around the world, in countries as different as Sudan and Switzerland, there are geeks just like us, guys with essentially the same story, guys who got interested in radio and electronics as teenagers, and who have stuck with it ever since. Our technical addiction gives us something in common, something that transcends national differences. And our electronics gives us the means to communicate. United by a common interest in radio, and drawn closer together by means of the internet, we form an =93International Brotherhood of Electronic Wizards.=94

I have a 22 lb box of QEX magazines from June 1982 to 1994.
About 140 issues. I don't know if they are all there but most are.
If anyone is interested in them, $10 plus shipping from 32405.
Email me if interested.
Mikek

It's should say FOR SALE. I still have to pay Amazon money for it, which
makes it a for sale ad, just like any other.

I've enjoyed your podcasts, and I might even want to read your book, but IHMO
adversting something on this group is a violation of the charter. If you want to
sell your book, you should post it on the forsale groups as forsale, not
as available on a noncommerical group.

Since I don't have an Amzon account, and I'm not about to spend $12 on it,
is not available for MY kindle.

Available would be more appropriate for a PDF file you could download for free.

Geoff.

Not to pee on your Wheaties, but isn't QEX available online to ARRL
members? Great magazine. Way more meat than QST.

The _indices_ are; the articles seem always to be unavailable for
reasons that don't make sense.

I guess to me it's pretty evident that anyone specifically telling you something is available for the Kindle is looking to sell it, not give it away (...in which case they could likely just use a PDF).

> Since I don't have an Amzon account, and I'm not about to spend $12 on it,

You can read Kindle books on most smartphones, Android tablets, and Windows PCs/tablets as well. The DRM is definitely annoying, although for a "fun read" sort of book like this (as opposed to, e.g., a reference text) I could see putting up with it.

It's not evident at all to me. After all, it was SPAMed to a bunch of newsgroups that don't allow sale postings.

As for Amazon, aren't there free books for the Kindle there?

>

Maybe he just wanted to use Amazon as the distributer, or had a friend in the Kindle publishing business?

Geoff.

Fair point, strictly speaking I would have to concur with you there, even if I do consider it a pretty minor transgression.

> As for Amazon, aren't there free books for the Kindle there?

Yes, it's just that usually no one bothers to advertise them much due to the lack of potential financial gain and all. :-) (And I also think the 100% free ones have to be physically downloaded via USB or WiFi to your PC -- you can't get them over Amazon's "whispernet," which is just the Sprint cell phone network where Amazon cut a deal with Sprint to deliver books in (near-) real time, the price of this delivery being bundled into the price of the book.)

> Maybe he just wanted to use Amazon as the distributer, or had a friend in
> the Kindle publishing business?

I figured that, like many hams, he was thinking he'd charge an inexpensive
price and use the proceeds to buy more radios and antennas and produce more
episodes of SolderSmoke. :-)

It makes sense if you realize ARRL is a publishing house and not much else.
Why would they give their products away.

From the ARRL Web site itself:

http://www.arrl.org/arrl-periodicals-archive-search

"About this database. This database contains an index of articles for QST from 1915 to the present, QEX from 1981 to the present, Ham Radio from 1968 to 1990 and NCJ from 1973 to the present. (Note: Beginning in 1998, each issue of QEX covers two months. This index shows the first month. For example, the index shows the January/February 1998 issue of QEX as Jan 1998 QEX.)"

So, the index covers anything for which I'd be interested. But I am more interested in obtaining past articles. Then there is this:

"QST Archive for Members Only - ARRL Members can access the QST magazine archive online, from December 1915 through December 2007."

Also:

"ARRL Periodicals on CD-ROM - Recent volumes of QST magazine and back issues of QEX, NCJ and Ham Radio magazines are available on CD-ROM."

I guess this means that, if you want to get articles later than 2007, then you must buy the CD.

Thanks for spurring my research on this. Now I will re-evaluate the importance of remaining a member.

John

I kinda thought that was what I was doing by being a member.

I've been paying:

ARRL membership	$39
QEX for members	$24
Total	$63

If I drop my ARRL membership the cost would be:

ARRL membership	$00
QEX non-member	$36
Total	$36

Almost a 43% reduction in cost to get the cream of publications. Of
course, I'd be giving up QST. Somehow, that doesn't bother me too much.

John

I re-joined ARRL a few years back after having let my membership lapse because of what I considered a lack of technical articles in QST. I was primarily a member to get QST. After my membership expired again, I got boatloads of mailings from ARRL, begging me to come back and even offering a choice of a book to get me to come back. I mailed back their letters with a hand written note saying I wasn't interested. They asked me why. I said QST isn't nearly technical enough for me anymore. They suggested I get QEX. So I made a "counter-offer"...I asked them to substitute QEX for QST. They basically laughed and said they couldn't do that. Seems it would have saved them some money as QEX only comes out 6 timers per year versus 12 for QST. So, now they get NO money from me...

I would respectfully suggest that you are missing the big picture. It's
not just the magazine(s).

Like them or not, the ARRL is the ONLY organization that supports ham
radio on a national level, going to bat for us before Congress and the FCC.

73,
Joe

Here in Au the number of members of the representative body (WIA) is
about 1/3 or less , having really bad representation which is expensive
is worse than having none at all

I like the little ads in back. It's interesting how they market some of those radios. It reminds me of Sansui stereos.

QST is about the ads. QEX appeals to people who are pretty immune to ads.

Well, maybe. I think that the big picture depends on the desires of the observer.

It is not that I do not like the ARRL. I've been a member for many years.

But, just being a member doesn't pay for that support. Notice from the cost of membership shown on the ARRL site that only $8 per year is left over after paying for QST. I'd bet that that $8 barely pays them to maintain their records and Web site. What they apparently depend on for money to represent us in Washington is donations. Along with volunteers, perhaps.

So, does this mean that those of us who do not send in donations are
missing the big picture?

73,
John

Well, I overlooked the revenue generated by ads in QST. It is probably
true that a greater membership means a greater magazine circulation
which means ads can garner more because they reach a greater audience.

I just wanted that on record to show I am not advocating discontinuing membership.

73,
John

Yes, I understand that very well. However, they should have more money
to spend to fight for ham radio if they would let me substitute the 6
issues per year of QEX versus the 12 issues of QST.

I'm basing this opinion on the ARRL budgets that were published in QST about 20 years ago. They currently (still) claim they are there for mainly 2 things, protecting our rights and privileges as operators and adding new operators through education and other methods. Unless they have gotten rid of all the bits they used to have that they didn't need, they are still spending between 2 and 5% of the money they collect on what's supposed to be the main goal.

Where does all the rest go? Read the budgets if they still make them available.

Charlatans then, are they now? I don't know. And don't care. They lost me.

Pretty well identical with the UK situation. The RSGB have lost many, many members for these reasons - including me.

tom, just my personal opinion, but too bad you left the ARRL and too bad
you don't care.

I don't know about your "2 to 5%" figure, but even if it is true, it's
exactly 2 to 5% more than any other organization is spending to go to
bat for ham radio...and IMHO, we NEED (and should support) a national
organization.

73,
Joe

Why? If every ham just wrote to their elected officials (for the cost
of a stamp, or free by email), they would get the message just as well,
if not better than, if they got 1 letter or a personal visit from the
ARRL "lobbyist".

Just my personal opinion, but I believe it is quite naive to think that
if "every ham just wrote". Extremely unlikely...and oh, if not the ARRL,
just who do you think is going to tell the hams to write and what to
write about?

Finally, it's quite naive to think that a national lobbying organization
is not helpful -- just look at how successful the NRA is.

All of you are also forgetting that the ARRL (for better or worse) is
now the 'back bone' of the system that handles testing for ham licenses.
  Without them it would be almost impossible to find where you can
locally take the test to apply for or upgrade your ham ticket.  The ARRL
also publishes most of the test guide material (though I would be
surprised if it wasn't also available on line).  Finally they have a
```

good line of excellent technical publications on radio and electronics technology.

Also they DO offer membership without QST, for additional members of a family. Maybe the price of that will give you an idea of what they think the membership itself is worth.

Yes, and the blind can get a membership without QST for $8, same as a
family member without QST. That was where I got my number from in
another post in this thread.

Again, I am not suggesting anyone give up their membership in the ARRL.

The ARRL seems to have little to do with the most important part of getting new hams, licensing.

The National VEC page, http://www.ncvec.org, apparently doesn't even acknowledge the ARRL.

You have to search the site and get to Question Pool 3 to find the first hint of the ARRL, and it's an email address for WY1O, who seems quite dedicated and appears several more times. And he's all there is.

So much for making new hams.

tom

Well, if hams won't take any initiative to write their Congressmen, then
they probably don't give two craps enough to really care if we lose
bandwidth. All proposed NPRMs are published in the Federal Register and
a simple search on their website for "FCC" will list them.
http://frwebgate.access.gpo.gov/cgi-bin/multidb.cgi

>
> Finally, it's quite naive to think that a national lobbying organization

So, the ARRL is donating how much to political parties?

The NRA has donated a bit over $18 million from 1989-2010. They were
number 39 of the top 140 donors...
39 National Rifle Assn $18,209,746   17%(To Dems) 82% (To Repubs)
THAT'S probably why they are so successful. Money talks, BS Walks...

http://www.opensecrets.org/orgs/list.php

Didn't see the ARRL in the top 140. Searched and didn't find them on
the list at all. #140 donated about $4.7 million over the same period.

If the ARRL is so successful at lobbying, why did BPL go through even
though they begged members to send more money to fight against it and
lost the battle anyway? Remember when the 13cm band used to be
2300-2450 MHz? I do. Remember when the 1.25M band used to be 220-225
MHz. I do. Remember when a lot of foreign countries had no code
requirement for HF and we did? I do.

I'm not saying they aren't worth something, but why won't they give a guy a choice about which magazine he wants with his membership? Probably because QEX doesn't have so many ads as QST and they want the advertisers to get more bang for their buck (understandably, since they can charge more for ad space based on the number of magazine "subscribers")

Don't forget W5YI as a VEC. That's who I'm affiliated with, although
I'm not active with any VEC at present. They list VEs by state, so you
can find a local examiner.
http://www.w5yi.org/exam_locations_ama.php

  The ARRL also
> publishes most of the test guide material (though I would be surprised

Yes, so I would almost say they are more in the publishing business than
the lobbying business.

>

> the membership itself is worth.

So, can I just pay for membership and skip QST?

I believe they are required by the IRS to set a "value" on membership if
they are a non-profit. They are a non-profit, aren't they?

Thanks for all your replies. I should have explained the reason for my question. I've become interested in SID (Sudden Ionosphere Disturbance) monitoring: http://www.aavso.org/solar-sids
This basically involves monitoring the signal strength of various VLF stations that transmit a 50-baud RTTY signal. Knowing nothing about the spectrum of these signals I build a receiver that has a bandwidth of about 200 Hz and it works reasonably well on one station that transmits on 21.4 KHz. I would like to use it to also monitor a signal on 25.2 KHz.
However, I happen to live about 50 miles from a 500 KW station
that transmits on 24.8 KHz and that signal swamps everything within 600 to 800 Hz. So I thought a narrow bandwidth might be better and was about to start construction of one when I learned the nature of the transmissions so I thought I had better get some information on the actual bandwidths involved. Hence my query.

I would appreciate your comments regarding the design of my VLF rig: The antenna is a shielded, tuned loop www.febo.com/time-frerq/wwvb/antenna. The receiver is a direct-conversion type. I use a FST3125 quad FET bus switch as a mixer with the LO derived from a DDS source. The mixer output is amplified (60 dB) and fed to a 5-pole 120 Hz Butterworth LP which also provides about 27 dB of gain. The filter output is rectified and integrated (5.4 sec TC) and is the input to the ADC on a microprocessor (on a separate board) that collects and stores the data for later download to a PC. The construction is a mixture of through-hole and surface-mount parts on a two-sided PC board.
Is it possible that I have a shielding problem when tuned near the nearby station? Is it likely that I would have better results if my receiver was in a shielded enclosure?

Thanks in advance for your coments and advice.

You mean 15kHz, 12kHz and 7.5kHz. You probably want 12kHz, unless your
channel spacing is really narrow.

FM bandwidth is calculated as 2 * (signal bandwidth + deviation), but for
the life of me I don't know what the deviation is supposed to be for
amateur narrow band FM!

I would think the 15 KHz filter.   The amateur deviation is normally 5 KHz.
for VHF and above.   There is a push for going to 2.5 and closer spacing for
repeaters.

Hi Michael,
i was an hardcore RTTYer a lot of years ago... :-)

I've used Teletype Corp (now IBM) TG7, Kleinschmidt TT100,
Olivetti T2, Siemens ??? and after, first attempts of software
decoders.

Yes, normally you use a CW filter to receive RTTY, ie: 500/600 Hz BW for
170 Hz shift so the group delay is not problematic if rf tones are
centered in passband of filter (stay away from edges).

Cheers,
  Piero I5SPO

Hey OT:
In ITU region 1 you use +/- 3.75Khz. If you are across the pond then
use +/- 6Khz.
Since they spell metre that way across the pond I think you are going
to be using +/- 6Khz

Excellent job. I'm particularly impressed by your willingness to grind
your own crystals. In the US and Europe we have it easy -- there are
custom crystal grinding companies that'll sell one-off crystals (but
they're spendy). I'm not sure if such things are available in your part
of the world or not.

No, a lot of the crystal lattice filter building required grinding. They'd start with surplus FT-243 crystals, and unless they were really lucky (like the early ones down at 455KHz), they'd have to grind a bit. The mid-sixties ARRL sideband manual has an article or two about crystal grinding, for that reason. There was even one guy in Manila who had a series of direct conversion SSB transceivers (he was using them on fixed channels, so he just had filters on the channel) where he described opening up FC/6 holders to alter the frequency a tad.

One reason ladder filters became the mainstay for crystal filter building (well actually it took a while since they were described in Radcomm in the seventies, but it was about the mid-eighties before there was lots of activity in that area in North America, coinciding with the move back to superhet building rather than direct conversion receivers) was that since the crystals all had to be on the same frequency, no grinding was required. Just pick a frequency where you could get enough cheap crystals to pick out enough for the filter.

Maybe some people ordered custom crystals to make crystal-lattice filters, but they'd have been the exception.

.... Since they spell metre that way across the pond I think you are going
to be using +/- 6Khz...

It depends on what kind of metre!

5kHz is the norm.

Hey OM:
That may be so, maybe you should looky at a Kenwood TM261EJ, designed
for the European market, it has a 20Khz channel spacing on 2 metres, I
wonder why? Since 5Khz is the norm BW?

I'd like to modify an Arrow OSJ 146/440 to use an N connector instead of SO239. This would require an N-to-3/8"-24 stud. Allen Lowe hasn't heard of such a thing, which is why he doesn't offer that antenna with an N-connector. Does anyone here know if such a beast exists? What would it take to have some of these custom made?

I'm a bit confused about what, exactly, you want... is it something

to go from an N connector "chassis mount" socket's center pin to a
3/8-24 stud? Or some sort of adapter to go between the N series
5/8"-24 thread and a 3/8"-24 thread? A picture would probably be
worth lots of words...

Cheers,
Tom

See Ebay item number 380322578383.  This device connects the center=20
conductor of an SO239 to a 3/8"-24 bolt upon which a tall nut is=20
screwed.  To use it, you stick it up through a piece of metal (say, a=20
bracket), put an insulating washer on that, add the tall nut, then put a=20
whip adapter in the nut.  I want something like that for an N-connector.=20=
=20

Or just use something like this with the SO-239...

Ah, OK...what the ebay picture looks like to me is an UHF socket whose
"rear" pin becomes a male 3/8-24, so a 3/8-24 coupling nut ("long
nut") can go over it to clamp the insulating washers to the bracket.
The problem I see with that is you couldn't just make a simple 3/8-24
stud and solder it to an N center pin, and expect it would hold up
very well with the tension on the solder joint. It would be pretty
trivial to make on a lathe I'd be happy to do it, but you probably
wouldn't like the price for one. They'd be cheap (relatively) if you
wanted 10,000 of them. ;-) Then you also need the insulating
washers--maybe you get those from the existing antenna? If what I
described in the first sentence is what you're looking for, check CB
stores for a 3/8-24 to 1/8" whip adapter...

Seems like a better mechanical arrangement would be to have the whip
attached securely to the mounting bracket, and the N connector also
securely attached to the mounting bracket, arranged to there's
relatively little strain on the center pin of the N connector...

If an SO239 to N adapter works, MPJA has them for about a third the
price of Allied... see MPJA # 0522-RC.

Cheers,
Tom

What seems to me that would work would be some variation on a U shaped bracket:

(pardon the ASCII art)

```
                II (antenna)

          -------------
          |    IIII   |
          |     II    |NNN
          |     L-----|NNN
        M |M          |NNN
        M |M          |
        M |M          |
          |           |
```

N is the N connector
M is the mounting bolt for the bracket.
If the wire is stranded, then there would be little or no stress on the center pin of the N connector.

Or if you want the wire out the bottom,

```
                II (antenna)
```

```
          _____________
          |    IIII
          |     II
         M|M    |
         M|M    |
          |    NNNNN
          _____NNNNN___
               NNNNN
               NNNNN
               NNNNN
```

73,

Geoff.

Hey OT:

Exactly what I would do almost.

Homebrew my own from a Type N bulkhead chassis mount connector as seen
here:
https://emersonconnectivity.com/OA_MEDIA/catalog/pdf_NConnectorBrochure.pdf

I'd solder a 3/8-24 by 2 inch SS stud onto the center pin.

I'd take a stick of JB weld putty type epoxy and make a form around
the N connector and stud

Thread on a Hex threaded SS or chrome 3/8-24 coupler

Viola' a Type N gumdrop mount.

I'm a bit concerned as to how strong such an arrangement would be.

```

hey OT:

A 5/8 wave whip is sum like 57 inches in fiberglass, a gum drop mount
is pretty supstantial, my gum drop mount is like 3 inches in diameter
at the base, I used a uni multi step drill bit to cut the 3/4 inch
hole in the trunk of my Taurus. My whip was a 11 meter 1/4 wave
fiberglass whip I cut down to get 5/8 wave on 2 meters, and because
it's fiberglass makes it broadbanded from 144 to 148 Mhz like
1.2-1.1/1 across the band

73 OT

There isn't quite that much room on the base of an Arrow J-pole.=20=20

I'm wondering how much loss there would be if I simply add an SO239-to-N=20
converter and solder the threads together.

List of Solutions Manuals and Test Banks

contact me to : mattosbw1@gmail.com
mattosbw1(at)gmail.com

NOTE : "THIS SERVICE IS NOT AVAILABLE FOR : CHINA, INDIA, RUSSIA, PAKISTAN, IRAQ, IRAN, PHILIPPINES, NORTH KOREA, NEPAL, BANGLADESH, SRI LANKA, MALDIVES, BHUTAN & COLOMBIA".

If your wanted solutions manual is not in this list, also can ask me if is available (it is a partial list). Then if you need solutions manual only contact me by email.

"ARE NOT AVAILABLES BOOKS IN DIGITAL FORMAT", ONLY SOLUTIONS MANUALS AND TEST BANKS.

This same "list of titles" of texts with availables solutions manual and/or test banks is for download from :

http://www.megaupload.com/?d=3D2J4Q0R3O

I do not review the forums, just send me an email.

Solution Manual Mechanical Engineering Design (7th Ed., Shigley, Mischke & Budynas)
Solution Manual Shigley's Mechanical Engineering Design (8th Ed., Budynas & Nisbett)
Solution Manual Shigley's Mechanical Engineering Design (9th Ed., Budynas & Nisbett)
Solution Manual Fundamentals of Machine Elements (1st Ed., Hamrock)
Solution Manual Fundamentals of Machine Elements (2nd Ed., Hamrock)
Solution Manual Mechanics of Materials : A Modern Integration of Mechanics and Materials in Structural Design (Christopher Jenkins & Sanjeev Khanna)
Solution Manual Mechanics of Materials (3th Ed., Beer)
Solution Manual Mechanics of Materials (5th Ed., Gere & Timoshenko)
Solution Manual Mechanics of Materials (6th Ed., Gere & Timoshenko)
Solution Manual Mechanics of Materials (7th Ed., Gere & Goodno)
Solution Manual Mechanics of Materials (Ansel Ugural)
Solution Manual Mechanics of Materials : An Integrated Learning System (1st Ed., Timothy Philpot)
Solution Manual Mechanics of Materials : An Integrated Learning System (2nd Ed., Timothy Philpot)
Solution Manual Mechanics of Materials (2nd Ed., Roy R. Craig)
Solution Manual Simplified Mechanics and Strength of Materials (6th Ed., James Ambrose)
Solution Manual Engineering Applications of Dynamics (Dean Karnopp & Donald Margolis)

Solution Manual Engineering Mechanics : Statics (Arthur Boresi, Richard Schmidt)
Solution Manual Engineering Mechanics : Dynamics (Arthur Boresi, Richard Schmidt)
Solution Manual Engineering Mechanics : Statics (5th Ed., J. L. Meriam, L. G. Kraige)
Solution Manual Engineering Mechanics : Statics - SI Version (5th Ed., J. L. Meriam, L. G. Kraige)
Solution Manual Engineering Mechanics : Statics (6th Ed., J. L. Meriam, L. G. Kraige)
Solution Manual Engineering Mechanics : Statics - SI Version (6th Ed., J. L. Meriam, L. G. Kraige)
Solution Manual Engineering Mechanics : Dynamics (5th Ed., J. L. Meriam, L. G. Kraige)
Solution Manual Engineering Mechanics : Dynamics - SI Version (5th Ed., J. L. Meriam, L. G. Kraige)
Solution Manual Engineering Mechanics : Dynamics (6th Ed., J. L. Meriam, L. G. Kraige)
Solution Manual Engineering Mechanics : Dynamics - SI Version (6th Ed., J. L. Meriam, L. G. Kraige)
Solution Manual Vector Mechanics for Engineers : Statics (7th Ed., Ferdinand Beer)
Solution Manual Vector Mechanics for Engineers : Statics (8th Ed., Ferdinand Beer)
Solution Manual Vector Mechanics for Engineers : Dynamics (7th Ed., Ferdinand Beer)
Solution Manual Vector Mechanics for Engineers : Dynamics (8th Ed., Ferdinand Beer)
Solution Manual Statics : Analysis and Design of Systems in Equilibrium (Sheppard & Tongue)
Solution Manual Statics : Analysis and Design of Systems in Equilibrium - Update Edition (Sheppard & Tongue)
Solution Manual Dynamics : Analysis and Design of Systems in Motion (Sheppard & Tongue)
Solution Manual Dynamics : Analysis and Design of Systems in Motion (2nd Ed., Sheppard & Tongue)
Solution Manual Statics and Mechanics of Materials : An Integrated Approach (2nd Ed., Riley, Sturges & Morris)
Solution Manual Mechanics of Materials (6th Ed., Riley, Sturges & Morris)
Solution Manual Basic Engineering Plasticity : An Introduction with Engineering and Manufacturing Applications (David Rees)
Solution Manual Theory of Plasticity (3rd Ed. Jagabanduhu Chakrabarty)
Solution Manual Deformation and Fracture Mechanics of Engineering Materials (4th Ed., Richard Hertzberg)
Solution Manual Deformable Bodies and Their Material Behavior (Haslach & Armstrong)
Solution Manual Intermediate Mechanics of Materials (1st Ed., Barber)
Solution Manual Elasticity (2nd Ed., J.R. Barber)
Solution Manual Elasticity : Theory, Applications, and Numerics (1st Ed., Martin Sadd)
Solution Manual Elasticity : Theory, Applications, and Numerics (2nd Ed., Martin Sadd)

Solution Manual Elasticity in Engineering Mechanics (2nd Ed., Boresi)
Solution Manual Advanced Mechanics of Materials (6th Ed., Boresi)
Solution Manual Advanced Mechanics of Materials (2nd Ed., Cook & Young)
Solution Manual Metal Fatigue in Engineering (2nd Ed., Stephens, Fatemi & Fuchs)
Solution Manual Applied Mechanics for Engineering Technology (8th Ed., Keith M. Walker)
Solution Manual Applied Statics and Strength of Materials (5th Ed. Limbrunner & Spiegel)
Solution Manual Statics and Strength of Materials (Robert Mott)
Solution Manual Applied Strength of Materials (4th Ed., Mott)
Solution Manual Applied Strength of Materials (5th Ed., Mott)
Solution Manual Intermediate Dynamics for Engineers (Marcelo R.M & Crespo da Silva)
Solution Manual Engineering Mechanics : Statics (Michael Plesha, Gary Gray & Francesco Costanzo)
Solution Manual Engineering Mechanics : Dynamics (Michael Plesha, Gary Gray & Francesco Costanzo)
Solution Manual Engineering Mechanics : Statics (4th Ed., Anthony Bedford & Wallace Fowler)
Solution Manual Engineering Mechanics : Statics (5th Ed., Anthony Bedford & Wallace Fowler)
Solution Manual Engineering Mechanics : Statics - SI Units (5th Ed., Anthony Bedford, Wallace Fowler & Yusof Ahmad)
Solution Manual Engineering Mechanics : Dynamics (4th Ed., Anthony Bedford & Wallace Fowler)
Solution Manual Engineering Mechanics : Dynamics (5th Ed., Anthony Bedford & Wallace Fowler)
Solution Manual Engineering Mechanics : Dynamics - SI Units (5th Ed., Anthony Bedford, Wallace Fowler & Yusof Ahmad)
Solution Manual Elastic And Inelastic Stress Analysis (Irving Shames)
Solution Manual Thermal Stresses (2nd Ed., Noda, Hetnarski & Tanigawa)
Solution Manual Strength of Materials - A New Unified Theory for the 21st Century (Surya Patnaik & Dale Hopkins)
Solution Manual Statics and Strengths of Materials (6th Ed., Morrow & Kokernak)
Solution Manual Statics and Strengths of Materials (7th Ed., Morrow & Kokernak)
Solution Manual Engineering Mechanics : Statics (11th Ed., Hibbeler)
Solution Manual Engineering Mechanics : Statics (12th Ed., Hibbeler)
Solution Manual Engineering Mechanics : Statics - SI Units (12th Ed., Hibbeler)
Solution Manual Engineering Mechanics : Dynamics (11th Ed., Hibbeler)
Solution Manual Engineering Mechanics : Dynamics (12th Ed., Hibbeler)
Solution Manual Engineering Mechanics : Dynamics - SI Units (12th Ed., Hibbeler)
Solution Manual Mechanics of Materials (4th Ed., Hibbeler)
Solution Manual Mechanics of Materials (6th Ed., Hibbeler)
Solution Manual Mechanics of Materials (7th Ed., Hibbeler)
Solution Manual Mechanics of Materials - SI Units (7th Ed., Hibbeler)
Solution Manual Mechanics of Materials (8th Ed., Hibbeler)
Solution Manual Statics and Mechanics of Materials (Beer, Johnston,

DeWolf & Mazurek)
Solution Manual Statics and Mechanics of Materials (Bedford, Liechti & Fowler)
Solution Manual Statics and Mechanics of Materials (2nd Ed., Hibbeler)
Solution Manual Statics and Mechanics of Materials - SI Units (2nd Ed., Hibbeler)
Solution Manual Statics and Mechanics of Materials (3rd Ed., Hibbeler)
Solution Manual Energy Principles and Variational Methods in Applied Mechanics (2nd Ed., Reddy)
Solution Manual The Physics of Vibrations and Waves (6th Ed., Pain)
Solution Manual Engineering Vibrations (3rd Ed., Inman)
Solution Manual Mechanical Vibrations - SI Units (4th Ed., Singiresu S. Rao)
Solution Manual Mechanical Vibrations (5th Ed., Singiresu S. Rao)
Solution Manual Theory of Vibration : An Introduction (2nd Ed., A.A. Shabana)
Solution Manual Vibration of Discrete and Continuous Systems (2nd Ed., Ahmed Shabana)
Solution Manual Introduction to Finite Element Vibration Analysis (Maurice Petyt)
Solution Manual Vibrations and Stability : Advanced Theory, Analysis, and Tools (2nd Ed., Jon J. Thomsen)
Solution Manual Dynamics and Vibration : An Introduction (Magd Abdel Wahab)
Solution Manual Mechanical Vibration (William J. Palm, III)
Solution Manual Random Vibrations : Analysis of Structural and Mechanical Systems (Loren Lutes & Shahram Sarkani)
Solution Manual Mechanical and Structural Vibrations : Theory and Applications (by Jerry H. Ginsberg)
Solution Manual Fundamentals of Structural Integrity : Damage Tolerant Design and Nondestructive Evaluation (Alten F. Grandt)
Solution Manual A First Course in the Finite Element Method (4th Ed., Daryl L. Logan)
Solution Manual Finite Element Analysis Theory and Application with ANSYS (3rd Ed., Moaveni)
Solution Manual An Introduction to the Finite Element Method (3rd Ed., J. N. Reddy)
Solution Manual Fundamentals of Finite Element Analysis (1st Ed., David V. Hutton)
Solution Manual The Finite Element Method in Engineering (4th Ed., Rao)
Solution Manual The Finite Element Method in Engineering (5th Ed., Rao)
Solution Manual The Finite Element Method and Applications in Engineering Using ANSYS (Madenci & Guven)
Solution Manual Introduction to Finite Element Analysis and Design (Nam-Ho Kim, Bhavani V. Sankar)
Solution Manual Introduction to the Finite Element Method : Theory, Programming and Applications (Erik G. Thompson)
Solution Manual The Finite Element Method : Its Basis and Fundamentals (6th Ed., Zienkiewicz, R. L. Taylor & J.Z. Zhu)
Solution Manual Fundamental Finite Element Analysis and Applications : with Mathematica and Matlab Computations (Asghar Bhatti)

Solution Manual Advanced Topics in Finite Element Analysis of Structures : With Mathematica and MATLAB Computations (Asghar Bhatti)
Solution Manual Modeling and Analysis of Dynamic Systems (3rd Ed., Close)
Solution Manual Modeling and Simulation of Dynamic Systems (Robert Woods, Jr. & Kent Lawrence)
Solution Manual System Dynamics (1st Ed., William J Palm III)
Solution Manual System Dynamics (2nd Ed., William J Palm III)
Solution Manual System Dynamics and Response (S. Graham Kelly)
Solution Manual System Dynamics for Engineering Students : Concepts and Applications (Nicolae Lobontiu)
Solution Manual Dynamic Modeling and Control of Engineering Systems (2nd Ed., J. Lowen Shearer, Bohdan Kulakowski, John Gardner)
Solution Manual System Dynamics : Modeling and Simulation of Mechatronic Systems (4th Ed., Karnopp, Margolis & Rosenberg)
Solution Manual Concepts and Applications of Finite Element Analysis (4th Ed., Cook, Malkus, Plesha & Witt)
Solution Manual Finite Element Modeling for Stress Analysis (Robert Cook)
Solution Manual Fracture Mechanics : Fundamentals and Applications (2nd Ed., T.L. Anderson)
Solution Manual Mechanical Behavior of Materials (3rd Ed., Dowling)
Solution Manual Mechanical Behavior of Materials (W.F. Hosford)
Solution Manual Mechanical Behavior of Materials (Keith Bowman)
Solution Manual Theory and Design for Mechanical Measurements (4th Ed., Figliola & Beasley)
Solution Manual Theory and Design for Mechanical Measurements (5th Ed., Figliola & Beasley)
Solution Manual Mechanical Measurements (6th Ed., Beckwith, Marangoni & Lienhard)
Solution Manual Measurement and Data Analysis for Engineering and Science (Patrick Dunn)
Solution Manual Design and Analysis of Lean Production Systems (Askin & Goldberg)
Solution Manual Computer-Aided Manufacturing (3rd Ed., Tien-Chien Chang, Richard A. Wysk, Hsu-Pin Wang)
Solution Manual Work Systems : The Methods, Measurement & Management of Work (Mikell P. Groover)
Solution Manual Automation, Production Systems, and Computer-Integrated Manufacturing (2nd Ed., Groover)
Solution Manual Automation, Production Systems, and Computer-Integrated Manufacturing (3rd Ed., Groover)
Solution Manual Fundamentals of Modern Manufacturing : Materials, Processes, and Systems (3rd Ed., Mikell Groover)
Solution Manual Fundamentals of Modern Manufacturing : Materials, Processes, and Systems (4th Ed., Mikell Groover)
Solution Manual Materials and Processes in Manufacturing (9th Ed., E. Paul DeGarmo, J. T. Black, Ronald A. Kohser)
Solution Manual DeGarmo's Materials and Processes in Manufacturing (10th Ed., E. Paul DeGarmo, J. T. Black, Ronald A. Kohser)
Solution Manual Principles of Metal Manufacturing Processes (Beddoes & Bibby)
Solution Manual Design for Manufacturing : A Structured Approach

(Corrado Poli)
Solution Manual Fundamentals of Manufacturing (2nd Ed., Philip D. Rufe)
Solution Manual Engineering Materials Science (Milton Ohring)
Solution Manual Engineering Materials : Properties and Selection (8th Ed., Budinski)
Solution Manual Engineering Materials : Properties and Selection (9th Ed., Budinski)
Solution Manual Materials Science for Engineering Students (Traugott Fischer)
Solution Manual Essentials of Modern Materials Science and Engineering (James Newell)
Solution Manual Science and Design of Engineering Materials (2nd Ed., Schaffer, Saxena, et al)
Solution Manual Structure and Properties of Engineering Materiales (5th Ed., Daniel Henkel & Alan Pense)
Solution Manual Materials Selection in Mechanical Design (3rd Ed., Michael Ashby)
Solution Manual Materials Selection in Mechanical Design (4th Ed., Michael Ashby)
Solution Manual Materials : Engineering, Science, Processing and Design (1st Ed., Michael Ashby, Hugh Shercliff & David Cebon)
Solution Manual Materials : Engineering, Science, Processing and Design (2nd Ed., Michael Ashby, Hugh Shercliff & David Cebon)
Solution Manual Engineering Materials Vol. 1 : An Introduction to Properties, Applications and Design (3rd Ed., Michael Ashby & David Jones)
Solution Manual Engineering Materials Vol. 2 : An Introduction to Microstructures, Processing and Design (3rd Ed., Michael Ashby & David Jones)
Solution Manual Materials Science and Engineering : An Introduction (6th Ed., William Callister)
Solution Manual Materials Science and Engineering : An Introduction (7th Ed., William Callister)
Solution Manual Materials Science and Engineering : An Introduction (8th Ed., William Callister)
Solution Manual Fundamentals of Materials Science and Engineering : Integrated Approach (2nd Ed., William Callister)
Solution Manual Fundamentals of Materials Science and Engineering : Integrated Approach (3rd Ed., William Callister)
Solution Manual Foundations of Materials Science and Engineering (3rd Ed, Smith)
Solution Manual Foundations of Materials Science and Engineering (4th Ed, Smith & Hashemi)
Solution Manual Foundations of Materials Science and Engineering (5th Ed, Smith & Hashemi)
Solution Manual Introduction to Materials Science for Engineers (6th Ed., Shackelford)
Solution Manual Introduction to Materials Science for Engineers (7th Ed., Shackelford)
Solution Manual Introduction to Materials Science for Engineers - International Edition (7th Ed., Shackelford)
Solution Manual Manufacturing Facilities Design and Material Handling

(3rd Ed., Meyers & Stephens)
Solution Manual Manufacturing Facilities Design and Material Handling (4th Ed., Stephens & Meyers)
Solution Manual Manufacturing Processes for Engineering Materials (5th Ed. Kalpakjian & Smith)
Solution Manual Manufacturing Processes for Engineering Materials - SI Units (5th Ed. Kalpakjian, Smith & Chih-Wah Kok)
Solution Manual Manufacturing, Engineering & Technology (5th Ed. Kalpakjian & Smith)
Solution Manual Manufacturing, Engineering & Technology (6th Ed. Kalpakjian & Smith)
Solution Manual Manufacturing, Engineering & Technology - SI Units (6th Ed. Kalpakjian & Smith)
Solution Manual Principles of Corrosion Engineering and Corrosion Control (Zaki Ahmad)
Solution Manual Steels : Microstructure and Properties (3rd Ed. Bhadeshia & Honeycombe)
Solution Manual Analysis and Performance of Fiber Composites (3rd Ed., Bhagwan Agarwal, Lawrence Broutman & K. Chandrashekhara)
Solution Manual Nanoengineering of Structural, Functional and Smart Materials (Mark Schulz, Ajit Kelkar, Mannur Sundaresan)
Solution Manual Applied Manufacturing Process Planning : With Emphasis on Metal Forming and Machining (Nelson, Schneider)
Solution Manual Mastering CAD/CAM (1st Ed., Ibrahim Zeid)
Solution Manual Principles of CAD/CAM/CAE (Kunwoo Lee)
Solution Manual Computer Numerical Control : Operation and Programming (3rd Ed., Stenerson & Curran)
Solution Manual Introduction to Computer Numerical Control (4th Ed., Valentino & Goldenberg)
Solution Manual Linear State-Space Control Systems (Robert L. Williams, II & Douglas A. Lawrence)
Solution Manual Gas Turbine Theory (6th Ed., H.I.H. Saravanamuttoo, G.F.C. Rogers, H. Cohen & Paul Straznicky)
Solution Manual Rocket Propulsion Elements (7th Ed., George P. Sutton & Oscar Biblarz)
Solution Manual Rocket Propulsion Elements (8th Ed., George P. Sutton & Oscar Biblarz)
Solution Manual Orbital Mechanics for Engineering Students (1st Ed., Howard Curtis)
Solution Manual Orbital Mechanics for Engineering Students (2nd Ed., Howard Curtis)
Solution Manual Atmospheric and Space Flight Dynamics : Modeling and Simulation with MATLAB and Simulink (Ashish Tewari)
Solution Manual Flight Dynamics Principles (2nd Ed., by Cook)
Solution Manual Mechanics of Flight (1st Ed., Warren F. Phillips)
Solution Manual Mechanics of Flight (2nd Ed., Warren F. Phillips)
Solution Manual Modern Flight Dynamics (David K. Schmidt)
Solution Manual Fundamentals of Airplane Flight Mechanics (David G. Hull)
Solution Manual Dynamics of Flight : Stability and Control (3rd Ed., Bernard Etkin & Lloyd Duff Reid)
Solution Manual Aircraft Rescue and Firefighting (5th Ed., IFSTA)
Solution Manual Aircraft Propulsion (Saeed Farokhi)

Solution Manual Aircraft Performance (Maido Saarlas)
Solution Manual Design of Aircraft (Thomas C. Corke)
Solution Manual Flight Performance of Fixed and Rotary Wing Aircraft (Antonio Filippone)
Solution Manual Fundamentals Of Aircraft Structural Analysis (Howard Curtis)
Solution Manual Aircraft Control and Simulation (2nd Ed., Brian Stevens & Frank Lewis)
Solution Manual Aircraft Structures for Engineering Students (3rd Ed., T.H.G. Megson)
Solution Manual Aircraft Structures for Engineering Students (4th Ed., T.H.G. Megson)
Solution Manual Introduction to Aircraft Structural Analysis (T.H.G. Megson)
Solution Manual Mechanics of Aircraft Structures (2nd Ed, C. T. Sun)
Solution Manual Principles of Helicopter Aerodynamics (1st Ed., Leishman)
Solution Manual Fundamentals of Aerodynamics (2nd Ed., Anderson)
Solution Manual Fundamentals of Aerodynamics (3th Ed., Anderson)
Solution Manual Fundamentals of Aerodynamics (4th Ed., Anderson)
Solution Manual Fundamentals of Aerodynamics (5th Ed., Anderson)
Solution Manual Aerodynamics for Engineers (5th Ed., John Bertin & Russell Cummings)
Solution Manual Introduction to Flight (5th Ed., Anderson)
Solution Manual Introduction to Flight (6th Ed., Anderson)
Solution Manual Mechatronics : Principles and Applications (Godfrey Onwubolu)
Solution Manual Mechatronics (Sabri Cetinkunt)
Solution Manual Introduction to Mechatronic Design (J. Edward Carryer, Matthew Ohline & Thomas Kenny)
Solution Manual Introduction to Mechatronics and Measurement Systems (2nd Ed., David Alciatore & Michael Histand)
Solution Manual Introduction to Mechatronics and Measurement Systems (3rd Ed., David Alciatore & Michael Histand)
Solution Manual Introduction to Mechatronics and Measurement Systems (4th Ed., David Alciatore & Michael Histand)
Solution Manual Introduction to Engineering Experimentation (2nd Ed., Wheeler & Ganji)
Solution Manual Introduction to Engineering Experimentation (3rd Ed., Wheeler & Ganji)
Solution Manual Gas Dynamics (3rd Ed., John & Keith)
Solution Manual Fundamentals of Gas Dynamics (2nd Ed, Robert D. Zucker)
Solution Manual Theory of Ground Vehicles (3rd Ed., J. Y. Wong)
Solution Manual Theory of Ground Vehicles (4th Ed., J. Y. Wong)
Solution Manual Vehicle Dynamics : Theory and Application (Reza Jazar)
Solution Manual Internal Combustion Engines : Applied Thermosciences (2nd Ed., Ferguson & Kirkpatrick)
Solution Manual Advanced Engine Performance Diagnosis (4th Ed., James Halderman)
Solution Manual Automotive Engines (8th Ed., Crouse)
Solution Manual Automotive Heating & Air Conditioning (5th Ed., Tom Birch)

Solution Manual Diagnosis and Troubleshooting of Automotive Electrical, Electronic, and Computer Systems (5th Ed., James Halderman)
Solution Manual Automotive Brake Systems Package (4th Ed., Rehkopf)
Solution Manual Automotive Brake Systems (4th Ed., Halderman)
Solution Manual Automotive Engine Performance (2nd Ed., Halderman)
Solution Manual Automotive Engines : Theory and Servicing (6th Ed., James Halderman)
Solution Manual Automotive Fuel and Emissions Control Systems (2nd Ed., James Halderman & James Linder)
Solution Manual Automotive Science and Mathematics (Allan Bonnick)
Solution Manual Automotive Mathematics (Jason Rouvel)
Solution Manual Automotive Service Management (Andrew Rezin)
Solution Manual Automotive Technology : Principles, Diagnosis, and Service (3rd Ed., Halderman)
Solution Manual Automotive Steering, Suspension, and Alignment (4th Ed., Halderman)
Solution Manual Automatic Transmissions & Transaxles (4th Ed., Tom Birch & Chuck Rockwood)
Solution Manual Hybrid and Alternative Fuel Vehicles (Halderman & Martin)
Solution Manual Manual Drivetrains and Axles (5th Ed., Birch & Rockwood)
Solution Manual Blueprint Reading for the Machine Trades (6th Ed., Schultz & Smith)
Solution Manual Modern Welding Technology (6th Ed., Cary & Helzer)
Solution Manual Tissue Engineering (Bernhard O. Palsson & Sangeeta N. Bhatia)
Solution Manual Tissue Engineering (Clemens van Blitterswijk, et al.)
Solution Manual Tissue Mechanics (Cowin, Doty)
Solution Manual Technology and Society (3rd Ed., Hjorth, Eichler, Khan & Morello)
Solution Manual BTEC First Engineering Curriculum Support Pack (Mike Tooley)
Solution Manual BTEC First Engineering (Mike Tooley)
Solution Manual Exploring Engineering : An Introduction to Engineering and Design (1st Ed., Philip Kosky, George Wise, Robert Balmer & William Keat)
Solution Manual Exploring Engineering : An Introduction to Engineering and Design (2nd Ed., Philip Kosky, Robert Balmer, William Keat & George Wise)
Solution Manual Engineering Science (5th Ed., W. Bolton)
Solution Manual Principles of Energy Conversion (2nd Ed., Archie W. Culp)
Solution Manual Fundamentals of Renewable Energy Processes (1st Ed., Aldo da Rosa)
Solution Manual Fundamentals of Renewable Energy Processes (2nd Ed., Aldo da Rosa)
Solution Manual Alternative Energy Systems (B. K. Hodge)
Solution Manual Solar Energy Engineering : Processes and Systems (Soteris Kalogirou)
Solution Manual Solar Engineering of Thermal Processes (2nd Ed., John Duffie & William Beckman)

```
Solution Manual Solar Engineering of Thermal Processes (3rd Ed., John
Duffie & William Beckman)
Solution Manual Energy Technology and Directions for the Future
(Fanchi)
Solution Manual Power Generation Technologies (Paul Breeze)
Solution Manual Concepts in Engineering (Holtzapple & Reece)
Solution Manual Concepts in Engineering (2nd Ed., Holtzapple & Reece)
Solution Manual Foundations of Engineering (2nd Ed, Holtzapple & Dan
Reece)
Solution Manual Industrial Mechanics and Maintenance (3rd Ed., Larry
Chastain)
Solution Manual Mechanical and Electrical Equipment for Buildings
(10th Ed., Stein, Reynolds, Grondzik, Kwok)
Solution Manual Mechanical and Electrical Equipment for Buildings
(11th Ed., Grondzik, Kwok, Stein & Reynolds)
Solution Manual Mechanical & Electrical Systems in Buildings (4th Ed.,
Richard Janis & William Tao)
Solution Manual Engineering Drawing And Design (7th Ed., Jensen,
Helsel & Short)
Solution Manual Autodesk Inventor (James M. Leake)
Solution Manual Engineering Design Graphics : Sketching, Modeling, and
Visualization (1st Ed., James Leake & Jacob Borgerson)
Solution Manual Orthopaedic Biomechanics : Mechanics and Design in
Musculoskeletal Systems (Donald Bartel, Dwight Davy & Tony Keaveny)
Solution Manual Science for Engineering (3rd Ed., John Bird)

List of Solutions Manuals and Test Banks

contact me to :   mattosbw1@gmail.com
mattosbw1(at)gmail.com

NOTE : "THIS SERVICE IS NOT AVAILABLE FOR :   CHINA, INDIA, RUSSIA, PAKISTAN, IRAQ, IRAN, PHILIPPINES, NORTH KOREA, NEPAL, BANGLADESH, SRI LANKA, MALDIVES, BHUTAN & COLOMBIA".

If your wanted solutions manual is not in this list, also can ask me if is available (it is a partial list). Then if you need solutions manual only contact me by email.

"ARE NOT AVAILABLES BOOKS IN DIGITAL FORMAT", ONLY SOLUTIONS MANUALS AND TEST BANKS.

This same "list of titles" of texts with availables solutions manual and/or test banks is for download from :

http://www.megaupload.com/?d=3D2J4Q0R3O

I do not review the forums, just send me an email.

- Electrical, Electronics & Computer Engineering :

Solution Manual Antenna Theory and Design (2nd Ed., Stutzman & Thiele)
Solution Manual Antennas for All Applications (3rd Ed., John Kraus & Ronald Marhefka)
Solution Manual Principles of Neurocomputing for Science and Engineering (Fredric M. Ham & Ivica Kostanic)
Solution Manual Introduction to Algorithms (2nd Ed., Cormen, et al.)
Solution Manual Algorithms (Dasgupta, et al.)
Solution Manual Applied Operating Systems Concepts (Silberschatz, Galvin & Gagne)
Solution Manual Operating System Concepts (6th Ed., Silberschatz, Galvin & Gagne)
Solution Manual Operating System Concepts (7th Ed., Silberschatz, Galvin & Gagne)
Solution Manual Operating System Concepts (8th Ed., Silberschatz, Galvin & Gagne)
Solution Manual Operating Systems Concepts with Java (6th Ed., Silberschatz, Galvin & Gagne)
Solution Manual Operating System Concepts with Java (7th Ed., Silberschatz, Galvin & Gagne)
Solution Manual Operating System Concepts with Java (8th Ed., Silberschatz, Galvin & Gagne)
Solution Manual C++ Program Design (3rd Ed., Cohoon & Davidson)
Solution Manual Java : Program Design 5.0 (Cohoon & Davidson)
Solution Manual Programming in C++ : Lessons and Applications (Timothy B. D'Orazio)
Solution Manual Applied C : An Introduction and More (Alice Fischer)
Solution Manual Programming Languages : Principles and Paradigms (1st Ed., Allen Tucker & Robert Noonan)
Solution Manual Programming Languages : Principles and Paradigms (2nd Ed., Allen Tucker & Robert Noonan)
Solution Manual Introduction to Parallel Computing (2nd Ed., Grama,

Karypis, Kumar & Gupta)
Solution Manual Parallel Programming in C with MPI and Open MP (Michael J Quinn)
Solution Manual Data Communications and Network Security (Houston H. Carr & Charles Snyder)
Solution Manual Data Communications and Networks (David Miller)
Solution Manual Management Information Systems (3rd Ed., Post & Anderson)
Solution Manual Management Information Systems (4th Ed., Post & Anderson)
Solution Manual Database Management Systems (3rd Ed. Post)
Solution Manual Management Information Systems (9th Ed., James A. O'Brien, George Marakas)
Solution Manual Introduction to Systems Analysis and Design (Whitten & Bentley)
Solution Manual Systems Analysis & Design : An Active Approach (2nd Ed., Marakas)
Solution Manual An Introduction to Object-Oriented Programming with Java (4th Ed., C. Thomas Wu - Otani)
Solution Manual An Introduction to Object-Oriented Programming with Java (5th Ed., C. Thomas Wu - Otani)
Solution Manual A Comprehensive Introduction to Object-Oriented Programming With Java (C. Thomas Wu)
Solution Manual Data Structures and the Java Collections Framework (1st Ed., William Collins)
Solution Manual Data Structures and the Java Collections Framework (2nd Ed., William Collins)
Solution Manual Data Structures and the Standard Template Library (William Collins)
Solution Manual Database System Concepts (4th Ed., Silberschatz)
Solution Manual Database System Concepts (5th Ed., Silberschatz)
Solution Manual Database System Concepts (6th Ed., Silberschatz, Korth & Sudarshan)
Solution Manual Database Management Systems (3rd Ed., Ramakrishnan & Gehrke)
Solution Manual Fundamentals of Network Security (Eric Maiwald)
Solution Manual Computing Concepts (1st Ed., Haag, et al.)
Solution Manual Computing Concepts (2nd Ed., Haag et al.)
Solution Manual Microsoft Office 2003 (Haag et al.)
Solution Manual Advanced Programming Using Visual Basic .NET (2nd Ed., Julia Case Bradley & Anita Millspaugh)
Solution Manual Advanced Programming Using Visual Basic 2005 (3rd Ed., Julia Case Bradley & Anita Millspaugh)
Solution Manual Programming with Java (Julia Case Bradley & Anita Millspaugh)
Solution Manual Programming in C#.Net (1st Ed., Julia Case Bradley & Anita Millspaugh)
Solution Manual Programming in Visual C# 2005 (2nd Ed., Julia Case Bradley & Anita Millspaugh)
Solution Manual Learning Programming Using Visual Basic.Net (Bill Burrows & Joe Lanford)
Solution Manual Programming in Visual Basic.NET : Visual Basic.NET 2005 (6th Ed., Julia Case Bradley & Anita Millspaugh)

Solution Manual Programming in Visual Basic .Net : 2003 Update Edition (5th Ed., Julia Case Bradley & Anita Millspaugh)
Solution Manual Survey of Operating Systems (2nd Ed., Jane Holcombe & Charles Holcombe)
Solution Manual Principles of Voice and Data Communications (Regis J. Bates & Marcus Bates)
Solution Manual Mike Meyers' Network+ Guide To Managing and Troubleshooting Networks (Michael Meyers)
Solution Manual Introduction to Windows Server 2003 (Eric Ecklund)
Solution Manual Programming The Web : An Introduction (Barrie Sosinsky & Valda Hilley)
Solution Manual Programming The Web Using XML (Ellen Pearlman & Eileen Mullin)
Solution Manual Internet Marketing : Building Advantage in a Networked Economy (2nd Ed., Rafi Mohammed et al.)
Solution Manual Internet Technologies at Work (Fred T. Hofstetter)
Solution Manual Internet Literacy (4th Ed., Fred T. Hofstetter)
Solution Manual Software Engineering : A Practitioner's Approach (5th Ed., Roger Pressman)
Solution Manual Software Engineering : A Practitioner's Approach (6th Ed., Roger Pressman)
Solution Manual Software Engineering : A Practitioner's Approach (7th Ed., Roger Pressman)
Solution Manual Web Engineering : A Practioner's Approach (1st Ed., Roger S. Pressman & David Lowe)
Solution Manual Object-Oriented Software Engineering (Stephen Schach)
Solution Manual Object-Oriented and Classical Software Engineering (5th Ed., Steve Schach)
Solution Manual Object-Oriented and Classical Software Engineering (6th Ed., Steve Schach)
Solution Manual Object-Oriented and Classical Software Engineering (7th Ed., Steve Schach)
Solution Manual Object-Oriented and Classical Software Engineering (8th Ed., Steve Schach)
Solution Manual Introduction to Object-Oriented Analysis and Design (Steve Schach)
Solution Manual Communication Networks (2nd Ed., Alberto Leon-Garcia & Indra Widjaja)
Solution Manual Fundamentals of Digital Logic with Verilog Design (1st Ed., Stephen Brown & Zvonko Vranesic)
Solution Manual Fundamentals of Digital Logic with Verilog Design (2nd Ed., Stephen Brown & Zvonko Vranesic)
Solution Manual Continuous and Discrete Control Systems (John Dorsey)
Solution Manual Engineering Circuit Analysis (6th Ed., William Hayt, Jack Kemmerly & Steven Durbin)
Solution Manual Engineering Circuit Analysis (7th Ed., William Hayt, Jack Kemmerly & Steven Durbin)
Solution Manual Engineering Electromagnetics (7th Ed., William Hayt & John Buck)
Solution Manual Principles of Electronic Materials and Devices (2nd Ed., Safa O. Kasap)
Solution Manual Principles of Electronic Materials and Devices (3rd Ed., Safa O. Kasap)

Solution Manual Programming in Haskell (Graham Hutton)
Solution Manual Probability and Random Processes With Applications to Signal Processing and Communications (Miller & Childers)
Solution Manual Logic in Computer Science : Modelling and Reasoning about Systems (2nd Ed., Michael Huth & Mark Ryan)
Solution Manual Introduction to Distributed Algorithms (2nd., Gerard Tel)
Solution Manual Information Theory, Inference and Learning Algorithms (David J. C. MacKay)
Solution Manual Digital Systems Engineering (William Dally & John Poulton)
Solution Manual Concepts in Programming Languages (by John Mitchell)
Solution Manual Simulation Modeling and Analysis (3rd Ed., Averill Law & David Kealton)
Solution Manual Simulation Modeling and Analysis with Expertfit Software (4th Ed., Averill Law)
Solution Manual System Modeling and Analysis : Foundations of System Performance Evaluation (Hisashi Kobayashi & Brian Mark)
Solution Manual Wireless Communications (Andrea Goldsmith)
Solution Manual Testing of Digital Systems (N. K. Jha & S. Gupta)
Solution Manual Space-Time Coding (Hamid Jafarkhani)
Solution Manual Space-Time Block Coding for Wireless Communications (Erik Larsson & Petre Stoica)
Solution Manual Smart Electronic Materials : Fundamentals and Applications (Jasprit Singh)
Solution Manual Radio-Frequency Electronics : Circuits and Applications (Jon Hagen)
Solution Manual Photonic Devices (Jia-ming Liu)
Solution Manual Networking Wireless Sensors (Bhaskar Krishnamachari)
Solution Manual Mobile Wireless Communications (Mischa Schwartz)
Solution Manual Introduction to Color Imaging Science (Hsien-Che Lee)
Solution Manual Fundamentals of Wireless Communication (David Tse & Pramod Viswanath)
Solution Manual Fundamentals of Modern VLSI Devices (Yuan Taur & Tak H. Ning)
Solution Manual Electronic and Optoelectronic Properties of Semiconductor Structures (Jasprit Singh)
Solution Manual An Introduction to Statistical Signal Processing (Robert M. Gray)
Solution Manual An Introduction to Radio Frequency Engineering (Christopher Coleman)
Solution Manual Algebraic Codes for Data Transmission (Richard Blahut)
Solution Manual Fundamentals of Solid State Electronics (C.T. Sah)
Solution Manual Fundamentals of Solid State Engineering (2nd Ed., Manijeh Razeghi)
Solution Manual Robot Modeling and Control (Spong, Hutchinson & Vidyasagar)
Solution Manual Theory of Applied Robotics : Kinematics, Dynamics and Control (Reza N. Jazar)
Solution Manual Control of Robot Manipulators in Joint Space (R. Kelly, V. Santib=E1=F1ez, A. Lor=EDa)
Solution Manual Modelling and Control of Robot Manipulators (2nd Ed., Lorenzo Sciavicco, Bruno Siciliano)

Solution Manual Robotics : Modelling, Planning and Control (Bruno Siciliano, Lorenzo Sciavicco, Luigi Villani & Giuseppe Oriolo)
Solution Manual Fundamentals of Semiconductor Fabrication (Gary S. May, Simon M. Sze)
Solution Manual Semiconductor Devices : Physics and Technology (2nd Ed, Simon M. Sze)
Solution Manual Physics of Semiconductor Devices (3rd Ed., Simon M. Sze, Kwok K. Ng)
Solution Manual Electric Machinery (6th Ed., Fitzgerald)
Solution Manual Electric Machinery Fundamentals (4th Ed., Chapman)
Solution Manual Electric Machinery and Power System Fundamentals (Chapman)
Solution Manual Local Area Networks (2nd Ed., Keiser)
Solution Manual Signals and Systems : Analysis of Signals Through Linear Systems (1st Ed., M.J. Roberts)
Solution Manual Fundamentals of Signals and Systems (M.J. Roberts)
Solution Manual Introduction to Signals and Systems (Lindner)
Solution Manual Semiconductor Physics and Devices (3rd Ed., Donald Neamen)
Solution Manual An Introduction to Semiconductor Devices (Donald Neamen)
Solution Manual Microelectronic Circuit Analysis and Design (3rd Ed., Donald Neamen)
Solution Manual Electronic Circuit Analysis and Design (2nd Ed., Donald Neamen)
Solution Manual Design for Electrical and Computer Engineers (1st Ed., Ralph Ford & Chris Coulston)
Solution Manual Fundamentals of Modeling and Analyzing Engineering Systems (Cha, Rosenberg, Dym)
Solution Manual Linear Systems (Panos J. Antsaklis & Anthony N. Michel)
Solution Manual A Linear Systems Primer (Panos J. Antsaklis & Anthony N. Michel)
Solution Manual Principles of Linear Systems (Philip E. Sarachik)
Solution Manual Linear Systems Control : Deterministic and Stochastic Methods (Elbert Hendricks, Ole Jannerup & Paul Haase S=F8rensen)
Solution Manual Power Systems Harmonics : Fundamentals, Analysis and Filter Design (George J. Wakileh)
Solution Manual Principles of Adaptive Filters and Self-learning Systems (Anthony Zaknich)
Solution Manual Algebraic Methods for Nonlinear Control Systems (2nd Ed., Conte, Moog & Perdon)
Solution Manual Discrete-Time Control Systems (2nd Ed., K. Ogata)
Solution Manual Modern Control Engineering - Problems B (3rd Ed., K. Ogata)
Solution Manual Modern Control Engineering (4th Ed., K. Ogata)
Solution Manual Modern Control Engineering (5th Ed., K. Ogata)
Solution Manual Modern Control Engineering - International Version (5th Ed., K. Ogata)
Solution Manual LabVIEW 8 Student Edition (Bishop)
Solution Manual LabVIEW 2009 Student Edition (Bishop)
Solution Manual Learning with LabVIEW 2009 (Bishop)
Solution Manual Introduction to Feedback Control (Li Qiu & Kemin Zhou)

Solution Manual Modeling and Simulation of Dynamic Systems (Robert Woods, Jr. & Kent Lawrence)
Solution Manual Feedback Control of Dynamic Systems (4th Ed., Gene Franklin, J.D. Powell, Abbas Emami-Naeini)
Solution Manual Feedback Control of Dynamic Systems (5th Ed., Gene Franklin, J.D. Powell, Abbas Emami-Naeini)
Solution Manual Feedback Control of Dynamic Systems (6th Ed., Gene Franklin, J.D. Powell, Abbas Emami-Naeini)
Solution Manual Feedback Control of Dynamic Systems - International Version (6th Ed., Gene Franklin, J.D. Powell, Abbas Emami-Naeini)
Solution Manual Predictive Control with Constraints (Jan Maciejowski)
Solution Manual Computer Numerical Control : Operation and Programming (3rd Ed., Stenerson & Curran)
Solution Manual Engineering Problem Solving with C (3rd Ed., Etter)
Solution Manual Engineering Problem Solving with C++ (2nd Ed., Etter)
Solution Manual Process Control Instrumentation Technology (8th Ed., Johnson)
Solution Manual Electrical Power and Controls (2nd Ed., Skvarenina & DeWitt)
Solution Manual Electronics and Computer Math (8th Ed., Deem & Zannini)
Solution Manual Circuits, Signals, and Systems for Bioengineers : A MATLAB-Based Introduction (John Semmlow)
Solution Manual VLSI Test Principles and Architectures : Design for Testability (Laung-Terng Wang, Cheng-Wen Wu & Xiaoqing Wen)
Solution Manual Mechatronics : Principles and Applications (Godfrey Onwubolu)
Solution Manual Mechatronics (Sabri Cetinkunt)
Solution Manual Introduction to Mechatronic Design (J. Edward Carryer, Matthew Ohline & Thomas Kenny)
Solution Manual Introduction to Mechatronics and Measurement Systems (2nd Ed., David Alciatore & Michael Histand)
Solution Manual Introduction to Mechatronics and Measurement Systems (3rd Ed., David Alciatore & Michael Histand)
Solution Manual Introduction to Mechatronics and Measurement Systems (4th Ed., David Alciatore & Michael Histand)
Solution Manual Machine Vision : Theory, Algorithms, Practicalities (3rd Ed., E. R. Davies)
Solution Manual Essential Java for Scientists and Engineers (Brian D. Hahn & Katherine M. Malan)
Solution Manual Guide to Microsoft Excel 2002 for Scientists and Engineers (3rd Ed., Bernard V. Liengme)
Solution Manual 10-Key Touch Key : Developing Speed and Accuracy (Burton)
Solution Manual Introduction to C++ Programming, Brief Version (Y. Daniel Liang)
Solution Manual Introduction to C++ Programming, Comprehensive (Y. Daniel Liang)
Solution Manual C++ for Business Programmers (2nd Ed., John C. Molluzzo)
Solution Manual Introduction to Java Programming - Brief Version (7th Ed., Liang)
Solution Manual Introduction to Java Programming - Brief Version (8th

Ed., Liang)
Solution Manual Introduction to Java Programming - Brief Version - International Edition (8th Ed., Liang)
Solution Manual Introduction to Java Programming - Comprehensive Version (6th Ed., Liang)
Solution Manual Introduction to Java Programming - Comprehensive Version (7th Ed., Liang)
Solution Manual Introduction to Java Programming - Comprehensive Version (8th Ed., Liang)
Solution Manual Introduction to Java Programming - Comprehensive Version - International Edition (8th Ed., Liang)
Solution Manual Introduction to Java Programming : Fundamentals First (6th Ed., Y. Daniel Liang)
Solution Manual Objects First With Java : A Practical Introduction Using BlueJ (3rd Ed., Barnes & Kolling)
Solution Manual Simply Java Programming : An Application-Driven=99 Tutorial Approach (Deitel)
Solution Manual Java : An Introduction to Computing (Joel Adams, Larry R. Nyhoff & Jeffrey Nyhoff)
Solution Manual Advanced Java=99 2 Platform How to Program (Deitel & Santry)
Solution Manual SQL for SQL Server (Bijoy Bordoloi & Douglas B. Bock)
Solution Manual SQL Clearly Explained (3rd Ed., Jan Harrington)
Solution Manual An Introduction to Programming Using Visual Basic 2005 (6th Ed., Schneider)
Solution Manual An Introduction to Programming Using Visual Basic 2008 (7th Ed., Schneider)
Solution Manual An Introduction to Programming Using Visual Basic 2010 (8th Ed., Schneider)
Solution Manual Simply Visual Basic .NET (Harvey M. Deitel, Paul J. Deitel, Tem R. Nieto)
Solution Manual Simply Visual Basic 2005 (2nd Ed., Harvey & Paul Deitel)
Solution Manual Simply Visual Basic 2008 (3rd Ed., Harvey & Paul Deitel)
Solution Manual Visual Basic 2005 How to Program (3rd Ed., Deitel)
Solution Manual Visual Basic 2008 How to Program (4th Ed., Deitel)
Solution Manual Visual Basic 2010 How to Program (5th Ed., Deitel)
Solution Manual An Introduction to Programming with Visual Basic 6.0 (4th Ed., Schneider)
Solution Manual Visual Basic.Net Programming (2nd Ed., Jeffrey Tsay)
Solution Manual Simply Visual Basic .NET (Harvey & Paul Deitel & Nieto)
Solution Manual Mechatronics (Sabri Cetinkunt)
Solution Manual PC Systems, Installation and Maintenance (2nd Ed., R.P. Beales)
Solution Manual Introduction to Linear Programming (Leonid N. Vaserstein)
Solution Manual Electric Circuits Fundamentals (8th Ed., Thomas Floyd)
Solution Manual Introductory Circuit Analysis (11th Ed., Robert L. Boylestad)
Solution Manual Introductory Circuit Analysis (12th Ed., Robert L. Boylestad)

Solution Manual Principles of Electric Circuits : Conventional Current Version (8th Ed., Thomas Floyd)
Solution Manual Principles of Electric Circuits : Conventional Current Version (9th Ed., Thomas Floyd)
Solution Manual Principles of Electric Circuits : Electron Flow Version (8th Ed., Thomas L. Floyd)
Solution Manual Principles of Electric Circuits : Electron Flow Version (9th Ed., Thomas L. Floyd)
Solution Manual Contemporary Electric Circuits : Insights and Analysis (2nd ed., Strangeway, Petersen, Gassert & Lokken)
Solution Manual Introductory Electronic Devices and Circuits : Electron Flow Version (7th Ed., Paynter)
Solution Manual Introductory Electronic Devices and Circuits : Conventional Flow Version (7th Ed., Paynter)
Solution Manual Electronics Technology Fundamentals : Conventional Flow (2nd Ed., Robert T. Paynter & Toby Boydell)
Solution Manual Electronics Technology Fundamentals : Conventional Flow (3rd Ed., Robert T. Paynter & Toby Boydell)
Solution Manual Electronics Technology Fundamentals : Electron Flow (2nd Ed., Robert T. Paynter, Toby Boydell)
Solution Manual Electronics Technology Fundamentals : Electron Flow (3rd Ed., Robert T. Paynter, Toby Boydell)
Solution Manual Introductory DC/AC Circuits (6th Ed., Nigel P. Cook)
Solution Manual Introductory DC/AC Electronics (6th Ed., Nigel P. Cook)
Solution Manual Electronic Devices : Conventional Current Version (7th Ed., Floyd)
Solution Manual Electronic Devices : Conventional Current Version (8th Ed., Floyd)
Solution Manual Electronic Devices : Electron Flow Version (7th, Floyd)
Solution Manual Electronic Devices : Electron Flow Version (8th, Floyd)
Solution Manual Electronics Fundamentals : Circuits, Devices and Applications (7th Ed., Thomas L. Floyd)
Solution Manual Electronics Fundamentals : Circuits, Devices and Applications (8th Ed., Floyd & Buchla)
Solution Manual Electronic Devices and Circuit Theory (9th Ed., Boylestad, Nashelsky)
Solution Manual Electronic Devices and Circuit Theory (10th Ed., Boylestad, Nashelsky)
Solution Manual The Science of Electronics : DC/AC (David M. Buchla, Thomas L. Floyd)
Solution Manual The Science of Electronics : Digital (Floyd & Buchla)
Solution Manual The Science of Electronics: Analog Devices (Floyd & Buchla)
Solution Manual Digital Electronics : A Practical Approach (7th Ed., Kleitz)
Solution Manual Digital Electronics : A Practical Approach (8th Ed., Kleitz)
Solution Manual Digital Systems : Principles and Applications (10th Ed., Tocci, Widmer & Moss)
Solution Manual Digital Electronics with VHDL - Quartus II Version

(Kleitz)
Solution Manual Digital Fundamentals (9th Ed., Floyd)
Solution Manual Digital Fundamentals (10th Ed., Floyd)
Solution Manual Digital Fundamentals with PLD Programming (Thomas L. Floyd)
Solution Manual The 8051 Microcontroller (4th Ed., MacKenzie & Chung-Wei Phan)
Solution Manual The 8051 Microcontroller and Embedded Systems (2nd Ed., Muhammad Ali Mazidi, Janice Mazidi & Rolin McKinlay)
Solution Manual INTEL Microprocessors 8086/8088, 80186/80188, 80286, 80386, 80486, Pentium, Prentium ProProcessor, Pentium II, III, 4, (7th Ed., Barry B. Brey)
Solution Manual Microcontroller Technology : The 68HC11 (5th Ed., Peter Spasov)
Solution Manual PIC Microcontroller (Muhammad Ali Mazidi, Rolin McKinlay & Danny Causey)
Solution Manual HCS12 Microcontrollers and Embedded Systems : Using Assembly and C with CodeWarrior (Muhammad Ali Mazidi, Danny Causey & Janice Mazidi)
Solution Manual The x86 PC : Assembly Language, Design, and Interfacing (5th Ed., Muhammad Ali Mazidi, Janice Mazidi & Danny Causey)
Solution Manual The AVR Microcontroller and Embedded Systems : Using Assembly and C (Muhammad Ali Mazidi, Sarmad Naimi & and Sepehr Naimi)
Solution Manual Industrial Electronics (James A. Rehg, Glenn J. Sartori)
Solution Manual Programmable Controllers Using the Allen-Bradley SlC-500 Family (2nd Ed., Dave Geller)
Solution Manual Programmable Logic Controllers (James A. Rehg, Glenn J. Sartori)
Solution Manual Fundamentals of Programmable Logic Controllers, Sensors, and Communications (3rd Ed., Jon Stenerson)
Solution Manual An Introduction to Programming with Visual Basic 6.0, Update Edition (4th Ed., Schneider)
Solution Manual C++ Programming Today (1st Ed., Barbara Johnston)
Solution Manual C++ Programming Today (2nd Ed., Barbara Johnston)
Solution Manual Introduction to Data Communications and Networking (Wayne Tomasi)
Solution Manual Introduction to Telecommunications (2nd Ed., Martha Rosengrant)
Solution Manual Network Security Essentials : Applications and Standards (3rd Ed., William Stallings)
Solution Manual Network Security Essentials : Applications and Standards (4th Ed., William Stallings)
Solution Manual Information Security: Principles and Practices (Mark Merkow, James Breithaupt)
Solution Manual Principles and Practice of Information Security (Linda Volonino, Stephen R. Robinson)
Solution Manual Principles of Electronic Communication Systems (3rd Ed., Louis E. Frenzel)
Solution Manual Modern Electronic Communication (8th Ed., Jeff Beasley, Gary M. Miller)
Solution Manual Modern Electronic Communication (9th Ed., Jeff

Beasley, Gary M. Miller)
Solution Manual Electronic Communications for Technicians (2nd ed., Tom Wheeler)
Solution Manual Concepts In Systems and Signals (2nd Ed., John D. Sherrick)
Solution Manual Understanding Fiber Optics (5th Ed., Jeff Hecht)
Solution Manual Understanding UNIX/LINUX Programming : A Guide to Theory and Practice (Bruce Molay)
Solution Manual Applying PIC18 Microcontrollers : Architecture, Programming, and Interfacing using C and Assembly (Barry Brey)
Solution Manual Electrical Power and Controls (2nd Ed., Timothy L. Skvarenina, William E. DeWitt)
Solution Manual Process Control Instrumentation Technology (8th Ed., Curtis Johnson)
Solution Manual Electrical Machines, Drives and Power Systems (6th Ed., Theodore Wildi)
Solution Manual Introduction to Vacuum Technology (David M. Hata)
Solution Manual Electronic Project Design and Fabrication (6th Ed., Ronald A. Reis)
Solution Manual Technology and Society (3rd Ed., Linda Hjorth, Barbara A. Eichler, Ahmed S. Khan, John Morello)
Solution Manual Solid State Electronic Devices (6th Ed., Ben Streetman, Sanjay Banerjee)
Solution Manual Approaching Quantum Computing (Dan C. Marinescu & Gabriela M. Marinescu)
Solution Manual Foundations of MEMS (Chang Liu)
Solution Manual Basic Electromagnetics with Applications (Nannapaneni Narayana Rao)
Solution Manual Elements of Engineering Electromagnetics (6th Ed., Nannapaneni Narayana Rao)
Solution Manual Fundamentals of Electromagnetics for Electrical and Computer Engineering (Nannapaneni Narayana Rao)
Solution Manual Digital Design (4th Ed., M. Morris Mano & Michael D. Ciletti)
Solution Manual Digital Design : Principles and Practices Package (4th Ed., John F. Wakerly)
Solution Manual VHDL: A Starter's Guide (2nd Ed., Sudhakar Yalamanchili)
Solution Manual Computer Organization and Architecture : Designing for Performance (7th Ed., William Stallings)
Solution Manual Computer Organization and Architecture : Designing for Performance (8th Ed., William Stallings)
Solution Manual Parallel Programming : Techniques and Applications Using Networked Workstations and Parallel Computers (2nd Ed., Barry Wilkinson & Michael Allen)
Solution Manual Fundamentals of Parallel Processing (Harry F. Jordan & Gita Alaghband)
Solution Manual Digital and Analog Communication Systems (7th Ed., Leon W. Couch)
Solution Manual Digital Communications (4th Ed., John Proakis)
Solution Manual Digital Communications (5th Ed., John Proakis)
Solution Manual Principles of Digital Communication and Coding (Andrew J. Viterbi, Jim K. Omura)

Solution Manual Modern Wireless Communications (Simon Haykin, Michael Moher)
Solution Manual Communication Systems Engineering (2nd Ed., John G. Proakis & Masoud Salehi)
Solution Manual ISDN and Broadband ISDN with Frame Relay and ATM (4th Ed., William Stallings)
Solution Manual Data and Computer Communications (8th Ed., William Stallings)
Solution Manual Cryptography and Network Security (4th Ed., William Stallings)
Solution Manual Cryptography and Network Security : Principles and Practice (5th Ed., William Stallings)
Solution Manual Computer Networking with Internet Protocols (William Stallings)
Solution Manual Local and Metropolitan Area Networks (6th Ed., William Stallings)
Solution Manual Probabilistic Systems and Random Signals (Abraham Haddad)
Solution Manual Error Control Coding (2nd Ed., Shu Lin & Daniel J. Costello)
Solution Manual Wireless Communications & Networks (2nd ed., William Stallings)
Solution Manual Wireless Communications and Networking (Jon W. Mark, Weihua Zhuang)
Solution Manual Detection and Estimation Theory (Thomas Schonhoff & Arthur Giordano)
Solution Manual Signals, Systems, and Transforms (3rd Ed., Charles Phillips, John Parr & Eve Riskin)
Solution Manual Signals, Systems, and Transforms (4th Ed., Charles Phillips, John Parr & Eve Riskin)
Solution Manual Signals, Systems, and Transforms - International Version (4th Ed., Charles Phillips, John Parr & Eve Riskin)
Solution Manual Fundamentals of Signals and Systems Using the Web and Matlab (3rd Ed., Edward Kamen & Bonnie Heck)
Solution Manual Adaptive Filter Theory (4th Ed., Simon Haykin)
Solution Manual Neural Networks and Learning Machines (3rd Ed., Simon Haykin)
Solution Manual Spectral Analysis of Signals (Petre Stoica & Randolph L. Moses)
Solution Manual Fluency with Information Technology : Skills, Concepts, and Capabilities (2nd Ed., Snyder)
Solution Manual Fluency with Information Technology : Skills, Concepts, and Capabilities (3rd Ed., Snyder)
Solution Manual Fluency with Information Technology, Brief Edition (Lawrence Snyder)
Solution Manual Excel 2003 Volume II: Advanced Concepts in Excel (5th Ed., Karen Jolly)
Solution Manual Focus on Excel 2003 (Julie Hayward Spooner)
Solution Manual Comprehensive Excel 2002 for Office XP (4th Ed., Karen Jolly)
Solution Manual Ethics for the Information Age (2nd Ed., Michael Quinn)
Solution Manual Ethics for the Information Age (3rd Ed., Michael

Quinn)
Solution Manual Computer Science : An Overview (8th Ed., J. Glenn Brookshear)
Solution Manual Computer Science : An Overview (9th Ed., J. Glenn Brookshear)
Solution Manual Computer Science : An Overview (10th Ed., J. Glenn Brookshear)
Solution Manual Excel 2003 Volume 1 : Core Concepts in Excel (5th Ed., Karen J. Jolly)
Solution Manual Concise Prelude to Programming : Concepts and Design (2nd Ed., Stewart Venit)
Solution Manual Concise Prelude to Programming (3rd Ed., Stewart Venit & Elizabeth Drake)
Solution Manual Extended Prelude to Programming : Concepts and Design (2nd Ed., Stewart Venit)
Solution Manual Extended Prelude to Programming (3rd Ed., Stewart Venit & Elizabeth Drake)
Solution Manual Logic and Design of Computer Programs (Jim Messinger)
Solution Manual Absolute C++ (2nd Ed., Walter Savitch)
Solution Manual Absolute C++ (3rd Ed., Walter Savitch)
Solution Manual Absolute C++ (4th Ed., Walter Savitch)
Solution Manual Problem Solving with C++ : The Object of Programming (5th Ed., Walter Savitch)
Solution Manual Problem Solving with C++ (6th Ed., Walter Savitch)
Solution Manual Problem Solving with C++ (7th Ed., Walter Savitch)
Solution Manual Problem Solving, Abstraction, and Design using C++ (4th Ed., Frank Friedman & Elliot Koffman)
Solution Manual Problem Solving, Abstraction & Design Using C++ (5th Ed., Frank Friedman & Elliot Koffman)
Solution Manual Starting Out with C++ : From Control Structures through Objects (5th Ed., Tony Gaddis)
Solution Manual Starting Out with C++ : From Control Structures through Objects (6th Ed., Tony Gaddis)
Solution Manual Starting Out with C++ : From Control Structures through Objects - Brief Version (6th Ed., Tony Gaddis)
Solution Manual Starting out with C++ Brief Version Updated (4th Ed., Gaddis & Krupnow)
Solution Manual Starting out with C++ Brief Version (5th Ed., Gaddis & Krupnow)
Solution Manual Starting Out with C++ : Brief Version Update, Visual C++ .NET (4th Ed., Gaddis & Krupnow)
Solution Manual Starting Out with C++ : Early Objects (5th Ed., Gaddis, Walters & Muganda)
Solution Manual Starting Out with C++ : Early Objects (6th Ed., Gaddis, Walters & Muganda)
Solution Manual Starting Out with C++ : Early Objects (7th Ed., Gaddis, Walters & Muganda)
Solution Manual C++ By Dissection (Ira Pohl)
Solution Manual Essential C++ for Engineers and Scientists (2nd Ed., Jeri Hanly)
Solution Manual C++ Coach : Essentials for Introductory Programming (Jeff Salvage)
Solution Manual C++ Primer (4th Ed., Stanley Lippman, Jos=E9e Lajoie &

Barbara Moo)
Solution Manual Engineering Computation with MATLAB (1st Ed., David Smith)
Solution Manual Engineering Computation with MATLAB (2nd Ed., David Smith)
Solution Manual Absolute Java (1st Ed., Walter Savitch)
Solution Manual Absolute Java (2nd Ed., Walter Savitch)
Solution Manual Absolute Java (3rd Ed., Walter Savitch)
Solution Manual Absolute Java (4th Ed., Walter Savitch)
Solution Manual The Art and Science of Java (Eric Roberts)
Solution Manual Building Java Programs : A Back to Basics Approach (Stuart Reges & Martin Stepp)
Solution Manual Introduction to Programming in Java : An Interdisciplinary Approach (Robert Sedgewick & Kevin Wayne)
Solution Manual Java Foundations: Introduction to Program Design and Data Structures (John Lewis, Peter DePasquale & Joe Chase)
Solution Manual Starting Out with Java : Early Objects (3rd Ed., Gaddis)
Solution Manual Starting Out with Java : From Control Structures through Objects (3rd Ed., Gaddis)
Solution Manual Starting Out with Java : From Control Structures through Objects (4th Ed., Gaddis)
Solution Manual Java Software Solutions (Java 5.0 version) : Foundations of Program Design (4th Ed., Lewis & Loftus)
Solution Manual Java Software Solutions : Foundations of Program Design (5th Ed., Lewis & Loftus)
Solution Manual Java Software Solutions : Foundations of Program Design (6th Ed., Lewis & Loftus)
Solution Manual Starting Out with Java : From Control Structures through Data Structures (Gaddis & Muganda)
Solution Manual Object of Java, The: Introduction to Programming Using Software Engineering Principles (2nd Ed, David Riley)
Solution Manual Object-Oriented Programming in Java : A Graphical Approach, Preliminary Edition (Kathryn E. Sanders & Andy van Dam)
Solution Manual Starting Out with Java 5 : Control Structures to Objects (Tony Gaddis)
Solution Manual Starting Out with Java 5 : Early Objects (Tony Gaddis)
Solution Manual Introduction to Programming Using Java : An Object-Oriented Approach (2nd Ed., David Arnow, Scott Dexter & Gerald Weiss)
Solution Manual Computing with Java (2nd Ed., Art Gittleman)
Solution Manual Problem Solving with Java, Update (2nd Ed., Elliot B. Koffman & Ursula Wolz)
Solution Manual Starting Out with Alice : A Visual Introduction to Programming (Tony Gaddis)
Solution Manual Problem Solving and Program Design in C (4th Ed., Jeri Hanly & Elliot Koffman)
Solution Manual Problem Solving and Program Design in C (5th Ed., Jeri Hanly & Elliot Koffman)
Solution Manual Problem Solving and Program Design in C (6th Ed., Jeri Hanly & Elliot Koffman)
Solution Manual Starting Out with Visual Basic 2005 (3rd Ed., Tony Gaddis & Kip Irvine)
Solution Manual Starting Out with Visual Basic 6 (Tony Gaddis, Kip

Irvine & Bruce Denton)
Solution Manual Starting Out with Visual Basic.Net (2nd Ed., Tony Gaddis, Kip Irvine & Bruce Denton)
Solution Manual Computer Programming Fundamentals with Applications in Visual Basic=AE 6.0 (Mitchell Kerman & Ronald Brown)
Solution Manual Advanced VB.NET Alternate with VB.Net CD's (3rd Ed., Kip Irvine & Tony Gaddis)
Solution Manual Advanced Visual Basic 2005 (4th Ed., Kip Irvine & Tony Gaddis)
Solution Manual C# Software Solutions : Foundations of Program Design (John Lewis)
Solution Manual Problem Solving, Abstraction and Design Using C++, Visual C++.NET Edition (Frank Friedman & Elliot Koffman)
Solution Manual Ada 95 : Problem Solving and Program Design (3rd Ed., Michael Feldman & Elliot Koffman)
Solution Manual Programming and Problem Solving with Delphi (Mitchell Kerman)
Solution Manual C Program Design for Engineers (2nd Ed., Jeri Hanly & Elliot Koffman)
Solution Manual Data Abstraction & Problem Solving with C++ (5th ed., Frank Carrano)
Solution Manual Data Structures and Algorithm Analysis in C++ (2nd Ed., Mark Allen Weiss)
Solution Manual Data Structures and Algorithm Analysis in C++ (3rd Ed., Mark Allen Weiss)
Solution Manual Data Abstraction and Problem Solving with C++ : Walls and Mirrors (4th Ed., Frank Carrano)
Solution Manual Data Structures and Problem Solving Using C++ (2nd Ed., Mark Allen Weiss)
Solution Manual Data Structures and Algorithm Analysis in Java (2nd Ed., Mark Allen Weiss)
Solution Manual Data Structures in Java : From Abstract Data Types to the Java Collections Framework (Simon Gray)
Solution Manual Data Abstraction and Problem Solving with Java (2nd Ed., Frank Carrano & Janet Prichard)
Solution Manual Data Structures and Other Objects Using Java (3rd Ed., Michael Main)
Solution Manual Data Structures and Problem Solving Using Java (3rd Ed., Mark Allen Weiss)
Solution Manual Data Structures and Problem Solving Using Java (4th Ed., Mark Allen Weiss)
Solution Manual Java Software Structures : Designing and Using Data Structures (2nd Ed., John Lewis, Joseph Chase)
Solution Manual The Object of Data Abstraction and Structures (using Java) (David Riley)
Solution Manual Classic Data Structures in Java (Timothy Budd)
Solution Manual Data Structures in Java (Thomas A. Standish)
Solution Manual Data Structures, Algorithms and Software Principles in C (Thomas A. Standish)
Solution Manual Introduction to the Design and Analysis of Algorithms (1st Ed., Anany Levitin)
Solution Manual Introduction to the Design and Analysis of Algorithms (2nd Ed., Anany Levitin)

Solution Manual Algorithm Design (Jon Kleinberg & =C9va Tardos)
Solution Manual Data Structures and Algorithm Analysis in C (2nd Ed., Mark Allen Weiss)
Solution Manual Computer Algorithms : Introduction to Design and Analysis (3rd Ed., Sara Baase & Allen Van Gelder)
Solution Manual Artificial Intelligence : Structures and Strategies for Complex Problem Solving (6th Ed., George Luger)
Solution Manual Artificial Intelligence : A Modern Approach (2nd Ed., Stuart Russell & Peter Norvig)
Solution Manual The Complete A+ Guide to PC Repair (3rd Ed., Cheryl Schmidt)
Solution Manual The Complete A+ Guide to PC Repair (4th Ed., Cheryl Schmidt)
Solution Manual Complete Computer Repair Textbook (4th Ed., Cheryl Schmidt)
Solution Manual Computer Systems Organization and Architecture (John D. Carpinelli)
Solution Manual CMOS VLSI Design: A Circuits and Systems Perspective (3rd Ed., Neil Weste & David Harris)
Solution Manual Interactive Computer Graphics : A Top-Down Approach Using OpenGL (4th Ed., Edward Angel)
Solution Manual Interactive Computer Graphics : A Top-Down Approach Using OpenGL (5th Ed., Edward Angel)
Solution Manual File Structures : An Object-Oriented Approach with C++ (3rd Ed., Michael J. Folk, Bill Zoellick & Greg Riccardi)
Solution Manual Oracle 10g Programming : A Primer (Rajshekhar Sunderraman)
Solution Manual Databases, Types and the Relational Model (3rd Ed., C. J. Date & Hugh Darwen)
Solution Manual Fundamentals of Database Systems (5th Ed., Ramez Elmasri & Shamkant Navathe)
Solution Manual Database Systems : An Application-Oriented Approach, Introductory Version (2nd Ed., Michael Kifer, Arthur Bernstein & Philip M. Lewis)
Solution Manual Database Systems : An Application Oriented Approach, Complete Version (2nd Ed., Michael Kifer, Arthur Bernstein & Philip M. Lewis)
Solution Manual DataBase Systems : A Practical Approach to Design, Implementation and Management (4th Ed., Thomas M. Connolly & Carolyn E. Begg)
Solution Manual DataBase Systems : A Practical Approach to Design, Implementation and Management (5th Ed., Thomas M. Connolly & Carolyn E. Begg)
Solution Manual Database Systems : The Complete Book (2nd Ed., Hector Garcia-Molina, Jeffrey D. Ullman, Jennifer Widom)
Solution Manual A First Course in Database Systems (3rd Ed., Jeffrey D. Ullman, Jennifer Widom)
Solution Manual Fundamentals of Database Systems/Oracle 9i Programming (4th Ed., Ramez Elmasri, Shamkant B. Navathe & Rajshekhar Sunderraman)
Solution Manual An Introduction to Database Systems (8th Ed., C.J. Date)
Solution Manual Oracle 9i Programming : A Primer (Rajshekhar Sunderraman)

Solution Manual Elements of Information Theory (1st Ed., Thomas M. Cover & Joy A. Thomas)
Solution Manual Principles of Database Systems with Internet and Java Applications (Greg Riccardi)
Solution Manual Introduction to Data Mining (Pang-Ning Tan, Michael Steinbach & Vipin Kumar)
Solution Manual Data Mining: A Tutorial Based Primer (Richard Roiger & Michael Geatz)
Solution Manual Learning SQL : A Step-by-Step Guide Using Access (Sikha Bagui, Richard Earp)
Solution Manual Learning SQL : A Step-By-Step Guide Using Oracle (Richard Earp, Sikha Bagui)
Solution Manual Access 2007 Guidebook (6th Ed., Maggie Trigg & Phyllis Dobson)
Solution Manual Access 2003 Guidebook for Office XP (5th Ed., Maggie Trigg & Phyllis Dobson)
Solution Manual Implementing Databases in Oracle 9i (John Day & Craig Van Slyke)
Solution Manual Web 101: Making the Net Work for You (2nd Ed., Wendy Lehnert)
Solution Manual Web 101 (3rd Ed., Wendy G. Lehnert & Richard L. Kopec)
Solution Manual Web Developer Foundations : Using XHTML (2nd Ed., Terry Felke-Morris)
Solution Manual Web Development & Design Foundations With XHTML (3rd Ed., Terry Felke-Morris)
Solution Manual Web Development and Design Foundations with XHTML (4th Ed., Terry Felke-Morris)
Solution Manual Internet Effectively : A Beginner's Guide to the World Wide Web (Tyrone Adams & Sharon Scollard)
Solution Manual Light on the Web : Essentials to Making the 'Net Work for You (Wendy G. Lehnert)
Solution Manual Programming the World Wide Web (3rd Ed., Robert W. Sebesta)
Solution Manual Programming the World Wide Web (4th Ed., Robert W. Sebesta)
Solution Manual Programming the World Wide Web (5th Ed., Robert W. Sebesta)
Solution Manual Programming the World Wide Web (6th Ed., Robert W. Sebesta)
Solution Manual XML: Language Mechanics and Applications (Dwight Peltzer)
Solution Manual Practical Perl with CGI Applications (Elizabeth Chang)
Solution Manual Developing Web Applications with Active Server Pages (Thom Luce)
Solution Manual Structure and Interpretation of Signals and Systems (Edward A. Lee & Pravin Varaiya)
Solution Manual Languages and Machines : An Introduction to the Theory of Computer Science (2nd Ed., Thomas Sudkamp)
Solution Manual Languages and Machines : An Introduction to the Theory of Computer Science (3rd Ed., Thomas Sudkamp)
Solution Manual How to Break Software Security (James A. Whittaker & Herbert H. Thompson)
Solution Manual Software Quality Assurance : From Theory to

Implementation (Daniel Galin)
Solution Manual Object Oriented Software Development Using Java (2nd Ed., Xiaoping Jia)
Solution Manual Introduction to the Team Software Process (Watts S. Humphrey)
Solution Manual Software Project Management : A Real-World Guide to Success (Joel Henry)
Solution Manual Software Engineering (7th Ed., Ian Sommerville)
Solution Manual Software Engineering (8th Ed., Ian Sommerville)
Solution Manual Software Engineering (9th Ed., Ian Sommerville)
Solution Manual Software Engineering (3rd Ed., Shari Lawrence Pfleeger & Joanne Atlee)
Solution Manual Software Engineering : Theory and Practice (4th Ed., Shari Lawrence Pfleeger & Joanne Atlee)
Solution Manual Object-Oriented Programming featuring Graphical Applications in Java (Michael Laszlo)
Solution Manual Project-Based Software Engineering : An Object-Oriented Approach (Evelyn Stiller & Cathie LeBlanc)
Solution Manual Engineering of Software, The: A Technical Guide for the Individual (Dick Hamlet & Joe Maybee)
Solution Manual Concepts of Programming Languages (7th Ed., Robert W. Sebesta)
Solution Manual Concepts of Programming Languages (8th Ed., Robert W. Sebesta)
Solution Manual Concepts of Programming Languages (9th Ed., Robert W. Sebesta)
Solution Manual Advanced Java : Internet Applications (2nd Ed., Art Gittleman)
Solution Manual Objects to Components with Java 2 Platform (Art Gittleman)
Solution Manual C for Java Programmers (Tomasz Muldner)
Solution Manual Pointers on C (Kenneth Reek)
Solution Manual C++ Programming with Design Patterns Revealed (Tomasz Muldner)
Solution Manual The C++ Programming Language (3rd Ed., Bjarne Stroustrup)
Solution Manual Operating Systems : A Systematic View (6th Ed., William S. Davis & T.M. Rajkumar)
Solution Manual Unix: The Textbook (2nd Ed., Syed Mansoor Sarwar, Robert Koretsky & Syed Aqeel Sarwar)
Solution Manual Operating Systems (3rd Ed., Gary Nutt)
Solution Manual LINUX & UNIX Programming Tools : A Primer for Software Developers (Syed Mansoor Sarwar & Khaled H. Al-Saqabi)
Solution Manual Addison-Wesley's Interactive Linux Tutorial and Reference (Edutrends, Inc.)
Solution Manual Linux : The Textbook (Syed Mansoor Sarwar, Robert Koretsky & Syed Aqeel Sarwar)
Solution Manual Kernel Projects for Linux (Gary Nutt)
Solution Manual OSP : An Environment for Operating System Projects (Michael Kifer & Scott A. Smolka)
Solution Manual Distributed Computing : Principles and Applications (M.L. Liu)
Solution Manual Distributed Operating Systems and Algorithm Analysis

(Randy Chow & Theodore Johnson)
Solution Manual Mastering Networks : An Internet Lab Manual (Jorg Liebeherr & Magda El Zarki)
Solution Manual Computer Networking Complete Package (3rd Ed., James Kurose & Keith Ross)
Solution Manual Computer Networking : A Top-Down Approach Featuring the Internet (3rd Ed., James Kurose & Keith Ross)
Solution Manual Computer Networking : A Top-Down Approach (4th Ed., James Kurose & Keith Ross)
Solution Manual Computer Networking : A Top-Down Approach (5th Ed., James Kurose & Keith Ross)
Solution Manual Producing Great Sound for Film and Video (3rd Ed., Jay Rose)
Solution Manual Network Management : Principles and Practice (Mani Subramanian)
Solution Manual Computer Security : Art and Science (Matt Bishop)
Solution Manual Introduction to Computer Security (Matt Bishop)
Solution Manual Creating Powerful Brands (4th Ed., Leslie de Chernatony, Malcolm McDonald, Elaine Wallace)
Solution Manual How to Break Software Security (James A. Whittaker & Herbert H. Thompson)
Solution Manual Parallel Programming in C with MPI and Open MP (Michael Quinn)
Solution Manual Modern Recording Techniques (6th Ed., Miles Huber & Runstein)
Solution Manual Creating Powerful Radio : Getting, Keeping and Growing Audiences News, Talk, Information & Personality Broadcast, HD, Satellite & Internet (Valerie Geller)
Solution Manual Electronic Media Law and Regulation (5th Ed., Kenneth Creech)
Solution Manual Electronic Media Management, Revised (5th Ed., Pringle & Starr)
Solution Manual Convergent Journalism an Introduction: Writing and Producing Across Media (Quinn & Filak)
Solution Manual Flash Journalism : How to Create Multimedia News Packages (Mindy McAdams)

List of Solutions Manuals and Test Banks
----

contact me to :   mattosbw1@gmail.com
mattosbw1(at)gmail.com

NOTE : "THIS SERVICE IS NOT AVAILABLE FOR :   CHINA, INDIA, RUSSIA, PAKISTAN, IRAQ, IRAN, PHILIPPINES, NORTH KOREA, NEPAL, BANGLADESH, SRI LANKA, MALDIVES, BHUTAN & COLOMBIA".

If your wanted solutions manual is not in this list, also can ask me if is available (it is a partial list). Then if you need solutions manual only contact me by email.

"ARE NOT AVAILABLES BOOKS IN DIGITAL FORMAT", ONLY SOLUTIONS MANUALS AND TEST BANKS.

This same "list of titles" of texts with availables solutions manual and/or test banks is for download from :

http://www.megaupload.com/?d=3DADDS77XH

I do not review the forums, just send me an email.

- Electrical, Electronics & Computer Engineering :

Solution Manual Design for Electrical and Computer Engineers (J. Eric Salt & Robert Rothery)
Solution Manual Electrical Engineering : Principles and Applications (3rd Ed., Hambley)
Solution Manual Electrical Engineering : Principles and Applications (4th Ed., Hambley)
Solution Manual Electrical Engineering : Principles and Applications (5th Ed., Hambley)
Solution Manual Electronics (2nd Ed., Hambley)
Solution Manual Electronics and Communications for Scientists and Engineers (Martin Plonus)
Solution Manual Cryptography & Network Security (Behrouz A Forouzan)
Solution Manual Data Communications and Networking (3rd Ed., Behrouz A. Forouzan)
Solution Manual Data Communications and Networking (4th Ed., Behrouz A. Forouzan)
Solution Manual TCP/IP Protocol Suite (2nd Ed., Behrouz Forouzan)
Solution Manual TCP/IP Protocol Suite (3rd Ed., Behrouz Forouzan)
Solution Manual TCP/IP Protocol Suite (4th Ed., Behrouz Forouzan)

Solution Manual Local Area Networks (Behrouz A Forouzan)
